Daily British Whig.

TUESDAY EVEN'G, OCT. 9, 1877.

☞ Yorkst 3 o'clock 102

Splendid Worstea Coats at $8; Beautiful Tweed Pants at $3; a handsome Blue Black or Brown Overcoat at $7 at A. A. LEVEY'S Clothing Emporium, Wellington Street.

CITY AND VICINITY

GOOD.—A letter from Mr. Rine, received to-day from Ottawa, records the fact that 2,100 signed the pledge at Ottawa.

RINE MEETING.—The several Committees of the Rine Concert will meet in the WHIG office this evening. Full attendance requested.

MARINE.—The only vessels passing through the Welland Canal yesterday for Kingston were the Augusta, Toledo, Kingston, timber; G M Neelon, Toledo, Kingston, timber.

KING STREET.—The water table at the Custom House is stopped up, which has caused the flood of water on the street of which Alderman Walkem last night complained.

TEMPERANCE.—Dr. Cadieux has intimated his readiness to return to Kingston during the present month, if desired, and lecture on temperance from a scientific standpoint. The offer may be accepted.

POSTPONED.—The Rine Temperance Concert, on Garden Island, has been postponed until next week, Saturday being inconvenient for the readers, singers and players to absent themselves from the city.

KINGSTON PRESBYTERY.—This evening the regular meeting of the Kingston Presbytery will be held in Belleville, for which place the interested clergy of this city and vicinity left to-day. A number of important matters are to come before the meeting.

THE MYRTLE NAVY.—Messrs. Tuckett & Billings make so good a tobacco that they have difficulty in guarding the Myrtle Navy against imitations. The public can always be sure of the right solace by seeing that "T. & B." is upon each plug.

NOT SPECULATIVE.—The farmers are not very rash at accumulating land this year, no matter what their custom has been in the past. Two farms were set up at auction on Saturday under fore closure of mortgage, and were withdrawn at the reserved figures.

PHYSIOGS.—The final turn out of the Physiogs will take place on this night week. On the past two occasions the displays were all weddings and matrimonial merriment; on the coming occasion it will be all sadness and sorrow, burying and mourning.

COUNCIL.—The very night above all others when a quorum was least expected—storm of last evening—brought together a fuller meeting of Council than we have seen for a long time. And the business was done harmoniously, and an adjournment was made in gentlemanly hours.

FOUND.—A young lady left a kid gauntlet at this office this morning. The owner can have it on paying for this advertisement, or he can leave the other and receive our thanks. The city arbitrators are prepared to sit and value the odd member at any moment.

THE GALE.—There was no abatement in the gale until an early hour this morning. Some apprehension was felt for the safety of marine property, but we are glad to say no damage was locally felt by the blow. The velocity of the wind, for the 24 hours ending 11 o'clock last night, averaged 22 miles an hour.

INCREASED SALARIES.—The Council last evening adopted Committee recommendations respecting the salaries of the city officials. Advances have been made to the Treasurer and City Clerk for additional labor imposed upon them, and a bonus has been granted to the City Solicitor for extra legal service rendered during the past year.

ABSURD LEGISLATION.—An extract of a by-law, passed by the Police Commissioners and relating to cabmen, was read in Council. It was said to have been adopted by the Commissioners in August, but was to take effect in May last past. Is that legal? We are not lawyers, but common sense leads us to pronounce this a most absurd piece of legislation.

MONUMENTAL.—Two fine monuments have been erected in Cataraqui Cemetery—one for the deceased members of Cataraqui Masonic Lodge, of Kingston, ordered by the Lodge; the other being the handsome stone in the memery of the late Dr. Botts. A beautiful monument is being prepared in tender regard for the late Mrs. G. A. Kirkpatrick.

DIVISION STREET.—There has been a good deal of haggling over the propriety of removing a stone house on Johnson street, which stands on the line of the new opening and extension of Division street. The residents of the vicinity desire the street to be straight and without jog, and so down the house must come, though the procedure will add about $3,000, the Mayor says, to the cost of improvements.

