WEDNESDAY MORNING, APRIL 12, 1865.

COMMERCIAL.

New York, April 11, 1865.

Gold closed to-day at 146¼

THE WEATHER.—Yesterday afternoon was fine again, though the morning was foggy and disagreeable. Snow seems to have fallen on Monday as far east as Montreal, and as far west as Toronto.

BUFFALO MARKETS April 9.—Flour—Dull, at $10 to $10 25; $7 50 for Canada bakers. Grain—Wheat—Dull and drooping at $1 50 to $1 75. Corn quiet and lower, at 96c to 97c. Oats steady at 53c to 53½c. Rye lower at $1.

CANADIAN GOVERNMENT SECURITIES.—The following quotations from the London papers of the 25th ult., show an improvement in Canadian securities:—Canada Gov. 6 per cent, 1877-84, 90 to 92; do 6 per cent, Feb. and Aug. 89 to 91; do 6 per cent, March and Sep. 89 to 91; do 5 per cent Jan and July, 79 to 81; do 5 per cent, Jan Stock, 78 to 82.

MORE OIL WELLS.—The Chatham Banner states that oil has been found on a farm known as 'Williams' on the town line between Howard and Harwich. Dr Van Bonhorst, of Chatham, has proceeded to New York in order to organize a company to work the well. The representative of a New York Company offered $20,000 for the farm but was refused.

DISCOVERY OF GUANO IN THE WEST INDIES.—A most singular discovery has been made by two Yankees, which bids fair to accumulate the wealth of Antigua by giving it a new export, yielding a rich revenue. It consist of immense deposits of animal Guano in the "Bat's-Hole," in the south district of the island, a dismal cavern of interminable extent. Legends there were enough about the cave having been once the resort of fugitives from justice, and perhaps on that account no one felt disposed to penetrate the religion of darkness and the supposed abode of crime. The gentlemen above named, however, a few days ago undertook to unveil the mystery hanging over the place, and the result is that an indefinite number of tons of rich animal deposit has been discovered, arising from the excrement and decomposed bodies of myriads of vampire bats, which for ages, if these islands have existed for ages, have infested the place. The guano has been tested, and said to contain at least 20 per cent of phosphate of lime, while the admixture of a quantity of common building lime, developed a very large proportion of ammonia, constituting it as valuable a fertilizer as we have any knowledge of. The fortunate discoveries have already waited on his Excellency the Governor, the cave being situated on lands belonging to the Crown, and his excellency at once accorded the necessary permission to remove the deposit the parties agreeing to pay a certain sum perton, by way of Royalty, on the yield.

NEW YORK MARKETS, April 11.—Flour receipts are 8,774 bbls; market dull and unchanged; sales 5,100 bbls at 7 30 @ 7 70 for superfine state; 7 65 @ 8 00 for extra state; 8 05 @ 8 10 for choice do; 7 45 @ 7 75 for superfine western; 8 00 @ 8 55 for common to medium extra western; 8 45 @ 8 60 for common to good shipping brands extra round hoop Ohio. Canadian flour dull and 5 @ 10c lower; sales 350 bbls at 8 00 @ 8 30 for common, and 8 35 @ 10 50 for good to choice extra. Gold opened at 146, fell to 145¾, and closed at 146¼.

MARINE.

ROYAL MAIL LINE.—The steamer Grecian, of the Royal Mail Line, makes a trip on Tuesday to Toronto, with a load of Barrack Stores, from the Military Stores' Department at Kingston. She will be the first of the Line to make a start. It is not expected that the Line will commence running until a few days before the First of May, by which time the new steamer Spartan will be ready to take her place.

CLEARED FOR KINGSTON.—The schooners Elk and D. McInnes cleared at Hamilton on Saturday, with 18,000 pipe staves each, for Kingston, being the first clearance this year for Kingston. A large lumber and stave trade will be carried on this spring between Hamilton and Kingston. Several vessels have already arrived there to load.

NAVIGATION AT MONTREAL.—On Sunday evening, two steamers arrived at Montreal from below, and anchored in the Cove near Longueuil. The Witness says that the ice on the Montreal side, with the large accumulations of it upon the wharves, will, for a few days, hinder them from taking their usual berths. It is, however, disappearing rapidly, and the river above the bridge is quite clear. The removal of the ice this year has been remarkable rapid, as well as unusually early.

MONTREAL OCEAN STEAMSHIP COMPANY.—Passage Certificates are now issued by the agents of this Company to persons desirous of bringing their friends from the Old Country to Canada. The rates of passage from Liverpool, Londonderry, Queenstown or Glasgow to Kingston is $29 00, or to Quebec $25 00. The first steamer from Liverpool for Quebec, calling at Londonderry, leaves Liverpool on the 20th instant. Steamers leave Liverpool every week thereafter. The first steamer from Glasgow, calling at Queenstown, leaves Glasgow on the 26th inst. Steamers will be despatched from Quebec to Glasgow, calling at Queenstown, and vice versa, every two weeks during the season. The Peruvian, for Liverpool from Quebec, will leave on the 13th May, and the St. David, for Glasgow direct from Quebec, will leave on the 23rd May, when fares will be reduced to $28 50 from Kingston to Liverpool and Londonderry and $27 50 from Kingston to Glasgow. Certainly there are great advantages offered to travellers, as far as cheapness goes. Mr. J. C. Clark is the agent for the line in Kingston.

