Lincoln's Tablets

Are Not a Patent Medicine.

These Tablets are the latest production of modern medical science. They are the only reliable medicine known for the treatment and cure of all diseases of the Stomach, Bowels, Liver and Kidneys. They are infinitely superior to all pills or similar preparations containing gummy matter and chocolate compounds.

They are a positive cure for Indigestion, Heart Disease, Bright's Disease, Nervous Prostration and General Weakness; are a magnificent tonic, purifying the blood and give a good healthy appetite. To nervous and delicate women these tablets will prove a positive blessing if taken strictly according to directions.

Formula and samples sent free to any registered physician on application. Price, 50c. per box. If you cannot get them from your druggist, do not waste your money upon a substitute. The tablets will be mailed free to any address on receipt of price by H. F. Macarthy, Druggist, Wellington street, Ottawa, or from the company's office. Prepared only by

—THE—

Lincoln Medicine Co.,

50 Queen St., Toronto.

PATENTS

CAVEATS, TRADE MARKS, COPYRIGHTS AND DESIGNS.

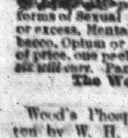
Send your business direct to Washington; saves time, costs less, better service. My charges to U. S. Patent Office, $25 and upwards. Send sketch or model. There is no other in Ottawa. GEORGE GREENAWAY, ATTORNEY GIVEN 15 YEARS ACTUAL EXPERIENCE. Book "How to obtain Patents," etc., free. Patents procured through E. G. Siggers, receive special notice, without charge, in the

INVENTIVE AGE

Illustrated monthly—Sample free. Yearly terms, $1.00 per year.

E. G. SIGGERS, Late of C. A. Snow & Co., 918 F St., N. W., WASHINGTON, D. C.

Before. After. Wood's Phosphodine,



The Great Eng. Specific. Sold and recommended by all druggists in Canada. Only reliable medicine discovered. Six packages guaranteed to cure all forms of Sexual Weakness, all effects of abuse or excess, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. Mailed on receipt of price, one package $1, six $5. One will please, six will cure. Pamphlets free to any address.

The Wood Company, Windsor, Ont.

Wood's Phosphodine is sold in Kingston by W. H. Medley and Henry Wade, druggists.

Every benefit to be had at Homburg and Aix la Chapelle is available at Magi Caledonia Springs. The water sold everywhere.

SAPIOL & STEEL PILLS

For Ladies.

ELECTRICAL ASSOCIATION.

THE LIST OF DELEGATES WHO ARE PRESENT.

President's Address Considered—To Visit the Penitentiary—Several Committees Appointed—Paper Read — Banquet To-Night.

The Canadian electrical association again met in session at ten o'clock this morning. Altogether there are about sixty delegates in attendance, but only forty-two had registered at noon to-day. Those registered were:

President, A. A. Dion, superintendent Ottawa electric company; D. R. Street, W. G. Bradley, W. Ahearn, jr., J. J. Beanny, Ottawa.

H. O. Edwards, A. L. Mudge, N. C. Ross, Cecil Dontre, W. H. Winter, P. G. Gossler, J. Rogers, D. Sheeth, L. A. Hergt, F. W. Farrman, W. J. Bews, P. B. Thornton, A. G. Grier, P. M. Wilson, G. H. Olney, Montreal.

R. F. Rossor, Lindsay.

J. F. H. Wyse, Brantford.

J. J. Wright, W. H. Warrington, H. Gearing, E. B. Biggar, A. B. Smith, Toronto.

E. E. Cary, St. Catharines.

J. W. Purcell, Walkerville.

J. Yule, Guelph.

J. E. Bilger, A. L. Breithaupt, Berlin.

F. Simmons, Kingston.

A. Sangster, Sherbrooke.

A. C. Blair, F. H. Leonard, jr., Quebec.

Secretary-C. H. Mortimer, Electrical News, Toronto.

W. W. Williams, George Shand, Sarnia.

L. A. Somers, Halifax.

H. R. Leyden, Gordon J. Henderson, Hamilton.

The president announced that the authorities of the penitentiary had given permission and extended an invitation to the delegates to visit that institution on Friday afternoon. The invitation will be taken advantage of, and the delegates will go through the penitentiary, Friday afternoon, at 2.15.

