THE BEST THING for a man to do is to combine pleasure and expense to develop his muscles and gain strength. The man who hunts does this. He develops his quickness of thought and mind, and his chase leads him through hills and valleys, putting every one of the muscles of his body to the closest test. If you want gun or cartridge you can thoroughly depend upon what you get at

# THE 5 P. M. EDITION

SECOND EDITION MATTER ALSO ON PAGE FIVE.

## COMMERCIAL MATTERS.

### What is Going on in the Business World—The Market News.

It is reported in a Columbus, Ohio, despatch that the American cereal company, known as the oatmeal trust, are negotiating a sale of the company to an English syndicate.

Mail advices bring details of the world's wheat crop figures as estimated by Beerbohm. He indicates a total production of 2,472,000,000 bushels, compared with 2,648,000,000 bushels last year, and 2,864,000,000 bushels in 1898.

The Montreal Gazette says that the cheese market maintains a firm tone, but the volume of new business on export account is limited as British buyers are purchasing very conservatively. The fact, however, does not appear to cause holders on this side any anxiety, and they look for the maintenance of current prices for the remainder of the year.

### Cheese Markets.

At Woodstock 11c. and 11⅛c. were bid; no sales.

### Frontenac Cheese Board.

Kingston, Sept. 27.—At the regular meeting of the Frontenac cheese board this afternoon 456 colored and 190 white cheese were offered for sale. The following factories board their make:

Colored—Battersea, 30; Glenvale, 40; Granite Hill, 35; Gilt Edge, 25; Ontario, 21; Perth Road, 60; Rose Hill, 30; Sunbury, 35; St. Lawrence, 35; Silver Springs, 60; Thousand Island, 50; Wolfe Island, 35.

White—Cataraqui, 30; Sydenham, 40; Elginburg, 60; Collins Bay, 40.

Eleven cents was the highest figure bid, and at this quotation Alexander obtained the make of but two factories—Ontario and Perth Road.

On a vote, resulting in twelve for and two against, it was decided to adjourn the board until two weeks from to-day.

### An Interesting Pamphlet.

An able and interesting pamphlet, issued by the Toronto branch of the navy league of Great Britain, is a treatise upon the British command of the sea and what it means to Canada. It is based upon the platform that imperial defence ensures the stability of the empire, each part having its share in the unified naval and military organization capable of mobilizing a force strong enough for imperial war. The navy league is a strictly non-party organization, to impress upon parliament and the electorate the importance of an adequate navy as the best guarantee of peace. Its executive committee is composed of some of the strongest men in England and it has branches there in twenty-seven cities or districts and nine colleges, and in twelve leading cities of the colonies, including South Africa, China, New Zealand, India and Canada. Ten thousand copies of the pamphlet are being sent to leading men in Canada, and thus the Toronto branch hopes to elicit discussion and applause. The local chairman is W. B. McMurrich, and the secretary, H. J. Wickham.

### A Good Citizen Gone.

On Wednesday morning, as noted in yesterday's Whig, William H. Wood, jeweller, Princess street, expired after a brief illness, due to apoplexy. He was the third son of the late Robert Wood, of this city, and was born in Ogdensburg, N.Y., about fifty years ago. Most of his life had been spent in Canada. For the past six or seven years he had assisted his brother on Princess street, having been a jeweller by occupation. Mr. Wood was known as an excellent workman, and one diligent in his labors. He was of a most retiring disposition, scarcely ever mixing in any society beyond that of his home. He was unmarried. The surviving brothers are: Robert, a lumberman, at Mississippi; John, a farmer in the north-west territory; Thomas, a farmer in Augusta; Henry, Princess street, this city, and Dr. Isaac Wood, this city. The deceased was highly esteemed, and his sudden demise is the cause of much sorrow. The funeral, a private one, will take place at 9 a.m. on Friday, to Cataraqui cemetery.

### Mines Are Booming.

Desert Lake, Sept. 25.—Farmers are harvesting their corn, a fair crop. Our minister, Rev. D. Wheatley, was absent on Sunday, conducting funeral services in Verona. D. Abrams, ill for some time, is slowly recovering. The mines are booming. C. Orser lost a valuable horse. A boy has come to brighten the home of J. Murphy and also one at C. McCanel's. Visitors: Joseph Bawden, Kingston; G. Coulter, Mountain Grove; Mrs. G. Kemp and K. Williams, Kingston, at J. Wilson's.

