THE BEST THING for a man to do is to combine pleasure and expense to develop his muscles and gain stimulus. The man who hunts does this.—He develops his quickness of thought and mind, and his chase leads him through hills and valleys, putting every one of the muscles of his body to the closest test. COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

The Australian wines are driving French wines out of trade in England.

According to consular advices $125,000 worth of gold was shipped out of Dawson City so far this year.

The estimated total production of anthracite coal in September was 2,959,500 tons, compared with 4,365,649 tons last year.

A London cablegram says that the board of trade returns for September show increases of £2,511,800 in imports and £2,185,000 in exports, a total increase of $23,400,000 for the month.

The quality of Canadian apples this year, thus far, has been so good that notwithstanding the large supplies of English and continental fruits, early Canadian apples have met with an extraordinary demand.

The report that the Greek currant crop is an entire failure is confirmed. One dealer says that instead of 250,000 tons it will not amount to 40,000. He adds that the Christmas market here alone usually requires 50,000 tons. There is no reserve from last season's crop and the present price is $30 a hundredweight.

W. A. Havermeyer is quoted as saying that the reduction in refined sugar is not due to any war, but was the result of "supply and demand." "The rush season," said he, "is over and prices have been a little high. In my opinion the decline, while unusual, only amounts to a readjustment of prices." James Post, acting for the independent refineries, said that he did not know Mr. Havemeyer's views, but if further reductions are made the independent companies would have to meet them. He agrees with W. A. Havemeyer that there will be no war and that there should be none.

LIKELY ONLY A RUMOR.

Toronto World States "Chaucer" Elliott is Professionalized.

The Toronto World this morning stated that "Chaucer" Elliott, of the Granites, had played his last game in the O.R.F.U., that the sub-committee of the executive committee of that body had made its report, professionalizing the doughty Granite half-back. The World continues: "The information that stood for Elliott's suspension was in the hands of Mr. Maguire last week, but he purposely withheld it till after Saturday's game, so as to enable Elliott to play and not weaken the Granites." How magnanimous.

Supposing the information contained in the foregoing to be true, and that Elliott has been declared a professional where does the boasted British fair play and justice come in? If the law courts of this country condemned a man unheard and untried, would the verdict be allowed to stand? Not much. As already pointed out, there is no such person as "Chaucer" Elliott legally existing, but the young man whom McGuire of the Argonauts, is chasing has not been notified of the charge preferred against him, nor has he been asked to put in a defence. Surely a governing body like the executive of the O.R.F.U. has committed errors enough without going deeper into the mire.

However, this afternoon, alderman J. Morgan Shaw, vice-president of the O.R.F.U., received a telegram from a member of the executive committee to this effect: "Secretary McMurrich has not intimation of report of sub-committee professionalizing Chaucer Elliott, as appears in a morning paper." Meanwhile Elliott will continue to play the game.

A Fireman Injured.

A few minutes before noon to-day the firemen were called to Leighton Guess', Princess street, where they found a room full of smoke, the result of a defective chimney. There was no fire. However, while answering the call, a serious mishap took place. While rounding the corner of Brock and Clergy streets, the chemical engine upset. Harry Stratford was driving, and his right foot becoming entangled in the brake, resulted in badly spraining the leg at the ankle. He will be laid up for some time. A board running along the side of the cart was splintered, and some of the machinery twisted. In harnessing the horse the bit was thrown an oversight, not placed in the mouth of the off horse, but whether or not the accident to the engine resulted from this cause cannot be said. An investigation will likely follow.

An Aged Lady Dead.

Mrs. Moore, who resided on York street, died to-day after a protracted illness. She was born in Ireland in 1828, and came out to Canada about twenty-five years ago. She settled in Kingston, but a few years later removed to London, Ont., where she remained but a short time, returning to Kingston. She was the mother of W. J. Moore, machinist, and of a married daughter now residing in Windsor, Ont. A number of grandchildren and great grandchildren also survive. The funeral will be a private one.

From All Corners Of The Earth.

Among the new medical students registered at Queen's college are several from Prince Edward Island, Nova Scotia, Quebec, Ontario, North-west territories, British Columbia, Wisconsin, New York, Newfoundland, Barbadoes, Asia Minor and Persia. A young man by the name of Eshoo, from the northern part of Persia, registered to-day. The fame of Queen's medical department would seem to be world-wide.

Queen's Games.

