WHAT PEOPLE SAY.

Is Not What Makes a Remedy Valuable.

Testimonials are good things and we are always glad to get them, but they don't make our remedy any better.

Stuart's Dyspepsia Tablets are good because they do good—because they cure.

Testimonials simply prove that the tablets have helped other people, but it's yourself your are most interested in, and whether they will cure you is the question.

It is very easy to find out—try them. A full package costs but fifty cents at your druggist's. They are worth that if they only help you a little bit. The chance is worth taking at the price.

We put it on that basis because you don't know about the tablets. If you knew as much about them as we do you would have complete confidence; this advertising would be unnecessary. We have seen them cure the worst cases of stomach trouble. Cases of long standing and obstinacy, cases that other medicines and even high priced doctor have failed to subdue.

Here are some testimonials. If you care to read them we have thousands of them:

Rev. J. R. Hoag, of Wymore, Nebraska, writes: For six years I have been troubled with dyspepsia. Last fall I became very much alarmed at some symptoms of heart trouble and came to believe that there was a sympathetic relation between the two diseases or rather, that the stomach trouble was the cause of the heart disturbance. I hit upon Stuart's Dyspepsia Tablets for a remedy and invested a dollar and a half for three boxes which lasted me three months and I can eat any kind of food I want and have a good vigorous appetite. Although I am seventy-seven years old, I now feel perfectly well and without being requested by anyone I make this statement as a compliment to the virtues of Stuart's Dyspepsia Tablets.

Mrs. Lydia Bartram, of Assyria, Mich., writes: I have suffered from stomach trouble for ten years and five different doctors gave me only temporary relief. A Mr. E. R. Page advised me to try Stuart's Dyspepsia Tablets and four boxes did me more permanent benefit than all the doctors' medicines that I have ever taken.

We honestly believe that Stuart's Dyspepsia Tablets are the best medicine ever made for the cure of stomach troubles.

Don't mistake our meaning. We don't claim them to cure anything but dyspepsia and stomachic disorders. Just the one thing is what they are made for, but that one thing is the cause—the starting point of nearly all the sickness in the world.

Use Stuart's Tablets regularly. Keep your stomach right, and you can never be sick.

WHAT THE DOCTORS CALLED IT!

Upper Stewiacke, March 20th.
To the Egyptian Rheumatic Oil Co., Ltd., Halifax, N.S.:

My wife has been suffering with what the doctors called Rheumatism of the lungs, and by the free use of Egyptian Rheumatic Oil the pain has entirely left her, and all evidence of rheumatism in these parts has disappeared.

I also wish to say that I sprained my ankle so badly I could scarcely walk, but the pain and swelling were speedily removed by a few applications of your oil. I need not tell you that I shall ever continue to recommend this invaluable remedy.

Yours truly,
SAMUEL P. CREELMAN.

Send for Samples and Testimonials.

Cook's Cotton Root Compound is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and Imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company Windsor, Ont. ☞ Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. 1 and No. 2. Sold in Kingston by Henry Wade and W. H. Medley, druggists.

GENTS' and LADIES.
SECOND HAND CLOTHING,
Furniture, Stoves, Feathers, etc.

Drop me a postal card and I will pay the highest price in cash for all Second-Hand Goods.

I keep a large stock of New and Second-Hand Goods, which I sell at a very low figure.

Evening Lessons, Tuesdays and Thursdays.

AMONG CANADIAN BOYS.

FRED. SPARKS MEETS THEM IN PRETORIA.

Extracts From Several Descriptive Letters—Could Have Had a Commission in Imperial Army—The Canadians Are Sturdy Lads.

Following are extracts of letters from Pte. Jack Sparks, at present in the office of the imperial military railway at Pretoria, South Africa:

July 26th—After some preliminary remarks, he proceeds: "Poor Milloy, a fellow I knew very well in the 3rd troop, and latterly in ours, has had both eyes shot out and is now in Johannesburg hospital. They say he is full of grit. I will go down to see him as soon as I can. I took a long walk this afternoon in the suburbs of the town. There are some very beautiful residences. The grounds are kept in fine shape and must look nice in summer. Just now they are yellow and have the ragged look of winter. I saw a garden of strawberries, some ripe and some partly ripe. My mouth watered when I was looking at them."

