THE BEST THING for a man to do is to combine pleasure and expense to develop his muscles and gain stimulus. The man who hunts does this. He develops his quickness of thought and mind, and his chase leads him through hills and valleys, putting every one of the muscles of his body to the closest test. ### REASONS FOR AID.

**The Advantages to Kingston of Queen's University.**

Why should a citizen vote for a by-law to give Queen's a new building? For many reasons, any one of which is enough, and all taken together should make everyone vote yes.

Reason number one:

Queen's as a financial asset.

According to its last annual report, Queen's had 660 students, of whom 542 resided in Kingston for six, seven, eight or nine months in the year. According to a moderate estimate, these students, their professors, the affiliated schools which would not be here if there was not the university, and miscellaneous expenditures on repairing and extending buildings, heating, lighting, etc., leave in Kingston $160,000 a year. Capitalizing this, Queen's is to Kingston a revenue producing asset of three millions. The question is, shall this annual expenditure be lessened or doubled?

### DEATH OF MRS. MAGRATH.

**At More Than "Four Score and Ten" Years.**

Toronto Telegram.

Yesterday, at the advanced age of ninety-three years, Mrs. Magrath, widow of the late Charles Magrath, secretary and bursar for many years of Trinity university, died at her residence in this city. The deceased was a daughter of the late Joseph Hagerman, Kingston, and niece of the late judge Hagerman, a well-known lawyer and politician of "Rebellion" times. Mrs. Magrath had been married three times, her first husband being Mr. Newbigging, of the old York and Toronto firm of Murray & Newbigging. After his death his widow espoused Mr. Stanton, of the queen's printing office, and some time after his decease she married Mr. Magrath. The deceased was a lady of great kindliness and possessed a store of recollections of the early days of the province.

**Reception To Their Rector.**

Last evening the congregation of St. Paul's church held a reception to their rector, archdeacon Carey and wife, just returned from a visit to Europe. The reception was tendered him in the school room, which was prettily decorated for the occasion. There was a large attendance of the members of the congregation and of the friends of the archdeacon and Mrs. Carey. The 14th orchestra supplied music. Refreshments were enjoyed and a very sociable time spent. The chief feature of the evening was the presentation to the rector of two handsome chairs and a table finished in silk. The presentation was made by R. F. Elliott, in an appropriate address, expressing the best wishes of the people of St. Paul's for Mr. and Mrs. Carey's future happiness and prosperity. The archdeacon replied in suitable terms, thanking the congregation for its kindness. Solos were rendered by W. Hutchinson and Mrs. Letts, Mrs. Chamberlain playing the accompaniments. The pleasant affair terminated with the singing of the national anthem.

**The Fair Deficit.**

Unquestionably the shortage of the fair accounts was due to growth and success. The prize list filled better than ever, last year's show having restored confidence; therefore, over $500 more of prizes were carried off. The horse races were better filled and more purses carried off. The night shows did not pay as well as expected and there are other reasons that will be patent when the accounts are fully closed. The directors could not have been more careful. They were really more rigid and economical than last year, and criticism of their management is not in order.

**Will Get Married.**

Cards are out announcing the wedding of Miss Annie, daughter of Mrs. John Sheridan, New Boyne, to R. P. Lyons, in St. Peter's church, New Boyne, on Oct. 3rd.

The engagement of Miss Frances Dignam, only daughter of Mr. and Mrs. Dignam, Toronto, to a distinguished young Dutch officer, Sir John Alexander Van Hongenhinck Tulleken, the only son of baron Rudolphe Van Hongenhouck Tulleken, retired colonel of the Indian army, living at The Hague, was announced at The Hague on August 21st.

**Dr. John Begg Married.**

New York Journal.

