CITY AND VICINITY

THE BAZAAR.—The ladies' sale of fancy goods will be continued this evening in St. George's Hall, which will be open from 7 until 10 o'clock. There will probably be an auction of the balance of the goods at the close of the private sale.

THE ASSIZES.—Mr. Britton is ably conducting the Crown business at the Cobourg Assizes. Mr. R. W. Barker, P. O. Inspector, is attending the Cobourg Assizes, having been subpoenaed to give evidence in the case of post office robbery at Colborne.

THE DAY OF REST.—Henderson supplies us with the October number of "The Day of Rest." The readings and engravings are very good indeed, and for fireside or Sunday entertainment fills a place in the estimation of the reader peculiarly its own.

QUESTION.—The Newburg *Reporter*, in noticing the marriage of an acquaintance, says "he left the ranks of single wretchedness to try a more enjoyable field and explore the mysterious secrets of connubial bliss." The *Reporter* man is given to that kind of joking, just as if marriage was anything to joke about.

PROBABILITIES for the next 24 hours: For the lower lake region, moderate to fresh north easterly to south easterly winds, cloudy to rainy weather. For the upper St. Lawrence, moderate to fresh north easterly to south easterly winds, fair to cloudy weather, with rain areas.

NEW GUNS.—Referring to the recent competition of the Dominion Artillery Association the *Canadian Illustrated News* says that the Government has purchased ten rifle guns, sixty-four thirty-two pounders, on the Palliser principle, which are mounted on the rock fortress guarding the gate of Canada (Quebec) and ten more are intended for Kingston, the key of Ontario.

THAT HORRID GIRL.—Mr. Robertson, of the Toronto *Telegram*, is winning a reputation as the publisher of popular books, as well as a popular newspaper. He has given the public the benefit of a cheap series, including 'My Mother-in-law,' 'That Husband of Mine,' 'They all do It,' and 'The New School Ma'am,' and now he issues 'That Horrid Girl,' which seems to having a larger run than any of its predecessors. Sold by Henderson.

THE "EYE GLAWSE."—Aw, yes, the "eye glawse" is very fashionable, by jove, you know. They are such elegant things to squint through, and give the head a professional slant that is positively bewitching. Yes, we repeat, next to woollen stockings and scimp knickerbockers give to us the elastic string and eye "glawse," and the world may rest assured that we are not of the commonalty, and that our brains are not all encased in the head.

A MONUMENT.—The irrepressible E. Sills, of Picton, calls upon the "great conglomeration of nationalities making up this Canada of ours, which is a contributor to that great artery reaching to the throne of England and sustaining it," to erect a monument to the U. E. Loyalists. E. Sills may mean well, but unless he manages to keep steady it is possible some patriotic soul may be calling upon the "conglomeration of nationalities" to erect a monument to his memory.

THE CONCERT.—To-morrow evening the Cricket Club concert will take place in the City Hall. The programme is very enticing, including, as it does, the best musical and literary talent in the city. Mr. Morrison will read "The Death of Marmion" and "The Long Headed Laddie," the latter being the piece read by the same gentleman at the banquet in Ottawa, on the occasion of Mr. Mackenzie's return from Scotland, and now repeated here by request.

A BREAK DOWN.—Last Saturday morning the County Inspector of Schools had a bad break down, when visiting the schools in the rear of the county, in the township of Oso. In driving over the rough roads, which are a trifle worse than Union Street, his carriage broke down, and the Inspector was tossed out and considerably hurt. But the accident had one good effect. It detained him at Sharbot Lake, and permitted him, wounded as he was, to participate in the festivities of the railway magnates.

MILITARY COLLEGE.—Attention is directed to the kind and favourable words written of the Military College by the Governor General, and published in another column. We are glad to see His Excellency's opinion so pointedly expressed, as the institution deserves all the compliments that have been passed upon it. The next entrance examination will take place, at the headquarters of the several military districts, on Tuesday, the 13th of December. We hope by this means the College will receive many recruits.