"There will be some good openings in the civil service after the war. If I cannot get home in time for college this fall I may stay here for a time, subject to your approval."

Aug. 10th—"The day before yesterday I got your letters of July 1st, so they came in pretty quick order this time. I am getting the papers all right now, too. I spent an evening at the home of Rev. Mr. Goodwin, Methodist minister. There were several others there and we had a fine time. Mr. Goodwin is English, of course, and stayed here during the war. He had a pretty hard time of it, I guess. He did such good work for the English prisoners that Roberts personally thanked him.

"I was at the opening of the soldiers' institute the other evening. It is a fine place, large reading room, billiard room, piano, and a regular concert hall, with stage, where weekly concerts are to be held. The refreshment room attracts a lot of Tommies. Tea at any of the tea stores in the city is six pence a cup; here it is one penny. Ginger ale, ginger beer and lemonade are two-pence, and cake is two-pence. You can surmise it is well patronized.

"Our regiment is now somewhere near Middleburg, ninety-five miles from here. I saw Col. Lessard in town yesterday. He says it is expected that De Wett will be in the hands of the English inside of three weeks, and then, of course, the whole business will fall through. Botha is only waiting till De Wett gives in. We ought then soon to be going home."

August 24th—"I have been as busy as busy can be for the last couple of weeks. I have been getting up telegraphy. Mr. Carr, assistant traffic manager, had a telegraph outfit rigged up on my desk, that I might spend my spare time learning to operate. I can now send a message fairly well.

"I think I have told you how we live. Five of us have a house to ourselves. We have a Kaffir supplied us, who keeps house and cooks. He draws our rations, and we pay four pence a day for extras, and get fine meals as a consequence. No news of going home. They say it will be two months yet. I have seen nothing of the Red Cross parcels you sent. Some parcels arrived for the first contingent. There was little left in them, however, but tobacco.

"Some fine concerts have been held at the soldiers' institute. At one of the concerts given by staff officers a major gave his own verses in song to the air, "As long as the world goes round." He "took off" the rations we get, and about how De Wett is giving us such a chase; then about the attempt to kidnap our chief. He brought in the chorus.

"As long as the world goes round,
Such scoundrels will be found,
But no Holander mole shall carry off "Bobs"
As long as the world goes round."

"It took like wild fire. Lord Roberts seemed pleased. I was at a cantata, 'Esther,' given in the Baptist church by the combined choirs of the city. It was well rendered. Admission, three shillings; soldiers, one shilling. I took a soldier's ticket.

"On Wednesday I went fifteen miles up Delagoa Bay line. The country is very fertile. It was a fine trip. Road inspector Gildie told me the particulars about Winston Churchill's escape from prison here, how he hid in tracks by night and in bushes by day. A railroad man arranged the whole thing. He knew of British sympathizers and so made arrangements all the way up the line. He has since been given a good position. Hayward, the parcels man, offered me his horse the other day for a ride, and I was out three or four hours. Dave McKibbon, Stratford, came up from Norval's Pont Rest camp. I saw him, got him a job in the station, and he is living at our house. He is a very decent chap. Major Forrester is here in Langman's hospital with a slight touch of fever. Col. Lessard, hurt from falling off his horse, is here too."

August 27th—"Now that the rush for the day is over, and as I have some time to myself, I want to write home. I got the papers of June 30th to July 5th, yesterday. It seems like home to read of events going on all around Kingston and speaking of them in such an ordinary way.

"The Canadians have made a name for themselves. The first Canadians came into Pretoria about five o'clock on Friday afternoon. I was very glad to see them. They all believe that they had come up to Pretoria to have a grand march past and then they were to go right to Capetown and home. They were keenly disappointed when they learned that they were to go farther up the line. I was with the fellows until 10 p.m. They camped on the square behind the station and just in front of our office.