Annual games of the University will be held in the Fair grounds Wednesday (to-morrow), at 2 p.m. Delegates from McGill, Varsity and R.M.C. are expected. Competitors will endeavor to break previous records. Admission 10c.

Dr. Fitzpatrick, St. Lawrence street dentist, of Montreal, has been arrested on a charge of obtaining money under false pretences. It is alleged that he was provided with gold to the value of $125 by a client to fix his teeth which he failed to produce afterward.

D. M. McIntyre commenced his canvass of the city last night. In company with alderman Wright he tackled Frontenac ward.

HOW THE PARTIES STAND

MINISTERIALISTS ELECTED, 334; OPPOSITION, 173.

Liberals Gained Two Seats Yesterday—Arthur O'Connor, Irish Nationalist, Defeated—Gains of Both Parties.

London, Oct. 9.—To-day's returns give the liberals a gain of two additional seats and the ministerialists, one seat, making the respective total gains twenty and twenty-four seats. The liberals have captured the Torquay division of Devonshire, and in Derbyshire, A. Partington, liberal, has captured the High Peak division, wiping out the previous conservative majority of 507. On the other hand the unionists have taken a liberal stronghold, the Burton division of Staffordshire.

Arthur O'Connor, Irish nationalist, and one of the secretaries of Irish parliamentary party, has been defeated for North Donegal by his brother nationalist, Mr. O'Doherty.

The total number of members now elected is as follows: Ministerialists, 334; opposition, 173; total, 507.

HEARD THE REPORT

Of the Directors of the Grand Trunk Railway Company.

London, Oct. 9.—This afternoon the shareholders of the Grand Trunk railway of Canada assembled to hear the half-yearly report of the directors. The meeting progressed smoothly, while the president, Sir Charles Rivers-Wilson, detailed the improvements made in the line, congratulated the shareholders on the increase of revenue, dilated on the rise in the cost of material and the rates of wages, and explained the resolution of the day which provided for the re-organization of Chicago and Grand Trunk by the Canadian company.

After outlining the proposition Sir Charles said he had received a letter from Sir Henry Tyler, former president of road, expressing disapproval of the re-organization and asking that the latter be read before the meeting. White with passion Sir Charles declared that the vile language employed by Sir Henry justified him in putting it in the fire. The president of the road continued this denunciation of the former president until the audience rose crying "Put it in the fire," "burn it," "shame."

There was a scene of great disorder when, suddenly, the venerable figure of the ex-president was seen walking towards the directors' rostrum. As soon as Sir Charles Rivers-Wilson recovered his composure he called upon Sir Henry Tyler to repeat his charges.

Cheers, mingled with groans, greeted Sir Henry who maintained that the Chicago Grand Trunk was owned and controlled by the Canadian Grand Trunk, and that, therefore, the directors were making false pretences when they represented the re-organization as a transaction between two independent concerns. Continuing Sir Henry asserted that the scheme involved the repudiation by president Wilson, of Chicago second mortgage bonds which he asserted were cut down from five to four per cent.

Sir Charles Rivers-Wilson absolutely denied Sir Henry's allegations.

The meeting then by a large majority approved the directors' plans to re-organize the Chicago and Grand Trunk, with a guarantee of interest on the bonds to be issued by the new company. The meeting also gave Sir Charles a vote of thanks

TOWNSHIP COUNCILS.

Loughboro Township Council.

Sydenham, Oct. 1.—On motion Messrs. Sills and Truscott, W. R. Buck was appointed township collector at a salery of $70. By-laws confirming his appointment and for levying the rates were passed. Moved, Donald-Sills, and resolved that this council accept the road built by Alex Vallier on his place and that he be granted the present travelled road in lieu thereof; also that he be allowed to continue the road in the old survey, and if made to the satisfaction of the council it be accepted in lieu of the present travelled one. Accounts passed: John Sills, repairing culvert near A. Campbell's, $1; Robt. Kennedy, sr., gravelling near his place, $4; H. Coe, breaking gravel, $40; John Hagan, gravel near Brawly's, $4; Thomas Holland, covering mill bridge, $1.50; Tobias Young, building culverts near his place, $4.50; Ed. Patterson, part payment for railing on hill, near Alex. Vallier's, $6; Leonard Hogan, breaking gravel, $4.40; H. Van Luven, building culvert on Bedford Road, $2; W. T. Shades, job near Cronk Lake, $3.50; Joseph Woodruff, plank for township purposes, $24.46; Samuel Truscott, breaking stone near his place, $4.80; John Whaley, job near Cronk Lake, $2; George Kemp, repairing Winter's bridge $10 and repairing hill $1; Alex. Clark, culvert near his place, $1; Alex. Vallier, job on hill near Rousehorn's, $16.25; J. P. Lacey, nails, $1; William Ritchie, repairing two culverts, $5.50. Adjourned until Monday, Nov. 5th.