### 47th Band To-Night.

On the market square this evening the 47th regiment band will render this programme:

March—"Soldiers of the Queen"....Hume
Overture—"Algonquin"....Sharman
Waltz—"Mimosa" (from the Geisha).....Jones
Schottishe—"In Coontown"....Marbel
March—"A Frangisa"....P. Mario Costa
(By request.)
Cornet Solo—"In the Twilight"....Coote
Two Step—Selected....
March—"Shades of Evening"....Barrit
Regimental March....

### The Delegates Named.

Two more conservative ward meetings were held last night, when eleven delegates were appointed from Rideau ward and six from Victoria ward. The chairman of the respective wards presided. On Friday night Ontario, St. Lawrence and Sydenham wards will chose their delegates.

The weather is clearing up about Winnipeg. The temperature throughout the province Wednesday night ranged from thirty degrees to thirty-five degrees.

Miss Canceam of Perth, has completed her course as nurse-in-training at the general hospital, and will do private work in the city.

Mrs. William Anderson, Barrisfield, leaves to-day for Chicago to visit her two daughters, Mrs. R. J. Mills and Mrs. W. Carson.

Lieut.-Col. Samuel Hughes is on his way to Canada. He reaches Tuesday on October 3rd, and will be given a reception.

Miss Ethel Johnsone Kingston, is visiting the Misses McKim, Guelph.

# THE NATIVES WILL SUFFER

## CHE FOO NATIVES FEARED AIR WAS POISONED.

### Foreigners Accused of Terrible Crimes—A Remarkable Proclamation Issued—It is Said a Famine is Likely.

New York, Sept. 27.—Rev. Dr. Arthur J. Brown, one of the secretaries of the Presbyterian board of foreign missions, has received a letter from Mrs. Helen S. C. Nevius, the widow of Dr. John L. Nevius, who was for forty years a missionary in China. She writes from Che Foo, August 2nd. She speaks of the wonderful credulity of the Chinese, although they are in many respects so shrewd.

One recent motion that got abroad in Che Foo was that on board some ship in the harbor there was an immense balloon, filled with poisonous gas. This was to be turned loose and the gas in some way scattered abroad. Everyone who should get the least whiff of the gas must inevitably die of plague or pestilence. So the "foreign devils" were suspected of poisoning not only the wells but even the air.

A translation of a proclamation that was posted at the yamen, or city hall, in Ching Chow Fu, was as follows:

The Taku forts have been retaken by the Chinese. Gen. Tung Fu Shang has led the Boxers and the goddesses and has destroyed twenty-eight men-of-war, killing 6,000 foreign soldiers. The seven devilish countries' consuls care to beg for peace. Gen. Tung now has killed all the foreign soldiers. The ascendary devils (native christians) must die. Gen. Tung has ordered the Boxers to go to the foreign countries and bring out their devil emperors from their holes. Not one foreigner must be allowed to live. All who are not Chinese must be destroyed.

### A Famine Feared.

London, Sept. 27.—A despatch from Shanghai, dated Sept. 25th, says: "Advices from the best sources in the north indicate that a famine among the natives is inevitable during the coming winter. The usual rice supplies have not been shipped. There are rumors of movements of the fleets tending toward operations near Shanhaikwan, the terminus of the railway."

### Likely They Are Dead.

Pekin, Sept. 9, via Shanghai, Sept. 27.—The people are returning and shops are re-opening. Twenty Boxers in disguise were captured in the Russian district yesterday. They were tried and their execution is probable.

### No Hope For The Emperor.

London, Sept. 27.—A despatch to the Daily News, from Shanghai, says that Dr. Martin, professor of the imperial university at Pekin, has arrived there. He says there is little hope for the restoration of the emperor, the reactionary party being too strong. He does not expect that the chaos now prevailing will be ended for some time.

### A Winter Base.

Tien Tsin, Sept. 24, via Taku, Sept. 25.—Gen. Chafee has arrived and conferred with the staff officers of the different departments with a view to establishing a winter base in the vicinity of Tien Tsin. The plan in contemplation is to place the troops under canvas outside the city.

