KINGSTON MARKETS.—Saturday's market was the largest for several weeks, but the amount of produce was not so great. The Grain Market was very poorly supplied, the stocks of the farmers being exhausted.—Wheat—none in market for some time.—Barley, 70c. to 71c. per bushel. Oats, 45c. to 47c. per do. Rye, 60c. to 62c. per do. Peas, very scarce with high prices. Butter, good fresh at 20c. to 21c. Eggs, 14c. to 16c. per dozen. Potatoes, 25c. to 30c. per bushel.—Veal at 4c. to 6c. per lb. by the quarter.—Pork, from 10c. to 11c. per lb. Mutton, very scarce. Poultry, scarce at high prices.—Wood, $2,50 to $3,00 for hard.

SAILING OF OCEAN STEAMERS.—Mails are forwarded by every steamer in the regular lines. The steamers for and from Liverpool call at Queenstown, except the Canadian line, which call at Londonderry. The steamers for and from the Continent call at Southampton.

OPENING OF NAVIGATION.—The navigation between this place and Detroit became fully open early this week. The steamer Forester went down on her first trip yesterday morning, and will continue to make her usual trips regularly from this date. The navigation of the Thames, up to Chatham, is also open, the Heather-bell having arrived there on Wednesday. In consequence of the unusually cold steady weather, it was feared the ice would maintain its hold till the season was pretty well advanced; but the reverse of this has been the case. Indeed, present appearances indicate an early Spring; and it is satisfactory to learn that the Winter Wheat looks unusually well, giving the earnest so far, of a better crop than we have had for several years.—Sarnia Observer.

FINANCIAL.—A New York paper says: With large crops here, which we have now every reason to anticipate, and a partial failure in Europe, which is almost of biennial occurrence, we shall be able to bring the nations from the other side of the Atlantic, gold in hand, to our granaries, and, without the aid of cotton to turn the balance of trade in our favor.

STATE OF THE ICE.—Captain W. H. Smith, of the Canadian steamer, Clifton, arrived here yesterday morning having but recently taken his departure from the locality of Owen Sound, and who is conversant with other points in that vicinity as regards navigation prospects. Capt Smith reports navigation in that section comparatively unobstructed, with fair indications of an early opening. The steamer Clifton, at present laid up at this port, is being fitted out, and will shortly take leave for the points above noted, to resume her route between Owen Sound and other ports in that section. Relative to the opposite coast of Lake Huron, there is no difficulty in steamers reaching Port Austin, with fair prospects of a clear opening to Saginaw in a few days.—Detroit Tribune.

THE RECIPROCITY TREATY.—Of the Reciprocity Treaty it is understood at Washington that the President gave requisite notice to Great Britain on the 15th inst., and that in one year from that date the Reciprocity Treaty will be abrogated. At the same time, however, the Government of Great Britain was informed that the United States has been actuated by no unfriendly or hostile feeling in abrogating this treaty, but only by a desire to set it aside, and to negotiate in place of it a treaty truly reciprocal in its benefits. No official action may be immediately taken, but probably Earl Russell and Mr. Secretary Seward will contrive ways and means for shaping a new treaty before Congress meets again.—Detroit Tribune.

THE CANAL BREAK NEAR OSWEGO.—The "break" is not as serious as was at first reported, a portion of only one end of a dam being carried away by the high water. The foundations are said to be undisturbed. As soon as the water falls somewhat, workmen will be at the job, and the work so hurried up that there will be no delay in opening the canals beyond what is occasioned by damages done at various points on the entire route from Albany to Buffalo. The damages done on the Erie Canal, at so many different points visited by the floods, will delay the opening of canal navigation in the State somewhat beyond the usual season.—Oswego Advertiser

NEW MINING COMPANY.—A new Mining Company has been formed, under the title of "The International Gold Mining Company," (limited) with a capital of $500,000, divided into 100,000 shares of $5 each, the whole amount of which has been paid in, and invested in real estate; for the purpose of mining gold, silver, copper, &c., in the townships of Marlow, Lintere, Spaulding, Panet, Talon, Cranbourne, Poletie, Gayhurst, Shedley, Jersey, Metgermette, and the parishes of St. George Gallion and St. Francis, in the counties of Beauce and Compton. The offices of the company will be at Quebec and New York.

