Won't Meet Till Fall.

WASHINGTON, July 21.—The return from Alaska of senator Fairbanks, head of the American section of the Anglo-American commission, has brought to a decisive issue the future of this body, not only as it relates to the Alaskan boundary, but the entire scope of the work.

Already it is assured that the commission will not resume its sessions at Quebec on the 2nd of next month, to which time it had adjourned, but that its re-assembling will be in the late fall if the negotiations reach such a stage that the continuance of the work of the commission seems desirable.

An Enormous Cargo.

CHICAGO, July 21.—The new schooner Manila has delivered a cargo of iron ore at the Illinois steel company's furnaces on the Calumet that exceeds by many tons all previous cargo records of lake ships. On a draft of eighteen feet fore and aft, the Manila loaded 7,300 gross tons of ore. To this may be added one per cent. for moisture in the ore, making the total weight 7,373 gross tons, or 8,110 net tons. The largest previous cargo was loaded into the schooner Fritz of the Bessemer fleet. That was 7,030 gross or 7,952 net tons of ore. The Manila's cargo exceeds this by 158 net tons.

Did Not Fall Over Sword.

NEWPORT, July 21.—Chauncey M. Depew was asked about the published story that he had recently appeared at a state concert in England in conventional dress, knickerbockers, silk stockings, boots with buckles, and a sword, which owing to his inexperience, tangled itself with his legs and kept him jumping in a lively way to avoid a fall. The senator set up a roar of laughter that might have been heard a mile away. When he was able to speak he said: "Well, that's rich. But you may say that the story is all bosh."

Fire In Smith's Falls.

SMITH'S FALLS, July 19.—This morning about 2:30 the rear of G. F. McKimm's beautiful residence on Water street was discovered to be on fire. An alarm was sent in from the box nearby, but the apparatus worked imperfectly as it very very often does. Before the flames were subdued the rear part of the house was considerably damaged.

A Pension Provided.

PEMBROKE, July 21.—Robert Gordon, Westmeath, one of the veterans of the American civil war, has received word from the pension department at Washington that his claim for a pension had been allowed. Mr. Gordon, who served in the Kentucky infantry during the war, will draw $10 per month with two years' back pension.

The promotions were made according to seniority and regardless of political views. The appointments to vacant guardships have not yet been made.

It is officially announced that Christopher Robinson is to replace Thomas Conley as tailor instructor.

This afternoon warden Platt called before him the guards stated for advancement to ask if they had decided to accept, and if so they were to be sworn in at once.

Not Well Advertised.

Inspector Behan, of weights and measures, drove between two and three hundred miles through the country during the past week and saw only two or three bills advertising the Kingston fair. Something better than that will have to be done, or, coupled with the light financial response by the merchants, the fair cannot be much of a success.

Plunkett Greene Weds.

LONDON, July 21. — Harry Plunkett Green, the well-known baritone, and Gwendoline, daughter of Sir Robert Parry, director of the Royal college of music, were married yesterday. Prof. Hubert Herkimer was the best man. Among the guests were Mary Anderson Navarro and Mme. Valerie White, the song composer.

To Drop The Trading Stamps.

The city grocers met last evening to discuss trading stamps. All present, and that means the majority, decided to drop the stamps at a certain date. In the meantime the grocers not present will be requested to do likewise. Next week the grocers hold another meeting.

The local public schools have never had so fine an appearance as they will present when the repairs, now going on, are completed. Cataraqui school, in particular, will look very fine. The children will scarcely know their renovated day home.

DRIVEN OUT BY MOSQUITOES.

People of an Idaho Town Forced to Flee to The Mountains.

BOISE, Idaho, July 21.—According to a story from American Falls, a Snake river town, the people there are being driven from their homes by mosquitoes. Swarms of the pestiferous insects, rivaling in size and persistency the product of New Jersey, make life there unbearable. People are leaving for the mountains as fast as possible in order to escape absolute torture.

Sunday an attempt was made to hold divine services, but the mosquitoes broke up the meeting, preacher and congregation fleeing from the building covered with white spots.