PROGRESSING.—The K. & P. RR. having erected the railway turning table in the city, the next business-like move is to call for tenders for the construction of an engine house. The Mayor made a report to the Council last evening as to his opinion of the new Madawaska branch, being one of those who recently viewed it in company with the Board of Directors.

TRANSIENT TRADING.—The Council last evening gave their by-law relating to transient trading another reading. It will likely become law. The measure is not designed to affect local trade in any particular, but to abolish the peddling system, from which the city has suffered very largely in the past. This catchpenny business is a delusion and a snare, and should not be allowed.

WIND WAFTS.

—The Rine men cannot work City Hall meetings without rhino.

—When was Counter's Hotel moved to the York Road?

—Mr. B. M. Britton is conducting the Crown business at the Belleville Assizes.

—The Division Court is sitting to-day in the City Buildings. There are some jury cases.

—The Division Street fire tank is a success. There are eight feet of water in this new reservoir. And it is not a good season for tanks or wells, either.

—The recent advance in the price of kerosene makes cremation rather too expensive for hired girls and washerwomen.

—The secret of running a boarding house profitably is to find out just what your boarders don't like, and then feed em on lots of it.

—It is not often that four of the planets can been seen at one time, as can Venus, Jupiter, Mars and Saturn, early in the evening at present.

—When a man is making love to a widow he always feels just as if he had to begin where the other fellow had left off.

—This is election day in Ohio and Iowa. There are six tickets in the field in Ohio—Republican, Democratic, Greenback, Prohibition, and two Workingmen's tickets. Enough!

—Sealed tenders, addressed to the Secretary of the Public Works, will be received until the twenty-sixth instant, for heating apparatus of new Educational School, Military College.

—Ald. Allen last night called the Royal College a "slaughter house"—a common "slaughter house." This is is simply offal. He enlarged upon the subject, which is open for anatomical dissection.

—A Police Court case is threatened simply because a man who took a first prize at the Central on fat geese had to bear a severe talking to on the market on Saturday from the man who had to fall back on second prize.

—The Dunkin men in Frontenac are of short memory. They are more sadly afflicted than any *Ontario* man. In their serenity of mind it would not be suspected that they ran a printer's bill in their campaign of last September and never paid it.

—Mr. Counter is a conscientious hotel keeper. He could have sold liquor at the Fair yesterday on the sly, but two or three hundred men and many more stripplings went all day without a drop. They took all their wetting out in the rain. It was a solemn occasion.

—Barker's Canadian Magazine of 1846 quotes wood in Kingston market at $1 50 per cord, and it was pretty good wood then. The boys of the office are calculating what Aldermen Campbell and Noble would have saved had they laid up their 1877 wood in 1846. Is there not a Vennor on the wood line?

—Mr. Wm. Lawrance, the Squire of Loughboro, is a champion prize winner. He showed in five classes at the Midland Central Fair, and carried a prize on every article but one. On Saturday he drove back from the Addington Show, at Newburg, with six first prizes, one second and one third prize. He is a successful farmer.

—The Intermediate examinations are very rigid here, as it was seen this week by comparison. Lads who were plucked at the Intermediate here acquitted themselves well in the matriculation examination before Mr. Woods this week, whereas pupils who passed the Intermediate at Pembroke and elsewhere did not do so well.

CATARAQUI.—Last evening Mr. Counter visited Cataraqui and addressed twenty-four persons. It is said Mr. Counter disappointed the majority of those present. They went to hear a touch of the Protection theory, and a word on big turnips, and instead of that they were suffocated with a burst of eloquence on Woman's Rights. Mr. Counter must have forgotten that he was in the midst of married men, and that to talk on such seditious subjects meant another wrinkle in each man's coat tail.

DUELING.—Goodness! We learn that feeling ran so high-toned in a certain direction yesterday that one gentleman actually challenged another to face him as a duelist. We hope the request will not be acted upon—that the devices and customs of the ancients will not be revived. But if there is to be a meeting, better let the reporters know about it, so that the interested friends and acquaintances of the parties may know the full particulars.

