A RAILWAY BADLY NEEDED

TO OPEN UP PARTS OF NORTHERN FRONTENAC.

Country Denuded of Timber and People in Poor Circumstances—A Good Mineral District—Something For the Board of Trade to Do.

Kingston, Nov. 6.—(To the Editor): Since the middle of June a large portion of my time has been spent in this section canvassing for the sale of cream separators and other lines, which have taken me off the main roads into the out-of-way sections. It is a rough, broken country, with rocky hills and small lakes, which tends to make the population sparce and scattered. They are an economical, thrifty, hard-working, pay-as-you-go class of people as a whole; but the conditions under which they labor and the lack of a market for their produce, make it necessary to put up with cheap homes, poorly furnished, with what in the front would be considered necessaries. Certainly very few have what would be considered ordinary comforts in the front townships.

The lumber that can be floated has largely been taken out of the country, there being only one party operating on the Mississippi river. Those lumbering find it hard to make ends meet, where at one time they made their money out of lumbering, and in selling supplies to the shanties. Along and close to the Kingston & Pembroke RR. track large quantities of hardwood for fuel and charcoal are got out and shipped by rail. At Folger Station over 300 car loads of lumber were shipped since spring, largely to the Rathbun company, Deseronto.

There is a large tract of county which requires a railway to open it up and permit of a market being found for the product of the mines, forest and agriculture. The section referred to is that west of the Kingston & Pembroke, from Clarendon to Lavant, in the vicinity of the villages of Ompah, Ardoch, Pleyna, Vennachar and Denbigh. One thing that tends to build up a city are the avenues of trade that open up from it. Such a railway would open up a large section of country to Kingston, and is an undertaking that the board of trade of Kingston should look into and agitate its building and operating.

A mineral county is a profitable one for a railroad and to the city, from which it draws its supplies. The establishment of a smelter in Kingston would afford a market for some of the minerals in this section. The Boerth gold mines, near Ardoch, were equipped with mining and complete milling outfit and which ceased operations about a year ago on account of errors in management, have been reorganized under the name of the Clarendon Mining Co., and will start operations again shortly. Considerable development work has been done on other properties. Hoping some day to reach this country over a railroad at thirty miles an hour, instead of as at present over a rough road (that it is impossible to improve much) at the rate of three to five miles an hour by horses and waggon. I am yours, CHARLES D. CROWN.

A PRETTY MARRIAGE.

Celebrated at Montreal—The Contracting Parties.

Wilton, Nov. 5.—A very pretty and interesting marriage ceremony took place on Wednesday evening, Oct. 31st, in St. James' church, Montreal, when Lillie, youngest daughter of Rev. J. J. Teasdale, St. John, N.B., formerly pastor of First Methodist church, Charlottetown, was united to Bernard Mills, son of Harvey Mills, Wilton, Ont. The ceremony was performed by Rev. Dr. Williams, Montreal, at half-past seven. Owing to the illness of the bride's father, the marriage was a quiet affair, only a few of the bride's most intimate friends being present. Miss Teasdale, who was one of St. John's fairest maidens, wore a dainty travelling suit of light grey ladies' cloth and a black velvet hat with plumes. The bride is well known in the cities of the maratime provinces and will be greatly missed in musical and literary circles there. She is a graduate of Dalhousie college and an accomplished musician.

She is a sister of Mrs. Flemming, Strathcona, Alberta, wife of Rev. D. Fleming, of the Presbyterian churches of Glenvale, Harrowsmith and Wilton for seven years past, until last July. During Miss Teasdale's visits to her sister she made many friends, who will once more welcome her to Ontario. The bride received many beautiful and costly presents from friends in the cities where her father has been preaching. The present of the bride's father was a piano; that of the groom's father, a handsome parlor suit. The groom's gift was a pearl crescent pin. Mr. Mills is one of Wilton's most popular young men and his friends unite in congratulations. Mr. and Mrs. Mills will reside on the Leeman farm, between Wilton and Odessa, lately purchased.

NEVER FORGET LESSON.

Lord Kitchener and the Yeomanry Officer.

Bennet Burleigh writes to the Daily Telegraph from Middleburgh as follows: Volunteers who wear shoulder decorations often are on the too-exacting side, becoming slavish imitators of the more martinet disciplinarians. Let this story be told to lord Kitchener's credit, though it may surprise many. A certain yeomanry commander, whilst on parade, rated his men in unmeasured terms. Nothing was right, in his judgment, that the troopers did. They sat their horses wrong, they moved unlike machinery, etc., and were "no better than a d— rabble," "a lot of gutersnipes," etc. "That," said lord Kitchener, who came up, "is not the way to address men. They are not a d— rabble, but soldiers, and to be spoken to as such. No troops can be trained in that fashion, and the commander who does not respect his men is unable to lead them." The whole force heard the observation, and the men were as decorously elated as the yeomanry officer was crestfallen. Lord Kitchener said no more openly on parade but he took that overstrung gentleman aside and read the "riot act," or what stands for it in military phraseology, to him in such severe fashion that he will never forget the lesson.

THE PEOPLE'S PROOF

Want anything stronger to convince of the merit of any article in daily use than the unsolicited testimony of the people who've used it? The

Souvenir Range has all Canada to its back in testifying to its merits in everything that goes to make it the most perfect stove in the world of stoves to-day—and the army of "Souvenir" owners recruits by the thousands every year. Would that be the case if it had not been proven "the best by test"—for appearance—for durability—for convenience—for up-to-dateness in appointments—improvements—economy in fuel and general good service as a heater, cooker and baker? If you're thinking of a new range question yourself a bit—then put the "Souvenir" to the test. Sold everywhere. One will last a lifetime.
