ANOTHER JUDICIAL MURDER.

If the Washington papers are to be credited, Mr. Jefferson Davis is to be the next sacrifice to the ignoble rage of President Johnson and the clique now in power. He is to be tried by a Military Commission, and found Guilty as a matter of course; not for Treason, because George Washington was a bigger traitor than Jefferson Davis, but for complicity in the Assassination Plot. Bah! There is not one person alive who believes that Jefferson Davis encouraged or knew of such a silly and wicked design, as to kill Lincoln and make Johnson President!—Assassination never helped a cause. Had not the cause of the South been lost ere the lamented death of poor Lincoln, that act of atrocious cruelty must have destroyed it.—Poor Lincoln was the only man of his party who had a proper feeling for the South, which he wished to bring back to the Union by acts of kindness and forgiveness. Kill such a man—the thought is horrible; and to connect such a really great man as Jefferson Davis is, with such an act, so destructive to all his hopes, is what only bigots and rogues in America will believe, and no one at all in the rest of the world.

JEHIN PRUME'S CONCERT.

This Great Violinist gave his Second Concert in the City Hall on Monday night. He had an excellent House. In our former notice of Mr. Jehin Prume's performance on the Violin, we dwelt so long on his excellencies that it would be but a twice told tale to say much about them to-day. He played as delightfully as before, and was as much, if not more, applauded. Every piece of music was re-demanded, and he had the good nature to respond to the calls, giving as a final exhibition of his great powers of execution, his ever-to-be-remembered 'Carnival of Venice.' On Monday night he did not deal in the use of those delicious Harmonics of his, as in the previous Concert, but wherever he introduced them, he did so in so harmonious a way, that the best ear could hardly tell when the natural notes of the violin ended and the Harmonics commenced, so beautiful was the transition. He is a most wonderful performer.

Mr. C. G. St. Clair again played the Accompaniments to Mr. Jehin Prume's music, and again delighted the audience with the exquisite taste he displayed in never allowing them to interfere with the great Artist's conception of his own music. Although very elaborate, they were accompaniments in the strictest sense of the word. Mr. C. G. St. Clair also favored the audience with a Piano Forte version of the 'Carnival of Venice,' and was recalled after its execution. Mr. R. W. Barker sang Bellini's Air 'As I view those Scenes so charming,' and when encored, gave the ballad 'Blue Eyed Jenny' in good style and excellent taste.

We are happy to say, that is, if present arrangements are carried out, that the public of Kingston will have another opportunity of hearing Mr. Jehin Prume again. He now goes to Toronto and Hamilton, there to give concerts. Thence to Niagara Falls, where he is to join Mdlle. De Katow, and delight the fashionables at the Falls. Afterwards, in company with that lady, they travel to Newport, Boston, Portland, Cacouna, and back through entire Canada. Such a tour must be highly remunerative, when we recollect the excellencies of such artists as Mdlle. De Katow and Mr. Jehin Prume.

CITY COUNCIL.

A Regular Meeting of the City Council was held in the City Council Chamber on Monday evening at eight o'clock; the Mayor in the chair.

Members Present—Aldermen Baker, G. Brown, Davidson, Dillon, Gildersleeve, Livingston, Cunningham, McKay, and Robinson; Councillmen Brophy, Cummins, Falconer, Kane, Livingston, McCammon, McKelvey, Sullivan, Tomkins and White.

The minutes of last regular and a special meeting were read and approved.

COMMUNICATIONS.

From Wm. Ford, jr., and the Solicitors of the School Board in the matter of the Queen Street School property, praying that several streets which are laid out in the plans of the city, and were never opened, be declared closed by by-law, so that the property may remain intact and in possession of the Board, as it was when purchased. The communication was referred to the Committee on Streets and Improvements.

From the Secretary of the Common School Board, furnishing the Council with the Budget of the Board for 1865, mentioned in Monday's report of the meeting of the Board, which was referred to the Finance Committee. The amount the Board required from the Council was $9,951 50.

PETITIONS.

From Mr. James McPherson, praying for the sinking of a drain on Sydenham street, between Earl and West streets, to carry off surface water which accumulates and causes ill health in his family. Referred to the members of the Ward.

From Thomas Thompson and Twenty-three others, who are desirous of forming an Independent Fire Company, praying that an organization, they be allowed the Victoria Engine, No. 2, and appurtenances for use. Referred to the Committee on Fire, Water and Gas to report.

From John Mitchell, for permission to lay down building materials. Granted.

REPORT.