The first business considered emanated from president Dion's address at the Wednesday morning's opening session. The address suggested that company membership be inaugurated. One member pointed out that the association was formed principally for the protection of manufacturers who really formed the association, as they sent most of the representatives and paid their expenses. P. G. Gossler held that the scientific and commercial interests could work harmoniously, although the papers read before the association would necessarily be scientific. E. E. Cary referred to the matter of exhibits which were made by companies chiefly for criticism of their latest inventions and improvements. As to company membership, Mr. Cary suggested that it be made in proportion to capitalization so that no company could object to the fees imposed. On motion of J. Yule, seconded by A. R. Smith, the matter was referred to the executive to report at the next convention. H. R. Leyden pointed out that the matter was a most serious one, and the electrical men of the dominion were too few to drop out and allow the companies to take over the control of the association.

P. G. Gossler gave notice that he would move at the next convention, if the executive decided to admit companies to membership, that immediate action then be taken to have the recommendation carried out.

The matter of legislating in behalf of the companies was considered, and it was decided to leave the raising of money for legislative purposes to the executive and the legislative committee.

The nominating committee made their report, recommending the re-election of the chief officers and most of the executive committee. Election takes place at the Friday morning session.

The following committees were appointed:

Statistics—J. F. H. Wyse, J. A. Kammerer, A. A. Wright.

Legislation—R. O. McCullough, J. J. Wright, R. F. Reesor, C. B. Hunt, John Yule, H. R. Leyden, A. A. Dion, W. H. Breithaupt.

Underwriters' committee—P. G. Gossler, Mr. Slade, A. A. Dion, alderman Sadler, A. Sangster.

Arc lamp rating—O. Higman, P. G. Gossler, Frederick Thomson, John Yule, F. H. Wyse.

The committees on meters and standardization were continued.

W. J. Camp, of the C.P.R. telegraph company, Montreal, read a paper on "The Use of Dynamo and Storage Battery in Telegraph Offices."

Adjournment was made at noon until a quarter past two o'clock this afternoon.

At half past nine o'clock to-night, the delegates will attend a banquet at Hotel Frontenac. The speakers are United States consul Twitchell, mayor Minnes, aldermen Donnelly and Craig, president A. A. Dion, J. J. Behan, H. Al Folger, E. J. B. Pense and city clerk L. W. Shannon.

They Had A Good Time.

There was much electricity about the searchlight excursion on the steamer America last night, tendered by the corporation to the delegates of the C.E.A., in convention here. The current of good fellowship was turned on full and the influence was quite catching. The boat load enjoyed every moment of the trip which embraced a run to Gananoque by the north route around Tremont park, through the Admiralty group of islands and back to Kingston by the south side of Howe Island. The city was reached at midnight.

Bassam was caterer and he did his part well. Stimulating, enervating and refreshing beverages were galore; these with cigars the gentlemen enjoyed. Ice cream, cake, fruits and candies were the ladies' portion, and were unstinted in quantity. The 14th regimental band was a lively concern; when the members were not playing they were singing, dancing and generally making pleasant entertainment for the city's guests. Then the visitors were lively themselves. They had their own fun, quietly and formally; in some cases they were as jovial and animated as the giddy aldermen present in fair numbers. Original songs were given by W. Shea; and his metre was often as good as the electric meters that users complain about. The Packard orchestra, and a lone Ethiopian also made music and astonished many by their skill in handling instruments. Mayor Minnes, R. M. Britton, M.P., E. J. B. Pense, Ald. Donnelly and White were conspicuous in looking after the pleasure of the party. Cheers were called for and loudly given for the mayor, council and board of trade, whose hospitality the visitors declared exceeded anything ever given them hitherto. The night was perfect, the scenery, under the scrutiny of the searchlight, delightful and to the scores who had never been among the islands, the trip was quite a revelation.

PERSONAL MENTION.

Movements of the People—What They Are Saying and Doing.

T. F. Harrison left yesterday on a trip to Toronto.

Mrs. Isabel Spencer, Balaclava street, is visiting friends in Lanark.

Henry Wade, druggist, returned last evening from a trip to Ottawa by steamer Rideau Queen.