LIBEL SUIT.—The libel suit of McGreevy vs. Mitchell (*Free Press*) took place yesterday in Ottawa. It will be remembered that the *Free Press* charged Hon. Thomas McGreevy with making a little too much out of contracts. Messrs D. O'Connor and A. Gibb appeared for the plaintiff, and Hon. J. O'Connor for the defendant. Amongst the witnesses was Lieut.-Governor Cauchon. The jury after a short absence returned a verdict for defendant, holding that there was no libel. We are glad to learn of the result, the *Free Press* being a spirited journal which generally acts fairly, and we should regret anything which would even temporarily injure it. Mr. McGreevy has not been hurt so much as his feelings have led him to believe.

WIND WAFTS.

—Frost last night.

—Cricket Club concert to-morrow evening.

—Rine is having great success in Montreal.

—Martin, the Ottawa bank plate forger, has arrived here.

—After all, the real Rine movement is in skinning a ham.

—Two of the Kingston police force applied for the vacancy of Chief in London, Canada, West.

—Rev. Messrs. McCuaig, and T. G. Smith of Kingston attend a tea meeting in Napanee on Tuesday the 23rd.

—Notwithstanding the hard times, the wages of sin have not been reduced one iota.

—Rev. Mr. Barry, who resigned his Church near Ottawa, is visiting friends in Watertown.

—Between $600 and $700 were raised one evening this week, at a meeting in Rome, for the temperance cause. That beats Kingston.

—In a rural newspaper the expression, "The gales filled the streets and man passed to and fro with difficulty," was aptly altered by the accidental dropping of the e in *gales*.

—The Newburg *Reporter* makes mention of a young medical student in Kingston who has an imagination at times given to more extravagant thoughts than the famous King O'Niel. Who is he?

—'*Tiser*: Mr. Plumb's last poetical effort reads like this.

'And conquer we must,
For our cause it is just;
And let this be our motto
'In Sir John is our trust.

"The Tabernacle."

The lecture by the Rev. W. H. Walker, of Stirling, on "The Tabernacle," was delivered in the Baptist Church last evening. The attendance was small. The lecture was illustrated by twelve large paintings, showing the tabernacle proper with its enclosure of fine linen curtains, surrounded at a distance of three quarters of a mile by the tents of the Israelites. The pictures of the pillar of cloud by day and of fire by night were specially fine. While the lecturer showed the picture of the bullock on whose head sins were laid by the hands of the elders of Israel, the congregation sang the beautiful hymn:

"Not all the blood of beasts,
On Jewish altars slain,
Could give the guilty conscience peace,
Or wash away the stain.

"But Christ the Heavenly Lamb,
Takes all our sins away;
A sacrifice of nobler name,
And richer blood than they.

The picture illustrating the Day of Atonement, as described in Leviticus, 16th chapter, brought the proceedings of that day most vividly before the audience. The lecturer showed the connection between Judaism and Christianity, the latter being the substance of which the former was the type or shadow, which prepared the human mind for the reception of higher and more spiritual ideas. He warned his hearers against going back to ritual, and reminded them of the words of the Lord, "The Father seeketh such, i.e., spiritual worshippers, to worship him."

W.C.T.U.

The annual meeting of the Women's Christian Temperance Union was held in the Y.M.C.A. parlour on Tuesday afternoon, Oct. 16th. After the usual opening services office-bearers were elected for the ensuing year and delegates appointed to represent the Union at the Conference to be held in Toronto on the 23rd and 24th inst.

The annual report was read and adopted, a synopsis of which will appear in a day or two. Members will please refer in future to the "Reminders" instead of to the advertisement column for notification of the meetings.

THE MODEL SCHOOL.—The Minister of Education has issued a circular stating that the Model School Examinations shall be held on next Friday or Saturday, the 19th or 20th of October, or on both days. The examinations shall be oral, but the Examining Boards may add a written examination at their discretion. The subjects shall be, the theory of education and the methods of teaching, reading and elocution, mental arithmetic, the school law and regulations, hygiene. It is recommended that, in determining whether a teacher-in-training shall have duly passed this examination, great importance should be attached to the report of the Head Master of the Model School as to the candidate's capacity for teaching, and the use he has made of his attendance at the school.

