Broken Down In Health.

Weak, Nervous, Debilitated and Almost a Victim of Nervous Postration, This Young Lady Was Restored to Health and Strength by Using Dr. Chase's Nerve Food.

It is in the spring, when the blood is thin and watery, that the nerves become exhausted and the frightful breakdown comes. Few people can overcome the evil effects of artificial winter life and ward off distressing body ills without using a restorative to build up new, red corpuscles in the blood, and reinvigorate the whole body.

Mrs. D. W. Cronsberry, 168 Richmond street, west, Toronto, Ont., states:

"My daughter, who sews in a white goods manufactory, got completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted, and she was so weak and debilitated that she had to give up work entirely, and was almost a victim of nervous prostration.

"Hearing of Dr. Chase's Nerve Food, she began to use it and was benefited from the very first. It proved an excellent remedy in restoring her to health and strength. After having used four boxes she is now at work again, healthy and happy and attributes her recovery to the use of Dr. Chase's Nerve Food. It also helped her through a very severe attack of la grippe. I can recommend it as an excellent remedy."

Let reason rule. Get right down to the foundation of the trouble and build up the system by using Dr. Chase's Nerve Food.

The great restorative is in pill form and contains the very elements of nature, which go to form new red corpuscles in the blood and create new nerve cells.

It is worth while to remember that Dr. Chase's Nerve Food is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author of the famous receipt book.

As a blood builder and spring restorative, Dr. Chase's Nerve Food is of inestimable value. It prevents and cures the ills of spring and all weakness and debility by the building up process. It makes the blood red, the nerves strong, and the whole system healthy and vigorous.

Dr. Chase's Nerve Food is an up-to-date, scientific preparation, which has proven itself to be specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wasted nerves. It is especially recommended for ills peculiar to women, because they almost invariably arise from exhausted nerves. Dr. Chase's Nerve Food, 50c. a box, at all dealers, or by mail, from Edmanson, Bates & Co., Toronto. Book on nervous diseases free.

HERE ARE THE FACTS.

Liberal Government Anxious to Help Locomotive Works.

On Sept. 21st, Hon. A. G. Blair, minister of railways, sent this telegram to R. M. Britton, M.P.:

"Are Kingston locomotive works prepared to make a contract with us; if not we shall be obliged to go elsewhere with our orders?"

In reply Mr. Britton sent this message:

"Please hold over order for a week or ten days. Think then the works here will be prepared to accept."

Mr. Blair not only waited a week, but has waited ever since in the hope that the locomotive works will be again running. The News will try to make people believe that the liberal government would not give the works any contracts and that this was the reason it closed down. Could any more convincing proof of the absurdity of the News' statement be given than the above.

Death Of A Faithful Newsboy.

On Wednesday afternoon at five o'clock John J. Grogan, son of Mrs. Catharine Grogan, 35 York-street, slept peacefully in death. For the past six months the faithful newsboy was ill and unable to perform his duties. A month ago, he was around again, whistling his merry tunes, but once more he was forced to relinquish his work which was looked after by his mother, his sister and a few of his newsboy friends. His health completely broke down, and death's hand was laid heavily upon his brow yesterday afternoon. The last words of the dying boy were "I see them," and then he slept the long sleep.

The late "Johnnie" Grogan was eighteen years of age, and one of Kingston's most active and enterprising newsboys. He sold nearly twice as many papers as any other two boys, and covered a long route. He was commonly known as the "whistling newsboy," and composed a two-step which was set to music and called "Johnnie Grogan's Two Step." The funeral leaves his mother's residence to-morrow morning at nine o'clock for St. Mary's cathedral, where a solemn requiem mass will be sung.

Were Quietly Married.

Collins Bay, Oct. 24. Prof. Beal, Brockville, conducts a singing class in our village every Tuesday evening. A number of young people attended church at Cataraqui on Sunday evening. On Tuesday morning, Oct. 23rd, Miss Jennie MacKay, Collins' Bay, was united in marriage to Robert Henderson, Stella. They will reside at Stella. Congratulations. Miss Maud March, Cleveland, is visiting her parents, John Presby and Miss Flossie Bradley, Deseronto, visited Miss Hannah Ball, on Sunday. W. Topliffe and family, Glenvale, spent Monday, at W. Clements'. John Marsh, Cleveland, is spending a few days at Mr Marsh's. D. Clement, Deseronto, spent Monday at R. Clement's. Miss Florence Losee, after a severe illness, is slowly recovering. A. Rankin has returned home. W. Tait is spending a few days in Belleville.

Mrs. Maiden Objects.

Detective Rose, agent of the Ontario medical council, is dealing with a peculiar complaint. Mrs. Maiden, of 25 Main street, Kingston, who has been for thirty years a cripple, says that an agent for a pill company in Cleveland came to her this spring and guaranteed to cure her. She accepted his treatment with absolutely no benefit, but, notwithstanding this, the agent secured photographs and reproduced them in a pamphlet, which stated she had been cured, and distributed the literature through the district. Mrs. Maiden wants detective Rose to stop the distribution of the pamphlets.

He Belonged To Bath.

Bath, Oct. 24.—On Sunday morning the captain of the schooner Fabiola arrived here with his crew in the yawl boat. Their vessel sank out in the lake near the False Duck islands. The men just managed to get out of the boat with what they had on and lost all their clothes. The mate of the vessel was Roy Hoselton, son of Gaylord Hoselton, this village. Mrs. Fair, Staten Island, visiting her mother, Mrs. P. R. Davy, has returned home. A new street lamp has been erected at the corner near the Northern's residence. Hiram Covert has moved his store into the building of Mrs. Hogle.

