CITY AND VICINITY

FAST TRIP.—The Robt. Dowd, which arrived here to-day, passed through the Welland Canal, drawing 12 feet and 10 inches of water.

RELIGIOUS SERVICE.—Mr. Charles A. Counter, "Canada's Own Orator," will deliver a religious address in the Park on Sunday afternoon at three o'clock.—*Advt.*

SALE OF FURNITURE, PIANO, &C.—Mr. J. E. Hutcheson has received instructions from Dr. Snodgrass to sell all of his household effects on Tuesday, Sept. 25th, of which due notice will be given.

ATTEMPTED BURGLARY.—On Thursday night a couple of burglars were busy at the Grand Trunk depot. They made a raid upon two houses, but seem to have confined their plunderings to the eatables and drinkables.

A SMART RUN.—Yesterday morning, when up-bound express had passed Ernesttown, the engine broke loose from the train and ran about four miles before the matter was noticed. This little accident delayed the train an hour and a half.

POISONING.—When Mr. English and an assistant descended into a well on the Storrington Road, yesterday morning, they were nearly poisoned with the gas which they inhaled, and which had accumulated in the bottom during the night.

ASSEMBLY.—Last evening the Young Earls Base Ball Club held their assembly in the City Hall. The attendance was good, and the best enjoyment was realized. Riley's quadrille band supplied the music. The party broke up about 2 a.m.

SUNDAY SERVICE.—Rev. Joshua Dyke will preach at both services in the Primitive Methodist Church. Mr. Dyke is recently from the west, and has never preached here. Rev. Mr. Jolliffe will be away, preaching missionary sermons on Collinsby Circuit.

THE 22ND.—The Maud will make a trip to Brockville on the 22nd, (next Saturday) when the Conservatives will hold a demonstration there. A large number should go from here, since the attraction will be considerable and the fare will be only twenty five cents.

FIRE.—Yesterday some boys set fire to the fence running on the other side of the Brannigan pasture, and between the Montreal and Forty-foot roads. Several feet of fencing were burned, but the fire was discovered before it had extended too far and done very much damage.

NEW PROFESSORS.—A cable despatch was received by the Militia Department, Ottawa, yesterday, stating that Captains Oliver and Walker sailed in the Allan steamship Sarmatian, for Canada, to assume positions as professors at the Military College at Kingston.

A PRETTY SCENE.—Last evening the steam yacht Ariel (A. Malone's) and band of Garden Island cruised about our harbour. The steam yacht had in tow about a dozen skiffs and row boats, all of which carried coloured lights, the effect being as pretty as it was novel.

CHECKER CHALLENGE.—Mr. Landy, of Belleville, writes us that he is ready to accommodate Mr. Kelly any time he wishes to play a challenge series of games of checkers—that he has been out of town and did not see the notice of Mr. Kelly printed in the WHIG of the 11th. "Speak now," Mr. Kelly.

POLICE.—Thomas Murray, drunk and disorderly, were dismissed.—Michael Dunn, a bad case, was fined $5 and costs or 3 months. Several cases of forestalling were up, and most of the defendants were fined.—John McKenzie, for stealing tools, was committed to stand his trial.

THE PRIMITIVES.—The Newburg *Reporter* has a very interesting sketch of the Primitive Methodist Church of this city. Our contemporary speaks in the highest terms of the present improved appearance of the Church, and also of the friendly and eloquent pastor. The kind words are well spoken.

STEALING PLANKS.—Complaints are made that planks are being stolen from the sidewalks on Division street, in Frontenac Ward. This is serious business. With the planks out accidents are liable to occur, for which the city will be held responsible. The repairs should be made at once, and an enquiry made for those who commit the offence.

WIND WAFTS.

—The thermometer indicated the temperature to be 85° in the shade.

—The contract for the K. & P. RR. Madawaska branch will not be given out until the next regular meeting of the Board of Directors.

—The Deaf and Dumb Institute has opened with an attendance of 182 pupils.

—The Rev. Mr. Tighe, of Newboro, has been appointed by the Bishop of Ontario to the mission of Franktown.