Miss Low, Union street, returned last evening from Ottawa, where she spent the past two weeks.

T. D. Minnes, secretary of the Kingston fair association, is in Toronto looking up special attractions.

Misses Halsted, daughters of mayor Halsted, Mount Forest, are guests of Mrs. T. W. Bowie, Johnston street.

Mrs. James Reid, Princess street, returned last evening from Syracuse, N.Y., where she visited her daughter.

Miss Marion Grand, the guest of Mrs. G. Nicol, Cataraqui, for some weeks, returned to-day to her home in Toronto.

Venerable archdeacon Bedford-Jones, Brockville, is seriously ill. He has been at the Banff health resort for some time past.

The funeral of the late Mrs. Starr was conducted this morning, service being read at St. George's cathedral by dean Smith.

Cadet Charles Clarke will not return to the Royal military college this autumn. The football team of the college will miss his services.

Invitations have been issued for the marriage of Miss Clara A. Frost, and F. C. Clayton, in St. Paul's church, Smith's Falls, on September 18th.

J. K. Johnston, formerly of the Smith's Falls high school staff, has been appointed teacher in mathematics and English in the high school at Calgary, N.W.T.

James McGlade, of Brockville, has been steward and assistant purser of the steamer Rideau Queen this season, and has proved himself very popular with all tourists.

David Laidlaw is home after a two weeks' visit to Quebec. He enjoyed the outing. He had the rare pleasure of handling snow found in an old quarry at that point.

Misses Mabel and Violet Oliver, Ogdensburg, N.Y., in the city for several weeks visiting Sister Olivet, of the house of Providence, and friends, return home to-morrow.

M. B. Reid, M.A., a graduate of Queen's, has been appointed science master of Napanee collegiate institute at $800 per year. He is a son of the late Marvin Reid, Fellows, Ernesttown.

Mrs. James Devlin, Montreal, is visiting Mrs. William James, Clergy street.

Miss Belle Campbell, formerly of Kingston, but now of Buffalo, visiting Miss Edith Powell, Raglan road, for several weeks, has returned home.

William Robinson, the "laird o'Sharbot Lake," yesterday presented the crews of each K. & P. train with a well filled basket of fruit, grown in his garden at Sharbot Lake. The recipients fully appreciated the kind attention.

Mrs. (Dr.) Mount, Montreal, is the guest of the Misses Lynch, Johnston street. Mrs. Mount has just returned from a trip to Paris, Lourdes and other European cities. While in Rome she had the honor of being presented to his holiness the pope. Mrs. Mount is a sister of the late bishop Farrell.

THE COMPANY CHARTERED.

Charles Myers is to Come Here and Begin the Work.

This morning mayor Minnes received a highly satisfactory letter from Charles Meyers, of the Cataraqui mining and developing company. It will be seen, upon perusal, that the company is taking every means to hasten work upon the construction of the smelter. The letter was written at Ottawa, where Mr. Meyers is at present, but he will come to Kingston at a very early date, probably early next week. The letter referred to is as subjoined:

"I have the honor to enclose you herewith a letter addressed to our attorney from the department of the provincial secretary, at Toronto, in which you will see that our charter will bear the date of the 16th inst. That I have not received this document yet you will see is no neglect of mine. I sincerely hope that your honor and all the public of the city of Kingston will have patience and understand that on the building of a smelter it requires as much time for organization, drawing plans and making preparations as it will to put up the buildings and blast furnaces in itself. Let me also tell you that I have since meeting you last interested heavy people who are considering now whether it would not be better to put up a million dollar plant, than to put up one that would only cost two or three hundred thousand dollars. I have not lost one moment in forwarding the enterprise to the best of my ability, and you can rest assured that very shortly work on the grounds will be started. As soon as the original document of the charter will come into my possession I shall immediately proceed to Kingston and lay the same before you."

The document referred to is from the provincial secretary and reads:

"I have the honor to acknowledge the receipt of your letters of the 20th and 24th insts, respecting the issue of a charter incorporating the Cataraqui mining and developing company, limited, and to inform you that the order in council in this behalf having passed, the charter, bearing date of the 16th inst., will issue in a few days."

Excursion Bulletin.

Friday, 8.30 a.m., New York, Ogdensburg, Brockville and 1,000 Islands, 50c.

