New York, Feb. 28.—The Times prints a list of 500 released Union officers sent to Annapolis. This empties the prisons at Richmond and Danville of our gallant men who have survived the horrors of those rebel prison pens.

By the Herald's Havana letter Maximilian is shown to have as dangerous enemies to contend against in his professed friends as in the republicans, his open and avowed enemies. Bishops and clergy, and all their immense throng of influential retainers, are endeavoring to secretly work against him on account of his confiscation of the church property and his disposition to be tolerant in religious matters, because as the bishops claim in an address which they have presented to him, Mexico is exclusively a catholic country, and her aversion to toleration has always been declared in the most remarkable manner.

ITEMS OF NEWS.

ATTEMPT TO BURN THE SEMINARY.—On Thursday evening, an attempt was made to set fire to the Quebec Seminary, but it was fortunately discovered in time to prevent the disastrous consequences which the miscreants, whoever they were, at the bottom of the affair had in view. About seven o'clock the fire was discovered by some ecclesiastics traversing a corridor leading to the Archbishopric. It was issuing at the time from underneath a door opening from the passage into a room used as a dormitory. Prompt steps were taken to extinguish it, when it was found that the incendiary, in attempting his purpose, had slipped several sheets of printed paper underneath the door, and set fire to them.—Quebec News.

MR. N. C. GOWAN.—This gentleman was alive at two o'clock on Wednesday mornings although he was sinking fast, and cannot long outlive the mortal nature of his injuries.

RAILROAD ACCIDENT.—A WHOLE TRAIN OVERTURNED AND NO ONE SERIOUSLY INJURED.—The express train, which left Rochester on Thursday night for Albany, met with an accident two miles west of Jordan. A broken rail displaced seven coaches and a baggage car, and six of the coaches, filled with passengers, were overturned into a snow bank beside the track. The locomotive, tender, and baggage car kept the track. The overturned and displaced cars were all thrown so far from the track as to form no obstruction, and strange to say, no person was seriously injured.—Rochester Union.

The price of gold to-day was 200¼.

A RUSH TO THE CUSTOM HOUSE.—Owing to the anticipated deficiency in the revenue for 1865 of nearly $5,000,000, the impression has got abroad that an additional percentage will be placed upon imports. This has occasioned a rush to the Custom Houses particularly at Montreal, at which place it is said that one firm paid as much as $8,000 for duty on Friday. Considering the period of the year the payment of such an amount in a lump looks as if something had 'leaked out.'

APPREHENDED INCREASE OF DUTIES.—We mentioned yesterday the fact that it is thought by business men at Montreal that additional duties are about to be imposed in order to provide for the deficiency in revenue, which is put down by some at as high a figure as $5,000,000. The same impression appears to have gained ground in Toronto, as we are able to mention, by way of illustration, that the firm of Gooderham and Worts paid duties to the excise on Friday to the amount of $74,000 clearing out an immense stock of spirits from the bonded warehouses. It is thought that similar movements, anticipatory of the change alluded to, will occur here and elsewhere throughout the country.—Free Press.

The project of cutting a canal around the Falls of Niagara, on the American side, has ended like most of those grand American schemes, in a "fizzle." Canadians rather liked that kind of punishment, and it was abandoned. The committee on the conduct of the War refused the Government bonds.

THE ATLANTIC TELEGRAPH.—On Thursday, the somewhat tedious process was commenced of shipping a portion of submarine cable, which has been made for this great undertaking from the works at Greenwich, on board the hulk Iris, for transference to the Medway, and final stowage in the tanks of the Great Eastern. The shipment was begun early in the morning, and will continue without intermission now until nearly the end of May, by which time it is hoped all will be coiled away snugly on board the great steamship. The total quantity of rope required to connect Valentia with Ball's Bay, Newfoundland, allowing for the "slack" which must run out to prevent too great a strain on the cable, is about 2,300 nautical, or nearly 2,700 statute, miles. With this length a liberal margin is given of nearly 600 statute miles of rope for slack caused by currents, possible rough weather, and the avoidance of anything like unusual strain on the cable in the deepest water.

The quotations have ranged during the morning between 200¼ a 200¼.