Mr. Davidson brought up the Report of the Finance Committee, recommending the purchase of fifty of Mr. Innes' new maps of the City of Kingston, and the payment of several accounts.

Objection was raised to the purchase of the fifty maps.

Mr. Livingston moved in amendment that twenty-five maps be purchased.

Mr. Davidson and Mr. Cunningham supported the report on account of the great benefit of the map in the collection of taxes on lots for which the city could find no owners, and also in consideration of the means employed to fetch it to the perfection it had been brought.

The Mayor was desirous of sending a map to several Corporations who had out of compliment sent maps of their own cities.

The amendment was lost (yeas 2, nays 16) and the Report adopted.

CITY BUILDING.

Mr. Baker, Chairman of the Committee on City Property, stated that the Committee had no report to present on the matter of rebuilding the burnt Shambles, as they had resolved to leave it an open matter with the Council, and have their wish carried in council. Their reports on two occasions were thrown out, and latterly the majority of members had made up their minds to have an octagon building erected on the site of the square tower, with twenty butchers' stalls, and a fountain in the centre of the building, of course with a Music Hall and a bell and clock tower overhead. They would go as far as $12,000, if that amount was required for the completion of the building, but he did not think that that much was required. He would not go next door to accommodate the butchers, but still this would be done for the benefit of the inhabitants, who severely feel the loss of the Shambles.

Mr. G. Brown moved, seconded by Mr. Falconer, that the resolution of last meeting referring the plans back to the Committee on City Property be rescinded, and that the City Property Committee report to the Council an estimate of the expense for building an octagon tower.

Mr. Cunningham moved in amendment the reconsideration of the Report of last meeting, which was lost—yeas 9, nays 10.

The Mayor ruled the motion of Mr. Brown out of order, and the matter was laid over for another night.

The Council then rose, but Mr. Baker requested them to come to order as he wished to say something respecting the trip to Cape Vincent on the Fourth of July, and the kind way they were treated. The members however continued to leave, when Mr. Tomkins, whose name had been brought into the discussion, said it was very rude and ignorant of the Council to rise, when requested by an aged man and a senior member at that, to remain. He could bear testimony of the cordial reception they had met at Cape Vincent, and would move a vote of thanks.

The Mayor informed Mr. Tomkins that there was no quorum, and any motion was useless.

The Council adjourned at a quarter past nine o'clock.

THE EXECUTION OF MRS. SURRATT.

To the Editor of the Leader.

SIR,—As an American citizen I blush with shame on account of the succession of bloody tragedies being enacted in the United States. Was it not enough to avenge the assassination of Lincoln by the shooting of Booth and the hanging of three others yesterday, but the vengeance of the bloody party in power must reach even a poor helpless woman, who was doubtless innocent of any crime or complicity in the assassination plot? All heartily deplore the death of Lincoln, although no one can defend or justify his unconstitutional acts; but taking the life of an innocent person, tried and convicted by a military tribunal unknown to our laws, under such circumstances is disgraceful to any nation professing any degree of civilization.

I fear that the arbitrary acts daily perpetrated by the 'incubecent' person who fills the Presidential chair will once more plunge the country into war. The South, thought beaten down by main force, is far from being conquered; yet conciliation might win them back. Conciliation would most certainly win them back, but arbitrary acts of armed and commissioned ferocious bloodhounds, never.

Sir, my heart is truly grateful for the sympathy evinced by the good people of Toronto for the fate of the unfortunate Mrs. Surratt, and I trust that the nations of Europe will unanimously condemn this judicial murder.

EUROPEAN ITEMS.

THE FENIAN HOAX.—The New York correspondent of a contemporary writes:—"The great account of the 'Fenians' which the Times extracted from the New York Herald, and commented on so gravely, was written by Major Halpine, alias 'Myles O'Reilly,' and is another jeu d'esprit, of the same sort as that speech of Gen. Dix's by which the Saturday Review was so amusingly taken in.—That it was all what Captain Marryatt calls 'dap-doodle' was well understood by everybody here, and if your contemporaries cannot understand the New York jokes they ought to employ somebody here to explain them.—There is about as much danger to the British empire from the 'Fenians' as from the King of the Cannibal Islands, and your alarm about them is on this side of the water one of the standing subjects of fun."—Times.

SEVERITY.—The town of Congleton appears to possess a rather Draconic set of magistrates. One of them—a clergyman—charged a man with obtaining alms by false pretences. It appeared that he had entered the garden of the prosecutor and had begged on the ground of defective sight and consequent poverty.—He was refused, and later in the day the prosecutor, seeing him beg in the same terms of a lady, took him into custody, and, no policeman being at hand, locked him up himself.—The tramp appeared to be really half blind, and his poverty may be estimated by the fact that the total sum found in his pockets was three farthings. The magistrates thought his case, however, one for a severe punishment, and sent him to prison with hard labor for three months.

