FOUND OUT

A good many ladies have found out that our Cloth Jackets, in addition to being up-to-date in style and finish, are decidedly lower in price and better value than those shown in Dry Goods stores. Our specialties being Furs and Mantles enables us so to concentrate our energies on these two lines that, as a rule, we are able to offer a little better article for a little less money than our competitors. No use quoting prices until you see the goods, but we do say that our New Cloth Jackets at $4.95, $5, $6.25 and $7.85 are unsurpassed in this city for style, materials or price.

TWO WIVES WANT DIVORCE

From Marriages Alleged To Have Been Made With Same Man.

WATERTOWN, Nov. 2.—Action has been commenced in legal procedure to annul the marriage of Charles L. Turcott of Baldwinsville and Miss Helen Mereness of this city. As already reported, Turcott goes to the Monroe penitentiary for petit larceny alleged to have been committed in this city. G. H. Cobb has been engaged in behalf of Turcott's young Watertown wife. Mr. Cobb will be the next district attorney, and it is expected that when Turcott's term of servitude expires, four months from now, the latter will be arrested on a charge of bigamy.

Testimony has been presented to justice F. H. Hiscock on the part of Mrs. Grace Turcott of Baldwinsville, who is said to be Turcott's wife No. 1, for a divorce from him.

RUSSIA HAS DECLINED

To Support France in the Fashoda Affair.

EQUIPPING NAVAL BASES.

SUPPLIES GOING TO MALTA AND GIBRALTAR.

England's War Preparations Continue Unabated—Same Can be Said of France—A Junior Lord of the Treasury Says France Will Recall Marchand—Flagship at Esquimalt Sails To-day Under Sealed Orders—Object of French Hatred

LONDON, Nov. 2.—The Berlin correspondent of the Standard says: Russia has declined to support France in the Fashoda affair, fearing that a re-opening of the Egyptian question would interfere with her tremendous task in China.

Speaking at Fulham yesteaday William H. Fisher, M.P., a junior lord of the treasury, assured his hearers that France had resolved to recall the Marchand expedition from Africa. He added that he had seen the despatches and that his information was authentic. Mr. Fisher presumably made his statement with lord Salisbury's knowledge. If so it is remarkable that the first official announcement of the withdrawal of the expedition should have been intrusted to a minor member of the government speaking on an unimportant occasion.

A reporter of the Daily Telegraph questioned Mr. Fisher as to the accuracy of the report of his speech at Fulham. Mr. Fisher replied that the report was entirely misleading. He denied saying that he had seen the despatches announcing that France would recall the Marchand expedition. Whether purposely or carelessly, however, there seems to be little doubt that Mr. Fisher allowed the news of the actual facts to leak out.

VICTORIA, B.C., Nov. 2.—Preparations incident to the crisis between Great Britain and France over the Fashoda question continue at Esquimalt. All the men are aboard ship, and shore leave is but a memory. The flagship has completed coaling and will have completed provisioning to-day, when she is expected to sail. Admiral Pallister is to leave Esquimalt harbor under sealed orders. Work is being rushed on H.M.S. Leander, and it is said she will be despatched southward accompanied by the torpedo boat destroyer Virago, which has long been out of commission. Her sister destroyer, the Sparrow Hawk, and the sloop of war Icarus, the Pheasant and Virago are to remain on the station. While this move southward to the French Pacific colonies is thought by many to mean a descent on those islands should war be declared, it is conceded that it is also a defensive move, there being several French warships in the southern Pacific, which, in the event of war, would do considerable damage to the British possessions in the south.

LONDON, Nov. 2.—The Paris correspondent of the Daily Mail says: France will retire from Fashoda unconditionally, and without asking compensation. Baron De Courcel, whose term as French ambassador in London expired long ago, but who has held on to conduct negotiations effecting Egypt, will now be recalled; and no haste will be shown to appoint his successor, with a view of marking French resentment at the British action, for England has almost taken the place of Germany as the object of French hatred.

A Would-Be Imbecile.

