ARRIVAL OF THE MAILS BY THE ASIA.

INTERVIEW BETWEEN MINISTER BIGELOW AND THE CHILIAN MINISTER.

THE FENIAN EXCITEMENT.

URTHER PARTICULARS OF THE ESCAPE OF STEPHENS.

New York, Dec. 12.

The Asia's mails reached the post office at an early hour yesterday morning. Our European files and correspondence contain matters of considerable interest.

Gales had recommenced with great violence in the English Channel. Another cotton ship, the Jane M. Harwood, from New Orleans with 1,350 bales, is reported totally lost. The cargo and ship are insured for £70,000.

The Belgian and Dutch Governments have come to an understanding for placing lights on the two banks of the Scheldt.—Commissioners have been appointed on both sides to carry out that measure.

Considerable difference of opinion exists in the English press and amongst the public respecting the course which has been pursued in Jamaica toward the blacks. On hef one hand it is asserted that the governor and the authorities had no alternative but to act with the severity which they did, for any show of clemency, any faltering, timid policy in the hour of danger, would have involved the whole island in a general conflagration. On the other hand, it is maintained that the shedding of blood was too severe—that there was no premeditated scheme of rising, and that it might have been put down without having recourse to measures of cruelty which are a disgrace to British soldiers and to the civil representatives of the British crown. The execution of Mr. Gordon, more especially is condemned, and his forcible removal from Jamaica, which was not under martial law, to the eastern part of the island, where martial law existed, in order to have him tried and instantly executed, was an act of atrocious barbarity, and in every sense and phase illegal and unconstitutional. The religious bodies—the Methodists, Baptists and others—are strongly moved by sympathy with the blacks, and the subject will certainly occupy much consideration in Parliament when it meets. Meetings in most of the large towns in England are to be organized.

THE FENIANS.

THE ESCAPE OF STEPHENS—VISIT TO HIS CELL—HOW HE MADE HIS EXIT FROM PRISON.

(Dublin (Nov. 24) Correspondence London Herald.)

I have been to Stephen's cell, and over all the passages of his escape. He could not possibly have escaped without the aid of one or more accomplices. After leaving his cell, the padlock of which had been opened by a skeleton key, he had to pass through about eight locked doors, all of which he or his aiders left opened, except one, which was re-locked to prevent pursuit. From the lunatics' dining room two tables were carried across the prison-yard to the wall bounding the governor's garden, and placed one over the other, which only reached to about six feet of the wall, which is twenty feet high, so that external as well as internal aid must have been employed. There has been great excitement in the city during the day. There is no clue to the hiding place of the fugitive.

HOPES OF HIS CAPTURE—SOME OF STEPHENS' ANTECEDENTS.

(From the London Times, Nov. 25.)

The Head Center of all the Fenians of Ireland, Mr. Jas. Stephens, alias Power, who was apprehended only a fortnight ago, has just escaped from Richmond Prison, probably by the connivance of some of the prison officials. As the government has offered £1,000 for his recapture, and £300 more for information, he will probably be soon again in custody; but the event is likely to cast suspicion on the fidelity of an important body of men, and to increase the caution with which the Irish Government deals with these troublesome conspirators. Stephens, who has been raised by the Fenian authorities, or has raised himself to the office and dignity of chief of the republican plotters, was, we believe, originally connected with Mr. Smith O'Brien, and learnt treason in the school of the rebels of 1848. He has, however, only emerged into history since the scheme for making Ireland independent by American aid has been formed on the other side of the ocean. As a man endowed with more than usual Fenian education, he took the lead, and attained at once the high position which, unless he succeeds in making his escape from Ireland although, is likely to give him an unpleasant pre-eminence in punishment. But for the present he seems to have baffled justice. While the lawyers of the Queen's Bench were discussing the question of a certiorari at a length which encumbers our columns, Mr. James Stephens moved a more effective certiorari himself and postponed his trial before the Special Commission by the simple expedient of breaking prison. We have as yet no means of knowing how he made his escape, and how far any one at the Richmond Prison is connected with it. But Mr. Stephens is a man of such ability and recourse that he would have no difficulty in taking advantage of any favourable disposition on the part of a turnkey, whether it arose from political sympathy or readiness to pocket a bribe. The Fenian exchequer has been so flourishing, owing to the prosperity and enthusiasm of the brethern across the Atlantic that any reasonable number of sovereigns would, no doubt, be forth coming. It now remains for Mr. Stephens, having made his escape, to avoid a second capture. The reward for his apprehension will make the chase after him very hot, for it is not often that any country a prize of £1,300 is held up before the eyes of the police. But to judge from his past exploits, he is quite capable of giving his pursuers some trouble. It is related that on the night of the seizure of the Irish People he changed his appearance with peculiar readiness, and, procuring a pair of crutches, made his way to a place of shelter.

COMMERCE AND MARINE.

THURSDAY MORNING, DEC. 14, 1865.

Gold in New York yesterday closed a 144¼.

MONTREAL MARKETS.

Montreal, Dec. 13, 1865.

[Special Telegram to the British Whig.]

William Nivin & Co., Commission Merchants, Corner of St. Nicholas and St. Sacrament Streets, Montreal, report:—

Flour—Superior Extra, 6,75 a 7,00; Extra, 6,00 a 6,50; Fancy, 5,85 a 6,00; Welland Canal Superfine, 5,00 a 5,20; Superfine No. 1 Canada Wheat, 5,20 a 5,30; Superfine No. 1 Western Wheat, 5,10 a 5,20; Superfine No. 2 Western Wheat, 4,60 a 4,75; Bag Flour, 2,85 a 2,95. Wheat—Canada, nominal; western, do. Oats—per 32 lbs., none. Barley—per 48 lbs., none. Butter—Dairy, sales only of small lots; Store Packed, do. Ashes—Pots, no change; Pearls, no change. Gold in New York at 12 o'clock, 145¼. Flour market little or no change, the transactions have been small. Butter little doing.

The steamer Watertown was launched from the Marine Railway yesterday afternoon at 2 o'clock, almost ready to resume her trips if necessary. She went off the ways very handsomely.

A stupendous smuggling dodge was just detected by the American authorities, on the Niagara river. An establishment, having its head-quarters on the American side, was discovered to have been pumping whiskey across in a lead pipe, running under the river just above Grand Island.

THE RECIPROCITY TREATY.

The following on this subject is from the Annual Report to Congress of the United States Secretary of the Treasury:—

The reciprocity Treaty with Great Britain will expire on the 17th of March next, and due notice of this fact has been given by circulars, to the officers of customs on the northern frontier.

There are grave doubts whether treaties of this character do not interfere with the legislative powers of Congress, and especially with the constitutional power of the House of Representatives to originate revenue bills; and whether such treaties, if they yield anything not justified by our general revenue laws, are not in conflict with the spirit of the usual clause contained in most of our commercial treaties, to treat each nation on the same footing as the most favoured nation, and not to grant, without an equivalent, any particular favor to one nation not conceded to another in respect to commerce and navigation.

It appears to be well established that the advantages of this treaty have not been mutual, but have been in favor of the Canadas. Our markets have been strong, extensive and valuable—theirs have been weak, limited, and generally far less profitable to our citizens. The people of the Canadas and Provinces have been sellers and we buyers of the same productions for which we are often forced to seek a foreign market. It is questionable, in fact, whether any actual reciprocity embracing many of the articles now in the treaty, can be maintained between the two countries. Even in regard to the fisheries, it is by no means certain that, instead of equivalents having been acquired under the treaty more than equal advantages were not surrendering by it. But, whatever the facts may be, this subject, as well as that of intercommunication through rivers and lakes, and possibly canals and railroads, are proper subjects of negotiation, and their importance should secure early consideration.

It is certain that, in the arrangement of our complex system of revenue through the tariff and internal duties, the treaty has been the cause of no little embarrassment. The subject of the revenue should not be embarrassed by treaty stipulations, but Congress should be left to act upon it freely and independently. Any arrangement between the United States and the Canadas and Provinces, that may be considered mutually beneficial, can as readily be perfected and carried out by reciprocal legislation, as by any other means. No complaint would then arise as to subsequent changes of laws, for each party would be free to act at all times according to its discretion.

However desirable stability may be, an irrepealable revenue law, even in ordinary times, is open to grave objections, an in any extraordinary crisis is likely to be pernicious. The people of the United States cannot consent to be taxed as producers while those outside of our boundaries, exempt from our burdens, shall be permitted, as competitors, to have free access to our markets. It is desirable to diminish the temptations now existing for smuggling, and if the course suggested, of mutual legislation, should be adopted, a revenue system, both in harmony with our own, might justly be anticipated from the action of our neighbors, by which this result would be most likely to be obtained.

Montreal, Dec. 11.

STOCK MARKET AT MONTREAL—The Stock Market still continues heavy, and sales have been made at lower rates than last week.—Bank of Montreal, is selling at 112; City Bank, has been placed at 99 to 99½; Commercial Bank, to some extent at 75¼ to 75¼; Montreal Telegraph at 126; Huron Copper Bay, at 57¼; and City Passenger Railway at 60¼.

BUTTER.—The stocks in both Boston and New York have at length accumulated in a degree which appears to preclude the hope of being relieved by the local Trade; British shippers have therefore been sounded as to their views, which at present are too low for the ideas of holders, and as yet no shipments have taken place.

THE LEATHER TRADE.—The sales effected during the week, although not very extensive have yet been quite as good as could be anticipated at this season of the year. The stocks are as low as usual, and are confined to a few sorts, which do not agree with the requirements of the trade. Purchasers have, therefore, found themselves limited both as to variety and extent. The receipts, too during the week, have been of an unimportant character.

THE SPIRIT TRADE.—The following are the Montreal Spirit quotations of Messrs. Dow & Co. and Messrs. Molson & Co.:

High Wines 20 puncheons and upwards	50c	net cash.
" " 5 " " up to 20	60c	" "
" " under 5 puncheons	$1.00	" "

Messrs. Gooderham & Worts, Montreal, quotations are as follows:

Alcohol	$1 00	net cash.
50 O. P. Pure Spirits	0 95	"
Old Rye and Toddy	0 60	"
Malt	0 60	"
32 U. P. Whiskey	0 40	"
40 U. P. "	0 27	"

REGISTERED LETTERS.—The American Post-Office Department has forwarded orders to the various postmasters in Canada to receive no letters for registration unless both postage and registration fees are fully prepaid.

CLOSE OF NAVIGATION AT MONTREAL.—The navigation of our lakes and rivers may be said to have closed for the season. The Grecian and Passport and other steamers have, we believe, laid up in Kingston, and the Richelieu Company's steamers, plying between here and Quebec, have ceased their trips. Crafts of all kinds have either entered, or are rapidly being placed in their winter quarters. The weather continues mild for the season, but, it cannot now be long until the St. Lawrence is frozen over.

Navigation on the Ottawa is at an end for this season; the steamers which run between Montreal and Grenville and those which ply on the Rideau Canal and Upper Ottawa have gone into winter quarters. We have no snow yet, the roads are firm and tolerably good, but we are waiting impatiently for sleighing by revive business, and to make firewood and provisions cheaper.

A DOUBLE TRACK.—The Erie (New York) Railway Company have negotiated a loan of $4,000,000 in England for the completion of its double track. The fact, taken in connection with the declaration of the English capitalists interested in the Atlantic and Great western, gives promise of a new era in railroading on this continent.

The tenant league at P. E. Island are knocking under, and the tenants are paying the rents demanded, though reluctantly.

It is estimated that 300,000 bushels of wheat have been shipped from the Minnesota Valley this season, which is less that half the amount now awaiting shipment. 62,000 barrels of flour have been exported, a large portion of which was manufactured at Minneapolis and St. Anthony.

AMERICAN SECURITIES IN ENGLAND.—A rise has taken place in England in American stocks and bonds—the reason assigned being the expectation that all matters in dispute between the British and United States Governments will be amicably arranged.

SCHOONER KNIGHT TEMPLAR.—This vessel, which met with a disaster by sinking on the flats, with a cargo of corn, was towed to this city on Saturday afternoon. Her entire cargo is in a damaged condition, and her hold seriously injured by fire caused from the steam pumps. The corn is being taken out of her, and the vessel will, immediately be placed in dry dock for repairs.—Detroit Free Press.

TRUST AND LOAN COMPANY.—The half yearly report of the Trust and Loan Company of Upper Canada states the available total at 13,687l., and recommends a dividend at the rate of 7½ per cent. per annum, less income tax. The sum of 3,586l. is to be carried to reserve, which will thus be raised to £4,400l., and 236l. to preliminary expenses, and 1617. will remain to be carried forward.

THE ASSOCIATION OF THE UPPER CANADA—POSSIBLE WITHDRAWAL OF THE CAPITAL OF THE BANK OF MONTREAL FROM UPPER CANADA.

The Montreal Witness quotes with approval certain remarks of the Globe, on the consequences which may possibly arise from recent decisions in our Courts in Upper Canada as to usury:—

The suits against the Bank of Montreal for usury in charging a half per cent. on drafts made payable at other branches, and the view taken of the law by Chief Justice Draper and Richards, would render nine-tenths of the paper discounted of doubtful validity. Under these circumstances the Globe says:—

The Bank of Montreal has it seriously in contemplation to withdraw all its capital from Upper Canada. With the law in such a state there would be strong inducements to other banks to follow the example of the Montreal institution. It would be quite impossible to supply the capital withdrawn in that way, without first amending the law. To leave nearly all the paper discounted by the Banks liable to the taint of usury, and to consequent repudiation, would be the readiest way of depriving the country of the banking capital which is now employed here. We must, therefore, have the law amended as soon as possible.

This, the Witness says, is a fresh illustration of the absurdity of the usury laws.

FENIAN SCARE.

The Commercial Bank is about to remove the greater part of its funds, hitherto used at the Windsor Branch, to a more inland locality, and have issued the following notice:—

COMMERCIAL BANK OF CANADA.—Notice is hereby given to parties holding certificates of Deposits of interest, issued at this agency, that it has been deemed advisable to remove to other points the greater part of the funds usually held here, leaving only sufficient to meet the daily business of the Agency. Holders of Interest Deposit-Certificates for large amounts are, therefore, respectfully requested to give two or three days notice before withdrawing their money, in order that gold or notes may be bought on as required.

For the convenience of holders of these receipts who reside in the United States, gold has been placed in New York, and the parties can get gold drafts on New York, payable on demand, when desired.

C. D. GRASETT, Agent.

Windsor, Dec. 9, 1865.

This action is taken evidently on account of probable raids from the States into Canada during winter. Forewarned, forearmed.

The report published in this and other provincial journals to the effect that the Commercial Bank of Canada branch at St. Thomas lost $4000 by the swindling operations of McGregor, who was selling bogus drafts on New York in different parts of Canada, is utterly denied by an officer of that Bank.—Chatham Planet.

S. CARSLEY'S

MANTLE DEPARTMENT has no Rival. The following is December's Price List for new shapes in Mantles, Jackets or Basques—12s 6d, 15s, 17s 6d, 20s, 25s 40s, 30s, 60s, 70s, and 80s.

DRESSES, DRESSES, DRESSES.

We invite special attention to our stock of Dress Goods, the contents of two cases of beautiful new Dresses, just marked off. Our Cobourgs, at Twenty-Five Cents, can't be beat. Our French Merinos at 3s. 3d. are excellent value. One case beautiful Tartan Delanes at 12½ cents per Yard.

Any customer can have a sample of the 12½ cent Delaines to compare with other stores. We consider them equal to any in Kingston at 25 cents.

SHAWLS, SHAWLS, SHAWLS.

Just received one case of Scotch Tartan Long Shawls, and one case Paisley Longs, all to be sold at a small advance on cost price.

NOTICE.—The reason why S. Carsley is selling so much cheaper this season than usual is because he is doing all his business for cash. No firm can afford to sell cheap that do a credit business. All cash purchasers should call and examine our stock before buying elsewhere. All goods marked in plain figures, from which no abatement can be made.