The wedding of Miss Blanche Bowns and Dr. John Begg, of Costa Rica, took place on Wednesday night in Christ Protestant Episcopal church, at Sixty-eighth street and Third avenue, South Brooklyn. The bride is a daughter of Mr. and Mrs. H. E. Bowns, of Ninety-second street and the Shore road, Fort Hamilton. Rev. bishop Faulker performed the ceremony. The bride's father gave her away. Her brother, Howard Bowns, was best man and her sister, Miss Felice Bowns, maid of honor.

**The Works Close Down.**

The employees of the locomotive works will be paid off this evening, and the works will be closed to-morrow. The number of workmen employed has gradually decreased from over 300 to eighty-five, and to-morrow none of these men will be in the shops. Much regret is expressed about the city that the works should be allowed to close down. There are a couple of engines on hand that are not yet completed.

# LIEUT.-COL. OTTER REPORTS

### THE STATE OF THE REGIMENT ON AUGUST 22ND.

**The Force Was Part of Gen. Harts' Brigade for a Time—Officers and Men Anxious to Return to Canada.**

Ottawa, Sept. 28.—A number of reports were received to-day at the militia department from South Africa. Lieut.-Col. Otter reports that the following was the state of parade of his regiment on August 22nd: Present at headquarters and on armoured train, 465; command, 37; at convalescent camp, 83; at various rest camps, 217; fell out of line of march since last parade state, 73.

The battalion had been marching daily in Gen. Hart's brigade after Dewet. The Canadians, despite strong winds and dust, stood it well. Pursuit ended on August 16th, when it was learned that Dewet had escaped through Olefants Nek, which was supposed to be held by the British. Two guns and seventy waggons had, however, been captured.

On 16th orders were given to join lord Kitchener and then return to Pretoria.

Col. Otter describes the march as a very trying one and severely tested the men's endurance. The colonel also says now that the war is nearing its end, he does not disguise the fact that officers and men are anxious to return to Canada.

Major Hodgson, in his reports, shows that his men were on short rations.

The diary of the 1st battalion, Canadian mounted rifles, shows the parade state on August 20th to be 129 of all ranks on parade, 130 sick and one missing out of a total strength of 367. Parade state of 2nd battalion, Canadian mounted rifles, under Lieut.-Col. Evans, shows 167 on parade, 119 sick and five missing, out of a total of 370.

### SNAKE CHARMER DEAD.

**Comstock's Failure to Control the Reptile Cost His Life.**

Chillicothe, Ohio, Sept. 28.—Edward Comstock, a snake charmer, died here yesterday, as the result of his failure to charm a rattler, which he was working with. He had been running a snake show here and yesterday attempted to handle a sick rattler. He grabbed the snake, but it twisted around in his grasp and bit him on the hand.

Comstock's body swelled out of human semblance and finally he died in great agony. He claimed Indianapolis as his home and said he had been employed by the Smithsonian institution as snake catcher in South America at one time.

### WHAT BANK MANAGERS TOLD

**About the Cold Storage Affairs—Goods Abstracted.**

Montreal, Sept. 27.—R.N. King, local manager of the Ontario bank, was examined in connection with the cold storage failure and stated that his bank had advanced $7,500 on warehouse receipts and had been repaid $1,000 by William Nevin. The rest was still unpaid.

William Ramsay, local manager of the Merchants bank of Canada, was also examined and stated that his bank had advanced $110,000 on warehouse receipts, the whole being paid back by T. J. Chisholm, the last payment being made in July. In March McGillis and Chisholm admitted a shortage when an examination was made and the money was paid. Subsequently McCullough had admitted to Ramsay, at that time, that goods had been improperly abstracted from cold storage.

### BOERS WERE BEATEN OFF.

**They Made An Attack on Paget on Thursday.**

London, Sept. 28.—Lord Roberts reports to the war office, under the date of Pretoria, Sept. 27th, as follows: "The Boers attacked a portion of Paget's force at Pienars River station this morning, but were beaten off after three hours' fighting.

"Buller occupied Macmac river and the eastern side of Burghers' Pass on Sept. 22nd, after slight resistance.

"Heilbron, Reitz and Lindley have been re-occupied."