CHRIST CHURCH.—Rev. M. Wilson is to be congratulated upon his success in the matter of Church extension. A Kingston gentleman has remitted a cheque for $500, as a payment on the work of building, the total expense of which this generous contributor will bear. On Sunday Mr. Wilson informed his congregation that he fell $200 short of the amount he wanted for the organ and bell ($900) and subscriptions were now being taken to make up this amount.

NAMING THE STREETS.—The City Council is disposed to bring in a by-law providing for the naming of the streets, and the numbering of the houses. The streets should undoubtedly be named, and no common daubs of pine planks should be used either, but as for the numbering of the houses it will be a nice ordinance which will compel people to do that satisfactorily; indeed it can never be done rightly until the city is more compactly built.

COMFORTABLE.—Seats have been erected by the Corporation at the cab and cart stands for the benefit of those who frequent such places. The Council is becoming very considerate, and the cabbies and carters should be grateful to the Aldermanic Board in consequence. But there will never be any real satisfaction until each man's share of the seats is marked off and his name nicely painted on it.

STREET RAILWAY.—Two cars have been taken off the Street Railway in consequence of a slight decline in the traffic. The time between each car is consequently prolonged.

LITERARY MEETING.

There was a respectable but not a large audience present last evening at the Y.M.C.A. Hall, the inclemency of the weather keeping many from attending. The Rev. R. V. Rogers read a very instructive paper on "The Present Aspect of the Jews." He commenced by speaking to young men, because they were strong, and because they would be called to take an active part in the work of the future, whilst those who were old will soon be at rest from their labours with the beloved one they had carried to his rest that afternoon. He asked them to inquire what God's designs were. That He has some grand object in view is shewn in His care and preservation of the Jews, as a distinct people, at the time of the Babylonish captivity. The Idumeans were carried away by the same conqueror, but were never returned to their native place, while the Jews enjoyed the privilege of living 500 years in their own land. The disciples asked our Lord "When shall these things be?" and what were the signs of His second coming? So are we encouraged to search and enquire. The world to-day is full of signs. The land of Palestine has been prepared for occupation by its original people, and the present complications of the East have but one natural explanation, the return of the Jews. The spirit of prophecy pointed to our land as having an active part to take in sending them back, and statesmen for 40 years had had it under consideration. A change is necessary in the rulers of the East, and it will be accomplished at the proper time, for what are thought God's delays do not arise from neglect. The Lord will arise to help the Jews when they take pleasure in the stones of Jerusalem; and were the present restoration a felt necessity they would soon see praise in the earth. The destruction of Antichrist was contemporary with the Jewish restoration as a part of God's designs. Then nothing can interfere with this being accomplished. What is the present state of the Jews and their land? It is in possession of a nation that was thought to be living on sufferance, but has of late shewn wonderful vitality. Are the Jews fit to take the place of the present rulers among the nations? What they have been they still are, ready, waiting for some movement, standing aloof from others. It is worthy of note that during the 19th century God is fitting this people for the occupation of Palestine. Some of our ablest statesmen, men of wealth and of scientific attainments, were Israelites. A London writer says the Jews have emerged from obscurity during the last fifty years. The face of Europe has changed. America has been much altered, and God has changed many kings and Governments. The awakenings to spiritual life, which are taking place everywhere, are signs of Christ's coming. The Palestine Exploratory Society are doing much to prepare the way for the return of the Jews. The prejudices that formerly existed are giving way. No other nation could occupy Palestine as well as the Jews. They would make no common nation, and why should not Christendom be anxious for their restoration? The most glowing pictures of the future are connected with this restoration. A nation born at once is not an every day sight. What other nation can occupy it with the same advantage? Eleven millions of Israelites would form a power not easily to be put down, with the guarantee of the other nations for their protection; and with such statesmen as Bismarck and Disraeli, who are of Jewish descent, they would take a high stand among the Governments of the world.

Y. M. C. A.

The usual weekly literary meeting was held in the rooms last night Mr. Hobart in the chair.

The meeting was opened with the usual devotional exercises, after which Rev. Mr. Rogers gave a very interesting account of the present state of the Jews and their speedy restoration to Palestine, at the conclusion of which Rev. Mr. MacKay moved, and Mr. Macalister seconded, a cordial vote of thanks to the worthy lecturer, which was carried unanimously.