WILLIAM NIVIN & Co.'S PRICES CURRENT.

Montreal, Feb. 28th.

PRODUCE.

English advices have no feature of novelty in markets to report, and in consequence our shipping business continues restricted to its former limited scale.

Our local demand has been brisk, and owing to detentions on the Grand Trunk Railway, the receipts have been small and very irregular, causing the price of Superfine Flour to advance about twenty cents per barrel. To-day receipts have been heavier and prices a little weaker.

The want of locomotive power and car accommodation on the railway has proved very embarrassing to the produce trade, as large supplies of Flour and Wheat are locked up in various depots on the road, the drafts against which have matured and been paid by Commission Agents here. If this continues there must be a dead lock unless the banks afford the help required by renewals.

Flour—In short supply. All grades temporarily higher, but few grades of Fine and under, nearer old prices. Superior Extra 4,60 a 5,20. Extra 4,70 a 4,80. Fancy 4,60 a 4,70. Superfine No. 1, from Canada Wheat, 4,45 a 4,50; Superfine No. 1, from Western Wheat, 4,45. Western Flour, none offering. Superfine No. 2, 4,20 a 4,35. Fine 3,65 a 3,75. Middlings 3,25 a 3,40. Bag Flour 2,45 a 2,47½.

Wheat—Milwaukie Club 95 a 97 cents. Chicago Spring, No. 1, none offering. U. C. Spring 96 a 98 cents.

Peas—Per 66 lbs., 75 a 80c.

Barley—The demand for the U.S. markets continues at 67 a 70 cents per 48 lbs., for ordinary samples.

Malt—Retail, 80 a 82½ cents per 56 lbs.

Oats—In better demand. 36 a 38 cents per 32 lbs.

Oatmeal—4,75 to 5,00, 5,25 for special brands.

Butter—No enquiry but for choice, and stocks of Inferior and Medium innovotable. Prime Dairy, 19 a 20 cents; Fair to Fine, 16 a 18 cents; Medium, 16 a 17 cents; Inferior, 15 to 16 cents.

Cheese—Quiet. Dairy, 9 a 9½ cents. Factory made, 10½ a 11 cents.

Ham—Canvassed 9 a 12 cents. Smoked 8 cents à 10½ cents.

Pork—Firm. Mess, 19,75 a 20,25. Other grades nominal.

Dressed Hogs.—Receipts dropping off and prices declining, 6,75 a 7,25.

Lard—Firm. Tierces and barrels, 11 cents; kegs, 10½ to 11 cents.

Tallow.—Quiet; 8 a 8½ cents.

Ashes—Pots $5,31½ a $5,40. Inferiors, $5,35 to 5,65. Pearls, $5,50 a 5,55.

Leaf Tobacco.—Without change. Nominal 4 a 5 cents, according to condition and character of leaf. Sales at lowest figure.

White Fish.—None in the market.

Seeds—Clover, only one sale reported at 12 cents per lb. Timothy nominal, $2,00 a $2,50. For Ordinary samples of Flax Seed $1,30 a $1 40.

GROCERIES.

Prices of general Groceries very irregular as the uncertainty of Western remittances cause many forced sales to meet engagements.

Teas continue firm and from the tenor of Foreign advices there is little probability of any change to the benefit of buyers. Sugar are stiffening, and the supply of Refined so small that there is great difficulty in executing orders. Tobaccos firmly maintain their value, and the transactions of the trade are closely restricted to cash terms. Fish there is none, the market being absolutely cleared of trade lots.

POLICE COURT.

Wednesday, March 1st.

Before the Mayor.

ASSAULT CASE.

Philip Maguire, Patrick Clark, George Donoghue and James Maguire were charged with assault by John Coppen, who deposed that on Friday night last while returning from his work in the Canada Engine Company's Foundry, he went into the tavern of Mrs. Jordan and had a glass of wine. He left there about nine o'clock and met the prisoners. Clark said 'good night,' to which witness replied 'good night.' Clark then said something to him in the way of a threat, at which he started to run, and was knocked with something on the back of the head by Clark, which caused him to fall. Clark, Donoghue and James Maguire kicked him in the head while on the ground, and Donoghue placed his knee upon witness' breast, while Clark felt in his pocket for witness' pocket-book, in which was his four weeks' pay that he received the same evening. While they were doing this, Mrs. Jordan's boy ran and told his mother that witness was being killed, at which the prisoners were frightened and ran away. Clark afterwards followed witness to his house, when Clark said he would do the same again if he get the chance, and that he would burn him some night in his bed. Witness had no complaint against Philip Maguire, as he was endeavoring to prevent the others from doing harm, rather than interfering with the witness.