WHEAT CROP.—Winter wheat in Charlotte looks remarkably well. The prospects for a good harvest were never better in this section at this season of the year. The plant comes out from under covering of snow, green, healthy, and scarcely a plant dead or missing.—Norfolk Reformer.

COBOURG AND PETERBOROUGH RAILWAY.—The Company, it is said, have arranged to procure from the Grand Trunk, rolling stock to commence work between Harewood and Cobourg early this spring. Two of the largest millers are expected to draw their lumber to the Locks at Peterboro', thence to be taken by scows and steamer to Harewood. It is said that by this means they can reach the Lake from Peterboro' at lower freights than are now charged on the P. H. L. & Peterboro' road.

A DANGEROUS REEF TO BE ATTENDED TO.—We communicate intelligence, which will be very acceptable to lake mariners, which is the removal of what has been a dangerous obstacle to the navigation of the lakes. This locality is known as Colchester Reef, situated some four miles from the clay banks on Lake Erie. The Canadian Government, it is stated on good authority, have taken it in hand to have the point surveyed by a competent engineer, with a view to erecting thereon a permanent lighthouse—a step which will be taken on the early opening of navigation.—Detroit Tribune.

NAVIGATION IN NOVA SCOTIA.—The Pictou Chronicle of Thursday says:—There is no ice to be seen in the gulf east of Pictou Island, and the harbor is open up to the burying-ground point. The wild geese have made their appearance, and many persons are looking for an early spring and opening of the navigation; but some of the weather-wise predict that a cold April with easterly winds will follow this mild weather, which will keep the ice in the gulf and make the opening of our harbor probably as late as last year.

NEWS FROM BOTHWELL.—A correspondent writing to the London Free Press says:—The prices of property are firm, which is a very good indication that they have not yet arrived at their floating height. Were Mr. Report to be relied on, some very extravagant sales are being made now, one of which is that forty-five acres of what is known as the Tipperary Farm were sold for $50,000, and others of equally great figures are going the rounds. These reports are not generally credited here, though they may be true. Another derrick was raised yesterday and within a dozen weeks as many more wells will be commenced, which, if successful, will make a large increase to the oil business this season—large enough, perhaps, to justify the Great Western Railway Company to build a track to the Longwood road, which will certainly be needed, for Peter street is almost impassable now. The old wells are pumping away as usual, excepting the Company Well, which is still as the blow up of the boiler left it. The well is offered for sale, and will, no doubt, soon be under the charge of another company.

MALT AND BARLEY IN GREAT BRITAIN AND IRELAND.—A return made to Parliament shows that 2,067,388 quarters of barley were imported to the United Kingdom during 1863, and during 1864 there were 1,377,981 quarters imported in England during 1863 there were 42,087,482 bushels of malt charged with duty, amounting to £5,708,114, and in 1864 there was 43,975,530 bushels charged with £5,964,180 duty. In Scotland, in 1863, the figures were 1,947,414 bushels, producing £262,828 duty, and in 1864 2,017,242 bushels, producing £272,292. In Ireland 2,234,947 bushels of malt produced £302,784 during 1863, and during last year 2,551,330 bushels produced £345,339.

POLICE COURT, Saturday.—James Williamson, wearing the uniform of the United States Army, was charged with being drunk. He had enlisted in the American Army, and failing to pass the Doctor, was discharged. Williamson was the informant in the case of McKEY Wart, for enticing him to enlist, and for taking him to Watertown. When at Watertown, our hero was up to snuff, and would'nt take the oath. He was sent to gaol for 14 days. Ann O'Brien, the girl who left the House of Refuge, because she was made to pray too hard and could'nt stand it, was charged with vagrancy, and committed to gaol for 60 days. As she left the Court-room she declared she would find a way to the Penitentiary, and not be sent to gaol so often. Julia Ann Toon and Mary Shelford, charged with vagrancy, were sent to gaol for 60 days each. Hannah McDonald was charged by Mrs. Catharine Walker with assault, and was sent to the cells. McDonald is a most violent woman.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford great relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled Consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy, and the pale, thin features of him who was lately lusty and strong whispers to all but him, CONSUMPTION. He tries everything; but the disease is knawing at his vitals, and shows its fatal symptoms more and more all over his frame. He is taking the CHERRY PECTORAL now: it has stopped his cough and made his breathing easy: his sleep is sound at night: his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it causes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases, Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easy cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases, Pills are sugar coated because the materials of which they are composed are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with the disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitutions that they think medicine will not help them; let not even these despairing incredulity and skepticism is overthrown by a host of testimony which is truly irresistable. At first the virtues ascribed to the Mountain Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths put forward by their discovery. Yet facts undeniable, attested by witnesses of the highest character and respectability have proved, and are proving each day, the virtues of this mighty healer. They mark, by their miraculous efficacy and power a new era in medicine