"I saw and had a chat with Foden, Swan and Ault, of Kingston, and Sergt. Carruthers came over to the house and had tea with me. I can see that he is very popular among the men, and indeed all through the corps the men seem to get along exceedingly well with one another. I was with Jack Murray's brother for half an hour, also cadet McKee. Saturday at nine o'clock they lined and I have not seen a sturdier lot of men in Africa. Every man seemed toughened up by the campaign till he looked as if he could stand anything. The precision with which they marched and the vigor they put in it showed that their whole souls were in it, and as they marched off, I was filled with

(Continued on Page Three.)

DR. W. W. SANDS.

A Brief Sketch of the Liberal Candidate in Frontenac.

Dr. W. W. Sands, the liberal candidate in the three-cornered fight in Frontenac county, is, above all, a self-made man. By his own exertions he has climbed, rung by rung, up the ladder of success, until he has reached an enviable height. Born in the township of Storrington, Frontenac county, in 1870, he is still, as will be seen, a very young man, only thirty years of age. His people were farmers, and of good, old, north of Ireland Presbyterian stock. The doctor's name—William Wallace Sands—shows traces of the old stock.

At the age of fourteen this young man entered the Sydenham high school, attending classes in the winter and making cheese in the summer. In the same way he put himself through Queen's college, and in 1893 graduated from the medical department. At one time he filled three positions of cheesemaker, secretary and salesman of Sand Hill factory. To his own efforts he owes the success that he has won. Soon after he graduated he began the practice of medicine at his home in Storrington. Two years ago he removed to this city. Last year he was made president of the Frontenac cheese board, which meets in Kingston.

Dr. Sands is an active member of the A.F. & A.M., A.O.U.W., I.O.O.F., and I.O.F., being lodge physician to the last two societies. He is also the surgeon of the county jail. He is a clever business man, possesses a kindly personality and is endowed with many good qualities.

A Busy Time Ahead.

Bishop Mills proposes this visitation plan to the twenty-four congregations of Lennox and Addington deanery immediately following conseration: Newburg, Nov. 5th; Camden East and Yarker, 6th; Kaladar and Flinton, 7th; Cloyne, Howick and Harwick, 8th; Marlbank, 9th; Tamworth and Enterprise, 10th; Napanee, Selby and Strathcona, 11th; Odessa, Hawley and Bath, 12th; Emerald and Stella, 13th; Sandhurst, and Union church, 14th; Adolphustown and Gosport, 15th; thence to Hastings deanery.

Jealous Rivals

Cannot turn back the tide. The demand for Dr. Agnew's Little Liver Pills is a marvel. Cheap to buy, but diamonds in quality—banish nausea, coated tongue, water brash, pain after eating, sick headache, never gripe, operate pleasantly; 10c. Sold by E. C. Mitchell.—37.

Effects Of Late Hours.

Late hours are apt to effect the system very seriously. This is only one of the causes which bring on nervousness, exhaustion, general debility and sleeplessness. Wade's Iron Tonic Pills, the great blood maker and nerve strengthener, restore the constitution to a healthy condition, positively curing all such troubles. Fifty pills in a box for 25c. at Wade's drug store.

Scan The Voters' List.

Every man whose name does not appear in the municipal voters list for 1899 should go in person to the registration court and register, because if their names are not then registered they will lose their votes. The voters list can be seen at the liberal headquarters on Princess street.

Is Your Wife Ill-Tempered?

Examine her feet and if she has corns buy her Putnam's Painless Corn Extractor. Home will then become an Eden. Much of the misery of married life is due to corns. Putnam's Extractor is sure, painless and prompt.

No One Disputes

That Abernethy has the largest stock, the lowest prices in Boots, Shoes, Rubbers, Trunks and Valises in the city. A. Abernethy, 125 Princess street.

No Registration, No Vote.

If you do not register, you cannot vote. Liberals are urged to attend to the matter at once.

For Boys And Girls

Going to school we have special lines made especially for school wear. Every pair guaranteed. A. Abernethy, 125 Princess street.

It doesn't matter where the cold is or how long it has bothered you, Griffiths Menthol Liniment will reach it and cure it. Just try it and see.

W. G. Craig & Co. offer Scranton coal all sizes at $6.50 per ton, and Bernice coal at $6, delivered to any part of the city.

Take the steamer "James Swift" for Ottawa every Tuesday and Friday from Swift's wharf at 1 p.m.