David Turney was called by the prisoners and deposed that he was there, and not Philip Maguire. Saw Clark strike Coppen.

The case being clear against him, Clark was fined $5 and costs, or 10 days in gaol. Donoghue and James Maguire were fined $2 each, and Philip Maguire was discharged. Clark was bound over to keep the peace against Coppen.

CRIMPING.

In the afternoon the Mayor held an investigation into a charge of breach of the Foreign Enlistment Act, preferred by William Davis against Robert Newman.

Wm. Davis deposed that for some weeks a lad named Henry Clarke had been endeavoring to procure his enlistment in the United States Army. Yesterday he met Clarke, and they both went to Robert Newman's tavern, where he had several glasses of liquor before going to bed that night. On the following morning Newman said that witness and a man named Madole would go to Wolfe Island and meet him there, and he would drive witness to the Cape for the purpose of enlisting him. Newman had previously offered witness $600 to go to the States and enlist, and run his own risk. Newman gave witness a york shilling that morning.

John Madole deposed he was in R. Newman's yard this morning, and saw the witness Davis, who wanted him to drink; Davis said he was going to the States; witness made up his mind hastily to go also; went down street with Davis; Newman had said that perhaps he would overtake them on the Island and pick them up.

Detective Hugh McCauley deposed that some time since Davis had told him that some one was trying to take him to the States; saw him in Newman's twice last evening, and he was drunk; he was arrested this morning by Policeman Porter, near the carters' stand, witness having told the police to arrest him if they saw him; Madole was with Davis when arrested.—Newman was then committed for trial at the assizes, bail to be taken if procured.

Mr. R. M. Wilkison, County Attorney, appeared for the Crown, and Mr. T. L. Snock for Newman. Bail was afterwards taken, himself in $500 and two sureties in $250 each.

We did not believe in "cure-alls" until we tried AYER'S INIMITABLE PILLS, and now we think the whole secret lies in the fact, that purgatives are the natural remedy for disease, and Dr. Ayer has made the best of purgatives. They cure all our complaints.—Logan (O.) Press.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases, Pills are sugar coated because the materials of which they are composed are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with the disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitutions that they think medicine will not help them; let not even these despair; incredulity and skepticism is overthrown by a host of testimony which is truly irresistable. At first the virtues ascribed to the Mountain Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths put forward by their discovery. Yet facts undeniable, attested by witnesses of the highest character and respectability have proved, and are proving each day, the virtues of this mighty healer. They mark, by their miraculous efficacy and power a new era in medicine.—Sold by all Medicine Dealers.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford great relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled Consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy, and the pale, thin features of him who was lately lusty and strong whispers to all but him, CONSUMPTION. He tries everything; but the disease is knawing at his vitals, and shows its fatal symptoms more and more all over his frame. He is taking the CHERRY PECTORAL now: it has stopped his cough and made his breathing easy: his sleep is sound at night: his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it causes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough and all irritations of the throat and lungs are easy cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Dated at the Township of Kingston, in the said County of Frontenac, this 24th day of February, A.D. 1865. 44

PARTNER WANTED.

BY the Subscriber, who having built a new Flour and Grist Mill of stone at Kingston Mills, and having fitted up the same in the most improved manner, with three runs of French Burr Stone, together with the most improved machinery and an abundant supply of water at all seasons of the year, is desirous of meeting with a suitable Partner, of business habits. From the locality of the Mill, being only about four miles from the City of Kingston on the line of the G. T. Railroad and Rideau Canal, it cannot but be considered a chance seldom to be met with, as wheat may be obtained from the West at all seasons of the year, and landed within a short distance of the mill. For further particulars apply to
