Facts and Fancies.

How's your velocipede?

Many who are wits in jest are fools in earnest.

Hoopskirts are now entirely discarded by fashionable ladies. The panier should accompany them.

Our contemporaries have taken up the sugar refining hoax, and given Kingston credit for a new enterprize.

Outside shows may be purchased, but real happiness is of home manufacture.

Keep your temper, the cold hammer moulds and mastors red-hot iron.

The officers who are obliged to retire from the R. C. Rifles in consequence of the reduction of the strength are Lieut.-Col. Campbell, Captains Nagle, Quill, Myers and Perry, Lieuts. Hignet, Lowe, Moore and Johnson, and also four junior Ensigns.

Fame is like an eel—rather hard to catch, and a good deal harder to hold.

Josh Billings says one live man in a village "is like a case of itch at a district school—he sets everybody skratching at onst."

The Penny Readings at the P.M. Church have not been discontinued, but are still improving in every respect. The next Reading takes place on Thursday next.

Chicago has a lady preacher, whose last sermon was devoted to proving "man's total depravity."

The story that Mr. Ferguson, the blind piper, is dead, is a fabrication. "He is not dead, but sleepeth"—a certain portion of every twenty-four hours.

Merrickville will soon have a foundry for the manufacture of cast-malleable iron.

Corsets are like opposition steamboats. They reduce the fair, and they should always be encouraged by economical people, because they have a tendency to lessen waist.

One-wheeled velocipedes are the rage in this city. They cost $4 each, and may be used for a variety of useful purposes—carting away dirt for instance.

Lovers, like armies, get along well enough till engaged.

Four thousand million pounds of rags are estimated to be annually made into paper in the world.

The Sherbrooke Gazette shows up its runaway subscribers in the following style: 'John B. McLean, of Melbourne, has gone West without paying for the Gazette. Wm. Minot, of Kingsey, do.' The British Whig could fill up a tremendous black list if it chose.

The Pembroke Observer frankly acknowledges an April sell on its local, who trotted out to see a velocipede race which didn't take place.

The Globe is pushing things in Montreal. It has now a circulation of 1,000 copies there.

Mean—very, the Ottawa Citizen characterizes the recent theft of the city missionary's watch in Kingston.

Over 125 Bills have been passed by the Quebec Legislature.

The artillerymen are deserting. This is the simplest and most effective way of reducing the strength of the army.

Pittsburg, Penn., has a man with a beard eight feet long. Wonder how long the man is.

The best Velocipede time yet made in Montreal is half a mile in 1:55 over a very good track.

Navigation is open in Toronto, while we are yet looking anxiously and fruitlessly in the direction of the lake for a sign of the blue water.

The schr. Tranchemontagne left Toronto on Friday for Oswego with wheat.

The Toronto Telegraph is strong here in popular favor. Yesterday afternoon, one hour after the mail arrived, we tried to obtain a copy at the stores and failed.

The fuss between the local editor of the Globe and Detective McKendy has ended in the latter being bound over to keep the peace. A newspaper proprietor is one of his bailsmen.

During March, 650 immigrants arrived in Toronto; 385 proceeded to the States.

Whole factories in Montreal, are being occupied in manufacturing velocipede. They will meet a speedy collapse some day perhaps.

Whither are we drifting? The frost of Sunday and the succeeding fall of snow were suggestive of this thought. The conclusion was, that we were drifting into another winter.

The Canadian climate is variable, if nothing else. Yesterday, after two days of unmistakeable winter weather, spring came on us again without an apology. But his genial good nature will ensure forgiveness. Let us hope we have done with the winter for good and all.

The Lacrosse Clubs in Montreal and Toronto just waking up, and are going to work in earnest to prepare for the seasons sport, which promises to be very exciting—the velocipede to the contrary notwithstanding.

'Gallant velocipedists', some will exclaim, when they see ladies forced to step off the sidewalk to allow big fellows to pass with their steeds.

STABLE SECRET—the mare's nest of the News.

The style of velocipede most highly recommended has four wheels, with light frame work above, a chair, and a little Canadian pony in front.

The corporation imposes a license on livery stables. Are Velocipede depots, where the "animals" are let out for hire, amenable to this law?

R. M. Hotsey has received new Velocipedes.

All who have read the affecting song of 'Lord Lovell and his Velocipede,' can imagine the situation of a side-walk velocipedestrian, who essayed to ride over an iron grating on Wellington Street yesterday. The trial was not a success, as the wheels went through, and the axle came chuck against the bar. The machine was demolished, and the rider demoralized. In summing up it was found that the losses were a broken machine and contused limbs, to counterbalance which stands the profit of experience. Beware of grates!