B. M. Britton, Q.C., M.P., will address the electors of Kingston in the City hall on Saturday evening.

PITY AND BEAUTY

The most beautiful thing, in the world, is the baby, all dimples and joy. The most pitiful thing is that same baby, thin and in pain.

The dimples and joy have gone, and left hollows and fear. It is fat that is gone; gone with it, comfort and color and curve; all but pity and love.

The little one gets no fat from her food: has had none for weeks: she is living on what she had stored in that plump little body of hers. She is starving for fat; it is death; be quick!

Scott's emulsion of cod-liver oil is the fat she can take. It will save her.

We'll send you a little to try if you like.
SCOTT & BOWNE, Chemists, Toronto.

HONEST DAVE AT SUNBURY

D. D. ROGERS AND J. LOCKIE WILSON SPEAK.

A Very Successful Meeting on Thanksgiving Eve—A Plea For Independence in Political Matters—A Tariff For Revenue Only.

D. D. Rogers, the patron candidate in the county, held a meeting in the town hall at Sunbury on Wednesday night. It was quite largely attended by the yeomen and their stalwart sons, and was considered enthusiastic. The meeting was not well advertised, or the hall would certainly have been packed to the doors. Henry Houston, Inverary, county councillor, occupied the chair, and introduced the candidate with a few brief remarks.

In rising to address the electors, Mr. Rogers was received with applause. He was pleased to have the privilege of speaking before the Sunbury people. "You didn't pick up Dave Rogers from behind the plow," he said, "expecting you had an orator. The people you send to Ottawa are your servants, and it is better they should give an account of their stewardship in a few brief remarks."

The electors did him the honor, in 1896, of electing him by acclamation. The charges that he had been a twister, turncoat, etc., fell like water on a duck's back. People admire independent thought in all other walks of life, and why not in politics? Fielding has said that independent thought makes and remakes governments. If the speaker found he had an honest cause to do so he would change his politics next year. It is a man's bounden duty to do so if he sees he is in the wrong. He had done what he thought was square and for the best interests of the farmers. He could give a conscientious reason for every word he had said and every vote he had cast in the house.

Mr. Rogers then reviewed his work in the house; his endeavors to secure better cold storage, better quarantine regulations, better shipping facilities, etc. He had made a plea for better shipping facilities to carry Canada's perishable products to the mother country. Heretofore the farmers have been slack in pushing their interests, whereas the manufacturers, etc., had not been. Mr. Rogers opposed the grant to the C.P.R. for the building of the Crow's Nest Pass railway. The great gold fields should be opened up, but, in his opinion the C.P.R. should pay back the grant. Too much money had been voted in bonuses to railways. He urged the reduction of tin duty, on agricultural implements, china and glassware, etc. Wherever he could put in a good word for the farmer he did. He voted for the extension of the Intercolonial railway to Montreal, and to-day that road was paying a surplus instead of a deficit. People said he had voted too often for the grits; he had voted just as he thought was right.

The candidate next took up the tariff question. The independents were for revenue only; that was a growing demand. He had said in the house that a high protective tariff was the curse of any agricultural country.

Mr. Rogers was loudly applauded when he took his seat.

J. Lockie Wilson, of Alexandria, spoke in support of Mr. Rogers' candidacy, delivering a very eloquent and forcible address. The independent spirit, he said, prevailed very largely to-day. Neither free trade nor protection has caused the prosperity of to-day, the United States is prospering under a protective policy and Great Britain is prospering under free trade. There are lean years and fat years, and now is the time that the people should urge economy upon the government. The farmers' industry is the basic industry of this country. Gold, nickle, copper, manufacturing industries may crop up, but it is the farmers, working day by day, who have made this country what it is.