Management In Bad Hands.

Toronto Globe.

The Bogus Globe is another proof of evidence that the management of the conservative party has got into bad hands. No cause was ever advanced by such means. When a man who receives one of these circulars discovers the deception he will regard every tory charge it contains as a falsehood. But the fact that the device is sure to hurt its authors more than those against whom it is concerned does not make it any the less reprehensible. It is stupid beyond all conception of stupidity, but it is none the less dishonest and unscrupulous.

He Cashed The Order.

A young Englishman with his wife and a couple of small children arrived in the city from the old country about a month ago. He secured employment as a clerk in a Princess street grocery. Yesterday an order or cheque for $50 came to his wife and he cashed it. He has not been seen since. The wife and relatives do not think he has gone away as he told a brother he was going to Toronto to visit an uncle.

Contracts Awarded.

Arthur Ellis, architect, awarded the contract for heating the assembly room of the collegiate institute, to Simmons Bros. Their figure, $340, was the lowest. There were four tenders submitted. The work will be proceeded with at once.

"EVERYTHING IS SIFTON."

So Writes Our Western Scribe—Bad Season For Farmers.

Boissevain, Man., Oct. 22.—This has been one of the most discouraging falls for the farmers to harvest the crops. The rain simply fell in torrents, and no sooner would it clear up than there would be another week of wet. This was continued for six weeks. The grain was, generally speaking, all out in stook, the best side of which has all sprouted, and been destroyed. Of the sample of our usual Manitoba No. 1 hard, a great share will only make feed. The settled weather of late is enabling the threshers to vigorously push along with the work, and with two more weeks of this continued fine weather the hum will cease. Very little ploughing has yet been done and will have to be left over till spring unless we are favored with a late fall.

The chief topics of discussion are the elections, and Gordon, the supposed murderer of Daw and Smith, who were farming within six miles of this town. Gordon is still at large. Hon. Clifford Sifton held one of the most enthusiastic meetings ever held in Boissevain on the 12th inst., after which he chartered a special to meet Sir Hibbert in Brandon. Everything is Sifton here. That "bogus Globe," Toronto, takes a header for the stove and waste basket, even by the tories.

Mrs. J. L. Shorey, suffering from cancer, is slowly improving. Alexander Grant, strawbacking with Mr. Holden's team, was on the sick list for a few days, but is again able to take his place. Mrs. James A. Buck's sister, from Wiarton, Ont., visiting friends around here, leaves for her home on Tuesday. William Springer is again quite strong since undergoing an operation for appendicitis.

Modjeska's Advice.

Orange, N.J., Oct. 25.—Mme. Helene Modjeska, whose company has been rehearsing here, preparatory to starting on her tour in a repertoire of Shakespearean plays, expressed herself in an interview, as to young women going on the stage. She said: "Only the strong in mind and the broad in character can draw added strength from the struggle of making their way in the career of the stage. But the weak must fall hardest and discouraged. My career has been one of struggle and vicissitudes, but with it all I have managed to live down temptations. To those on the threshold of life in the theatre, the realization of the hard work, yet possible failure or a medium of success, is very difficult. They imagine that because they know of what the world calls the temptations of the stage they are armed, but they cannot see, and none can tell them, the daily trials, the loneliness."

Railroad From British Guiana.

Washington, Oct. 25.—A report from United States consul Moulton, at Demerara, gives interesting details of the proposed railway from the Atlantic seaboard in British Guiana to Manaos, the flourishing capital of the state of Amizonas, in Brazil. The establishment of the road at Manaos would break into the centre of the entire system of ocean and river transportation between the Andes and the sea and upset the usual course of trade by that route and divert the most of it to the seaport at Demerara.

Chaucer's Anniversary.

London, Oct. 25.—As this is the fifth centenary of the death of Chaucer, an impetus is given to the movement to erect a statue of the great poet in Guildhall or the library. The author of "Canterbury Tales" was a Londoner by birth, but no suitable memorial of him exists in the city of his nativity. The authorities of the British museum are exhibiting the Chaucer manuscripts, various editions, engravings, etc. The Royal society of literature signalizes the occasion by publishing a course of "Chaucer Memorial Lectures."

Steel Rails For New Zealand.

Youngstown, O., Oct. 25.—America is now shipping steel rails to the utter most parts of the earth. The rail mill of the National steel company has turned out the first lot of one thousand tons of fifty six pound rails for New Zealand, which has come in as a new purchaser in the American market, and at a good price. Ontario is also buying here, dealing with the Lindsay steel company.

Memorial To Dr. Livingstone.

London, Oct. 25.—Final arrangements have been made for the erection of a permanent memorial to Dr. Livingstone. The memorial will be an obelisk twenty feet high, erected upon the spot in Central Africa, where the great explorer died, and where his heart is buried. As there are no stones in that part of the dark continent the obelisk will be built of concrete sent out from England.

Presented By Mrs. Halsey.

Watertown, N.Y., Oct. 25.—Mrs. Frederick R. Halsey, of New York, daughter of the late Mrs. Emma Keep Schley, has presented to the Henry Keep home in this city, founded and endowed by her mother, two handsome marble busts of her parents, the late Henry Keep and Mrs. Keep Schley.

Bequest For Father Barry.

Oswego, N.Y., Oct. 25.—Through the will of Ellen McCarthy, who died while on a visit to Ireland, Rev. Fr. M. Barry, of St. Paul's church, is left a legacy of about $1,200. Mrs. McCarthy was preceded to her grave by five children and had no living relative.