Mr. J. E. Clark moved, and Mr. MacKay seconded, a letter of condolence to be sent to the widow and children of the the late Dr. Mair, which was carried unanimously.

A Committee was appointed to arrange about the social and the annual meeting.

Also a report was handed in about a boys' meeting, which was decided to be held on Saturday night, from 7 to 8, the first meeting to be held Saturday, Oct. 20th.

Arrangements have also been completed for giving instructions in writing to young men free of charge.

After singing the doxology, and the benediction being pronounced, the meeting separated.

MARINE NOTES.

—The barque British Lion, ashore at Long Point, is full of water, and may be a total loss. She was one of the late Captain Gaskin's staunch old craft. She had coal on board from Ohio to Brockville.

—Schr American, 1,800 bush to Kingston, has left Chicago.

—At Milwaukee the schr Mary Battle has been taken at 8½c for wheat to Kingston.

—At Chicago there have been taken for Kingston, schooners Tecumseh and Lawrence, wheat at through rate, schr D Lyons, wheat at 9c.

CUSTOMS' CHANGES.—Mr. T. Robinson has been removed from Folger's wharf, and Mr. T. Meagher has been placed in his stead. We also learn that an Inspector, connected with the Customs' Department, has been here since Saturday, investigating the complaints that have been made by the *Irish Canadian* and *True Witness*, in regard to the Murphy removal in routine service.

RE-APPOINTMENT.—To day Mr. S. Woods received from the Registrar of Toronto University an official notification of his being selected as examiner in classics for the year. His discharge of the elevated duties last year seem to have given eminent satisfaction.

CITY COUNCIL.

A Quiet, Active Session.

The regular meeting of the City Council was held last evening. The Mayor occupied the chair, and the following members were present: Alds. Allen, Asselstine, Campbell, Carson, Drennan, Gaskin, Harty, Metcalfe, Mooers, McCammon, McDermott, McIntyre, McRossie, Noble, Pense, Walkem.

The minutes of the last meeting were read and confirmed.

TAXES.

A letter was read from H. Cummings, relating to taxes.—Referred to the Court of Revision.

CABMEN'S BY-LAW.

Col. Hance, Chief of Police, submitted an extract of a by-law passed by the Board of Police Commissioners relating to the licensing of the cabmen. It amended the old by law by reducing the license fee to be paid annually by the cabmen to the city, from $8 to $4, and was alleged to have taken effect on May 1st last past.

Ald. Allen questioned the right of such a document being read in Council. He protested against the Commissioners making any reductions in the revenue of the city during the present hard times; and especially did he protest against the Commissioners assuming to meddle in municipal matters. If the Commissioners did undertake to legislate for them the Council should acknowledge no such interference. He looked upon the proceedings as farcical.

The Mayor—Give me a resolution.

Ald. Allen—No, I will not; it is out of order.

The Mayor—So are you.

Ald. Allen—I say the matter is out of order.

The Mayor—The Council has not declared it so.

Ald. Allen said he did't care; the communication should be sent back to the Commissioners with all due respect to the Mayor as a member of that Board. He wanted the Police Commissioners to mind their own business, and he would endeavour to mind his while in the Council. He would not move a resolution that was not called for.

The Mayor said the only object the Commissioners had in bringing the by-law before the Council was to show that they were carrying out the request conveyed to them by the Council. He did not think Alderman Allen meant all he said, and—

Ald. Allen—Every word of it.

The Mayor, continuing, said that when the Commissioners did anything affecting the finances of the Council they had a right to report, since the Council only were the guardians of the people's money. It was at the wish of the Council that the Police Commissioners undertook to adjust the license question.

Ald. Allen repeated that the Commissioners should not have touched the by-law, and that they were not justified in making any reduction on the assessment of any class of the community.

The Mayor—The Council did it, and there was not a dissenting voice.

PETITIONS.

Ald. Allen—The petition of Mrs. Ann McNinch and Johnston Ort, to the effect that they had notified the Mayor in 1875 that unless the main drain on Princess street was continued to the wharf their premises would sustain great damage from flooding; that their cellars were now inundated with sewerage, and asked that the case be enquired into and a remedy granted as soon as possible.—Referred to the Committee on Streets to report.

