which it thinks would be sufficient to check he present career.

Liverpool, Nov. 18.

A deputation of the Liverpool merchants had waited upon Earl Clarendon in regard to the Chilian troubles, and the interview was very satisfactory. There is every reason to hope that the Government will take energetic measures in regard to the matter.

It is reported that a large number of blockade runners are fitting out in Liverpool.

The Times says England, France and the United States cannot allow the rights of neutral nations to be trampled on, and says the remonstrance of the Great Powers would be sufficient to recall Spain to a consideration of legal principles.

The Italian Parliament was to open today.

Imperial decree issued largely reducing the French army.

France denies rumors of intended territorial modifications attributed to the Emperor.

The Patrie says Spain probably will accept mediation from a third Power on the Chilian affair.

The London Post has an editorial on Sir Morton Peto's Bristol speech, and says it is happy to have this testimony of the good will of the American people, to be fully appreciated in England. Doubtless the Americans feel strangely about the Alabama, but that the dispute is one of internal equity, with a proper disposition to do right on England's part, and nothing unreasonable on the part of America. There can be no difficulty in finding a solution to the problem, having no difficult conditions but what are caused by false pride and inexcusable perversity.

Stephens, Fenian Head Centre, was committed for trial. He made a speech, repudiating all British law in Ireland, and expressed his readiness to receive any punishment inflicted upon him. It is stated that documents were found in Stephens' house disclosing all the secrets of the organization of Fenians.

News of the suppression of the Jamaica rebellion was received.

It is reported that Austria is about to reduce its army.

The financial position of Spain is stated to be in a most frightful condition.

The new Greek Minister has resigned.

Advices from Madagascar state that Rovas insisted upon the French giving up Lambert, the treaty be destroyed, and that France should resign all rights. The representative of France refused and left the country.

The First Day of Winter.—St. Andrew's Day is the first day of Winter proper in this part of Canada. The weather is good for the time of year, and Winter, tho' it is close at hand with frosts and snow storms, yet it does not threaten greatly. Sleighing, if it come soon, will be grateful, for there is now no sustenance in the grass, and the sooner it is covered over the better.

Marine Items.—The harbor was exceedingly dull yesterday, the season for business being positively over. The last load of grain has arrived, and the grain elevators will be idle till next spring. The barque Atabia has gone into winter quarters at Anderson & Ford's. The barque Mary Jane has left for Port Dover to lie up, and the schooner Garibaldi left yesterday morning for Port Dalhousie for the same purpose. The R. M. steamer Passport passed up at two o'clock yesterday morning, and lies up here on her return trip. The propeller Perseverance left for Port Dalhousie light the same morning. —The schooner Tranche-Montagne with 8,700 bushels of corn, part of barge Arabia's cargo, left for Cape Vincent on Tuesday night.

Police Court, Wednesday, (The Mayor presiding)—Robert Elliot, an old vagrant, charged with drunkenness, was discharged. Bridget Donnelly, brought up for vagrancy, was also discharged. Thomas Fanning and Henry Jenkins, sailors, were arrested on Tuesday afternoon while acting disorderly in Place d' Armes, and smashing things generally round in a house kept by a Mrs. Clark. They were also charged with assault. They were under the influence of liquor at the time. They were fined $10 and costs each.

The Government, at its last Council meeting at Montreal, decided to purchase 2,000 bushels of Riga seed for distribution in Canada. The mode of distribution is not yet announced; but, whoever, the agents for the purchase of the seed may be, they ought to be instructed to see that it is from last year's crop.

LADY SMUGGLING.

The Ogdensburgh Journal states that two most respectable ladies of that town have recently been arraigned for smuggling. The collectors have received instructions to compel the payment of duties on articles of clothing purchased in Canada by persons residing on this side, and in case of refusal to pay the legal duties, to prosecute for the penalty.