LONDON, Nov. 2. The Paris correspondent of the Times says: Baron De Courcel gathered from a conversation held after the last British cabinet council that lord Salisbury's attitude has undergone a change, the British premier insisting that it was impossible to disregard public opinion in England, and nothing could be done until Fashoda was evacuated. So far as French public opinion is concerned, there is not the slightest idea of going to war for Fashoda, and any government doing so would be regarded as a government of imbeciles.

The Daily Graphic says this morning: We learn from official sources in Paris that Capt. Baratier bears instructions to major Marchand to return to Fashoda and then to withdraw his expedition in the direction of the Upper Ubangi river, evacuating Fashoda and the five posts established east of the frontier indicated in the Anglo German agreement. The Egyptian government will be invited to send troops to accompany major Marchand as he retires from Bahr El Ghazel territory and to re-occupy the posts as they are evacuated by the French officers, thus solving the difficulty concerning major Marchand's re-victualment. When Marchand's retirement is fully accomplished negotiations, based upon proposals by baron De Courcel to Great Britain, will be opened. Great Britain is disposed to recognize frankly that the re-conquest of Omdurman completely changes the situation as it existed when Marchand was instructed to proceed to the Nile.

The French government will even state that had Marchand been aware of the khedival advance he would not have pushed his mission so far east. These intentions have not yet been officially imparted to Great Britain but they probably will before Marchand's evacuation commences.

The war office has issued a semi-official notification in which it says it does not object to the papers announcing military and naval preparations in general terms but points out that it would be unpatriotic to publish specific details that might be useful to a possible foe.

There is no noticeable cessation in England's preparations and the officials are confident of the country to meet all emergencies. There were large shipments of guns, shells and war stores to Malta and Gibraltar yesterday.

The despatches from France announce equal activity at Toulon, Brest, Marseilles and elsewhere.

The Rome correspondent of the Daily Chronicle says that France is making great preparations at Bizerta, about forty-five miles north west of Tunis. Guns and munitions of war arrive daily and men are strengthening the forts, working day and night. The object is said to cut communication between Malta and Egypt in the event of hostilities with Great Britain.

LONDON, Nov. 2.—Without going so far as the Daily Graphic, all the special despatches from Paris to the morning papers indicate that the solution predicted by the Daily Graphic will be the one finally reached, and that even should France sulk diplomatically no further serious consequences are anticipated. It is not believed, however, that France will pursue the useless course of leaving her embassy in London vacant.

PLEBISCITE VOTE.

Majority Estimated At Over Thirteen Thousand—Analysis Of The Vote.

OTTAWA, Nov. 2.—The clerk of the crown-in chancery has received all the returns and completed his calculations regarding the recent vote on the plebiscite. The majority for prohibition is 13,884.

The total vote polled was 543,041 out of a total vote of 1,233,849 on the lists. Of this only twenty per cent. was recorded in favor of prohibition.

The number of votes on the list at the last general election under the old dominion lists was 1,368,786. By provinces the majority for stood as follows: Ontario, 39,225; Nova Scotia, 29,216; New Brunswick, 17,335; P.E.I., 8,315; Manitoba, 9,412; British Columbia, 983; Northwest, 3,414, making in all a majority of 107,899.

Then in Quebec there was a majority against of 94,015, which deducted from the majority in the other provinces, leaves a net majority of 13,884.

By provinces the percentage of the prohibition vote to the total on the lists has been: In Ontario, twenty-seven per cent.; Nova Scotia, thirty-four per cent; New Brunswick, twenty nine per cent; Prince Edward Island, thirty seven and a half per cent; Manitoba, twenty-five per cent; Quebec, eight per cent; British Columbia, sixteen per cent, and the north-west territories, twenty seven per cent.

SPAIN TO MAKE A SCENE.

She Will Likely Decline to Accede to the States' Demand.

PARIS, Nov. 2.—Referring to Monday's meeting of the peace commission the Matin says that it is easy to forsee what the Spanish reply to the United States demands will be—a refusal precisely and formal. The Spanish plenipotentiaries, the paper continues, have made up their minds, in the event of the United States attempting to the Philippines, to decline signing the act of peace, to break off the negotiations and to call upon the civilized nations to witness the abuse of force to which they will be subjected, and the violation of the provisions set forth in the Washington protocol.