MADAME RACHEL'S SPOILS.—Madame Rachel did not make ladies 'beautiful forever' for nothing, nor was her Arabian face wash distilled from costly herbs, and brought on the backs of swift dromedaries, to be laid at the feet of her patronesses, without its reward. Being about to leave the inhospitable shores of England, and reside in Paris, her effects—not of her preparations on the ladies, but her furniture—are to be sold. Inspection of 'them showed, in the drawing-room and principal apartments, 'a splendour and magnificence difficult to describe.' There was a pair of massive candelabra, formerly belonging to the Emperor of the French, and a magnificent pair of incense burners, formerly the property of the King of Delhi. Dispersed throughout the house were numerous works of art, and an extensive collection of articles of vertu, many of them being presentations from Madame Rachel's distinguished patronesses.' Admission by catalogue as strictly enforced, and a shilling each was charged for them.

THE TRICHINA AT HOME.—We were interested this morning by a glance at the terrible trichina monster, roaming at will in its native haunts, revealed through the power of a fine microscope owned by a professional gentleman of the city. It isn't a lovely animal, by any means—about as much so, however, as a snake. It was contained in a piece of pork that was hardly larger than a fly's foot; yet in this atomic home it had abundant room for exercise, and for the accommodation of several of its relatives, had they been disposed to call. It resembles nothing so much as an angle-worm, only it has the head of a snake. This infinitesimal creature works terrible results when once lodged in a porker or in the human muscle. A look at the representative of the species convinced us that we didn't want any of them. The specimen was received by letter from a medical gentleman of Rome, New York, where eleven persons were recently afflicted with trichina, six of whom died. The cases were all occasioned by eating smoked ham. The letter states that one cubic inch of the flesh contained from 10,000 to 20,000 of these serpents. Yet a person might chew a million of them and never know it until they commenced to chew him. And the trichina don't play fair in the chewing business, either; for, while it can't be chewed to death by any possible set of incisors, cuspids, bi-cuspids, lesser or greater molars, that were ever set in human jaws, it can chew a man in short order. The only remedy is to eschew food of this description, if we hope to become food for worms of a decent and grave kind before trichina makes ends of us.—Hamilton Times.

BREAKFAST.—A SUCCESSFUL EXPERIMENT.—The Civil Service Gazette has the following:—"There are very few simple articles of food which can boast of so many valuable and important dietary properties as cocoa. While acting on the nerves as a gentle stimulant, it provides the body with some of the purest elements of nutrition, and at the same time corrects and invigorates the action of the digestive organs. These beneficial effects depend in a great measure upon the manner of its preparation, but of late years close attention has been given to the growth and treatment of cocoa, that there is no difficulty in securing it with every useful quality fully developed. The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalists. Far and wide the reputation of Epp's Cocoa has spread by the simple force of its own extraordinary merits. Medical men of all shades of opinion have agreed in recommending it as the safest and most beneficial article of diet for persons of weak constitutions. This superiority of a particular mode of preparation over all others is a remarkable proof of the great results to be obtained from little causes. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtile Maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame. 1naw23

NEWS OF THE DAY.

TUESDAY MORNING, APRIL 6, 1869.

THE VELOCIPEDE RACE.—The most novel contest which has attracted attention in the sporting circle of Kingston for a number of years, was the velocipede race at the City Hall on Saturday evening, where the school of Benway & Co. has been located for some time. The announcement brought forth a number of amateur patrons of the art and a host of admirers, large numbers of the fair sex being classed among the latter. Their presence was the most powerful stimulant to exertion which the riders could have desired, and their frequent approval of the aforesaid effort the best boon of all. The skating, or any other fever in the recollection of that ancient boy—the oldest inhabitant, had not an equal in the intense interest which is now centred in the simple contrivance of the bycicle. Its reign is fully established, and the object should now be to perpetuate it to a useful and praiseworthy end. So far though, its usefulness has not been clearly demonstrated.

But to the race. A ring was formed around the Hall, protected on both sides to prevent encroachment. The floor was in capital order for racing. At eight o'clock judges were appointed, lots drawn, and the first rider dashed off, completing his 28 rounds (a measured mile) in very fair time. The others followed in order with rapid succession, the crowning feat being the 4:54 time of Mr. Jas. Kearns, who rode handsomely, despite a couple of involuntary tosses, from which, by the way, none were free. The prize was a handsome writing desk presented by Prof. Benway.

The excitement over the race was at different times very high, which the remarkably close nature of the contest would easily account for. There were favorites in this contest, as there are in all others, and there was no lack of encouragement offered, and no end to the laughter which greeted each unlucky toss. The following is the record:—

	TIME.
McIntyre	5:42
Fraser	4:36
Matthews	6:10
Falconer	6:00
Lowe	5:00
Walker	6:08
Kearns	4:54
Hyman	5:23
Brock	4:58
Wallace	6:14

The time here made is not a criterion of what can be done by Kingston amateurs on a fair track, since the circle was so small as to make the sweeps in rounding very wide, and to require all the rider's ability to steer correctly.