PRESIDENT LINCOLN'S LAST STORY.—One of the last, if not the very last, story told by President Lincoln was to one of his Cabinet, who came to see him, to ask if it would be proper to permit Jake Thompson to slip through Maine in disguise and embark for Portland. The President, as usual, was disposed to be merciful, and to permit the arch rebel to pass unmolested, but the Secretary urged that he should be arrested as a traitor. "By permitting him to escape the penalties of treason," persistently remarked the Secretary, "you sanction it." "Well," replied Mr. Lincoln, "there was an Irish soldier here last summer who wanted something to drink stronger than water, and stopped at a drug store, where he espied a soda fountain. 'Mr. Doctor,' said he, 'give me, plase, a glass of sodawather, an' if yes can put in a few drops of whiskey unbeknown to any one I'll be obleeged.' "Now," continued Mr. Lincoln, "if Jake Thompson is permitted to go through Maine unbeknown to any one, what's the harm? So don't have him arrested."—English Journal.

PIRATES ON THE IRISH COAST.—A correspondent, writing from Westport under date of May 25, says:—"Captain Cumming, of the schooner Elizabeth Maclure, of Girvin, arrived here yesterday from Liverpool, reports that at 10 p.m. on Tuesday, the 23rd inst., while the vessel was lying becalmed off the Island at Inniskea, saw 16 canoes and one boat coming off. The united crews numbered about 50 men who boarded the vessel, and took from 18 to 20 tons of the cargo (maize) out of her, as well as ropes and many other loose articles. They formed on deck, at the same time threatening, if resisted, they would cut away the masts.—They remained on board till 1 o'clock next morning when they left. Shortly afterwards a light breeze sprang up, and the schooner was able to proceed on her voyage, with the cargo in danger of shifting." The Shipping Gazette of Tuesday remarks on the foregoing:—"At first sight one is inclined to think it strange that such an occurrence as this should take place on a line of coast where coastguard stations are frequent, and where the local police abound. But it must be remembered that the Inniskea Islands lie at a considerable distance from the mainland and that the alleged outrage was committed under shelter of darkness. We remember that outrages of this class and in the same locality were summarily repressed a few years since by the prompt proceedings of the local authorities, very properly seconded by the Judge of Assize at Castlebar. We have only to hope that equal decision and energy will be shown in bringing to justice the plunderers of the Elizabeth Maclure. They are no doubt known in the locality, and are fully within the reach of the law. If this is not done it will be necessary to station a gunboat off the line of coast. Such practices are a disgrace to the Irish peasantry, and the offenders, we should hope, will meet with no sympathy from those whom they deliberately involve in disrepute.

PRESCOTT RIFLE MATCH.

Prescott, July 10.

The grand rifle Tournament closed here today at noon.

The Butchers' prize was won by the Artillery Company. The scores were:—Artillery, Capt. Roebuck, 133; No 2 Rifles, Captain White, 122; No. 1 Rifle company, Col. Jessup, 115. The ranges were at 200 and 500 yards; five shots at each. A general protest had been entered by Col. Jessup, before the match commenced, against any man engaging in this contest who did not belong to the company which he represented, on or before the first of May last, as provided by article 13 of the rules and regulations of the council. And although the Artillery Company made the largest score, yet as their members failed to produce certificates from their commanders as provided, No. 2 Rifles claim the flag. The council meets in a few days at Brockville to take the matter into consideration.

The outpourings of a virulent press and the private correspondence of men whose extreme views overbalanced their judgment, gave an exaggerated coloring to some of the communications of President Johnson's Cabinet, but we hope and believe that there is a deep set determination not to permit any temporary difference of opinion to cause any real estrangement between the two countries.

NEWS OF THE DAY.

GRAND LODGE MEETING.—A number of the members of the Grand Lodge of Free and Accepted Masons passed up by the steamer Passport last evening on their way to Toronto, to attend the Grand Lodge which meets to-day in that city.

A RELIC OF 1688.—The Prentice Boys of Derry have presented a cannon which was used in defending that town in 1688 to the Prentice Boys of Kingston; the Derry of Canada. The relic was forwarded to Quebec in a vessel, and was expected here yesterday, but some delay in landing it occurred, and it will not be here for some days. The Prentice Boys may well be proud of the relic, which though not the veritable 'roaring meg,' is a treasure which any lodge would be extremely thankful for. It is gratifying to see what a good opinion those in the old country have of the loyalty of the Kingston Orangemen.

