THE HISTORICAL SOCIETY

SKETCH OF THE FIRST PASTOR OF ST. GEORGE'S.

The Life Work of the Venerable Pioneer—Loss of a Tablet—Asking That Stuart Street Signs be Properly Spelled.

There was a fair attendance of the members of the historical society at St. George's hall last evening to listen to the reading of a most excellent paper prepared by dean Smith. Although the announced title of the treatise was "The lost tablets of St. George's cathedral," it was really, as the dean explained, the history and memories of Rev. John Stuart, the founder and first rector of St. George's. The speaker gave a clear, concise and interesting account of the life work of this venerable pioneer clergyman, which cannot be better summed up than by giving the inscription which the tablet, erected to his memory and which was destroyed in that memorable fire on the first day of January, 1899, contained. It—was as follows:

"Sacred to the memory of the Rev. John Stuart, D.D., missionary to the Mohawk nation, minister at Cataraqui (now the city of Kingston) and first rector of St. George's church. Born in 1740 at Paxton, Penn., U.S.A., and ordained in 1770 by Dr. Ferrick, bishop of London, to the mission of the Mohawks. Among these wild children of the forest he labored eleven years with judgment and mildness, bringing over many to Christ and with the aid of Joseph Brant, the celebrated Indian chief, he translated the gospel of St. Mark and the book of common prayer. From this calm and sanctified life he was awakened by the American revolution, but faithful to his king and country he retired to Canada after much suffering and loss of his worldly goods. On his arrival in Montreal he was presented with the chaplaincy of Sir John Johnson's Royal regiment, of New York. His influence with the soldiers as with the Indians soon manifested itself in greater order, sobriety and reverence for religion. His connection with the army was exchanged in 1785 for the pastoral charge of a congregation at Cataraqui. But he still watched over one tribe of his beloved Mohawks settled at the bay of Quinte. In 1789 Dr. Inglis, first colonial bishop of Nova Scotia, appointed him ecclesiastical commissary of upper Canada and his college at Philadelphia made him D.D. in 1790. The last, twenty-six years of his life were devoted to his clerical duties. In winning souls to Christ he seldom clothed religion in her terrors, but in her character of mercy and tenderness, striving to warm the bosom of the cold and reckless with the convictions of his heart. Nothing morose or gloomy in his views and temper impaired the moral persuasion and engaging pleasantness of his social intercourse. In the relations of life he was a shining light, a tender husband, an affectionate father, and a faithful friend. His congregation looked up to him with confidence and veneration, his brethren with reverence, as their father and the father of the church in Upper Canada. Universally beloved, this intrepid herald of the gospel gently fell asleep the 15th of August, 1811."

The chairman, Dr. Smythe, in opening up the discussion on the paper, deplored the loss of the tablet and the improbability of it being replaced, for the present at any rate, owing to the depleted condition of the funds used in rebuilding. Rev. Cartwright, Joseph George and Dr. Walkem also spoke briefly, and a vote of thanks, moved by Prof. Shortt and seconded by Prof. Ferguson, was carried unanimously. To this latter, the dean replied, urging the more general preparation of papers and emphasizing the suggestion that a verbatum record of such be kept in the archives of the society.

A resolution to the effect that the city council be petitioned to see that all the street signs on Stuart street be spelled properly was carried and it was announced that papers would be presented at future meetings by Dr. Kidd, Dr. Walkem and Prof. Ferguson.

Death Of Mrs. R. Vair.

Mrs. R. Vair, sr., died at Glenburnie on Monday evening. She had been ill but a few days, and was in her usual health when she left the city a couple of weeks ago to visit with her son, R. Vair, jr. Deceased was a native of Ireland, and had resided in Kingston for the past nine or ten years. She is survived by her husband and one son, R. Vair, jr. The funeral took place on Wednesday afternoon from the residence of her son, at Glenburnie.

THE BY-LAW CARRIES.

Queen's to Get $50,000—A Good Majority Secured.

Yesterday the citizens of Kingston, through their votes at the polls, decided that Queen's university was entitled to some pecuniary assistance from the city. The voting on the by-law to grant $50,000 to the college was carried by a majority that surprised even its most sanguine supporters, but, on the other hand, the vote polled against the measure was larger than was expected. The vote by wards was as follows:

	For.	Against.
Frontenac	130	72
Victoria	172	36
Rideau	193	69
Cataraqui	99	40
St. Lawrence	53	10
Ontario	59	6
Sydenham	97	25
Total	803	258

The majority for the by-law was thus 545. Considering the general vote polled for by-laws, the vote yesterday was a large one. The cold and stormy weather also tended to keep many disinterested ones away from the polls. The supporters of the grant worked hard all day in its cause, and can now rest in the assurance that their labors were not in vain.

Queen's will now go ahead with renewed vigor, when it is assured that it has the hearty support and best wishes of the limestone city. The $50,000 voted yesterday will be utilized in the erection of a new arts and science building on the campus, and is but the presursor of a greater work of development and progress that will at once be commenced. Principal Grant intends to expend $150,000 in the construction and equipment of new buildings that will in a short time afford accommodation for over 1,000 students.