Saturday, 2 p.m., America down the river, 25c.

Monday, 10 a.m., Empire State, a day among 1,000 Islands, including Island Wanderer's "Famous fifty mile Ramble," 25c.

Farmers are complaining about the protracted warm spell. They say everything is burning up. Rain is badly needed. Pasturage is the poorest in many years, and as a result the flow of milk is falling off. Some fields seeded for pasture land are lying waste, as the seed has not grown.

The associated press report of the Corbett-McCoy fight will be received at the Iroquois to-night.

INCIDENTS OF THE DAY.

PARAGRAPHS PICKED UP BY OUR BUSY REPORTERS.

The Spice of Every Day Life — What The People Are Talking About — Nothing Escapes Attention.

We are leaders, Grand Union.

A man with a full beard ought to keep off a Bicycle.

As long as a town has no typewriters in it, it is not very big.

A young doctor always makes so much more headway with a patient.

A farmer who tries to preserve a white complexion, hasn't time to do much else.

When a boy hasn't brains enough to learn anything else, he learns to sing a little.

200 Men's Job Suits to open September with, drop in and get a bargain. Grand Union.

When a boy thinks he can sing a little he joins church so he will get more invitations.

The atmosphere became a little cooler last night. A sharp, cold snap may soon come along.

When folks leave a church, they first violate all the church's tenets to show their contempt.

It always looks trifling to see a boy walk around in broad daylight carrying a roll of music.

Come to the big stock for your new Suit, the Grand Union has every style, every size and every price.

Three applications of Peck's Corn Salve will cure hard or soft corns. In big boxes, 16c., at Wade's drug store.

A long suffering wife in Belleville says her husband's income is anywhere between 1 and 3 a.m.

H. Cunningham, piano tuner from Chickering's, New York. Leave orders at McAuley's bookstore.

Sometimes you can tell by the way the telephone rings that the fellow at the other end is mad.

No man will admit that he doesn't read and make up his own mind on all great questions of the day.

Men's fine black Suits, $7.50, $10.00. Grand Union.

We can see no kind of sense in the fashion to wear trousers turned up at the bottom. Why not cut them off?

There was a good attendance at the yacht club dance last night. The weather never seems to be too hot for dancers who are content to swelter after their folly.

Miller's Drink Cure is safe, effectual and can be readily taken. Sold by E. C. Mitchell.

A woman will work for a long time trying to get her baby to sleep, and then if it sleeps a little longer than usual, she will go to see if anything is the matter.

Every Saturday we cut the price on a number of lines in two, don't fail to visit us on that day. Grand Union Clothing Co., 122 Princess Street.

The thermometer took quite a drop during last night. This morning at five o'clock it registered sixty five degrees, and those astir at that hour experienced a feeling which was missed by the late risers.

"North King" leaves Swift's wharf, Sunday, Tuesday and Thursday, 9 a.m. for Gananoque, Rockport and Alexandria Bay. Returning, leaves Kingston 6.30 p.m. for Charlotte and Bay of Quinte ports. J. P. Hanley, agent.

There was another very large crowd at Lake Ontario park last night, and King Ben was highly pleased. The park entertainment this week is being attended by larger crowds than at any other night affair there during the summer.

Our Suits fit so well, that the boys won't have anything else. Drop in and see our fall display. Grand Union.

The wharf in front of Macdonald park is used at night by boys, of which to swim. So long as they refrain from using bad language, those sitting along the shore with ladies will not object, but when oaths and foul words are used a halt will be called.

Must not be confounded with common cathartic or purgative pills. Carter's Little Liver Pills are entirely unlike them in every respect. One trial will prove their superiority.

Fast runs are a common thing on the G.T.R. now. On Monday engine No. 991, the electric light equipped engine, hauled a train of six Pullmans full of Knights of Pythias from Kingston to Belleville, a distance of forty nine miles in forty eight minutes.

Children's Suits, 90c., $1.10, $1.25, $1.75. Grand Union, 122 Princess street.

A cartoon is on exhibition at the police station which causes many smiles. It is from the pen of young A. Anglin, and shows the meeting between Eric Hatton and constable Timmerman. Hatton is represented as asking "Friend or foe?" and "Nick" replies "Both."