SCHOOL EXAMINATION.—The Annual Examination of the Christian Brothers' Schools in this city, will be held on Monday and Tuesday evenings next. The distribution of prizes takes place on Wednesday evening, when a Concert will be given by the Pupils.

FENIANS AGAIN.—The Prescott correspondent of the Leader writes that it was reported in Ogdensburg on Sunday that an excursion party, composed of some 3,000 Fenians, is coming to Canada from the United States, on of about the 12th of July. Ottawa is talked of as being their destination. This is all, no doub', a vile hoax to excite the minds of the people on this side of the Border.

DEATH OF JUDGE HASTINGS.—We regret to announce the death at Belleville on Sunday last of His Honor Wm. Smart, Judge of the County Court of the County of Hastings, against whom the late charges were made and referred to the Court of Impeachment. The deceased had only been confined to his bed for two weeks when death hurried him away.

AN INDEPENDENT FIRE COMPANY.—A number of young men living in the upper part of the city are endeavoring to establish an Independent Fire Company, and have petitioned the Council to allow them the Victoria (No 2) Engine for use. It will take but little to repair the engine and keep it in order, but the difficulty will be to give them good hose, the other companies having no more than they want, and also the insufficient supply of water. There is hardly enough water at present to keep two engines going, and much less three, and trouble would arise at fires through jealousy on the part of companies, two or perhaps one only being able to get a supply. The matter has been left to the Fire, Water and Gas Committee, who will report at the next meeting of the Council. The Company propose to pay all expenses, excepting the keeping in repair of the engine. There were times when the Independent Fire Companies were the life of the Fire Brigade.

POLICE COURT, Tuesday.—Michael Kearney was charged with being drunk, and discharged on making faithful promises to amend. William Jones appeared to answer a charge of furious driving. From the evidence taken it would appear that on Friday he drove very furiously down the streets in his butcher cart, whipping his horse all the way, and nearly colliding with some buggies he met. After he had raced to the Market Square, he quietly left his horse and went into a tavern near at hand, and seemed to take it as a joke to endanger the lives of persons on the street. He is particularly noted for fast driving through the streets, which is a very disgraceful habit. He was fined $2 and costs and appealed to the Recorder's Court. A charge of cruelty to his horse is standing against him. James Curtis and a discharged soldier, named Phelps, presented bruised heads and countenances at the Court, and complained of having been beaten. The soldier had been beaten at the Bridge House in the morning, and reported the names of those who maltreated him. The names of the parties in the former case were not known.

THE CONVENTION AT DETROIT.

Detroit, July 10.

The preparations for the great International Convention renders Detroit a lively city to night.

The principal hotels are literally crowded with delegates from all quarters.

Some American cities will have a large representation here. Albany and Oswego have a tolerably large number here. There are a dozen or so all the way from St. Louis. Memphis is reported that Cleveland will send a mammoth delegation of forty members. Advices have been received from San Francisco that a delegation has been sent.

Among the Americans of national reputation here are are Lyman Tremaine, Albany, N.Y., Dewitt C. Littlejohn, of Oswego; Gen. Hiram Walbridge, N.Y.; Judge S. Treat, St. Louis. Others are mentioned as coming—among them are ex Vice President Hamlin, of Me.; Henry Winter Davis, of Maryland; and Senator Yates, of Illinois.

The delegates from the British Provinces, who have arrived, are at the Russell House.

The Convention meets for organization at eleven o'clock to morrow. Some American delegates talk coolly about the Reciprocity Treaty, and repeat the idea that the Canadian canals must be enlarged or there will be no Reciprocity Treaty.

Gen. Wallbridge is spoken of for President of the Convention.

Joseph Howe and Attorney General Henry, of Nova Scotia; Thomas Ryan and Mayor Beaudry, of Montreal; and J. W. Taylor, of St. Paul, are here.