Bethel Church Social.

The ladies' aid of Bethel Congregational church conducted an entertainment in that church last evening, which was largely attended. James McCulla occupied the chair. The meeting was opened by the singing of a hymn and the offering of prayer by the pastor, Rev. Alexander McC. Lennox. The following persons assisted in the programme: Recitation, Miss Annie Gray; solo, Mrs. James McCulla; recitation, Miss Gertrude Mills; speech, Rev. Mr. Leggett, of Calvary church; solo, Miss Parken; recitation, Miss S. Moxley; solo, Arthur Ellis; readings, P. Haffner and Rev. A. Mc. Lennox. At the close of the programme refreshments were served. A vote of thanks was tendered the ladies for the able manner in which the social was conducted.

Says Wife Ate Too Much.

Peoria, Ill., Oct. 17.—J. H. Lane, a Hanna City farmer, was arraigned before justice Sucher on the charge of wife abandonment. The case is unique. Lane's only plea of defence is that Mrs. Lane ate too much. While not definitely stating the limits of his wife's abnormal appetite, Lane says he could not raise enough on his farm to feed her. Growing desperate, he forced her to sign away her rights to their property, gave her $50, and told her to leave. The wife is a simple-minded creature and she obeyed. But when the money was gone and starvation stared her in the face, she had Lane arrested, and he was bound over to the grand jury.

Gold Medals To Canada.

Ottawa, Oct. 17.—The following cablegram has just reached the department of agriculture from commissioner Dupuis, one of the Canadian representatives at the Paris exposition:

"Paris, Oct. 15.—Fresh fruit in splendid condition. Four additional gold medals awarded Canada on Thursday. Prof. Drummond, from London, warns the department at Washington to wake up, as Canada leads in quality and quantity of dairy products. Superiority is due to its aggressive government agitation with modern scientific appliances."

What Was The Object?

Paris, Oct. 17.—The police yesterday unexpectedly raided the notorious "Fort Chabrol," in Paris, and also the residence of the mother of its defender, Jules Guerin. A number of papers were seized in both places. The object of its raid is said to have been to find proof of the existence of the so-called "Grand Occident of France" an anti-republican league, whose headquarters, during the Dreyfus agitation, was at "Fort Chabrol." The national organs ask if the government wishes to "work up another high court conspiracy trial."

Of Use To Inventors.

Roberts & Co., patent attorneys, Banque du Peuple building, Montreal, have issued another edition of their Red book inventor's manual. William B. Roberts has had twenty years' experience as patent solicitor, being twelve years examiner in the United States patent office. The guarantee principle of "no patent, no pay," is a reasonable and attractive one. This book will be sent to interested persons on application.

Same Trouble At Queen's.

Hillsdale, Mich., Oct. 17.—There are forty-three students in the theological department of Hillsdale college, twenty-two of whom are married. It seems almost impossible for a theologue to graduate without getting married. Outside of the theological department there are only two or three married students in the college.

WITH RICH RED BLOOD

Throbbing Through the Arteries Weakness and Disease Are Impossible — Dr. Chase's Nerve Food Makes the Blood Pure, Rich and Healthy.

Not a single day passes but we are reminded of the value of keeping the body supplied with an abundance of rich, red life-sustaining blood.

Heart failure, brain troubles and nerve paralysis can only exist when the blood is in a thin, watery condition.

Deadly pneumonia and consumption cannot find a beginning in the healthy body, which is supplied with plenty of pure blood to rebuild and reconstruct the tissues wasted by disease.

To guard against disease, to prolong life, to insure health, strength and vigor to every organ you cannot possibly find a means so effective as Dr. Chase's Nerve Food, the blood builder and nerve restorative.

Dr. Chase's Nerve Food is composed of the very elements of nature which go to form new, rich, red blood, and this accounts for its phenomenal success as a system builder. It is as certain as the laws of nature, because it gets away down at the foundation of disease and cures by making the blood pure and rich.

Mrs. J. M. Bradley, 100 Jane street, Ottawa, states: "For several years I have been gradually running down in health. I became nervous and weak, and worried greatly over my future.

"Hearing of Dr. Chase's Nerve Food and the wonderful results it has accomplished in others, I obtained a box and began using it as directed. I began to improve immediately, and am now restored to full health and vigor.

"Dr. Chase's Nerve Food is an excellent remedy, and I can recommend it to all who are weak, nervous, or run down in health."

To allow the blood to get weak, watery and vitiated is to prepare the way for pneumonia, consumption, kidney disease or other dreadfully fatal complications. Dr. Chase's Nerve Food prevents and cures disease by creating an abundance of rich blood and nerve force in the system. In pill form, 50c. a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Dr. Chase's Kidney-Liver Pills have an enormous sale in all parts of Canada and the United States.