Ald. Allen, in pointing out the defective drainage, stated that the case was rendered the more aggravating by the location opposite the petitioners of a slaughter house, the offal of which ran into the drain intersecting that complained of.

The Mayor—Slaughter house! Where?

Ald. Allen—Opposite Mrs. McNinch's; and in my opinion a thing of the kind should not be allowed to exist in the locality. Nothing was killed in the house he spoke of, but dead bodies were cut up after they were killed somewhere else. (Laughter.) The nuisance connected with the affair ran into the drain and made the neighborhood scarcely habitable. He wanted it removed to a more secluded part of the city, and he called upon the Mayor to see that his complaint was acted upon.

Ald. Drennan remarked that when the big drain was being built he had expressed the opinion that the work would never give proper satisfaction until carried to the lake, and he entertained a similar opinion still.

DIVISION STREET.

Ald. Asselstine—The petition of James McCammon and seventy-one others, praying that the McLeod stone house be removed, and Division Street extension be run perfectly straight.

Ald. Asselstine, seconded by Ald. Carson, moved that the prayer of the petition be granted.

Ald. Carson made a long speech in favor of the motion.

Ald. Allen did likewise; but he went further; he went vigorously for the city officials, upon whom he laid the responsibility of not having several public improvements made as they were ordered. He advocated the removal of the McLeod building and the making of the street straight even if it did cost more.

The Mayor mentioned that when several of the Council inspected the locality the other day, the majority were not in favor of removing the stone building; and he ventured the remark that many of those who signed the petition did not care whether the house was demolished or not. He assured Ald. Allen that the new streets were being opened as quickly as possible. Arbitration was slow business.

Ald. Drennan went for pleasing the petitioners, who were directly concerned in the results. The city only paid one half the expense; the residents paid the other half.

Ald. McCammon thought it the duty of the Council to carry out the desires of the petitioners.

Ald. Walkem said a by-law had been passed regarding the opening up of Division Street, and it must be obeyed until altered or repealed. It was not a question of expediency at all. The only thing for them to decide was as to the manner they should treat the petition. It called for nothing which was not provided in the by-law.

Ald. McIntyre expressed a similar opinion. The by law said the stone house must come down, and that should settle the dispute.

The Mayor gave it as his belief, that the extra expense to the city, by complying with the by-law, would amount to about $3,000.

Ald. Metcalfe advocated a removal of the building. He did not think the outlay would be $3,000 additional.

Ald. Dupuis had not particular leaning personally, but if the people wanted the building demolished it should come down.

The matter here suddenly dropped, but it is understood that the by-law shall be carried out in its entirety.

TAXES.

Ald. Mooers—The petition of Henry Robinson in regard to taxes.—Referred to the Court of Revision.

LICENSES.

Ald. Allen—The petition of William Rees, asking for a reduction in his license fee, as hotel keeper, he having suspended business several months during the past year, while engaged in building.—Referred to the Court of Revision.

FINANCE.

Ald. McIntyre presented the report of the Finance Committee, recommending the payment of the following: J. Tait, tank, Division street, $196.50; W. Young, broken stone, $7.50; W. Goodfellow, well, park, $50; G. Brown, broken stone, $15; Dr. Dupuis, medical examination, $5; *News*—office, printing, $233.70; Power & Son, $13.17; M. Claxton, two crossings, in Sydenham Ward, $23.33; J. Cunningham, drain, Victoria Ward, $30; Oldrieve & Horn, flag, hay market, $3.50. On the petition of William Allen, on the subject of law expenses, in re Rees v. Allan, the Committee recommended that the City Solicitor be allowed his disbursements only by the city, Mr. Allen being released from costs by Mr. Agnew in this case. Mr. Minnes, the Collector of Taxes, had made his return of the Collector's rolls for 1873. The Committee reported this, and also the fact that the Collector has furnished a statement, showing the amounts still due for the years 1874 75-76 as follows: For 1874, deducting the remissions by the Court of Revision and uncollectable, $686 20; for 1875, deducting remissions made by the Court of Revision, and those placed in the hands of the City Solicitor for collection, and amounts uncollectable, $1,028. [Since this statement was made the sum of $122 88 has been paid in for 1874; for 1875, $142,90.] For 1876, the amount outstanding as per Auditors' report submitted, is $5,826.39. Although the Collector has not performed all he promised to do with reference to his returns for the years named, the Committee consider that he has done tolerably well, considering the hard times and the scarcity of money, and he now promises to make a final return of the rolls for 1874, '75 and '76 before the 31st of December, 1877, and to collect and pay in to the Treasurer, from the present year's rolls, the sum of $50,000, before the expiration of the year.—On motion of Ald. McIntyre the report was adopted.