A DETECTIVE IN TROUBLE.—The Board of Police Commissioners, the Mayor and Police Magistrate, met at Toronto on Friday, to try a charge preferred by W. S. Prince, Chief of Police, against George Mack, detective officer. About ten months ago Mack was sent to make enquiries about the burning of Richard Murphy's house in the west end of the city, as the circumstances were rather suspicious, although nobody at that time suspected that Murphy was one of the notorious Hamilton gang. Mack went as directed, but could get no information from the party who could have given it, but who was afraid of drawing down down Murphy's ire upon him. Mack of course, could do nothing more than return to the Chief of Police, that he had made inquiries but without success. The matter here rested until Murphy was taken into custody, when information was lodged with the Chief that man had given Mack the information desired about Murphy's fire. The Chief asked Mack why he did not report it, to which he replied that he had received no such information. The Commissioners, however, were the parties to decide the matter, and Mack was brought upon Monday before the Commissioners, charged by the Chief with not having reported the information at the time. The man swore that he had told Mack, but the latter brought his mother in law, who was with him at the time and it was distinctly proved that no information had been given Mack, and he was honorably acquitted and ordered to return to his duty as detective officer. Detective McGarry was to be examined on a charge brought by Captain Prince, before the Police Commissioners on Monday.

A large number of seats were secured and there was a prospect of an overflowing house, but this afternoon a military order was issued, and in accordance therewith a placard was placed on the door, which read as follows:—'Closed by order of the War Department."

A Fortress Monroe correspondent says that yellow fever prevails at Wilmington, North Carolina, and that strict quarantine is enforced in Hampton Roads on all vessels arriving from there.

Fortress Monroe, July 9.

An order has been issued, by Brevet Brig. Gen. O. S. Mann, who has been assigned to the command of the sub-district of Norfolk, declaring the city of Norfolk under martial law. In compliance with this order, the municipal police, under control of Mayor Labb has been withdrawn, and Capt. Hoffmann, of Co B. 185th New York Artillery, placed on charge of 120 men, with a proper complement of officers, to take charge of the police of the city. All arrests of white civilians for violation of police regulations, are to be turned over to the civil authorities for trial, except where the testimony of coloured persons it required.

New York, July 9.

The Herald in its account of the execution, says Atzerott made the following statement yesterday morning:—He took a room at the Kirkwood House on Thursday in order to get a pass from Vice-President Johnston to go to Richmond. Booth was to leave the Richmond Theatre, and the President was to be invited to attend it when visiting Richmond, and captured there. Harrold brought the pistol and knife to the room about 2:30 o'clock on Friday. He, Atzerott, said he would not have anything to do with the murder of Johnson, when Booth said that Harrold had more courage than Atzerott, and he wanted Atzerott to be with Harrold to urge him to do it. There was a meeting at a restaurant about the middle of March, at which John Surratt, O'Loughlin, Booth, Arnold, Payne, and himself were present, when a plan to capture the President was discussed. They had heard the President was to visit a camp, and they proposed to capture him coach and all, drive through long old fields to T. B., where the coach was to be left and fresh horses were to be got and the party would proceed to the river to take a boat. Harrold took a buggy to T.B. in anticipation that Mr. Lincoln would be captured, and he was to go with the party to the river. Slavery had put him on the side of the south. He had heard it preached in the church that the curse of God was upon the slave, for they were turned black. He always hated the nigger and felt that they should be kept in ignorance. He had not received any money from Booth although he had been promised that if they were successful they should never want, and that they should be honored throughout the South, and that they could secure an exchange of prisoners, and the recognition of the confederacy.

This property is composed of part of Water Lot Number Thirty-Four, in the City of Kingston, and comprises also all the land lying between the said lot and Ontario Street, known as Lots Numbers Two and Three in the subdivision of the block by George Herchmer Mailland.

It has a frontage on Ontario Street of about one hundred and forty-five feet.

The situation of the property for business or manufacturing purposes is excellent, abutting, as it does, on the harbour, being provided with a wharf, and having also a large frontage on the principal manufacturing Street in Kingston. It adjoins the premises of the Kingston Water Works Company and the Engine Works of Messrs. Davidson and Doran.

The building on the premises formerly used as a Brewery, and which was large and commodious, has lately been consumed by fire, but the walls are still standing and could in part be used in rebuilding.

There are Two Frame Houses standing on Ontario Street upon the property to be sold; also a Stone House, in an unfinished state. The Frame Houses are in good repair.

There is beside the wharf a sufficient draft of water to accommodate vessels of large draft.

The property will be sold in one block.

The purchaser shall, at the time of sale, pay down one-tenth of the purchase money to the Vendor's Solicitors, and shall pay the remainder of the purchase money in one month from the day of sale, without interest.

The covenants to be given by the vendor to the purchaser will be stated at the time of sale.

In other respects, the conditions of sale will be the standing conditions of the Court of Chancery.

For further particulars and conditions of sale application may be made at the office of Kirkpatrick and Kirkpatrick, Ontario Street, and O'Reilly & O'Reilly, Anchor Buildings, in the City of Kingston, and to Angus Cameron, Esq., on the premises.