Milley's Drink Cure is a home treatment and does not necessitate being cooped up in a gold cure establishment for weeks with consequent publicity and comment, owing to absence from business. Sold by E. C. Mitchell.

Attention has already been called to the dangerous condition of the side walk on Sydenham street, fronting the Oddfellows' building. There are openings in the walk which are liable to cause an accident at any moment. Besides, a trap door opening to the cellar of the old building is in a bad shape.

Have no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side, and all liver troubles. Carter's Little Liver Pills. Try them.

The Grand Union can rig your boy out cheaper than any one else.

A Belleville paper noting the presence of J. A. Shibley in Napanee, remarked: "He purchased the old homestead of the late Hon. John Stevenson, first speaker of the Ontario legislature, which he fitted up at great expense as his summer home. He also keeps a stable for the entertainment of his friends and guests."

The street railway company showed timely forethought last evening in providing a car to convey home the excursionists who accompanied the electrical engineers down the river. The ride was a complimentary one, and those who were thus favored are profuse in their praises of the company's generosity.

Conspicuous at the Electrical Engineers convention now going on in the City Hall, is the advertisement made by A. J. Hamilton, local representative of the International Correspondence Schools, Scranton, Pa. It consists of fourteen beautiful large advertising posters, and a table covered with circular matter. The schools have at present 230 students in Kingston in its various courses of education.

CITY AND VICINITY.

A Great Bargain

In light summer clothing. Prevost at the New York clothing Store will sell the above goods at cost price. Great variety to choose from, all sizes from 34 to 46.

Through Famous Rideau Lakes By Daylight.

Take the palace steamers "Rideau Queen" and "James Swift" for Ottawa, every Monday and Thursday at 7 a.m., every Tuesday and Friday at 1 p.m. James Swift & Co., agents.

Rev. Mr. Robertson Inducted.

Rev. Donald M. Robertson, M.A., a graduate of Queen's, was inducted on Aug. 21st, as pastor of McKay's Corners Presbyterian church, in the presbytery of Chatham. The ceremony was very impressive. A public reception was held in the evening.

Makes A Good Display.

The residence of W. Frederick Simmons, Princess street, is tastefully decorated in honor of the visit to the city of the electrical engineers. In day time it is the artistically arranged bunting which shows up well, but at night time the electrical display is attractive.

The New Woman.

Now enters upon pursuits formerly monopolized by men. But the feminine nerves are still hers and she suffers from toothache. To her we recommend Nerviline nerve-pain cure cures toothache in a moment. Nerviline, the most marvellous pain remedy known to science. Nerviline may be used efficaciously for all nerve pain.

School For Girls.

Thorough matriculation course, special classes in English, History, French and German. Carefully arranged primary department. Drawing and physical training a part of the regular school work in all grades.

Classes begin Monday, Sept. 17th, at 9.30 a.m. For further information apply to Miss M. Guider, M.A., 207 William street.

Unable To Stand The Test.

When the constitution has been neglected, sleeplessness, general debility and nervousness can be expected. Something is often needed to tone up the system. Wade's Iron Tonic Pills never fail to accomplish this. Try these great tonic pills, they make blood and strengthen the nerves, fifty pills in a box for 25c. at Wade's drug store.

The Electrical Fete.

Kingston has shown true electrical spirit in the ornamentation of the city hall in honor of the electrical convention. I. H. Brock's excellent platform display is the admiration of the hundreds of people who have visited the hall. The display last night in full light, was very fine. Dr. J. G. Evans, actively engaged aiding the exhibitors, had a leading part in preparing the tasteful designs and decorations.

Look Out For Them.

A gang of swindlers are travelling around the country claiming authority to examine wells. They examine the water through a microscope and find all kinds of bacteria, cholera and typhoid germs, and permit the farmer and his wife to look through the microscope, where, of course, they see the menagerie that will always be in a drop of water. The frightened farmer is advised to apply certain remedies, which the fakirs sell at a high price and which proves to be a little plain soda.

Committed For Trial.

At this morning's session of the police court "Red River Jim" Johnston, on a charge of drunkenness, was fined $10 and costs with the option of going to jail for six months. He was allowed his liberty, pending his good behaviour.