—About 8,000 bushels of barley have already been shipped from Napanee, destined for Oswego.

—*Spec*: Kingston and St. Thomas are to have lager beer breweries. Is this the Rhine movement?

—The next annual Convention of the North American St. George's Union is to be held at Guelph.

—Last Thursday while Mr. James Culhane, of Napanee, was foraging for duck and coot, he shot a young eagle, which measured five feet six inches from tip to tip of its wings.

—Since Mr. Walkem has attended the Provincial Synod he has received the prefix of "Rev." We cannot say whether the title was conferred upon him by the Church or the reporter; at all events this comes of mixing with the preachers in solemn conclave assembled.

—The *News* says that in connection with the unearthing of two skelestons at Tete de Pont Barracks a metal button was found. That's quite natural. The bones were those of an Indian, but the winding sheet in all likelihood partook of a soldier's coat, the outer apparel, it may be, of some luckless militia man who suffered a scalping at the hands of the red men. You don't believe it? Well, we're not particular.

THE PHYSIOGS.—These unknown and terrible individuals held a meeting last evening in the hall of the I.C.B.U. The attendance was very large. Various matters were talked over, and then an adjournment took place until Tuesday evening, when the final arrangements for a public display will be made. The physiogs intend to turn out for certain, but they will not be riotous or disorderly, and intend to be law-abiding. They have a full knowledge of the provisions of the by-laws. They propose to have their fun, but the public or any particular individual need not apprehend anything but civil and respectful treatment.

A TAX CASE.—Mr. William David writes us a letter concerning a city tax case, which we cannot publish. The point seems to be that David's goods were this year to be placed under distress warrant for the taxes of 1876, but upon his paying under protest the amount and full costs of actual seizure with 5 per cent. added as the city's claim for non-payment before February, the distraint was waived. Now David sues for the amount of costs and the five per cent extra tax, on the ground that no tax bill was left at his place of business. The case was laid over at the Division Court this week to be tried summarily by the Judge, to which David makes strong objection as not giving the publicity desired.

COURSE OF SERMONS.—The Rev. W. W. Andrews, from Hartford, Conn., will preach in the Catholic Apostolic Church, Queen street, on Sunday, Monday, Tuesday and Wednesday evenings, at 8 o'clock on the following sermons:

1. Is there to be a second personal and bodily coming of our Lord Jesus Christ?
2. What is he to do at His coming?
3. Is His coming near at hand?
4. How is the Church to be prepared for His coming?

"DAILY BANNER."—We have received the initial copy of the new paper started in Ottawa called the "Daily Banner and Protestant Vindicator." We don't want to discourage the promoters of such journalistic enterprise, and yet we can't help remarking that it must be more respectable looking if it is intended to accomplish any particular good in the world. At present it is a very wretched looking sheet.

RINE MOVEMENT.—Mr. D. I. K. Rine has made a good beginning in Belleville. He held his first meeting there on Thursday evening, and succeeded in getting over two hundred signers to the pledge. As we said before, Belleville presents a fine field for the work of such a man, of which statement his success at the start is ample and convincing evidence.

PROBABILITIES for the next twenty-four hours for the lower lake region: Falling barometer, moderate to fresh southeasterly to southwesterly winds, increasing cloudiness at night and possibly rain by morning. For the St. Lawrence: Moderate southerly winds and clear to fair weather. For the Maritime Provinces: Moderate winds and fair weather.

WHEEL WITHIN A WHEEL.—It is the Napanee *Beaver* which reports this: "Mr. Madden, of the Kingston Road, is the happy possessor of a compound egg, which consists of an egg of abnormal size, the yolk and white of which encloses another, with shell and contents perfect. Nothing but a Madden-ed hen would be capable of a freak like this."

COURSE OF SERMONS.—Rev. W. W Andrews, of Hartford, Conn., will preach a special course of sermons in the Catholic Apostolic Church on Sunday, Monday, Tuesday and Wednesday evenings. These sermons deal with the personal and bodily coming of our Lord, His mission, whether His coming is near at hand, and whether the Church is prepared for that event.