ACCEPTS THE DAKOTA MISSION.

Dr Edsall Will Be Missionary Bishop Of The State.

CHICAGO, Nov. 2.—Rev. Dr. Samuel C. Edsall, rector of St. Peter's Episcopal church, has decided to accept the missionary bishopric of North Dakota proffered to him by the Episcopal convention held recently in Washington. Dr. Edsall says he will remain rector of the church which he founded until a date in January yet to be fixed, when the consecration will take place. Dr. Edsall hopes this ceremony will be held in St. Peter's church. Bishop McLaren probably will be in charge. The new bishop will make a trip to North Dakota within two weeks to look over the field.

Head And Body Living Separately.

CITRA, Nov. 2.—Citra has a curiosity. It is a decapitated insect, diabolus. He entered the parlors of Mrs. E. L. Wartman, and Miss Yancy, the principal of the public school, with sharp scissors, clipped his neck about midway between the head and the corslet. Twenty hours later his body was walking leisurely up and down the marble furniture. His head was lying near by, and, while not possessing the wherewith to navigate either fore or aft, or alongside of its larger half, appeared to roll its eyes about. The latest reports indicate no change.

Commissioners At Washington

WASHINGTON, D.C., Nov. 2.—Sir Julian Pauncefote, accompanied by lord Herschell, and Sir Richard Cartwright, of the Canadian commission, called at the state department yesterday and were met by Gen. John W. Foster, Mr. Karson and secretary Anderson, of the American commission. With the approval of the absent members on both sides the commission adjourned to meet on November 16th, it appearing that some of the Canadian commissioners would be detained in Ottawa awaiting the arrival of the new governor-general.

Papers Closed Out: Editors Punished

YOKOHAMA, Nov. 2.—The Japan Herald says: A Pekin despatch under date of October 16th, states that in obedience to the order of the empress dowager, the publication of newspapers and periodicals in various parts of the country has been prohibited, and the editors have been severely punished. The Herald says also that England accepts the railway between Tien Tsin and Shan Hai Kwan, besides the mines in the vicinity as security, instead of the new Chwang Shan Hai Kwan railway, and adds that Russia has expressed her assent to the proposal.

There Is No Rupture.

LONDON, Nov. 2.—A Philipino, who has represented Aguinaldo, the insurgent leader, in London and who has been with Agoncillo, Aguinaldo's delegate, in Paris, has just returned here. He asserts that the American peace commissioners have informed the Spanish commissioners that the latter must complete their work this week. He further says Agoncillo has received a cable despatch from Aguinaldo denying the reported rupture between himself and the Philippine leaders.

Dryden Elected.

OSHAWA, Nov. 2.—After one of the most keenly contested elections ever held in South Ontario Hon. John Dryden has carried the day and the permanence of the Hardy administration is placed beyond dispute.

The latest returns give Mr. Dryden's majority as 124, with two places to be heard from.

A Disastrous Season.

GLOUCESTER, Mass., Nov. 3.—The past fishing season has been very severe on the fleet. The reckoning for the year is fourteen vessels lost, eighty-two men drowned, thirty-two wives widowed and fifty five children made orphans. The losses will approximate $200,000.

The men of the schooner J. F. Willy, from Jacksonville to Martinique, which was dismantled and water logged, existed for twenty five days on raw fish and sea grass before being rescued by a sponge steamer.

It is not often that a contributor to a magazine spends five millions of dollars in fitting himself to write knowingly of a subject. But that is, approximately, the sum Joseph Leiter expended in acquisition of information necessary to prepare the article in November Cosmopolitan on "Wheat." This is Mr. Leiter's first appearance in literature, but he handles the pen with a bold, firm hand that shows him a man of resources.

E. F. CLARKE, M.P., RESIGNS

On Request of An Assurance Association—Petitions Dismissed.

TORONTO, Nov. 2.—The exports for October, 1898, from the port of Toronto amounted to $805,145, as compared with $558,308 for October, 1897. The increase was mainly in animals and their produce and in agricultural products.

The free imports for October were $850,693, as compared with $644,442 for October, 1897.