**About The Same.**

Toronto, Sept. 28.—The executive committee of the Canadian canners' association met last night. Reports received from different sections of the country show that the pack this year will not be much different from last year. In the west the pack is larger, but in Quebec it has fallen off, leaving the average about the same.

### TO BLOCKADE PORTS.

**Because of the Hostile Attitude of The Chinese.**

St. Petersburg, Sept. 28.—The Russian naval staff announces that it is proposed to blockade all Chinese navigable ports in consequence of the hostile attitude of the Chinese fleet at Shanghai and to send fast cruisers from the allied squadron to protect transports.

The general staff announces that Russian troops are massing around Kirin in Manchuria where there are 5,000 Chinese.

**Ask Court To Return.**

Pekin, Sept. 21, via Taku, Sept. 27.—All the foreign ministers have addressed notes to prince Ching suggesting the return to Pekin of the emperor and the court. The notes were informal and not written in a diplomatic capacity. The writers do not consider them binding upon their respective governments.

Prince Ching undertook to deliver the notes. The outcome is a matter of speculation, the doubtful element being the influence of prince Tuan and Tung Fuh Siang, who may restrain the court.

**He Gave Subscriptions.**

Pekin, Sept. 22, via Taku, Sept. 27.—The American legation has in its possession a subscription list of the Boxers, which shows the name of prince Ching as having made three subscriptions. The list was discovered by missionary Wherry. Friends of prince Ching declare that he was coerced into giving. It is reported by the French that a patrol has been fired on outside of the east gate of the city, otherwise everything is quiet.

### ACCIDENTALLY KILLED.

**The Gun Went Off—The By-Law's Legality Affirmed.**

Toronto, Sept. 28.—James Smith, a street railway motorman, went out shooting up the Humber river this morning. While lifting his gun with the muzzle toward him it went off, shattering his right hand and inflicting a terrible wound in the groin. Smith was removed to the emergency hospital, where he died at 1:30 o'clock this afternoon. He was married and resided on Delaney Crescent.

Justice Osler this morning refused the grocers and butchers, who are fighting the early closing by-law, leave to appeal against the judgment in the city's favor. The result is the legality of the by-law is affirmed and the grocers and butchers must all close promptly at 8 p.m. except on Saturdays.

At the meeting of the charity conference, this morning, the principal subject under discussion was the care of the destitute poor. Miss Alice Chown, secretary of the Kingston associated charities, gave an address of marked ability on the subject, in which she insisted that the key note of effective charity work was the registration by an associated board of all persons obtaining help and visitation by persons at their homes. Mr. McLean, of the associated charities of Montreal, endorsed the view presented by Miss Chown. They had found it difficult in Montreal to get the co-operation of the charities, but it was being done gradually.

### PLEADS "NOT GUILTY."

**Pearson's Confession Said to Have Been Got Under Pressure.**

Hamilton, Ont., Sept. 28.—The preliminary trial of George Arthur Pearson, the self-confessed murderer of Miss Annie Griffin, Dundas, which occurred on the evening of Sunday, Sept. 23rd, took place before magistrate Jelfs this morning. At the outset the prisoner, who was cool and collected and looked decidedly cheerful under the circumstances pleaded "not guilty." His lawyer, George Lynch Staunton, gave the crown to understand that the confession obtained from Pearson was got under pressure from the police, and because of veiled suggestions of a mitigated sentence.

The evidence advanced was a repetition of that given at the coroner's inquest and lawyer Staunton's cross-examination of witnesses, particularly of chief Twiss, of Dundas, and constable Bambridge, of Hamilton, to whom Pearson made the confession, would indicate that the defence will make its fight on the plea that the confession cannot be relied on as evidence and will ask to have it thrown out at the assizes court hearing.

The only new witness to-day was Mr. Griffin, father of the murdered girl. His evidence was not of particular interest and had no bearing on the case.

Magistrate Jelfs committed Pearson for trial at the assize court which sits here next month.