RESCINDED.

On motion of Ald. McIntyre, seconded by Ald. Drennan, the resolutions relating to the Collector of Taxes, passed at the time of his reappointment, were first reconsidered and then rescinded by the Council.

STREETS AND IMPROVEMENTS.

Ald. McRossie handed in the report of the Committee on Streets and Improvements. On the petition of G S Hobart, Mrs. Ann Aston and W B Follest, referred to them, they directed the Engineer to report to them, which report they have not yet received. On the communication of G W Leslie, proposing to furnish the names of streets and numbers for the houses, the Committee recommended that steps be taken to bring about such a result. On the petition of Joseph Forsythe, praying for a drain on Colborne street, the Committee had received tenders for it and recommended it to be built, Mr. Forsythe paying for it now, but the cost to be taken out of next year's ward appropriation, after deducting the usual frontage.—On the petition of Samuel Marshall, asking for further consideration in the opening of Upper George street; the Committee reported that the examined it and found that it had been travelled many years ago, hence they recommended that no time be lost in opening it up. The Committee found that they had a much larger quantity of stone on hand than they had funds appropriated for, and they recommended that the metal be distributed over the several streets requiring it, and that the cost of spreading it be charged against the appropriations for next year, said stone to be carted by the Corporation horses only.

Ald. McRossie moved the adoption of the report.

Ald. Drennan asked if the last clause was in order? The charging of any expenditure against next year's appropriations?

The Mayor said the stone was paid for, and it was simply a matter of spreading the metal on the streets.

Ald. Drennan said the stone should be distributed then, and they should meet the expense this year.

Ald. McCammon shared the sentiment expressed by Ald. Drennan.

Ald. Walkem thought the motion out of order. At the same time he proceeded to reflect very severely on the judgment and indifference of some one for not seeing that the metal was laid down properly on the streets, and the roadway rightly formed. He charged that the work was done without supervision, and hence a great deal of money was simply wasted.

Ald. Drennan said part of what Ald. Walkem now complained of was occasioned by the street railway, the management of which, however, was compelled to keep the centre of the street in good repair.

Ald. Walkem replied that he had reference to places unaffected by the Street Railway.

THE ENGINEER.

The Mayor asked why the pay list had not been presented for the past fortnight?

Ald. McRossie—Because the City Engineer had not been at his office during the past week. He had sent for him several times, but had failed to see him.

The Mayor—And who's attending to his business?

Ald. McRossie—Mr. Clancy is doing as well as he can. But I have sent for another gentleman, Mr. Coverdale, to attend to work which can not longer be neglected.

Ald. Carson suggested that the Committee on Streets should be called together at once, and if they found Mr. Innes incapable of attending to his duties he should be dismissed and a competent person appointed in his place. The Committee should not be asked to shoulder blame which properly belonged to the office of the Engineer.

UPPER GEORGE STREET.

The Mayor said if there was to be any expense attending the opening of Upper George Street an appropriation should be made for it.

Ald. Allen—There is no expense but the removal of a fence, unless the action of the city is resisted, and then the Solicitor should be empowered to employ forcible means.

The report was carried.

SALARIES.