Who Will Succeed Roberts?

London, Oct. 9.—The war office has not confirmed the report that lord Roberts will leave South Africa in the last week of October, and the officials intimate that there are several important matters unsettled. One point, without doubt, is the succession to the command. Officials are silent, and it is believed the new commander-in-chief has been asked to name his own successor. The choice probably lies between Gen. Buller and lord Kitchener, with Gen. Hunter as a substitute, but both are reluctant to remain in charge of the police work.

Liberal Candidates.

Sidney, C.B., Oct. 9.—Dr. Arthur Kendall and Alexander Johnson, both members of the local legislature, were nominated this afternoon to contest the county in the liberal interests in Cape Breton county. The meeting was large and enthusiastic; all of the twenty-five districts were represented.

A Heavy Defaulter.

New York, Oct. 9.—William Schrieber, a missing clerk of the Elizabethport banking company, is a defaulter to the amount of $50,000. The bank directors had made good the amount of shortage. Schreiber is missing.

Returning Officers.

J. P. Gildersleeve will be returning officer for Kingston and Thomas C. Stark for the county of Frontenac.

CAPT. HENEKER.

Good Work With Benin Territories Expedition Recognized.

The London Gazette contains the official despatches to the secretary of state for the colonies from her majesty's commissioner and consul-general for the Niger Coast protectorate, dealing with the Benin territories' expedition. In it Capt. W. C. G. Heneker, Connaught Rangers, is especially recommended for recognition. Major Carter, the officer commanding the expedition, says that Capt. Henneker, "who acted as intelligence and survey officer, ably assisted me by his intimate knowledge of the country, and throughout the operations was conspicuous for his dash, energy and tact." And Sir R. Moor, in his covering despatch, mentions: "Capt. W. C. G. Henneker, Connaught Rangers, whose knowledge of the territories was invaluable, which, with the energy and zeal he displayed, contributed largely to the success."

Captain, now major Heneker, is the son of R. W. Henneker, of Sherbrooke, and was educated at Bishop's college school Lennoxville, and the Royal military college, Kingston. He is at present serving in the Ashanti campaign.

BECOMING MORE GLOOMY.

Things Are Not at All Rosy in China.

London, Oct. 9.—The Shanghai correspondent of the Times, wiring Oct. 7th, says: "It is reported to the French that troops hold Luko Chiao, on the Lu Han railway. The Russians and Germans hold the Pei Tang forts and have also taken Tong Shan and the Kai Ping mines, thus monopolizing the coal supply in north China.

"It was expected that count Von Waldersee would maintain an even balance between the powers, whereas the actual result of the operations place all the stragetic positions in the hands of other nations. A strong feeling prevails that the situation is daily becoming more gloomy."

To Return To Pekin.

Pekin, Oct. 6.—Prince Ching has received an edict from the emperor dated October 1st, in reply to a note sent at the request of the legations saying he will return to Pekin as soon as negotiations take a favorable turn.

Canadian Military Fervor.

A lady from New England, visiting Halifax, writes this to the Chronicle:

"A most attractive and impressive scene was Royal artillery and Royal Canadians marching Sunday morning to the Garrison church, with their rhythmetic tread and swing of the hands to the music of the band as it played 'Jerusalem the Golden.' What was still more impressive, exceeding in beauty, in many ways, a service in Westminster Abbey, was the intoning of the entire service, participated in by all the troops, the hymns being sung with as much zeal as everything else a loyal Englishman does. The singing of 'God Save the Queen' at the close was sufficiently inspiring to cause an American to wish he might pull from his vest pocket a miniature flag of the stars and stripes to wave it in unison with the union jack. The presence of Gen. O'Grady Haly and his attractive looking aide de camp, and the brilliant regalia of the Scotch officers, added to the picturesqueness of the audience.

"None the less interesting was the extra parade service at old St. Paul's church in the afternoon, in honor of Gen. Haly, where a strong and helpful sermon was delivered to the 66th Princess Louise Fusiliers and 63rd Halifax rifles, by the progressive rector of St. Paul's church."