It is reported that a babe left alone for a short time was almost devoured by the morquitoes, being so badly poisoned that it may not live. Drugs have been laid in vain, and the people have determined to take to the mountains until the pests leave.

Rain Wanted In Cuba.

HAVANA, July 21.—Throughout Cuba the lack of rain in usual quantities is causing much delay in the maturing of crops, particularly sugar. A majority of planters are preparing a large acreage of fall planting. Frequently the rainfall is heaviest in the months of September and October. Seemingly tobacco is a drug on the market. Large quantities of last season's crop remain in the hands of buyers, who have been unable to find purchasers at profitable prices. This condition is unexplainable. The tobacco is of good quality and the market is supposed to be short, owing to the small quantity grown on the island in the last few years. Santa Clara reports the greatest drought in eighteen years.

Big Breweries In A Combine.

MILWAUKEE, July 21.—A big brewery deal that will involve an expenditure of more than $100,000,000 is said to be on, the western end of which is being worked from this city.

It is said the deal will include all the larger breweries in Wisconsin outside of Milwaukee, and that large breweries have been taken in, in Cincinnati, Buffalo, New York, New Orleans and some other eastern and southern cities.

Fatal Quarrel At St. Johnsville.

LITTLE FALLS, July 21.—Raymond Cunningham and Floyd Nellis, employees of the Lion knitting mill at St. Johnsville, had a quarrel at the mill on Monday. Cunningham threw a pair of large shears at Nellis. One blade pierced his abdomen and penetrated the intestines. He died yesterday and Cunningham will be arrested.

THE MOTION DEFEATED.

Conclusion of the Preferential Trade Debate in the Commons.

OTTAWA, July 20.—For the first time this session the house of commons held a morning sitting to-day, and from now until the business of the session is concluded the house will sit in the morning, in addition to the regular sitting, which commences at three o'clock on six days of the week. The time of the house was occupied until ten o'clock in the evening with the debate upon the motion offered by Sir Charles Tupper in reference to preferential trade with Great Britain. A division was taken at that hour and the motion, which was moved as an amendment to the motion to go into supply, was defeated by a majority of thirty-six.

At 10:15 the house went into committee and passed a small item of $5,000 without delay. At 12:30 o'clock the second item, $10,000, for erecting a wharf at Bruce Mines, was passed after motions to strike the items out and making it imperative for the work to be done by tender had been voted down. The item of $40,000 for improving the channel at Burlington was then taken up.

By a vote of thirty-six to fourteen the senate this afternoon killed the redistribution bill. The division was on strictly party lines, with the exception of senator de Boucherville, of Quebec, who voted with the liberal minority. The result of the vote was, of course, no surprise to the government, whose members were well aware of the probable issue since Sir Mackenzie Bowell moved his amendment declaring that the bill was inadvisable at the present juncture, and that the principle of decennial redistributions should be adherred to. The vote simply means that the members of the senate hold that the commons of Canada are not competent to regulate their own affairs.

Town Attracted Lightning.

ANDERSON, Ind., July 21.—Huntsville, the Indiana town built on alleged magnetic iron ore, has been torn to pieces again by an electrical storm and one death—that of Mrs. James Rogers—resulted.

The town is a small one, just south-east of this city. It has been the mark of lightning each year. Every great storm is certain to centre its worst bolts at that point. For many years the reason was not plain. Since it has been discovered the population has steadily declined. It was once one of the most important country settlements in eastern Indiana.

Mattachich Takes An Appeal.

VIENNA, July 21.—Ex-Lieut. Mattachich, the former friend and "protector" of princess Louise of Coburg, daughter of king Leopold of Belgium, has appealed against the sentence of six years' imprisonment passed upon him by the military court for forging the signature of crown princess Stephanie of Austria to obtain money with which he settled some gambling debts. The appeal will be heard behind closed doors.

To Build A Cottage.

