sleeve; La Serre, owned by King, rowed by King and Meagher; Jessie, owned by Smithers, rowed by Davis and Eccles; Easy, owned by Dowler, rowed by Dowler and Dowler; Spurt, owned by Dobbs, rowed by Dobbs and Allen: Won handsomely by the Fire Fly, a Harrisfield crew.

The Regatta passed off very successfully far more than was expected, for which the public are indebted to the Commodore and stewards, through their able exertions. The steamer Bay of Quinte made three excursions during the afternoon, and followed the yachts around. She was crowded with gentle folks, and had on board the band of the Royal Canadian Rifles, which enlivened the scene. The tugs Robt. Reid and Advance also made short excursion following the yachts around.

The starting point for the rowing matches was the starting buoy off the Queen's Wharf the short races being around the Shoal Tower. The Commodore of the Day, C. F. Gildersleeve, Esq., and the Secretary, G. A. Kirkpatrick, Esq., were very assiduous in their duties, and started the boats.

RIFLE MATCH.—The following is the score of the match fired on Tuesday between twelve men from the Royal Canadian Rifles and a similar number from the 14th Battalion of Volunteers. The firing was very good on both sides, but the real strength of the Volunteers was not included in the twelve men, or otherwise the contest might have assumed a different turn:—

ACKNOWLEDGMENT.—We are indebted to Mr. A. Walmsley, Canadian Mail Service Agent, for files of Liverpool papers to August 30th, per Hibernian.

POLICE COURT, Wednesday.—(Before Dr. Robison.)—Mary Kelly, was charged with drunkenness, and was discharged, being a quiet woman, but has the misfortune to take a drop too much now and then. James McVey, a modest old man, who would not speak cross to any one, or even hurt a chicken when drunk, was charged with the offence, and pleaded that he had walked all the way from Coburg and was tired, which made the police take him up. The magistrate then told him to walk on as he had a good night's rest, (prisoner—not a hard one your honor) which he accordingly did. James Watson, one of the young men, who were lately tried for assaulting the blacksmith Whitely, was charged with assaulting a couple of boys on Tuesday last. Evidence went to show that Watson had been under the influence of liquor, and without any provocation, struck a boy such a knock in the head with his fist as to knock him down senseless. He then kicked another boy in the breast, lifting him right off his feet and causing him to fall on his back. The magistrate considered this a most cowardly assault and fined him $20, or three weeks in gaol. Watson has since been committed.

LATE FROM QUEBEC.

Quebec, Sept. 12.

One thousand graduates of the Military Schools have replied to the circular from the Adjutant General's office, that they would go into camp at Montreal on the 16th, for instruction. It is expected that fully 1,200 will be present. It will be a decided success.

Hon. Mr. Shea, a member of the Newfoundland Cabinet, arrived to day, per steamer St. Lawrence, of the London line, from St. John via Halifax. He comes here to represent Newfoundland in the Confederate Council, at the meeting called for the 14th instant. He sat in the convention here last fall.

A Quebec journal this morning publishes a rumor that the Hon. W. McDougall, Provincial Secretary, is to retire from the Cabinet, and become Collector of Montreal. It is needless to say that the statement is utterly without foundation.

The railway contest being over, Mr. Irving, Solicitor of the Great Western, went west to night, and Mr. Brydges proceeded to Montreal.

Colorado Jewett arrived to day en route for Europe, per steamer Peruvian, having as valet a mulatto lately in the service of ex-President Davis. Mr. Jewett says there is no peace in the American Republic yet, and that a great patriotic party is required to compose the difficulties between North and South. Mr. Beverley Tucker and Mr. Geo. N. Sanders, two well known Confederates, arrived to-day.

General Breckenridge, after proceeding to Toronto, will, it is said, take up his residence at Montreal.

Mr. Morris reported from the committee appointed to consider the system of obtaining returns of births, marriages, and deaths, in Upper Canada, that they had considered the subject and taken evidence, and that the existing system was a failure. The committee recommend the adaptation of the system to the municipal machinery, and obtaining the returns through the assessors and township clerks, who should be remunerated therefor.

Upon the recommendation of the printing committee, the House has ordered 4,000 copies of Mr. Fleming's map accompanying the intercolonial survey report.

The debate on the postal question to-day has given Mr. Howland an opportunity to explain the terms of settlement with all our railways for mail service. He has shown that the settlement is based on the principle of fair compensation for the car space used; that under the new arrangement a larger proportion of the cars is used, and that while the United States and England are still unable to establish a principle on which to base payment, Canada has in this respect succeeded, and has been complimented by the British post-office authorities.