IN THE YEAR 1845

Mr. Mathews first prepared the VENETIAN HAIR DYE; since that time it has been used by thousands, and in no instance has it failed to give entire satisfaction.

The VENETIAN DYE is the cheapest in the world. Its price is only Fifty Cents, and each bottle contains double the quantity of dye in those usually sold for $1.

The VENETIAN DYE is warranted not to injure the hair or the scalp in the slightest degree.

The VENETIAN DYE works with rapidity and certainty, the hair requiring no preparation whatever.

The VENETIAN DYE produces any shade that may be desired—one that will not fade, crock or wash out—one that is as permanent as the hair itself. For sale by all druggists.—Price 50 cents.

The New York Tribune says; "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.

"WIDELY KNOWN."—It is generally supposed that the Websters, Palmerstons, Gortaschoffs, Metternichs, and Garibaldis of politics are the men of world-wide renown, and so they are where newspapers circulate, but not much beyond. One of our friends lately returned from China, amuses us with the recital of his journey inland for some distance, where the enquiry oftenest made when he became known as an American, was whether he knew or had ever seen the great chemist of his country, Dr. Ayer, that made the medicines. They use his remedies—many of them have been cured by them—and they speak of him, as if he occupied the whole of America or were at least the great feature of it. A mandarin who had been cured of a malignant ulcer on the hip by his Sarsaparilla, seemed to consider it our principal article of export, and its inventor one of the few men this continent had ever produced worthy the attention of Chinamen.—[N. DRESS. DRESS.

S. CARSLEY

HAS JUST RECEIVED HIS FIRST ASSORTMENT OF

SPRING GOODS FOR 1865!

THREE CASES NEW DRESS GOODS,
ONE CASE STRAW HATS,
ONE CASE FANCY BUTTONS AND TRIMMINGS

SPECIAL.

S. Carsley begs to state that the Dress Department will receive his special attention during the coming Spring and Summer trade. The error that most of the stores make of filling their shops full of common stuff, from 7½d to 1s per yard, will be avoided.—Neither will the plan of some leading stores in this and other cities be adopted, of buying a scanty assortment of first-class goods, and making them at unreasonably high prices.

THE AIM WILL BE

To show a large assortment of First-Class Goods, at from 3 dollars to 5 dollars per dress, or from 1s. 3d. to 2s. 3d per yard.

☞ CALL AND SEE THEM.

S. CARSLEY, Liverpool House.
Kingston, March 21st, 1865. 65

BRITISH PASSPORTS.

THE Undersigned continues as usual to furnish Passports to British Subjects proceeding to the United States, which will save their being Drafted.

☞ The whole fee is now One Dollar.

TAKE NOTICE.

STEWART MONTGOMERY,
French Dyer & Scourer,

BEGS leave to return thanks to his friends in Kingston and its vicinity, who favored him with their patronage, and would, while asking for a continance of the same, inform them that he is now prepared to do whatever work may be intrusted to him in a very superior manner.

He has just received a large stock of the Best Dye Stuffs, &c. With increased facilities he will do his work on

THE MOST REASONABLE TERMS,

IN

A SUPERIOR MANNER,

AND

ON THE SHORTEST NOTICE.

Any article that can be colored or dyed at any other place can be done by him in a very superior manner.

☞ Do not forget 122, Princess Street, second block above the Scotch Church, two doors above Mr. G. Brown's Lumber Yard, nearly opposite Mr. Jenkins' Blacksmith's Shop; that is the place where you will find