Mr. Wilson referred to the preferential tariff as a live issue. England every year imports $800,000,000 worth of food stuffs alone. Of this amount Canada sends only $70,000,000 worth. Canada imports from England only $45,000,000 worth. So far as Sir Charles Tupper's policy on this question is concerned, it is wrong. Britain would not tax her artisans, etc., to allow a preference on Canadian goods. Eighteen years the conservative government was in power and no move was made in this direction. Sir Charles was high commissioner in London for too long years, and why did he not move in this direction? When binder twine was made free, the price went up. The tories say this was because the duty was removed. If this is true then the slide protective tariff fairie falls to pieces. But that was not the cause of the rise in price. It was because of the Philippine war which prevented the poor Filipinos from cultivating their fields. The independents also asked for free farming implements. The miners were allowed to bring in their machinery free. The implement manufacturers of Canada are now able to compete successfully in the foreign markets, and why not here in Canada? While the patrons may have elected only two or three members, their principles are growing, the eternal truths have been sown. When these high protectionists get into power (if they do) up will go again the duty on agricultural implements. Competition has resulted in our Canadian manufacturers successfully competing in the markets of the world.

"We want free farming implements for the farmers of Canada. (Hear, hear.)" The railway transportation problem was the greatest to be dealt with to-day. A railway commission is wanted to regulate railway rates—and see that the law of discrimination does not prevail. The independents want free coal oil. "We want more men like honest David Rogers in parliament; battling day and night for the farmers' rights. The farmers ask for only even handed justice and a right. Who stood up when Richardson brought in his motion to tax the C.P.R. lands in the west? Sir Wilfrid? No. Sir Charles? No. But Dave Rogers stood up. (Applause). Only farmers have the right who are growing up around you of the farmers is the farmer himself. Encourage the boys to represent agricultural communities. The man who knows the true interests of the farmer himself. Encourage the boys who are growing up around you; let them know that there is a place for them on the top rung of the ladder. Stand by Rogers. If you won't stand by him, turn him down and nominate some other farmer. Stop running around after toryism and gritism. Stand up to your principles though the heavens fall. Perhaps we expected too much from this man, who is fresh from the handles of the plough. He had to face the two armies who had for years practised the art of running the political machine. Did any of your representatives before ever vote for free coal oil, agricultural implements, etc? No! If on the night of the 7th you turn David Rogers down, you turn yourselves down. Give him another trial and if he does not answer your expectations, get back to your tents, O, Israel!" The chairman stated that he expected that Messrs. Sands and Calvin would be present, and in their absence he invited any of their supporters to speak. But not a dissentiant voice arose.

R. H. Fair spoke briefly in support of Mr. Rogers. He had done the best that man could do. It would be a big mistake if the farmers turned him down, which he was confident they would not do. The meeting closed with three hearty cheers for Mr. Rogers.

A Gorgeously Bound

Work of art has just been issued at an outlay of over $100,000, for which the publishers desire a manager in this country, also a good solicitor; good pay to the right party. Nearly 100 full-page engravings, sumptuous paper, illuminated covers and bindings; over 200 golden lilies in the Morocco bindings; nearly 50 golden roses in the cloth bindings. Sells at sight; presses running day and night so great is the sale. Christian men and women making fortunes taking orders. Rapid promotions. One christian woman made clear $500 in four weeks taking orders among her church acquaintances and friends. Write us. It may lead to a permanent position to manage our business and look after our large correspondence, which you can attend to right at your home. Address J. A. Knight, secretary, Corcoran Building, opposite United States Treasury, Washington, D.C.

A Presentation.

The Free Methodist society and community of Vennachar have presented an affectionate address accompanying a robe to Charles Goodrich upon his removal to another field. For twelve years of an exemplary life there, as a citizen, councillor and school trustee he has conserved public interests and shown personal qualities of a high order. He was thanked especially for efforts in social and moral reform, for help, sympathy and admonition. In and out of the pulpit he had inculcated a spirit of true piety, and these blessed by his labors would long hold them in grateful remembrance.

Efficient, Mild And Vegetable.

In all diseases in which a purgative medicine is called for, Hamilton's Pills may be used with safety and satisfaction. They can be taken alike by the most delicate person or child or by the strong, as they contain neither minerals nor crude or deleterious substances; their use may be long continued without the possibility of salivation or any of the ill results so frequently attending the use of pills containing those substances. Hamilton's Pills are safe, sure and mild, yet prompt. Sold by druggists and dealers in medicine.

A High Honor.

Lieut. Col. Girouard has been given the entire control and management of the Netherlands railway. Canada has every reason to be proud of her son, and the Royal military college, of which he is probably the most distinguished graduate, will, no doubt, keep his name to the front for many years to come.