EASILY REJOICED.—The *Standard* rejoices that the Hon. R. J. Cartwright "is enabled to snatch a brief period of time, a paltry three days from the cares of Government, to tell the electors of that riding what he has been doing since 1874, when they last elected him, and why they should not withdraw their confidence from him." Mr. Cartwright is more solicitous about his constituents than most politicians. He makes frequent visits to Lennox—more frequent than the *Standard* apparently likes—but Mr. Cartwright is a man who frets but little regarding what the *Standard* may think or say of him.

AT LAST.—This morning a long and patient sufferer breathed her last. We refer to the death of the relict of the late Mr. David Fraser. She has been confined to the house, and indeed to her room, for many weeks, and her demise has been contemplated for some time. Her end was peace. To those who remain behind her we tender our most sincere sympathy.

WOLFE ISLAND CONCERT.—It is proposed to hold a concert in the Masonic Hall, on Wolfe Island, on Monday evening week, under the auspices of the Rine Total Abstinence Club. We expect Mr. Rine to return in about a week from this date.

THE WHIG.—Many people fail to realize the proper title of the WHIG. One correspondent yesterday addressed this office as the WIG, but to-day another honoured us by dubbing it the BRITISH WIGG.

WOODS' BOOKS.

"THAT HORRID GIRL."—Mr. Woods, of the Corner Book Store, is very prompt in placing before the public the newest things in literature, and of the many publications of light reading none is more amusing than "That Horrid Girl," of Robertson's cheap series. It is full of happy hits.

BENNER'S PROPHECIES.—An Ohio farmer, Mr. Samuel Benner, has written a book which should occupy a prominent place in the public estimation. It is entitled Benner's Prophecies of the future ups and downs in prices—what years to make money on pig iron, hogs, corn and provisions. The consummation of such an object will be an admitted boon, and just how to figure on what seems an impossibility may be gleaned by a reading of the book, which is published by Messrs. Belford Bros., and is for sale by Mr. Saml. Woods:

"There is a time in the price of certain products and commodities,
Which, if taken by men at the advance, leads on to fortune,
And, if taken at the decline, leads to bankruptcy and ruin."

Military College.

The following was read on parade by Colonel Hewitt, a few days after the Governor-General's inspection of the College. It will speak for and explain itself:

ORDERS BY LIEUT.-COLONEL HEWITT, R.E.
Kingston, Oct. 15th, 1877.

The Commandant has very great pleasure in communicating to the officers of the staff of the Military College, and to the gentlemen cadets, the accompanying letter received from His Excellency the Right Honorable the Earl of Dufferin, K.C.B., G.C.M.G. and K.P., Governor-General of Canada:

GOVERNMENT HOUSE,
Ottawa, Oct, 10th, 1877.

MY DEAR COL. HEWITT,—I must have the pleasure of expressing to you in my own hand the very great satisfaction I have derived from my recent visit to the Military College at Kingston, and I beg to congratulate you most warmly upon the success which has attended your endeavours to organize that most important Institution.

The appearance of the young men was highly satisfactory, and the spirit and alertness with which they went through their exercises bore convincing testimony of the healthy, manly and soldierlike spirit by which they were animated. A finer set of young men it would be difficult to find in any country, while their gentlemanly bearing, pleasant address and courteous manners sufficently indicated the good tone which has already been established amongst them. This latter circumstance has caused me especial gratification, as it is the keystone to the success of such an institution, and is often as difficult to introduce as its converse is to eradicate.

If, however, a high standard of morals and conduct, of honour and professional pride has once been established, the cadets themselves become the guardians of the reputation of their College, and a good tradition is handed down to their successors by each generation of pupils.

Perhaps you will have the kindness to convey to the cadets, and more especially to the officers connected with the College under your command, my best thanks for the pleasure they afforded me, and my warm appreciation of everything that I saw.

Believe me, my dear Col. Hewitt,
Yours sincerely,
(Signed,) DUFFERIN.

Rev. Mr. Grant.

The Toronto *Telegram* adds its testimony in these words: "The appointment of Rev. Mr. Grant to the Principal's chair of Queen's University, is not only a high compliment to the appointee but also a great gain to the institution. The regret expressed at his departure will be matched by the warmth of his reception. He succeeds as good a man as ever filled such a position, and from all that we hear he is well fitted to take his place. Queen's College has a record which any institution of learning might be proud of, and any might regard as the fruition of life's thought and work the occupancy of the Principal's chair.