MARINE ITEMS.—The weather is fine now, and the vessels have a chance to make their tri s uninterrupted. The barque Gem left on Monday night for Oswego, with 140,000 feet of lumber, shipped by James Swift. The tug Swan left for Brockville yesterday afternoon for a tow of barges. The tug Wales left for Toronto on Monday, with the large schooners England and Ireland to load timber, &c., in tow. The schooner Prince Alfred, wintered in Maitland, passed yesterday afternoon, bound for Chicago.—The sloop Challenge arrived yesterday afternoon from Picton, with 400 barrels of plaster for G. M. Kinghorn. The schooner Mediator, arrived from Clayton to take in ballast, has cleared for Saginaw to load timber. The steamer Watertown arrived from Belleville on Monday evening, with general freight and 97 cattle and 4 horses. She took the cattle and horses to Cape Vincent, and left for Belleville yesterday morning. The tug Swan brought up the schooner Scotland yesterday, from Brockville. The schooner Antelope has cleared for Toronto with 100 cords of wood. The propeller Her Majesty has left Toronto in tow of the tug Wales for Kingston, to have condensors attached to her engines.

POLICE COURT, Tuesday.—Ann Hart and William Arnold, arrested for drunkenness, were discharged. Samuel Buchanan was arrested for assaulting a Mrs. Robinson, living on Queen street, on Saturday. Buchanan was charged with the offence and fined $3 and costs. Alexander and Philip McGuire were charged with breaking the windows and door of a house occupied by a Mrs. Lawrence on Monday and otherwise acting disorderly. They were fined $20 each, in default of payment to be committed to gaol for 60 days. John Mellvill, living on Bagot street, was fined $20 and costs on the complaint of Mr. Inspector Shaw for selling liquor without license.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford great relief and to cure more cases of pulmonary disease, than any other remedy known to mankind. Cases of apparently settled Consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy, and the pale, thin features of him who was lately lusty and strong whispers to all but him, CONSUMPTION. He tries everything; but the disease is knawing at his vitals, and shows its fatal symptoms more and more all over his frame. He is taking the CHERRY PECTORAL now: It has stopped his cough and made his breathing easy: his sleep is sound at night: his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it causes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easy cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Prepared by DR. J. C. AYER & Co., Lowell, Mass., and sold by E. H. Parker, Kingston, and all Druggists. Northrop & Lyman, Newcastle, General Agents. 2mo28

TO CONSUMPTIVES.

The Advertiser having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure CURE FOR CONSUMPTION, ASTHMA, BRONCHITIS, &c. The only object of the advertiser in sending the Prescription is to benefit the afflicted and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases, Pills are sugar coated because the materials of which they are composed are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with the disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitutions that they think medicine will not help them; let not even these despair; incredulity and skepticism is overthrown by a host of testimony which is truly irresistable. At first the virtues ascribed to the Mountain Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths put forward by their discovery. Yet facts undeniable, attested by witnesses of the highest character and respectability have proved, and are proving each day, the virtues of this mighty healer. They mark, by their miraculous efficacy and power a new era in medicine

"WIDELY KNOWN."—It is generally supposed that the Websters, Palmerstons, Bortaschoffs, Metternichs, and Garibaldis of politics are the men of world-wide renown, and so they are where newspapers circulate, but not much beyond. One of our friends lately returned from China, amuses us with the recital of his journey inland for some distance, where the enquiry oftenest made when he became known as an American, was whether he knew or had ever seen the great chemist of his country, Dr. Ayer, that made the medicines. They use his remedies—many of them have been cured by them—and they speak of him, as if he occupied the whole of America or were at least the great feature of it. A mandarin who had been cured of a malignant ulcer on the hip by his Sarsaparilla, seemed to consider it our principal article of export, and its inventor one of the few men this continent had ever produced worthy the attention of Chinamen.—[N. IN THE YEAR 1845

Mr. Mathews first prepared the VENETIAN HAIR DYE; since that time it has been used by thousands, and in no instance has it failed to give entire satisfaction.

The VENETIAN DYE is the cheapest in the world. Its price is only Fifty Cents, and each bottle contains double the quantity of dye in those usually sold for $1.

The VENETIAN DYE is warranted not to injure the hair or the scalp in the slightest degree.

The VENETIAN DYE works with rapidity and certainty, the hair requiring no preparation whatever.

The VENETIAN DYE produces any shade that may be desired—one that will not fade, crock or wash out—one that is as permanent as the hair itself. For sale by all druggists.—Price 50 cents.