The Rochester Express says: Smuggling by ladies, we regret to say, is not confined to Ogdensburgh. We have been furnished with the names of several respectably connected ladies here, who have been rather extensively engaged in bringing over fine goods, such as they could conceal about their persons, trusting to the gallantry of Collector Crennell and his deputies, and the respectability of their husbands and friends, and withal the defence which the Rochester Union might set up in their behalf, to get through without being searched. These ladies, or females, have made several trips to the other side without detection, and with considerable profit to themselves. On one occasion they were expected on a certain evening, and their husbands went down to Charlotte to accompany them home, but they did not come that night, neither on the succeeding night, though their faithful spouses were at Charlotte each night. They at last returned via Suspension Bridge, having "smelt a mice" in that they might be searched by the Collector. These parties, and all other females who take advantage of their swelling crinoline to smuggle, should beware, as the government is employing female detectives, and they will surely be exposed in a way that their respectable connections will not protect them. It is no worse to smuggle whiskey than silks and finery, and if ladies lower themselves to defrauding the government, they must expect the fate of other smugglers.

An ingenious scheme of smuggling whiskey from Canada into the United States has just been detected. There were thirty-two women on board one railway train bound to the United States, who held in their arms what at first appeared to be babies, carefully wrapped up, with neat little feet exposed to the gaze of passengers. Upon investigation it was discovered that they were tin cases fashioned after the similitude of babies, containing from three to five gallons of whiskey. About thirty of the women were arrested, and over one hundred gallons of whiskey secured.

Shallow Water.—It is not many days since a heavy laden schooner coming into port grounded on a part of the bar which is considered safe to pass over at all seasons of navigation by vessels having a large draught of water. A tug had to be sent to her assistance. A loaded schooner this morning, drawing eleven and a half feet of water forward, but more aft, grounded by the stern when within fifteen or twenty feet from Anderson & Ford's Wharf, where it was supposed she would have several feet of water to spare. A portion of the cargo had to be lightened by the elevator before the vessel arose. The water mark on the wharf shows that there has been a fall of at least three feet in the water of the harbor during the past summer and the present fall.—News.

Shinplasters.—The American fifty cent shinplasters have been so extensively counterfeited of late, that there is no safety except in indiscriminate rejection, as the counterfeits are fully equal in style and appearance to the genuine notes.

Marine Disaster.—A collision occurred near Memphis on the 24th, between the Niagara and the Posiboy, on the Mississippi seven miles above Helena. The Niagara sunk in twenty feet of water. One hundred deck passengers, mostly discharged colored soldiers, were drowned. The cabin passengers and crew all saved. The Niagara was valued at $130,000; no insurance. She had 200 tons of freight on board. The Postboy was uninjured.

The Steamship Moravian.—The steamer Moravian has gone to New York this voyage, being employed by the Directors of a new steamship enterprise there.

Wheat.—Wheat to the extent of 14,000,000 cwts., and the value of £5,128,000, has been imported into England this year. A further instance of the short supply in the United States, is seen in the fact that the value of all the wheat exported by them to Great Britain during the year 1865 to 30 September is not equal even to one ninth of that of the previous year. In 1864, the United States sent to England £3,913,000 worth of wheat; in 1865 it amounts only to £308,000. In flour also there is noticeably a marked deduction in the supply. In 1864, as much as £800,000 worth of this article was shipped to Great Britain, while in 1865 it is only £117,000.

Good Record for the Cunard Steamers.—The Cunard Steamship line began its transit across the ocean in 1840, twenty-five years ago. During that time its ships have made 2,250 passages; have passed over more than seven millions of route; have carried four hundred thousand passengers and have never failed to sail on the appointed day; have never lost a passenger by any conduct of their own. No injury has ever occurred to a passenger from accident, or from the machinery, and the Company have never lost a letter they have carried.

Accident to a Ship-Master.—We regret to learn that Captain A. J. Martin, of the Quorn, lying at Quebec, was so severely injured on Tuesday by a fall from the rail of the ship into a batteau which was laying alongside, as to be unable to proceed with his vessel. Capt. Martin is still in hospital.—Quebec Chronicle.

CUSTOMS IMPORTS.

November 29th.

Barge Defiance, Montreal—26 half chests tea, J. Carruthers & Co.

Sir Passport, Montreal—8 coils rope, Captain Gaskin.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head! The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

REV. W. H. WAGGONER,
Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefitted by their use.

Thy Friend, ASA CURRIN,

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.

REV. J. S. CATHORN,

"* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

G. W. D. ANDREWS,
Superintendent Soldiers' Home,

"* * * The Plantation Bitters have cured me of liver complaint, with which I was laid up prostrate and had to abandon my business.

H. B. KINGSLEY,
Cleveland, O."

New Bedford, Mass., Nov. 24, 1863.

Dear Sir:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

"* * * The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE,
254 Broadway."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an impostor. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.