Ald. McIntyre presented the report of the Committee to which was referred the consideration of the recommendations made as to salaries in the budget, recommending the adoption of these suggestions as follows, excepting that applying to the City Clerk, which the Committee recommended as follows:

Chamberlain	$1,400
Allowance to Assistant	400
City Solicitor	600
" Bonus this year	300
City Commissioner	200
Architect	100
Auditors	600
Assessors, (3 at $220 each)	660
Messenger	400
Caretaker of Clock	40

The Committee suggest, in regard to the City Clerk, that in consideration of the additional duties imposed upon him by the Legislature, it is expedient that he should procure assistance in future. To enable him to do so they recommended an increase similar to that made to the Treasurer. Relative to the Auditors the Committee recommended that the increase to them be paid on their auditing the rolls as finally returned by the Collector.

Ald. McIntyre moved the adoption of the report, and in doing so made many complimentary allusions to Mr. Flanagan, who had served the city as Clerk for over thirty years, and had discharged the duties of his office so faithfully and so well. He referred to the great labor he was now required to do in justification of the increase which had been recommended to be made to his salary. The other recommendations had been discussed at the time the budget was brought down.

Ald. Allen had nothing to say against the increase to Mr. Flanagan, but he certainly thought some of the others were not worthy of such consideration. He regretted that Mr. Flanagan should be connected with them, because he was made the scape goat to carry away their sins.

Ald. Walkem endorsed all that had been said of Mr. Flanagan, and he added his testimony of that official's efficiency. As to the Solicitor he thought he had rendered the city such signal service during the past year, as to fully entitle him to the reward that had been recommended.

The report was passed.

POLICE COURT.

Ald. Drennan referred to certain changes which had been made in the Police Court, respecting which he had not been consulted as Chairman of City Property.

The Mayor said they were of trivial moment, and he had told the Chief of Police that they could be made. They would not cost more than $6 or $7.

THE K. & P. RR.

The Mayor said he had recently accompanied the Directors of the K. & P. RR. over the road, and especially over the new Mississippi branch. The road seemed to be a good one. A turning table had been erected and a station was being build a short distance from the present terminus. The country appeared to be good, and he believed there was business in store for the railway. That is judging from the present surroundings. He entertained the idea that ere long the bonus of $300,000 given by the city, would be more than repaid by the traffic which the line will bring about.

Ald. Campbell.—It is paying the city back at the rate of $50 a day in cordwood alone.

Ald. Drennan.—$300 a week!

HOSE BURST.

Mr. Youlden, engineer, Fire Department, reported one length of suction hose of the steamer Merryweather to be rotten and useless.—Referred to the Committee on Fire, Water & Gas with power to act.

The Mayor said a new length would cost $55.

REQUISITIONS.

Mr. Devlin, Chief Engineer of Fire Brigade, reported the necessity for the overhauling of the Hook and Ladder apparatus. He also suggested the advisability of purchasing two small Babcock Fire Extinguishers, which would have been found very valuable at the last two or three fires.—Referred to the Committee to report.

COMPENSATION.

Ald. Metcalfe, seconded by Ald. Pense, moved that $50 be granted Samuel Marshall in compensation for the removal of outbuildings, &c., in giving way to the opening of Upper George street.

The Mayor said he would have to declare the motion out of order until he had opportunity to consult the City Solicitor.

Ald. Metcalfe withdrew the resolution.

TRANSIENT TRADERS.

Ald. Walkem introduced the Transient Traders By-law, which received another reading.

The Council adjourned at 9:45.

EPPS'S COCOA—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*—Sold only in Packets labelled, "JAMES EPPS & CO., Homœopathic Chemists, London."

Cut this Out.

IT MAY SAVE YOUR LIFE.—There is no person living but what suffers more or less with Lung Disease, Coughs, Colds or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. Dr. A. Boschee's German Syrup has lately been introduced in this country from Germany, and its wonderous cures astonishes every one that try it. If you doubt what we say in print, cut this out and take it to your Druggists, Heath & Gonn, or Wade & Cornell, and get a sample bottle for 10 cents and try it, or a regular size for 75 cents.

A CARD.

TO all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. The great remedy was discovered by a missionary in South America. Send a self addressed envelope to the Rev. Joseph T. Inman, Station D, Bible House, New York City.

Second Brewing now Out. Quality Guaranteed. Can be supplied in Wood or Bottle.
