COMMERCE AND MARINE.

TUESDAY MORNING, DEC. 5, 1865.

Gold in New York yesterday closed at 148¼.

THE BARQUE SARAH ANN MARSH.—A telegram was received on Saturday from Mr. J. Swift, part owner of this vessel, which is ashore near Port Maitland, to say that she is not broken to pieces as reported, although she has seven feet of water in her hold. The vessel will likely be taken off, but the cargo of grain will be a total loss. The grain is insured, but the vessel is not. The Insurance Agent had visited the Marsh, and was about to abandon the cargo.

EXPORTS BY THE PIERREPONT.—The ferry steamer Pierrepont is regularly loaded every trip with live stock for the American markets, which shews that the exports have not diminished in the least from what they have been kept up all fall. Formerly every grades of cattle were taken, but at the present time fat ones are all the rule. Besides live stocks, a great number of live poultry are exported. Yesterday several hundred geese were sent over to the Cape in coops, where they command as much as a dollar a piece on the average in greenbacks. Speculators make well on these feathered bipeds, for they can land them in New York for about half that cost.

VESSEL ON FIRE.—On Saturday evening about eight o'clock, Policemen McLoughlin and Milane, while on their usual beat, discovered a fire in the forecastle of the schooner Helen, of Capt. Givens', laid up for the winter at the foot of Princess Street. By the vigorous application of water the fire was put out and the vessel saved. Had the flames been allowed to gain a few minutes more headway, nothing could have saved the vessel, for the whole forecastle was on fire when the Policemen arrived. How the fire originated is not known, though it is supposed to have been caused by the sparks from the pipes of some fellows, who had broken open the cabin door and made use of the cabin for loafing in.—By this it will be seen how necessary it is to have some one paid to take charge of each vessel when laid up, for if this fire was not discovered as soon as it was, the vessel would have been destroyed, and perhaps other property besides would have been burnt.

POLICE COURT, Monday—(Before the Mayor).—These are busy times among police circles. The following were up for drunkenness, mostly all fresh hands:—John McKenna, fined $2; James Tweedell, also disorderly, fined $2; Patrick Burke, discharged; John Urquhart, do; Mary Shepherd, old offender, committed for 21 days; Stephen Moore, both drunk and disorderly, committed to gaol for 21 days in default of payment of fine. Mary Higgins, vagrancy, was committed for 30 days.—Mary A. Holmes was charged with larceny. On Saturday she was detected in stealing a coat from the house of a person named Burke living near the gas house, and followed to Queen street, where the coat was taken from her and she was released. Having a bundle of clothes in her possession she was followed and arrested by Policemen Nugent and Ilsey. A dress she wore was identified by a Mrs. Innes as her property, but the other articles in the bundle, all no doubt stolen ones, have not been claimed. The prisoner was committed for trial. Michael Foley of Wellington street appeared on complaint of Mr. Inspector Mostyn for selling liquor without license. The charge being sustained by the evidence of witnesses, the defendant was fined $10 and costs.

We learn that a survey was held, on Friday last on the ship Robert Small, which is ashore at Beaumont, and that she has been condemned. Schooners went down to strip her on Saturday.—(Quebec News.

THE LATE REBEL RAM STONEWALL.—The special correspondent of the New York World, speaking of the trip of the Stonewall, says, her speed was ten miles an hour which is by no means her maximum. She seemed to be very formidable; her ram projected 25 feet from her bow, and lies eight feet under water. After the trial was completed, the impression seems to be that the Commodore exercised a sound discretion in not attacking her. If the Niagara's guns failed to make any impression on the plating of the Stonewall, the result would probably have been the sinking of the Niagara by the latter's ram.

Toronto, Nov. 30.

The Board of Trade last night resolved, That in view of the importance attached by the Western states in the use of our navigable waters and other reasons, it is expedient that some opportunity should be sought for between the leading business men of both countries, at which such subjects may be freely discussed. There was some opposition.

Montreal, Nov. 30.

The weather during the week has been very fine and open, and country farm work has been steadily pursued. In Lower Canada, the frost has interfered with fall ploughing; but in the West, a large amount of land has been brought under tillage. Nothing could have been more favorable for the vessels sailing late this fall, and, so far, navigation has in no way been impeded. The volume of business has been restricted during the week, although there have been several grocery auction sales. Should any cold snap occur, the upper canals will speedily be closed, and we notice that the last barges have passed through the Chambly canal. All grain and produce on route from this to Albany and New York, must consequently pass over the railroad.

LOSS OF THE TWO CANADA.—The side-wheel tug Canada, owned and commanded by Capt. D. Missel, while coming towards the Detroit River, with a vessel and barge in tow, struck on Bar point, Lake Erie, on Tuesday night, and during Thursday was dashed to pieces by the heavy seas which breached over her. The Canada came originally from Quebec, and was rebuilt in 1856 at this port, and some three years later was bought by her present owner. She was built in 1852.—Detroit paper.

Portland, Me., Dec. 2.—The steamer Moravian sailed for Liverpool at 9 o'clock this evening.

VESSELS PASSED THROUGH THE WELLAND CANAL.

St. Catharines, Dec. 2.

Schrs Princess Alexandra, Toledo to Kingston, corn; Charm, St. Catharines to Port Nelson, no cargo; Cornelia, Chicago to Oswego, wheat; Grenada, Milwaukie to Oswego, wheat; schr Victoria, Erie to Toronto, coal; J S Clark, Thorold to Oswego, lumber.

Wilmington, N. C., Nov. 29.—The ship Alcyone, Leavitt, of St. Johns, N. B., from Liverpool for Baltimore, with salt, went ashore on Boudy Island, about 60 miles north of Cape Fear, on Tuesday Morning. The ship is a total loss. The captain and crew were taken off by the steamer Washington.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

"* * * The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE,
254 Broadway."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.