MASONIC GRAND LODGE.—The newly elected members of the Board of General Purposes are R.W. Brothers D. Spry, Toronto; Jas. Moffat, London; J. E. Harding, St. Mary's; David McLennan, Hamilton; John Walsh, Ottawa; T.C. Macnabb, Chatham; Jas. Bain, Toronto; Donald Ross, Picton; P.J. Brown, Ingersoll, J.P. Wilson, Fonthill.

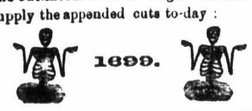
HUMANITY'S RELICS.

When we wrote of the unearthing of the bones of two human beings in the Tete de Pont Barracks we had no idea that at one time in the eventful history of Kingston the site of old Fort Frontenac had been used as the last resting place of the red men who held, prior to civilization, undisputed possession of the country round about. One of the oldest inhabitants has turned up, and given us some enlightenment on the subject. He says that some time in the latter part of the last century the property now covered by the Barracks, the street and the block through which the K. & P. RR. runs was one large burial ground, an Indian cemetery where the remains of many braves were laid awaiting a call to the spirit land. This was apparent years afterward, when, in excavating for the buildings erected on the plot of land in question, bones were raised to the surface. The dusky sons of the forest had also a burial place in the flat below the quarry, at the intersection of Montreal and Bay Streets, when was still in use when the great mind of some military genius planned the building of the old block house which surmounts the hill at the present day. In those days there were few silver mounted coffins, few casings even of pine slabs and iron nails, hence it is not surprising that the bodies have been found without a vestige of wooden covering. But it is hardly to be expected that even the remnants of coffins could be found after the lapse of such a period, and it is remarkable that the bones have remained so complete and in such good condition. As pioneers of a new country the Indian tribes of earlier days must have had a very hard road to travel. They had not the same avenues to follow and the same means of reaching individual and personal distinction as we have; and after a flourish among wigwams and the bearer of glories which satisfied their ambition, in quiet dignity, but without the pomp and superficial nonsense of modern society, they were shrouded in the clay, and the joints of an occasional body are their only footprints in the sands of time.

In order that the patrons of the WHIG might readily comprehend the situation, our artist took sketches of the bones as they lay in the ground, and from this sketch an engraver spent last night and consumed a gallon of coal oil in tracing the outlines so that we might be able to supply the appended cuts to-day:



The corpses lay in beauty side by side and appear to have been twins—at all events the bones looked exactly alike. The one on the left hand had his breast bruised, the indenture being made by one of the workmen with his pick before the debris had been removed and the grinning skeletons were exposed to view. The posture of the bones may also excite remark, the hands taking the position of an awkward piano player. Why they were thus spread out of course we can never tell. As it is, our artist is deserving of great credit for the faithfulness of the production.

Convicted.

Our readers remember the exploits of Garrison Terry, who stole a yacht from the Bay of Quinte, near Wellington, with several half barrels of fish, and who was subsequently picked up opposite Cobourg by the schooner "Emu" and carried to Cape Vincent, from which place he sailed for Kingston. But en route here he sold the boat at Wolfe Island, and on arriving here entered the hospital. Later still a constable from Picton arrested him for the larceny, and the *Gazette* tells the rest: He was elected to be tried summarily before Judge Jellett, and was brought up for trial on Friday last, and convicted. He was sentenced to a term of two years' imprisonment in the Penitentiary. Constable Grinmon took him down to Kingston on Monday last. Terry is an old offender, having only been liberated in June last from the above institution for horse-stealing. He served for a time in the 100th Regiment, and received his discharge from the Regiment in Malta, in consequence of the disease with which he is affected—St. Vitus' Dance—having rendered him unfit for service.

Committed.

This morning John McKenzie was before Ald. McIntyre, J.P., charged with the larceny of a quantity of plasterers' tools from Mr. Britton's new building. He denied all knowledge of the theft, and still insisted that the articles were given to him by a man who was supposed to be the second thief, and who was followed to Gananoque. This latter theory has proven incorrect, however, by the finding of the balance of the tools in the yard of Mr. R. M. Horsey, Princess street, by a boy this morning. They were not there yesterday, and must have been thrown over the fence during the night. They are believed to have been purchased by some one, who, fearing trouble, took this means of disposing of them. McKenzie was committed for trial. The owners of the tools and P.C. Gray were quite justified in going to Gananoque, McKenzie alleging that he had a partner who had gone on, and people by the way describing a person whose looks were suspicious, and who carried luggage which had the appearance of being stolen goods.