John M. Baker's case was again called. Prisoner refused to pay the rental of the typewriter, a matter of $30, and was committed for trial. He agreed to pay court costs, $8.10, and had he consented to pay the other sum he would have been discharged. Baker at once applied for an early trial before judge Price, and his case was set down for hearing at twelve o'clock noon.

Go At Once To The Root.

Of the evil, doing by halves makes waste, half the energy expended by mankind. Why should you trifle with disease? When indications are given that something has gone wrong, make the restoration of normal conditions the needful memorial business of life. Few curative agents have equalled Hamilton's Pills of Mandrake and Butternut, compounded of purely vegetable substances, on scientific principles, and beautifully sugar coated. They constitute the most certain, safe and pleasant family medicine in existence. Try Hamilton's Pills of Mandrake and Butternut. Sold by all dealers in medicine.

Would Want Improvements.

A Wenyle, New York, here recently with a view of taking over the management of the British American hotel, operating it separate and distinct from the Hotel Frontenac would take the place if improvements were added. The Clarence and King street walls of the corner building would have to be torn down and new walls built up a short distance back from the street line, so as to provide a place for guests to sit around. Verandahs would have to be built over the sidewalk on every flat, an additional storey added, elevators put in, the dining room placed on the second flat, etc. It would take $12,000 or $15,000 to make the improvements which outlay the owners do not care to undertake.

Candidates Suggested.

"An Old Mackenzie Liberal" writing in the Napanee Star, suggests several names for the consideration of the liberal convention of Lennox. His first choice is Sir Richard Cartwright, by far the most clever politician in the dominion, and if they selected Sir Richard he was sure he would be glad to stand for and represent his native county. Failing Sir Richard then the writer suggests that "energetic pushing young Canadian who has already made his mark among the business men who are the shrewdest in the world—New York and Boston," viz., John A. Shibley. He is a native of Lennox and has now his home in our county town. He comes from old liberal stock and has the intelligence and ability to make a first class politician. He has brains, business capacity, liberality and a desire to get to the head of anything he undertakes."

BOERS ARE POOR TARGETS.

DO NOT SHOW THEMSELVES TO THE BRITISH.

Sergt. Peppiatt Saw Two Only to Fire At—He Brought One Low—Sharpshooters Take Refuge in the Trees—To Fight the Boers as the Boer Fights.

Sergt. Peppiatt, the returned South African warrior, states that his experience in the field was far from satisfactory, inasmuch as he did not have a target to shoot at. Only twice did he catch a glimpse of the men who were firing at him. The Boers seek every available bit of natural cover, and when it is not convenient, construct shelters. But once at Paardeberg he several times caught sight of the left elbow of a Boer marksman as he raised his rifle to fire; only for an instant, however, was the elbow exposed; it was immediately lowered the moment the Boer fired. Needless to say the moving elbow became a target for many British riflemen. Again while in the trenches before Cronje's laager, the British were greatly pestered by a single Boer marksman. For two or three days the British tried to locate him but could not. However, Sergt. Peppiatt one morning saw moving the leaves of a certain tree on the river bank. He watched the tree and was rewarded by seeing a man's hand. He shouted to his comrades that he had sighted the troublesome sharpshooter, but none would believe him. He trained his rifle on the tree and directed his comrades to watch the result. After he fired there was a pause for a few seconds during which time he had about concluded that he had either made a miss or was mistaken about the man's presence, when presently a Mauser rifle was seen to fall from the tree, followed by the man's body. When the Canadians finally charged the body was met with and so eager were they to despatch what they considered an advanced marksman taking shelter at the foot of the tree, that five of them ran their bayonets into the body. Those were the only two occasions on which he could say that he had fair shots at the enemy. Many Boer marksmen were found in trees, strapped to the limbs; they had thus secured themselves in order to save falling when firing. The first thing the British did when going into action was to fire volleys into the trees to rid them of sharpshooters; so heavy were these volleys that almost every leaf would be cut from the trees. In this way many Boers lost their lives. In the case of the Boer above mentioned as having been killed, he had a haversack filled with ammunition hanging on a limb beside him, and it was in reaching out for fresh cartridges that he showed himself to Sergt. Peppiatt.

MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

The schooner Falconer cleared last evening for Sodus.