ATTEMPTED SUICIDE.—It was reported yesterday that a soldier of the R. C. Rifles named Dickson had that morning attempted to cut his throat in the Military Hospital. He was under treatment for delirium tremens, and had passed a peaceful night, but his attendants had scarcely left his room in the morning when he seized a knife which had been very incautiously left in the room, and inflicted a deep gash in his throat. Fortunately the knife was not sharp, and the attempt is not likely to prove fatal.

SPRING EXERCISE.—The Kingston Volunteer Field Battery of Artillery paraded at the Artillery Park yesterday. The customary spring drill has commenced.

NAVIGATION at Oswego is open. The schooner Mary Taylor, from Coburg, arrived at that port on Sunday morning, being the first arrival of the season.

SUNDAY SERVICES.—The Rev. Mr. Kirkpatrick conducted the services in St. James' Church on Sunday last for the first time. The effect of the late action of the Lord Bishop in reference to the succession to the Incumbency was clearly perceived in the conspicuous absence of a large proportion of the old church members. There is no personal objection to the new Incumbent, but to his Lordship's peculiar mode of appointing Incumbents, and ordering the service.

The Rev. Mr. Mulock, we are happy to say, was enabled to resume his ministerial offices at St. Paul's Church.

THE NEW VELOCIPEDE SCHOOL.—The Skating Rink was re-opened on Saturday evening, but for a much different purpose from that for which it has been customary to make it public. The new Velocipede School was opened under highly favorable auspices. The Band of the R. C. Rifles was present to add eclat to the occasion, and the attendance of riders and spectators exceeded the anticipation of the proprietor, which is very satisfactory. That the School will be very liberally supported is beyond a question after this very flattering commencement. The riders who have visited the Rink state that the pleasure of riding there is very much greater than that which they experienced in the confined space of the City Hall. The comfort and ventilation is vastly improved.

We are glad to announce that an exhibition will be given at the Rink on Thursday evening by an accomplished rider Prof. McLane, and that on Saturday evening a contest will take place for the champion medal of Kingston, of both of which more anon.

DESERTION.—On Saturday night about ten o'clock the absence of two trumpeters of the Royal Artillery was reported at Fort Henry, and as nothing has since been heard of them, it is to be assumed that they have deserted, and made good their escape to that harbor of refuge for bad, discontented soldiers—Uncle Sam's territory. Yesterday afternoon some boys found the coats, pantaloons and belts of the soldiers lying on the large common west of the Drill Shed and in rear of the Frontenac Brewery, where doubtless they were discarded for some civilians' clothes, which are said to have been abstracted from the wardrobe of an officer's servant.

SNOBBISHNESS.—A young lady before leaving her home in a Western town for this city, was taken into a private room by her mamma, and strictly enjoined that on her arrival here she was to make the acquaintance of "British Offisaws" only, that she was to be above the acquaintanceship of the low civilian. Certainly some people do try very hard to put their heads above their level, but in this they signally fail, as the "Lion" of the British Whig is constantly on the alert, and is determined to ferret out and expose every instance of such snobbishness.—[COM.

POLICE COURT, Monday.—James Swan, a regular attendant at the levees of Mr. Creighton, was up for drunkenness, and fined $2. He succeeded in begging off the enforcing of payment till he could earn a little money to discharge this debt and sundry others due the Court. Catharine Murphy, who was let off the other day on a parole of honor to leave the city, was again brought up as a drunken vagrant and this time was sent off under an escort. The License Inspector charged a person named Delaroche with selling liquor without license. The charge was admitted, and the Court imposed a fine of $20 and costs.

VELOCIPEDES.—A number of Gingras' superior Velocipedes, of various sizes, with springs, low back wheels, &c., arrived on Thursday to J. Ivers, 87 and 89 St. Francois Xavier Street, Montreal. These machines are pronounced to be of first class make. As Mr. Ivers has obtained the sole Agency for the Dominion of Canada, traders in the different towns of Ontario, who may wish to have the exclusive sale in their respective districts, can have the same arranged by communicating with J. Ivers. We understand that orders for all sizes and designs will be promptly attended to. Montreal, March 29, 1869. 74

Dr. Wistar's Balsam of Wild Cherry.

In the whole history of medical discoveries no remedy has performed so many, or such remarkable cures of the numerous affections of the Throat, Lungs, and Chest, as this long tried and justly celebrated Balsam. So generally acknowledged is the superior excellence of this remedy that but few of the many who have tested its virtues by experience fail to keep it at hand as a speedy and certain cure for sudden attacks of Cold—fully believing that its remedial powers are comprehensive enough to embrace every form of disease from the slightest cold to the most dangerous symptom of pulmonary complaint.

Unsolicited Testimony.