# RUSSIAN DEVIL HUNTING.

### TORTURE AN ALLEGE WIZARD TO DEATH.

**A Crime Which Takes One Back to the Middle Ages—Ignorant Peasants Guilty of the Most Atrocious Torture.**

Moscow, Sept. 28.—A crime which brings one back to the middle ages in its barbaric superstition has occurred at a village called Lepeshyf about two miles from Kobrina.

A few days ago a fire broke out in the village, which, rapidly spreading along the thatched houses, consumed eight of them instantly, and destroyed many sheds and barns. A report soon spread that it was the work of the devil, and the villagers set to work to find his human representative.

A man was soon spotted, an old, resident, in whose house some mysterious goings-on were alleged to have taken place, and he was brought forth, his eyes burnt out with a red-hot iron and his body scorched, and although a crowd of yokels arrived on the scene, no one interfered.

Suddenly a more brutal peasant came up, and seizing a chopper, hacked the poor victim's head off. A strict enquiry by the authorities is now proceeding.

**The Works And The City.**

All over the city to-day groups of citizens were discussing the closing down of the locomotive works. Some men seem to think that the works are under a sort of forfeit for back taxes, but such is not the case.

On Oct. 29th, 1894, the council granted the company exemption on its property for ten years from all taxes, except local improvement and school taxes. The agreement contained this clause: "If it ceases to be a going concern for six months in any one year (and it must be distinctly understood that when it starts up again it must run twelve months or this shall not apply) then the company lose their exemption for that one year." It will be seen from this that the company is responsible for taxes for only the one year in which the violation of the by-law takes place.

Another clause in the by-law is also important. If the works are sold, or any portion of them should pass into the hands of another company, then this exemption ceases altogether. The council, however, could, if it wished, grant exemption to the new company also.

**Reflections Of A Bachelor.**

New York Press.

The less a girl blushes the more she tans.

Lots of men you would never suspect are not only married, but in love.

It is a funny thing, but there is something about being too fat that makes a man more apt to tell the truth and treat his wife well.

There seems to be as much difference between calling a woman an old maid and a bachelor girl as there is between calling her a duck and an old hen.

FAITH, HOPE AND LOVE.

Christina Rosetti.

Hope is like a hare-bell trembling from its birth;
Love is like a rose, the joy of all the earth.
Faith is like a lily, lifted high and white;
Love is like a lovely rose, the world's delight.
Hare-bells and sweet lilies show a thornless growth,
But the rose with all its thorns excels them both.

**Business Enterprise.**

Philadelphia Record.

Enterprise is essential to success in any undertaking. The people recognize the fact that they will obtain the fullest satisfaction by dealing with the merchant, manufacturer, professional or other man who is known for the energy which he puts into his business.

There is no other way by which evidence of enterprise can be given as well as by newspaper advertising.

**Charged With Criminal Assault.**

Albert C. Smith, a farmer living near Mountain Grove, was brought to the jail this morning, having been committed by Robert Flynn, J.P., on a charge of criminal assault upon Ida M. Parker, aged twenty-two years. The young woman was brought up by the accused and his wife, having come from a home some years ago.

**Likely Captured.**

Washington, Sept. 28.—Gen. Macarthur cables the war department from Manila that on Sept. 11th Deveraux Shields, with fifty-one men of company "F," 20th volunteer infantry, left Santa Cruz for Torrijos. Nothing has been heard from them since and it is supposed that the entire party has been captured.

**Twelve In Operation.**

Philadelphia, Sept. 28.—Official advices received to-day from the Reading collieries state that the East colliery, near Shamokin, had not started this morning. This left twelve of the thirty-nine collieries of the company in operation; one less than was reported yesterday.

**Died At Sand Hill.**

Mrs. Shortail, relict of the late William Shortall, Sand Hill, died Thursday evening. The cause of death is said to have been heart failure. Several sons and daughters survive. The funeral will take place to Brewer's Mills on Sunday morning.