OTTAWA, July 21.—The grand lodge of masons considered a motion that $7,000 be appropriated out of the asylum fund for the erection of a cottage in connection with the Gravenhurst sanitarium. The suggestion was left to a committee composed of the mover and seconder, grand master, grand treasurer, J. Ross Robertson, R. T. Walkem, Kivas Tully, W. Gibson and judge Harding.

Bull Kills Former Senator.

YORK, Pa., July 21.—Ex-state senator Gerard C. Brown was last evening gored to death by a ferocious Alderney bull in his barnyard near Yorkan, this county. He was dead when found, and a gash on his leg, a severed artery and the bull's bloody horns and feet attested the cause of death.

THEY

HAVE RISE SION OF

Now Engaged in Driv Sent Among Them were Fighting in Island of Panay.

MANILA, July 21.—The South Camarines, and Nor provinces have sent agents to ask American aid against the Aguinaldo and his Tagal rebels.

The natives of the provinces nam risen against the Tagal garrisons, Aguinaldo has quartered upon them. eral sharp fights have occurred in that gion, between the natives and Aguinaldo troops, who have been forced to concentrate to escape total defeat.

The natives of the provinces complain greatly of the oppression of Aguinaldo, whose officers have usurped their local governments and generally conducted themselves in a despotic manner. The natives say they prefer American rule to that of the Tagals, and pledge allegiance to the United States, if troops are sent to them.

Albay and the Camarines provinces are situated in the extreme south-east of the Luzon. The people are mostly Visayans, of the same race as those of Negros, Cebu and Panay, and differing in speech and manners from the Tagals of Central Luzon. The reported revolt against Aguinaldo in these provinces is another proof that the rebel leader represents only a part of the people of even the Island of Luzon.

News has been received here from Gen. Smith, at Iloilo, Island of Panay, of a severe fight on Wednesday at Boboong between Capt. Byrne, of the 16th infantry, with seventy-five men, and a force of 450 Babylones, who surprised the American troops.

One hundred and fifteen of the enemy were killed, as is shown by actual count. Many were wounded and one was taken prisoner. The American loss was one killed and one wounded.

The fighting was mostly at close quarters with bayonets and clubbed guns. A considerable stock of supplies and arms have been captured by Capt. Byrne, who is in command of the battalion operating at Lacarlota in the district of Negros.

Lieut. J. Moore, of the Iowa regiment, shot himself yesterday while temporarily insane.

Struggled And Killed Her

CHICAGO, July 21.—Richard former policeman, was killed in house and it was supposed that committed suicide. His wife said that he was accidentally killed in a st gle with her. She says that she w awakened about six o'clock by a slight noise and found her husband standing over her with a revolver. Fearing that he was about to kill her, she seized the weapon, and a struggle for its possession began. It was discharged, the ball entering Powers' left side and inflicting a fatal wound.

Great Auk's Egg Sold.

LONDON, July 21.—The sensational sale of a great auk's egg, the property of baron d'Hammonville, took place at auction. Although disfigured by a small crack, the egg fetched 300 guineas, which is the record price for an egg. The purchaser, a hotelkeeper named Middlebrooke, having a small museum in his hotel in Regent's park, already has three auk's eggs therein.

Student Suicides By Agreement.

BERLIN, July 21.—A twenty-year-old medical student has killed himself in Grunewald forest, near Berlin. He left a letter hinting that the act was the result of what the newspapers call an "American duel." It is said his fate was determined a month ago, and his time had expired. The Lokalanzeiger says he associated mainly with foreigners.

Many See Balloonist Die

CLEVELAND, O., July 21.—S. H. Hawkins, an aeronaut, was killed in a balloon ascension at Euclid Beach park last evening. After ascending 300 feet he was knocked from the trapeze, and fell to the ground, receiving injuries from which he died an hour later. The accident was witnessed by nearly 1,000 people.

Shot By His Friend.

WINDSOR, Ont., July 21.—While attending a celebration in Michigan last week, Roy Bayley, a well-known young Woodslee man, was accidentally shot in the stomach by a revolver in the hands of a friend. He was brought home and everything possible done for him, but yesterday he died from the effects of his wound.