Gen. Chafee paid a visit to Li Hung Chang and informally discussed the outlook for a settlement.

## SAY SHERIFF'S MAN DID IT.

### News From the Seats of the Pennsylvania Strike.

Hazelton, Pa., Sept. 27.—The mines of Markle & Co., Jeddo, opened this morning with a small force. Markle said the number of men at work was satisfactory. The strikers said he had fewer men than on Monday, when less than one-fifth of the force was at work.

Shenandoah, Pa., Sept. 27.—The coroner's jury empanelled to enquire into the death of John Chownesky, the victim of the Friday night riot, returned a verdict last night that he had been shot and killed by one of the sheriff's posse. Several eye-witnesses testified that the strikers fired several shots.

### Strike Likely Settled.

Philadelphia, Pa., Sept. 27.—A railroad official in this city, whose word can be taken as authoritive, but who would not consent to his name being made public, said to-day that the miners strike had been practically settled. The terms, he added, would be made known within the next twenty-four hours.

The miners may have said to have won their demands, with the exception of that which refers to the recognition of their union. This point the operators will not concede, but the strike leaders will agree to a compromise along the lines indicated. It is believed that archbishop Ryan's intermediation has played leading part in bringing about this apparently peaceful issue.

## THE HAWK ON SHORE.

### Went Ahead Without Waiting For the Pilot.

Montreal, Sept. 27.—The United States auxiliary Hawk, on the way up the river to Cleveland, went ashore last night at the upper end of the Lachine canal. It appears that she had a pilot on board, who went ashore at the locks, to tell his family that he was going up the river, and not returning the cruiser went without him. The Hawk had not gone many yards before she was hard aground on the shoal where the channel executes a curve.

The Merchants' bank of Halifax has obtained an order to examine the officials of the Merchants' bank of Canada in connection with the cold storage company and the bogus warehouse receipts. The latter institution was taken in with some of the bogus receipts, but came out all right in the end.

### Secured The Property.

Buffalo, N.Y., Sept. 27.—At the auction sale of the Buffalo athletic field this morning J. D. King, Toronto, was the successful bidder. His purchase price was $32,000. It is understood that Mr. King will maintain the field for outdoor sports of all kinds during the Pan-American year, and then cut it up into building lots.

Mrs. William Thompson, William street, is visiting friends in Westport.

## ANTHRACITE IN CANADA.

### No Excuse For Increasing Price If Dealers Are Reasonable.

Buffalo, N.Y., Sept. 27.—A prominent coal dealer here, who is in close business touch with Canada, and who makes frequent trips to the coal mines in Pennsylvania, stated to your correspondent that the stocks of anthracite in Canada are most satisfactory to the dealers there, as they are carrying the usual quantity held at this time of the year. He says that while there is a scarcity of hard coal on this side of the line, it will not influence prices in Canada, unless the dealers there have no conscience and exact strike prices from the consumers. Furthermore, he asserts that there is no basis for a radical advance in prices of coal in Canada for some time, as most dealers have supplies to carry them past the probable duration of the strike.

Of the condition of the strike, he gives it as his opinion that the trouble will soon be settled by arbitration. He states that archbishop Lynch, who has widespread influence in the affected district, is doing his utmost to arrange for arbitration, and that the operators and miners are partly persuaded by the archbishop to commence negotiations with that object in view.

## THE COST OF CONQUEST.

### Philippines Makes Necessary Another Volunteer Army.

Washington, Sept. 27.—Orders have been issued at the war department to the chief of the different bureaus to prepare statements showing the cost of recruiting and maintaining a volunteer force as against the cost of maintenance of the same number of regulars and based upon the item of extra expense attached to the recruiting and organization of the volunteer force.

The time is fast approaching when the present volunteer force in the Philippines must be withdrawn. To maintain the necessary force in the Philippines another volunteer army must be authorized or else an increase in the regular army. The war department will point out to congress that the latter plan is the only feasible one, and asks for authorization to raise the strength of the army to 100,000 men, with permanent recruiting stations throughout the country.