Mr. Brown has gone into a history to-night of the whole postal question as regards the Grand Trunk, and especially of the payment to be made to the creditors of that Railway on account of Mail Service under the Arrangements &c. The Opposition have not ventured to divide the House on the Government policy.

LATE FROM MONTREAL.

Montreal, Sept. 12.

Very little of consequence is stirring in this city in a public way. The Provincial Synod of the English Church met to-day, and the deliberations are expected to be important. The new Trinity Church is to be opened on Sunday next, when the Metropolitan and Bishops of Huron and Ontario will take part in the services. A large choir will take part in the services. A large clergy is expected to be present.

There were great solemnities in the Roman Catholic parish church on Sunday, in connection with the benediction of three statutes to be placed on the front of the church.

The sons of President Davis are a Lennoxville College.

Mr. Anson Kemp, collector of customs at Frelighsburg, died on Sunday night last.

During the past week in the Protestant cemetery, the number of interments was 16; in the Catholic cemetery the number of interments during same period was 74; 5 men, 13 women, 31 male, 26 female children; 10 of children from Sœurs Grises.

Blossom, the man concerned in Sanders kidnapping case, was brought before Colonel Ermatinger, on a charge of sending a threatening letter to detective O'Leary. The prisoner cross-examined witness, Mr. Devlin, his counsel, not being allowed to do so. The prisoner put several questions which elicited the fact that O'Leary had only suspected the letter to be sent by him. The Magistrate refused to bail or discharge the prisoner.

The prospects of the coming provincial exhibition are first-rate and will eclipse those of any former year. The arrangements are more perfect, owing to the harmonious working of the different boards. The presence of visitors from the Lower Provinces, and the the proceedings connected with their entertainment will give additional interest to the occasion.

The committee are now preparing the crystal palace for the reception of articles. Everything is being taken away to make room; preparations have been going on for some time at the priest's farm, where the agricultural display will be held.

At the quarterly meeting of the City Council, last night, a report was made by the health committee on the sanitary condition of the city, recommending the appointment of a health officer and sanitary police. A force of that description is sadly needed—without it the city never will be properly cleansed or sanitary laws enforced. An appropriation of $3,000 was passed to clean the street during the exhibition.

The Adjutant-General of Militia has arrived, and will remain several days—during the formation of the camp of military instruction.

The Grand Trunk company has suffered so much annoyance at Bonaventure depot from the rude acts of the carters that they talk of closing it against this class. Offending carters are daily brought before the Recorder on the charge of obstructing passengers.

J. C. Breckenridge, secretary of war for the Confederate States, who was with Davis immediately previous to his capture, but escaped to the West Indies and thence to Europe, returned by the Peruvian to join his family for some time resident in Montreal.

COMMERCE AND MARINE.

THURSDAY MORNING, SEPT. 14, 1865.

The Daily British Whig is the only Kingston Newspaper which procures the Daily Market Prices of Montreal.

Gold in New York yesterday continued weak. There is a good deal of gold being sold short at three to six days at much below the current quotations. These sales are based upon the supposition that the Secretary of the Treasury will take early measures for curtailing the volume of the currency. They are confined as yet to a select few in the upper financial circles, but have a depressing effect upon the premium. Cash gold is offered quite freely this morning; the quotation ranged at about 143¼, during the morning.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

"* * * The Plantation Bitters have cured me of liver complaint, with which I was laid up prostrate and had to abandon my business.

H. B. KINGSLEY,
Cleveland, O."

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

"* * * The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE,
254 Broadway."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any perso pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.

AYER'S PILLS.

ARE you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? The symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy and certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole classes of Diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by E. H. Parker, Kingston, and all Druggists. Northrup & Lyman, Newcastle, General Agents. 2m0191 & 33

The surgeons' reports show that our armies have suffered greatly from chills and fever which is induced by the miasma and change of climate to which they are exposed. They also find Ayer's Ague Cure is an effectual remedy for this distemper, and are urging the government to adopt it within the regulations. The Surgeon-General hesitates, because it is put up in a proprietary form. However great that convenience to the public, he prefers the physicians of the army should give their own directions for the dose. Whatever professional pride may dictate, he knows as well as we do, that Dr. Ayer's "Cure" is an almost perfect antidote for the Ague, and that the soldiers should have the benefit of it, as well as the people.—[Washington (D.C.) Correspondent. 191 & 33

A GENTLEMAN cured of Nervous Debility, Premature Decay, and the effects of youthful indiscretion, will be happy to furnish others with the means of cure (free of charge). This remedy is simple, safe and certain.