From Rev. Francis Lobdell, Pastor of the South Congregational Church, Bridgeport, Connecticut.

'I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of Dr. Wistar's Balsam of Wild Cherry. I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I commend it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed.'

Prepared by Seth W. Fowle & Son, 18 Tremont St., Boston, and for sale by Druggists generally.

Grace's Celebrated Salve.

From Mr. E. Tucker, Depot Master at Salisbury, Mass.

'I have been troubled for years with a bad humor; sometimes outward and sometimes inwardly. During the past summer it manifested itself more than usual outwardly, and I used your Salve. All signs of it have since disappeared, without affecting me inwardly, indicating, I think, the eradicating nature of the Salve.

Seth W. Fowle & Son, Boston, Proprietors.

Sold by Druggists at 25 cts. a box. Sent by mail for 28 cts. 72

The Last Crowning Success.

MRS. S. A. ALLEN'S IMPROVED HAIR RESTORER

FAVORITE HAIR DRESSING

New Style in one Bottle

BY ITS USE

Gray or Faded Hair is quickly restored to its youthful color and beauty, and with the first application a beautiful gloss and delightful fragrance is given to the Hair.

It will cause Hair to grow on Bald Spots.

It will promote luxuriant growth.

FALLING HAIR is immediately checked.

Sold by all Druggists. Price One Dollar.

Manufactured by —

S. R. VAN DUZER & CO.,

Wholesale Druggists,

35 Barclay Street and 40 Park Place, New-York, and

266 High Holborn, London, Eng.

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal:—"Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE, I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."

R. MENZIES.

A. A. A. is fast becoming a household remedy throughout Canada, and superseding the other so-called Ready Reliefs and Pain Killers to which sufferers have long resorted. See advertisement. 48

FELLOWS' COMPOUND SYRUP

Is the only preparation known which gives prompt and permanent relief in Disease of the Lungs and Bronchial tubes. It restores the secretions to their healthy condition, allays inflammation of the mucous membrane, and is the most certain remedy for Debilitating Maladies. Full directions accompany each bottle.

PHILOSOPHY OF MARRIAGE.

A new Course of Lectures, as delivered at the New York Museum of Anatomy, embracing the subjects: How to Live and what to Live for; Youth, Maturity, and old Age; Manhood generally reviewed: The Causes of Indigestion; Flatulence and Nervous Diseases accounted for; Marriage philosophically considered, &c., &c. Pocket volumes containing these Lectures, will be forwarded post-paid, on receipt of 25 cents, by addressing "SECRETARY, New York Museum of Anatomy and Science, 618 Broadway, New York."

LOOK TO CONSEQUENCES.—Remember that Dyspepsia is not only a terrible disease in itself, but the direct cause of a whole host of maladies. No human being is so susceptible to all unhealthy influences as the confirmed dyspeptic. Why, in the name of reason, does any one continue to risk the consequences of Indigestion, when a course of Radway's Regulating Pills will effect a perfect cure in any case, however aggravated.

Price 25 cents per box, coated with sweet gum, free from taste. Sold by all Druggists.

A FEW HOURS DAILY TEACHING wanted by a young Lady. Branches English, including Algebra. Junior Pupils, French and Music. Apply to X.Y.Z., British Whig Office. Kingston, March 30, 1869. 1w75

PATENT IRON-CLAD

PIANO FORTES!

John Breden, Jr.,

MANUFACTURER.

The only Purchaser and Proprietor of John C Fox's Patents).

At the original and principal Factory, *Corner Princess & Ontario Sts.,*

KINGSTON, ONT.

Under the supervision of Mr. William Cunningham, whose name appears on every instrument.

THE reputation of these Pianos is fully established and their qualities appreciated throughout the Province, and still further improvements have been introduced in the action by Mr. Cunningham, which renders them unparalleled for BRILLIANCY AND EQUALITY OF TONE, ELASTICITY AND INSTANTANEOUS REPETITION OF TOUCH, which last is of much importance in the performance of rapid passages. In addition to these the Aigraffe system has been introduced, extending throughout the Scale.

Another great improvement in the action of these Pianos is the bushing of all pivot bearings, which renders the action perfectly noiseless after being in use for years.

The public and intending purchasers are respectfully invited to visit the Factory and inspect the instruments, which will bear the examination and give satisfaction to the most critical judges.

This Manufactory possesses the following advantages:—THE EXCLUSIVE USE OF FOX'S IRON-CLAD SOUNDING BOARD, the adoption of every known, and the introduction of many original improvements, and first-class workmen.

Each Piano is guaranteed by a written warranty, and references can be given to parties throughout the Provinces who have been purchasers.

Thos. H. B. Purdy is the only authorised Agent for the sale of the Celebrated Iron-Clad Pianos. Kingston, Feb. 12th, 1869. 37

1869. 1869.

Spring Importations.