## RETURNED "NO BILL."

### Against Conductor And Engineer Who Were in a Collision.

Belleville, Ont., Sept. 27.—The grand jury returned "no bill" on the charge of manslaughter preferred against William Kerr, Madoc, and James Maybee, Lindsay, respectively conductor and engineer, of the Madoc train, which collided with the Peterboro train in July, causing the death of Samuel Burd, of this city, and Archie Edmunds, Lindsay.

The case of Martin vs. G.T.R., in which the plaintiff, a widow, sued for the death of her husband, of Ernesttown, was disposed of by plaintiff receiving $1,500 damages.

## TAYLOR WANTS RECORDS.

### Colored Cyclist is Going West to Lower Them.

Worcester, Mass., Sept. 27.—"Major" Taylor will start west after the records within a week. The negro rider will go to Chicago, where he secured record honors last season. He will again use the Garfield park half-mile cement track in that city. It is quite probable that he will follow the Miller motor, the McDuffee steam motor, and the pacing machines of Albert Champion. Taylor hopes to place the mile record at 1m. 15s., and will try to do forty miles in the hour.

### Trip To The Old Country.

Toronto, Sept. 27.—A movement is on foot to send astrong representative All-Ontario association football team to England next fall. Already some correspondence has passed, and the showing which the former Canadian team made several years ago assures a successful tour. The association players have improved, and are in a better position to send a thoroughly representative team.

An association team will also be sent to St. Louis at Christmas to play a series of exhibition games.

### Rebels Making Resistance.

Manila, Sept. 27.—On Monday night vigorous insurgent attacks were made upon the United States outposts in the district near Zapote Bridge, Las Pinas, Paranaque, Bacoor and Imus, twelve miles south of Manila, the scene of the fighting last October. It is estimated that the rebels numbered 400, and they were armed with rifles. The inhabitants took refuge in the churches. The Americans have since energetically dispersed the enemy, killing and wounding fifty.

### General Amnesty.

Belgrade, Sept. 25.—In honor of queen Draga's birthday, a general amnesty has been proclaimed, including the high priest Vlaiko Nikoli and several other persons who have been imprisoned for complicity in the attempt last year on the life of ex-king Milan.

The honorary titles and offices which hitherto belonged to former queen Natalie have been taken away and conferred on her successor, queen Draga.

### The Same Wild Daly.

London, Sept. 27.—John Daly, released from Portland prison in 1890, after having been sentenced to penal servitude for life, in 1884, for complicity in an alleged plot to blow up the house of commons by throwing dynamite bombs from the strangers' gallery, has been selected as the labor party's candidate at Limerick. He says that, if elected, he will refuse to take the oath of allegiance.

### Who Will Be Called?

Montreal, Sept. 27.—Lieut.-Gov. Jette has left for Quebec, and it is expected that within the next few days he will call upon either provincial secretary Robidoux or attorney-general Archambault to form a new government to succeed the Marchand government. The Montreal liberals generally favor the the selection of Mr. Robidoux.

### Fatally Injured.

Chicago, Sept. 27.—Lawrence Pierson, Lexington Lake, Forest University's crack half-back, was probably fatally hurt in yesterday's football game with the South high division school. Pierson attempted a hurdle play, fell back and struck his head.

# MAN IS LIKELY DERANGED.

## ACCUSED OF TRYING TO MURDER HIS WIFE.

### A Twelve-Year-Old Son Interfered Until Men Driving Past Ran to the Aid of the Woman Whom Coltman Was Choking.

Toronto, Sept. 27.—William Coltman, aged forty-five, whose home is two miles west of Newmarket, is a prisoner in Toronto jail, charged with having tried to murder his wife yesterday. It is alleged that Coltman knocked his wife down and dragged her toward a table on which was a razor, his intention being to cut her throat. The twelve-year-old son seized the razor and rushed out of the house with it. Two men driving past in a waggon heard screams, and going to the scene found Coltman in the act of attempting to choke his wife to death. The man's mind is believed to be deranged.

Daniel M. Spence, killed at Boschpoort, S.A., was a brother of alderman Spence. The latter received confirmation of the news from headquarters last night. Daniel M. Spence was twenty-four years of age, and was living in Peterboro when he enlisted in the first battalion Canadian mounted infantry. He had previously had some military training in the volunteers. He was unmarried.