The schooner Helen cleared for Toronto with stone.

The M. T. company barge Bella is in the government dry dock.

The sloop John McBride, Trenton, is unloading cordwood at Anglin's.

The schooner S. H. Dunn entered Davis' dry dock to-day for repairs.

The schooner Madcap, from Napanee, discharged oats at Richardsons' elevator this morning.

The propellor Ocean, from Montreal, called at Craig's wharf this afternoon. She was twelve hours late.

The steamyacht Naiad, owned by Mr. Wheeler, summering at Stella, is at Davis' dry dock for repairs.

The tug Thomson arrived to-day with four light barges from Montreal, and cleared for Charlotte with three barges to load coal.

The steambarge Alberta, sold by Gus Hinckley, Cape Vincent, to J. Waterson & Co., Montreal, cleared from Craig's wharf last evening for Oswego.

At Swift's wharf: Steamers Spartan from Montreal; Corsican from Toronto; North King from Charlotte. The steamer Rideau Queen cleared this morning for Ottawa.

The fall grain shipment trade has commenced. Richardsons' elevator received the first consignment this morning. For the past few weeks there has been a lull in the grain movement, giving the shovellers a chance to go fishing.

The statement has been made that an opposition boat would be put on the Rideau, from Kingston to Ottawa, next year. This is not likley to occur. The Rideau navigation company is too well established, and even now are getting out plans for another steamer to be built this winter. Capt. Noonan does not anticipate any opposition.

The steambarge Kenilworth, which passed this port yesterday, on its way from Oswego to Smith's Falls, coal laden, broke its crank pin when between Kingston Mills and Washburn. This caused the crosshead also to break, and the vessel was disabled. It was towed to Smith's Falls last night by the steamburge John Milne.

While it is commonly stated that no steamer can come up any of the St. Lawrence river rapids, yet there are one of them that some steamers can ascend. This is the Rapide du Plat, a short one, not nearly as swift as the others. An ordinary propellor cannot ascend it, but the R. & O. N. steamers can. Last summer when the Morrisburg canal was out of repair, and the water in it was low, the tug Reginald, of the Calvin company, towed several propellors up this rapid at different times. This was considered quite a feat.

WHY DO YOU SUFFER.

From Rheumatism, When an Application of Griffith's Menthol Liniment Will Relieve All Your Suffering in a Few Minutes?—It is an Antidote For Any Pain.

R. A. Pilgrim, of Pilgrim Bros., soda water manufacturers, Hamilton, writes: "A short time ago I was attacked so badly with muscular rheumatism in my wrist that it caused my arm to swell to the elbow, the pain being almost unbearable. Griffiths' Menthol Liniment was applied, and in a few minutes the pain left me, and in less than six hours every trace of swelling and soreness had entirely disappeared. It certainly does cure rheumatism." Price 25c. Sold by J. R. McLeod, Kingston.

Men's Tailor-made Suits; Fall styles, $7.50, $10.00. Grand Union.

A REAL GRAPHOPHONE FOR $5.00

YOU'LL AGREE

after using

Swift's Scranton Coal.

It's the most for your money.

Jas. Swift & Co.

Coal of Quality

We believe we know how to buy coal quality. Our Coal is the purest we know of, hard, bright, shiny coal, free from slate. This is the coal's condition at the mines.

Our coal is always kept under cover from the time it reaches our yard until you buy it. But before it reaches your house, we screen it, and remove all the dust and dirt. You pay for good coal, and if we sell it to you, you will get a coal that burns all up, having but little ash, a coal that lights easily and burns steadily, making an even fire.

For all this coal quality you only pay

$5.50 a Ton.

Crawford's COAL THAT SUITS.

Foot of Queen St.—'Phone 9.

Hello Central!

109 Please.

That's the 'phone number for

BEST, CLEAN, COAL.

P. WALSH,

55-57 Barrack St.

ALL THE YEAR ROUND

Our Coal will give satisfaction. It's the best for either summer or winter. Of course we have lots of Wood, too, if you want it.

BOOTH'S

Foot Of West Street.

CHEAP.

We are offering a lot of WHITE TOILET SETS, fancy shapes, at $1.25. They are worth this price wholesale. You can see them in the window.