Coal Oil Refinery.

To-day, pursuant to advertisement, the Distillery and adjacent buildings of the late Mr. Morton were sold by auction. The bidding commenced at $5,000, and the figures ran up to $11,000, at which sum the property was knocked down to Mr. McMillan, of Montreal, who purposes converting it into a coal oil refinery. The purchaser is the same gentleman who lately fitted out the schooner Fanny Campbell here for the oil trade. He is a very energetic and enterprising business man, and he may make his influence felt to advantage in the city. A refinery will employ a large number of men.

THOSE DELAYED MAILS.—We have at last learned something in regard to the delay of the American mail in coming from Cape Vincent. The postmaster at that place occupies about three times the necessary amount of time in the changing of the mail, and in consequence the *Maud* is obliged to wait an unreasonable period before starting from the Cape. Passengers from there and other points, who desire to visit Kingston and return the same day, are loud in their denunciation of this aggravating delay. It should be speedily remedied.

OUR COUNCIL.—At the dinner at Sharbot Lake, in connection with the K. & P. RR. excursion, "the health of the City Council" was proposed by the Warden of the County. Our painter made it the "death of the City Council" which is displaying a spirit of fiendishness more startling than we expected.

SPRINGLESS TRUSSES AND SUPPORTERS. Dr. Hotchkin will visit as follows—
Napanee, Campbell House, Nov 1 and 2. Kingston, City Hotel, Nov 3, 4 and 5. Brockville, St Lawrence Hall, 6 and 7.
Dr. Hotchkin's treatment is practical, rational and economical. Its object is immediate relief and eventual cure. It is based upon scientific principles and easily demonstrated to the comprehension of every intelligent person that a truss without any steel springs or hard substance, having healed inguinal and umbellical as well as varicocele, at the advanced ages respectively from 65 to 95 years, must and will stand the test against all spring trusses. Dr. Hotchkin's post office address is Albion, Orleans Co., N. Y. He has travelled through New York State, and especially through Oswego, Watertown and Ogdensburg, for seven years.

LOUGHBORO SHOW.

A Large Gathering—A Good Display—A Running Race.

The Township of Loughboro Agricultural Society held its annual fair on Friday last at the village of Sydenham. It happened to be one of the "off days" of the rainy season which now rules, and therefore there was a gathering from all the surrounding country of the farmers, and their families. The show was in point of attendance and number of entries superior to any of its local predecessors, and even stock, so poor generally this season, showed up better than ever. The judges did careful work, and gave unusual satisfaction. The President, Col. Wood, and the secretary, Mr. W. D. Mace, worked hard to have everything pass off well. The order kept was excellent.

The interest of the day centred in the races, a sport which Sydenham folks have a special liking for. An exciting running race was contested between Silver's 'Charlie Ross,' Locke's mare, Whitley's mare and Dunbar's horse. Two heats were sufficient to decide the champion. Charlie Ross won both, with Locke's second, and Whitley's third. An unusually pretty trotting race was expected between Mace's horse and Grant's, but as the latter did not at the last moment take the track, a one-sided trot was the result.

The prize list shows the following awards:

CLASS 1—HORSES.

Trotting horse to harness—W D Mace, Daniel Blake.

Stallion—John Freeborn.

Brood mare and colt—W D Mace (sired by Bacon's 'Ethan Allen'), John Kirby, Patrick O'Brien.

Half thousand shingles—James Wood.

On pure imported head of Ayrshire cattle, prize and diploma to Mr. P. W. Freeman. Owing to their being too superior to compete with grades, the Directors allowed an extra prize for them, and they are certainly well worthy of it. Mr. Freeman well deserves a deal of credit for his enterprise in raising fine stock.

THE CATTLE TRADE.—Mr. James McShane, jun., of Montreal, has returned from England, and reports the cattle trade there demoralized. The supplies coming into market have reduced the price and made shipping from this country and the States unprofitable. Mr. McShane complains of the regulations at the ports for landing cattle in England operating detrimentally to the interests of shippers from this country. Sheep are still in demand, and Mr. McShane is sending 600 to Liverpool this week.