Justice Falconbridge, this morning, handed out judgment in favor of David S. Wegg, Chicago, who at Brockville assizes sued J. W. White for the possession of seventy-one acres of land in Leeds county, on which White claimed squatter's title. The judge finds that Wegg's claim is superior to that of White, and the latter must surrender the property.

Forester Boulton, a prominent Canadian, has presented himself as a candidate in North Faversham, Kent, Eng. Mr. Boulton is a former Toronto lawyer, practicing for ten or twelve years in London. He is a son of the late Forester Boulton, Toronto, and a great grandson of the late D'Arcy Boulton, once judge of the king's bench for Upper Canada. While a resident of Toronto he was an officer of the Royal Grenadiers. Since his residence in London he has written several legal works.

## NOT LIKELY TO OCCUR.

### But Dredging and Dock Building Required at the Sault.

Detroit, Mich, Sept. 27.—The Marine News says: "A matter to which the attention of owners is being directed is the disposition of vessel masters trading to lake Superior to pass up and down almost exclusively by way of the United States canal at the Sault. The Canadian canal has such a small percentage of the business thig year that there is some fear of the dominion government closing it to navigation. The expense of maintaining a force of men at the locks is of course, an important item. If the dominion officials, knowing that their vessels so few in number compared with the United States crafts, could be easily taken care of in the American locks, should decide to close their canal and thus save themselves expense the results might be well feared by our large shipping interests. In event of accident on the American side, a closed lock on the Canadian side would not be a happy thought to contemplate. Then too, it is very unfortunate that more use is not made by American vessels of the magnificent lock on the Canadian side of the river. In view of the great expense undertaken in providing this waterway, it certainly will be badly needed before the contemplated enlargement of the old lock on the American side is ready. One reason why the vessel masters do not go by way of the Canadian canal, is the fact that letters and telegrams are usually forwarded in care of the American canal office. This could be changed, of course, as far as the correspondence of the ship with her owners is concerned, but it is claimed also that the upper approach of the Canadian canal is a narrow channel, and that there is not the certainty of deep water, that there is in that part of the river leading to the upper ends of the American locks.

## HAVE JOINED WORKS.

### And There Was Hardly the Variation of an Inch.

St. Paul, Sept. 27.—President Hill, of the Great Northern railway has received a telegram stating that the east and west crews in the gigantic bore under Cascade mountains had met with hardly the variation of an inch. It is estimated that the tunnel, when completed, will have cost $5,000,000. One thousand men have been engaged nearly three years in its completion and all records of tunnelling have been broken.

### To Look For The Vessel.

Southampton, Sept. 27.—The American line steamship New York, Capt. Roberts, from New York, Sept. 19th, for Southampton, passed the Lizzard at 9:30 p.m., yesterday and should have arrived here at about 4.40 a.m. to-day, but had not been sighted up to this afternoon. A strong gale and a mist prevailed in the British channel. A tug was despatched in search of the New York.

### Jockey Club Stakes.

London, Sept. 27.—At the third day's racing of the Newmarket October meeting, to-day, the jockey club stakes of 10,000 sovereigns was won by J. R. Keene's bay colt, Disguise II, ridden by M. Cannon. Lord William Beresford's Jolly Tar was second, and R. A. Price's Cold Forfarshire, third. Eight horses ran, among them the prince of Wales' Diamond Jubilee.

### News From Roberts.

London, Sept. 27.—Lord Roberts reports from Pretoria, under date of Sept. 26th, as follows:

"Hamilton's column has reached Komatipoort. Pole-Carew, at Komatipoort, reports that supplies have been received there from the British consul at Lorenzo Marques. The mounted infantry surprised six Frenchmen near Grotto Blei."

### Death of Col. John P. Jackson.

San Francisco, Sept. 27.—Col. John P. Jackson, collector of the port of San Francisco, died Tuesday night from a painful kidney affection. Col. Jackson was born in Cleveland, Ohio, March 7th, 1833.

In Madagascar silk is the only fabric used in the manufacture of clothing.

**CELLULOID STARCH**