McGill vs. Queen's at K.A.A.A. on Saturday, Oct. 20th, 2.30 p.m.

THE AMERICAN HABIT.

One In Every Three Affected.

Of the 75,000,000 people in America, it is estimated that 25,000,000, or one in every three, are partially disabled from a broken down nervous system. America is the greatest consumer of coffee in the world. Can you draw the correct inference from these two facts?

Many a person will exclaim, "Nonsense!" It is easy for any thoughtless person to jump at a conclusion that a philosopher would study carefully over before reaching. Think of the members of your family, how many of them are perfectly and completely well in every respect? How many of your friends are perfectly healthy? Inquire of them and you will be surprised to learn that the average of one in every three, who are sick, in the main, stands true. Health depends, primarily, upon a perfectly poised nervous organization, and the greatest known enemy to the nervous system is coffee. Its active principal is caffeine, which is a pronounced nerve destroyer. The action is first, to attack the stomach, then the pneumogastric nerve which lies behind the stomach and which is directly connected with the brain.

The disordered condition passes thence from the brain to all parts of the body, and in some it will show in trepidation (well known nervous conditions), in others this is hidden; but the work goes on from day to day, until some day the accumulation of forces climaxes in some organic disease. It may be the kidneys become affected and Bright's disease sets up, it may be weak eyes, may be catarrh, stomach trouble, palpitation and heart failure, (which is becoming more and more noticeable among Americans.)

Somewhere, you may depend upon it, this work will show forth in the form of disease. It may become so fixed and chronic that it can not be thrown off. It is hard to induce a man or a woman to give up coffee when they have become addicted to its use, but if such people can be given Postum Food Coffee, they will quickly change for the better, for the food drink, when properly made, has even a more beautiful color than the ordinary coffee, and has the delicious, toothsome flavor of old government Java of the milder and higher priced grades.

The work of re-organization begins at once, for the tearing down element of coffee has been eliminated, and in its place the strong rebuilding effects of the elements contained in the food coffee, go directly to work to rebuild the broken down delicate gray matter in the nerve centres and brain. This is just plain, old-fashioned common sense that any thoughtful person can make use of; in fact, hundreds of thousands of brain workers in America have already discovered the fact and are using Postum Food Coffee, to their very great benefit and relief.

LIMESTONES WERE BEATEN

QUEEN'S III WON YESTERDAY BY 7 TO 0.

Rough Riders Are Scratch Cats—Granites Have Had No Practice This Week—Meet Rough Riders To-Morrow—Argonauts Beat the Tigers.

Queen's III and Limestones played the first match in the second round of the O.R.F.U. junior series, at the K.A.A.A. grounds yesterday afternoon. There were about four hundred people in attendance when the teams lined out on the field. Queen's was somewhat heavier than the Limestones, and had the assistance of Clarke and Britton, of the senior team. Although these players are understood to be within the junior age limit, it seems to be hardly right to play them against a team of purely junior experience. Clarke contributed very materially to the success of Queen's, which team won by 7 to 0.

Throughout the whole game the play was in Limestones territory, but Queen's met with little success in scoring. The Limestones played a remarkably clever defence game, and at times developed an aggressiveness which could not be withstood by their opponents. Queen's gains were almost entirely got by the well-placed kicks of Strachan and Clarke. The latter made most of the running gains for Queen's. Limestones did better passing on the half-back line but did not kick as much or as well as the college halves.

It was on a free kick by Strachan at Limestones ten yard line that the first score was made. Tweed might easily have got the ball out but preferred rouging it. At half time the score stood 6 to 0 in Queen's favor. In the second half after ten minutes play Queen's rushed the ball well up the field, and Crothers got a chance to kick over Limestone's line and a touch resulted, the try being converted. When only one minute was left to play, Limestones made a tremendous effort to score. Laird got the ball in front of his goal and started down the field. Hiscock did some remarkable blocking, and Laird was able to pass centre field before being tackled. But then the match was over.

Britton was ruled off three times and and Selby four times. Those two players went for each other instead of the ball. Clarke and Tweed also got into a dispute, and Irv Limestone men started in to lick Clarke. The two original offenders were ruled off for a time.