The Physiogs.

THE EDITOR OF WHIG.

SIR,—That refined twain, your correspondent "Pliny" and the "Daily News," may have good ground for their notions of the absurdity of the Physiog display, soon about to occur evidently, but are they not counting too surely on police interference? If memory serves an old physiog aright, I can say that these once harmless parades were participated in with zest by the Police Magistrate as well as by ex-Mayors, Aldermen and police officials of the present day. Knowing the amusement which processions afforded—and people have to be absurd at times to amuse others—they will not, I venture to say, be eager to interfere with the Physiog turn-out, provided the revellers conduct themselves without plainly offensive demonstration and do not stoop to ask or accept money from the much-pitied but hale and sprightly old benedicts.

WILL CURE CONSUMPTION.—To all suffering from the following diseases a ray of hope is offered through the kindness of a missionary friend who has sent me the formula of a purely vegetable medicine which has long been used by the native medicine men of Hindostan:—for the positive and radical cure of Consumption, Bronchitis, Asthma, Catarrh, Dyspepsia, Throat and Lung difficulty, General Debility, Loss of Manhood and all nervous affections, its nervous affections, its power has been tested in hundreds of cases without a failure. I now feel it my sacred duty as far as possible to relieve human misery and will send the recipe, FREE OF CHARGE—to any person who may desire it with directions for using. Sent by return mail by addressing with 2 stamps naming this paper, Dr. O. E. Brigham, Drawer 28, Utica, N.Y.

☞ Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. Ordinary prudence therefore makes it the business of everyone to take care of a cold until it is got rid of. Fortunately Bryan's Pulmonic Wafers are thoroughly adapted to remove speedily all coughs and colds and are equally effective in the primary stages of consumption, asthma and consumption. Sold by all medicine dealers at 25c per box.

Mitchell's Belladona Improved India Rubber Porous Plaster.

There never has been a time when the healing of so many different diseases has been caused by outward applications as the present. It is an undisputed fact that over half the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch; which, when scientifically compounded, is full of electricity, and when combined with the pure medicinal gums, is found to be one of the greatest healing mediums ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they have ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one is applied the patient will feel its effect.

They possess all the soothing warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of Rheumatism, Tic-doloreux, and various other pains in the Kidneys, Breast or Side, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for weak backs, pains in the side and breast, and are invaluable to those who have a cold, of long standing, and often prevents consumption. Some even tell us they believe they were entirely cured by the use of them of a long-seated consumption.

Prepared by GEO. E. MITCHELL, Lowell, Mass. Sold by all druggists.

PETITT'S EYE-SALVE.

An Infallible Remedy for all Diseases of the Eye (acute or chronic), Granulation of the Lids, Ulceration of the Lachrymal Glands, Film, and Weakness of the Vision from any Cause.

THE AMERICAN EYE SALVE is presented to the public with the assurance of its efficiency as a curative of most diseases of the eye, acute or chronic inflammation, whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a diseased state of the tissues constituting that organ. Also for all persons whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, where weakness, pain and misery may have long threatened a fatal termination. It is the most simple, safe and effectual remedy ever discovered; the materials of which it is made are pure, perfect and costly, compounded with elaborate care and exactness, safe in its application, being used externally, and of course, avoiding the pain and danger which necessarily attends the introduction of caustic minerals and eye-washes. Ringworm and Old Chronic Sores, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE-SALVE. IT IS USED SUCCESSFULLY FOR PILES. Its soothing effect is immediate and a permanent cure requires but a few applications. The proprietors of DR. J. PETITT'S AMERICAN EYE SALVE, while making new and improved machinery for making a perfect box for the Eye Salve, have changed the Trade Mark on the cover so as to correspond with the Cut on the wrapper, circulars, advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.
