

Comedian Jeff McEnery wants his hometown's vote

Canada's fastest rising comedy star Jeff McEnery of Acton has advanced to the semi-finals of SiriusXM's Top Comic competition, where they scour Canada in search of comedic talent.

An online vote determines eight finalists who will then perform live at the SiriusXM's Top Comic Finale during JFL42 on Oct. 1. A panel of judges will select one winner to be crowned SiriusXM's Top Comic. The winner

will receive a \$15,000 cash prize, their own show at the 2016 JFL42 and a televised gala during the 2016 Just For Laughs Comedy Fest.

On why his hometown should support him, McEnery says, "Well, my Aunt Deb is probably my biggest fan. She works at the Sobeys in Acton and knows everyone in town so if I don't win, expect to hear an earful from her the next time you try to order a pound

of black forest ham. If I do win the \$15,000 though, I'm going to get Mr. Kovich, the most beloved teacher in Acton District High School history, the hair plugs he so richly deserves.

"If people could take the time to vote for me at <http://topcomic.siriusxm.ca/comic/jeff-mcenery/> (<http://bit.ly/1Jh5Zs0>), I'd really appreciate it. You can vote once a day until August 14th. Thanks so much,"

said McEnery.

McEnery has recently been nominated for Best Male Stand-Up at the 2015 Canadian Comedy Awards. He is a writer on the CBC's current hit show *Still Standing* starring Jonny Harris.

NOTICE OF FILING OF ADDENDUM

Relocation of the Zone 4 Reservoir (Trafalgar Road and No. 5 Side Road, Town of Halton Hills)

Halton Region completed the Sustainable Halton Water and Wastewater Master Plan Class Environmental Assessment Study in 2011. The purpose of the study was to develop a Region-wide water and wastewater infrastructure strategy to service growth in Halton's urban areas to 2031, based on the approved 2011 Best Planning Estimates. One component of the preferred water servicing strategy included the need for a new water storage reservoir (Zone 4) on Trafalgar Road (350 metres south of No. 5 Side Road) to provide water storage for Milton and North Oakville service areas.

Since the 2011 Master Plan document was completed, additional water infrastructure has been constructed within the service area and staff has undertaken additional technical review of the proposed water level at the Zone 4 Reservoir based on the water system response. To mitigate the potential for future customer concerns related to water pressure, the water level for the Zone 4 reservoir was re-evaluated and a new alternative site location has been recommended as illustrated in the map (approximately 1000 metres further north of the site chosen during the original 2011 Master Plan).

Halton Region has completed a report for the Addendum to the Sustainable Halton Water and Wastewater Master Plan – Zone 4 Reservoir (the Addendum Report), which documents the basis for the changes and the revised recommendations. **The Addendum Report** is available electronically at halton.ca/2011MSP. The Report is also **available during the review period from Thursday, August 6, 2015 to Friday, September 4, 2015 at the following locations:**

Regional Municipality of Halton
1151 Bronte Road, Oakville
Citizen's Reference Library
Monday – Friday:
8:30 a.m. – 4:30 p.m.

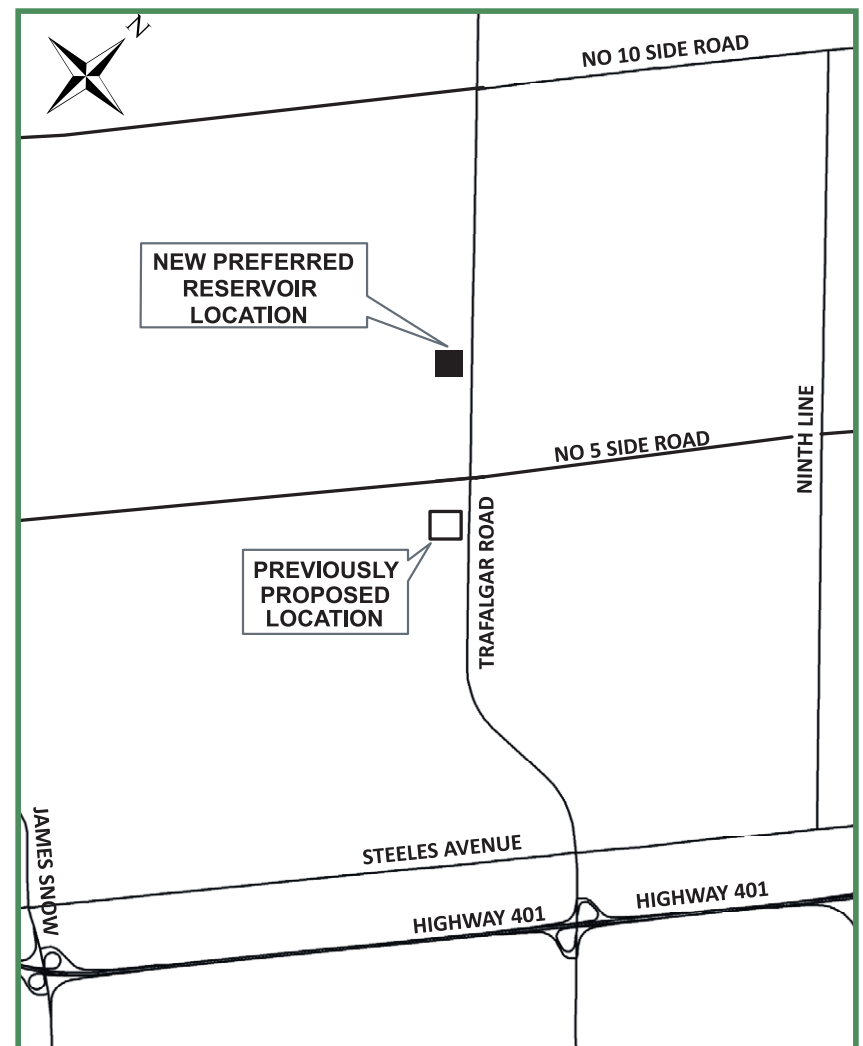

Town of Halton Hills
1 Halton Hills Drive,
Georgetown
Clerk's Department
Monday – Friday:
8:45 a.m. – 4:30 p.m.

Town of Milton
150 Mary Street, Milton
Clerk's Department
Monday – Friday:
8:30 a.m. – 4:30 p.m.

Subject to comments received as a result of this notice, Halton Region intends to proceed with the implementation of the design and construction of the Zone 4 reservoir project as documented in the Addendum Report.

If after reading the Addendum Report, you have questions or concerns, please contact:
