

NOTICE OF FILING OF ADDENDUM
**Relocation of the Zone 4 Reservoir
(Trafalgar Road and No. 5 Side Road, Town of Halton Hills)**

Halton Region completed the Sustainable Halton Water and Wastewater Master Plan Class Environmental Assessment Study in 2011. The purpose of the study was to develop a Region-wide water and wastewater infrastructure strategy to service growth in Halton's urban areas to 2031, based on the approved 2011 Best Planning Estimates. One component of the preferred water servicing strategy included the need for a new water storage reservoir (Zone 4) on Trafalgar Road (350 metres south of No. 5 Side Road) to provide water storage for Milton and North Oakville service areas.

Since the 2011 Master Plan document was completed, additional water infrastructure has been constructed within the service area and staff has undertaken additional technical review of the proposed water level at the Zone 4 Reservoir based on the water system response. To mitigate the potential for future customer concerns related to water pressure, the water level for the Zone 4 reservoir was re-evaluated and a new alternative site location has been recommended as illustrated in the map (approximately 1000 metres further north of the site chosen during the original 2011 Master Plan).

Halton Region has completed a report for the Addendum to the Sustainable Halton Water and Wastewater Master Plan – Zone 4 Reservoir (the Addendum Report), which documents the basis for the changes and the revised recommendations. **The Addendum Report** is available electronically at halton.ca/2011MSP. The Report is also **available during the review period from Thursday, August 6, 2015 to Friday, September 4, 2015 at the following locations:**

Regional Municipality of Halton	Town of Halton Hills	Town of Milton
1151 Bronte Road, Oakville Citizen's Reference Library Monday – Friday: 8:30 a.m. – 4:30 p.m.	1 Halton Hills Drive, Georgetown Clerk's Department Monday – Friday: 8:45 a.m. – 4:30 p.m.	150 Mary Street, Milton Clerk's Department Monday – Friday: 8:30 a.m. – 4:30 p.m.

Subject to comments received as a result of this notice, Halton Region intends to proceed with the implementation of the design and construction of the Zone 4 reservoir project as documented in the Addendum Report.

If after reading the Addendum Report, you have questions or concerns, please contact:

Music concert to aid Winnipeg aboriginal community

The third annual "Night For Winnipeg Inner-City Missions" coffee-house concert will be held Friday, Aug. 14.

The show begins at 7 p.m. at Norval Presbyterian Church; there is a \$10 cover at the door.

All funds go directly to Winnipeg Inner-City Missions (WICM), a charitable organization in Winnipeg providing support and aid to aboriginal children, youth, and families within the inner-city.

This is the third year Halton Hills-based musician Susannah McKenzie-Sutter has run the concert. McKenzie-Sutter, with a group of Halton Hills youth and adults, has been to Manitoba to volunteer with WICM in 2010 and 2012.

The volunteer group has re-

mained committed to supporting and fundraising on WICM's behalf, said McKenzie-Sutter.

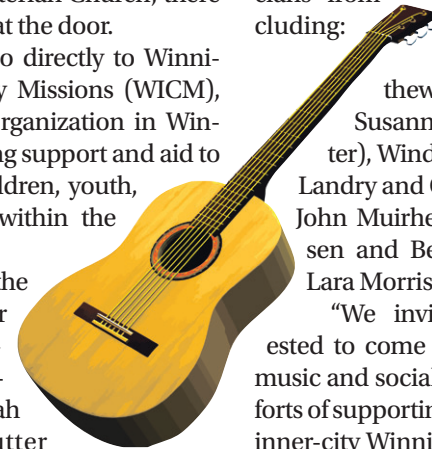

The concert lineup features a range of local and original musicians from Halton Hills, including:

Mountain and the Wood (Matthew Wittmann and Susannah McKenzie-Sutter), Windswept Shore (Paul Landry and Caylanne Landry), John Muirhead, Brent Teunissen and Ben Passmore, and Lara Morrison.

"We invite anyone interested to come out for a night of music and socializing, all in the efforts of supporting our friends from inner-city Winnipeg," said McKenzie-Sutter.

Norval Presbyterian Church is located at 499 Guelph St. in the village of Norval.

Free refreshments are available during the show.

... Lend Me Your Ears

By Cory Soal
R.H.A.D.

FOOD ALLERGIES MAY CAUSE EAR INFECTIONS

If your child suffers from frequent ear infections, and you can't pin point the cause, it may be something he/her ate. It's recently been found that food allergies may trigger ear infections, which left untreated can cause hearing loss.

The allergies create mucous congestion in the nose, which then flows into the tube connecting the nose to the ears. Eventually the tube gets blocked and infection causing bacteria grow.

To determine if food allergies are causing your child's ear infection have him/her tested. Once the troublesome food is discovered your physician can suggest alternatives. And take heart, kids often outgrow food allergies – and their tendency towards ear infections.

Final summer classical concert to feature Faure

The final Tuesday night summer concert at 157 Main Street beginning at 8 p.m. on Tuesday, Aug. 18, will feature Gabriel Faure's lyrical Piano Quartet No. 1 in C minor.

Performers will include violinist Lance Ouellette, who performs regularly with the TSO, Yunion Lopez on viola, who also conducts full time in Las Vegas, and cellist Mary Katherine Finch, who is principal with the MSO.

The string trio will be joined together with pianist Ron Greidanus in this passionate masterpiece written in Faure's youth for a love that was lost. Finch will then strut her stuff in Chopin's magical Polonaise Brillante accompanied by flying fingers Ronaldo at the piano.

Following the performance concert-goers can then enjoy light summer French fare to complete the evening of music and tasty food.

Tickets \$35 are on sale at Foodstuffs in old downtown Georgetown, 905-877-6569.