Full-backs Murphy and Carruthers did good work. The former will make another "Wicky" Wilson.

Queen's III—Full-back, Carruthers; halves, Strachan, Crothers, Clarke; quarter, Mills; scrimmage, Gray, Costello, Corrigan; wings, Reid, Murphy, Mahood, Britton, R. Reid, Caldwell, Ferguson.

Limestones—Full-back, Murphy; halves, Laird, Irwin, Tweed; quarter, Hiscock; scrimmage, Mosley, Wheeler, Hamilton; wings, Hubbard, Birch, Bearance, Murray, Selby, Clown, Woodrow.

Referee—J. McDowall; umpire, Dr. McCammon.

A Few Rugby Comments.

Queen's are quite confident of defeating McGill to-morrow.

Queen's quarter for to-morrow's match has not yet been picked. Richardson, Nimmo and Pannell are available.

The Toronto Star has found another title for the Ottawa Rough Riders. The name is the "Scratch Cats."

Brockville after defeating Britannias and Ottawa college, in the Quebec union, will try to satiate its thirst for more blood with the Montreal team in Montreal to-morrow.

The Hamilton Herald road race was run yesterday in fine weather. John Caffery was the winner, his time being 1.51.52. W. Sherring was second. Both are Hamilton runners of international fame.

When the Rough Riders win to-morrow's game from the Granites, they will again be tied with the Argonauts. The championship has not yet been settled, but the Rough Riders will eventually win.

Granites failed to get a practice match with the cadets yesterday. They have had no practice since last Saturday, and the team to meet the Rough Riders to-morrow goes like a lamb to the slaughter.

Manager Elliott declares that he will have a strong Granite team to meet the Argonauts and the Tigers in Kingston.

One year ago yesterday, the Granites annihilated the Argonauts in Kingston by the sweet score of 28 to 7. Toronto Telegram, please copy.

Two remarkable football scores were made yesterday when the Hamilton Tigers went under to the Argonauts by twenty-seven points to twelve and Ottawa college won from Britannias by the same score. At half time the Argonauts had fourteen points to Hamilton's nothing. Ottawa college apparently had an easy time in their victory.

Commenting on the Whig's crack at the Hamilton Tigers "pay list," the Toronto Telegram says: "Be assured, dear Whig, that had the Tigers, exclusive of last Saturday, taken money for chasing the pigskin, they should all have been arrested for taking money under false pretences, for they couldn't play football a little bit."

Again has the Ottawa Citizen fellow raised his hands in protest against "the referee." No match has taken place this season in which the Rough Riders participated that the Citizen man did not have some kick about the commanding official. Ottawa will not again have McMurrich, or Morrison, or the other fellow, etc., etc. Perhaps it might be well to allow the Citizen man to referee and Mr. Shellington to umpire the Rough Rider-Granite match in Ottawa to-morrow. The Granites would readily (?) consent!

The Consecration.

The single fare gate to Kingston for the consecration will be good on the K. & P. railway Oct. 31st and Nov. 1st, good to return 2nd.

The bishops of Montreal, Quebec, Fredericton, Huron, Western New York, Ottawa, Algoma and Niagara have accepted the invitation to take part in the consecration of bishop-elect Mills. The bishop of Toronto is also expected, making eleven bishops in line.

Ask Any One Who Uses Swift's Scranton Coal

It's clean, bright, no waste.

Jas. Swift & Co.

A Heap of Coal

that is burned in this country is about half coal and dirt and slate. If your coal does burn down to a good clean ash, clinkers and clogs your grate, there's something wrong about it.

There is no need of burning that kind of coal. We are ready to sell you what's all coal. We give you a ton's worth of fire for every dollar you pay us. If you want coal that burns separate, it's cheaper.

Crawford's COAL THAT SUITS.

A Little Light

On the baking powder question has revealed the fact that eighty-five per cent of the baking powders sold in the dominion contain alum an ingredient which is prejudicial to health. Use

Sunlight Baking Powder

a pure cream of tartar powder. We will donate $100 to the poor relief society if a particle of alum is found in Sunlight. Better powder cannot be bought at any price.