Favors A Federal Act.

At Brockville, on Sunday, Rev. Dr. McKillop, secretary of the Quebec branch of the dominion alliance, said that they had given up all idea of securing prohibition through a dominion act, but were trying to secure prohibition province by province.

W. H. Lambly, Inverness, Que., who is attending the mission board, is a member of the alliance. When told of Mr. Killop's statement he said that half a loaf was better than no loaf. He was not personally in favor of prohibition province by province, but would rather fight for a federal act. It would take a long time, he stated, to bring Quebec into line, but he thought it could be done. He wouldn't like to see Quebec the dumping ground of all the scallywags from the other provinces, as would be the case if all the provinces, save Quebec, were made prohibition. He believed the way to deal with the question was to elect prohibitionists to the federal house, and thus secure the passing of a dominion act.

Resolutions Passed.

Behind closed doors for a couple of hours this morning the missionary board discussed the China question. The matter was finally left over to the executive committee, to take action when the powers had arrived at a decision as to what was to be done in China. Resolutions were passed: One of thanks to the ladies for the reception, one to the official board for tendering the delegates to an excursion and another of gratitude to God for preserving the lives of Methodist missionaries in China. The reports of Indian and French work were discussed and appropriations made. The appropriations to domestic missions were taken up this afternoon.

Died From Natural Causes.

Brockville, Ont., Oct. 9.—Detective Rogers, of the attorney-general's department, has just concluded an investigation of the circumstances surrounding the death of Denny Driscol, the Merrickville horseman, who died at Prescott recently, under suspicious circumstances, and says there is nothing in the case to warrant the crown taking any further action and that he will report to the department to that effect. From all he can learn Mr. Rogers is positive that Driscoll came to his death from natural causes.

Rochester Clergyman Advanced.

Rochester, N.Y., Oct. 9.—Rev. Hugh L. Burleson, assistant at St. Luke's church, has been made dean of the cathedral at Fargo, N.D., and has accepted the appointment.

Sir William Stokes, eminent surgeon, who died suddenly at Pietermaritzburg, went at the request of the government to South Africa in connection with hospital service.

Dr. Smythe is to be chairman of the big church picnic at Sydenham on Saturday, when Hon. Clarke Wallace is to hold forth.

ARE ASKED TO SHOW CAUSE

WHY THEY SHOULD NOT BE COMMITTED

For Contempt of Court in Publishing an Article in the London News—The Counsel For Gerald Sifton Taking the Action in Toronto.

Toronto, Oct. 9.—D. W. Saunders, counsel for Gerald Sifton, accused of murder of his father, and now awaiting trial at London, appeared before the district court this morning and applied for an order requiring managing editor Keenelyside, of the London News, and Mr. Carman, news editor, to attend and show cause why they should not be committed for contempt of court for the publication on October 7th, in the News, of an article entitled, "Sifton is Doomed." The order was granted. The motion was an ex-parte one, the paper being unrepresented.

Arrangements have been completed for the holding of 700 meetings of farmers' institutes through the province during the winter, beginning Nov. 26th, for which sixty lecturers of repute have been engaged, who will hold forth specially on the subjects of cold storage and poultry raising.

Regarding the cold storage stations which the government recently contracted to aid, the superintendent reports that but one has since been erected, but that enquiries have been thick, and the indications are that next year will see a boom in the business.

NEW YORK EXCURSION.

The Crowd From Kingston Larger Than Ever.

The annual excursion from points in New York state and Canada to New York city took place to-day. Last year nearly three hundred from Kingston and vicinity took advantage of the excursion, and it is expected that the number who left here to-day will exceed that of a year ago. This morning the steamer New Island Wanderer carried 150 to Cape Vincent, where train connection was made. Yesterday afternoon a number went from here to the Cape and remained over night. The steamer America will carry the balance of the excursionists this afternoon, leaving at four o'clock, and a very large crowd was expected. Up till eleven o'clock this morning, the list of travellers was registered as given below. The following were from Kingston:

The Parting Of The Ways.

The Minister—I'm sorry tae hear, Jock, that you're on strike down at the auld town. I'm surprised at ye. Dinna ye ken that the apostle Paul says, "Servants, obey masters in all things?"

The Elder—Aye, I ken, but that's just where me and apostle Paul differs.

The forthcoming colonial election promises to be the most hotly contested in the history of Newfoundland.

At the annual meeting of the Winnipeg liberal association Robert Muir was elected president.