Napanee Furniture.

The *Beaver* in its notices of the crystal palace exhibits at the Napanee Fair says: In hardly any department was there a display equal to last year, but we must except Globard & Sons. They had a large space elaborately and tastily ornamented. The floor was carpeted and the walls were hung with upholstering materials and relieved with abundant pictures, brackets, &c. Their furniture display comprised, first, a parlor set in walnut frames, chased and gilt, upholstered with maroon figured rep, with piped backs and gold satin puffings, and finished with gold and maroon gimp and cord with tassels. The frames were also ornamented with French burl, panels polished. The top rail of the back of the sofa was elaborately inlaid with mahogany, maple and ebony. The set is worth $250. Secondly, an ordinary sale set in carved walnut frames and upholstered in brown and crimson rep. Third, a bedroom set in ash, with relieving finish of walnut, dressing stand with gold and ebony drop handles. Fourth, a bedroom set in walnut with polished panels of French walnut; dressing case and stand with marble top and ebony and gold drop handles and polished panels, and a marble top hall rack with mirror in oil finished walnut, with polished panels, and furnished with ornate iron umbrella basin. A luxurious novelty was a rocker, the base frame on castors, in oiled walnut, upholstered with drab figured rep, and cinnamon and satin puffings, the back provided with sensitive springs; a sideboard in black oak, seven and one-half feet in height, with polished burl oak panels, and one mass of beautiful and elaborate carving; a marble top centre table of the Eastlake pattern, in oiled walnut, with polished burl panels. In addition to the above shown a large stock of upholstering goods and trimmings, consisting of reps, brocatelles and terreys, gimps, cords, tassels, etc., manufactured expressly for Gibbard & Son in Manchester, England. Altogether their display was most magnificent and a credit not only to the enterprising manufacturers, but also to the town.

August Flower.

The most miserable beings in the world are those suffering from Dyspepsia and Liver complaint. More than seventy-five per cent. of the people of the United States are afflicted with these two diseases and their effects; such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heartburn, Waterbrash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue and disagreeable taste in the mouth, coming after eating, Low Spirits, &c. Go to your Druggists, Heath & Gunn, or Wade & Cornell, and get a 75 cent Bottle of August Flower, or a Sample Bottle for 10 cents. Try it. Two doses will relieve you.

A common cough or cold should never be trifled with, often when neglected it is converted into a serious and generally fatal pulmonary disease. The more prudent are aware of this and promptly use Bryant's Pulmonic Wafers, a remedy which has sustained its reputation for over twenty years; they are always efficacious and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all medicine dealers at 25c per box.

PETITJEAN'S EYE-SALVE.

An Infallible Remedy for all Diseases of the Eye, Acute or Chronic, Granulation of the Eyelids, Ulceration of the Lachrymal Glands, Film, and Weakness of the Vision from any Cause.

THE AMERICAN EYE SALVE is recommended to the public with the assurance of its efficiency as a curative of most diseases of the eye, acute or chronic in its inflammation, whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished force of the optic nerve, or a disease or cicatrix of the tissues constituting that organ. A boon to all persons whose vocation requires an incessant action of the eyes, the Salve will be found efficacious in restoring a uniform healthy action, where weakness, pain and misery may have long threatened a fatal termination. It is the most simple, safe and effectual remedy ever discovered, the materials of which it is made are pure, perfect and cost it, compounded with elaborate care and exact mess, safe in its application, being used exterally, and of course avoiding the pain and danger which necessarily attends the introduction of caustic minerals and eye washes. Ring worm and Old Chronic Sores, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE SALVE. IT IS USED SUCCESSFULLY FOR PILES. Its soothing effect is immediate and a permanent cure requires but a few applications. The proprietors of Dr. J. Petitjean's AMERICAN EYE SALVE, while making new and improved machinery for making a perfect box for the Eye Salve, have changed the Trade Mark on the cover so as to correspond with the Cut on the wrapper, circulars, advertisements, etc. We call attention to this as it might otherwise be regarded as counterfeiting.
