The Clerk of the market states that all the bad veal in market is brought up by some person (not named) as material for the composition of sausages. Horrid—But it is well to know this. There can be no further dread of trichinae in them nor can they be accused of having canine characteristics.

France to Maintain Peace.

Paris, April 19.

In the Senate to-day the defensive measures proposed by the Government were generally approved.

Marshall Neil said it was the duty of the country in time of peace to secure its safety. The army might be placed on a peace footing and if were needed could rapidly pass to war footing.

In the Corps Legislatif M. de Lavelette made a long peaceful speech. He concluded with the following words:—It is the policy of France to maintain resolutely a dignified peace.

Envious.—A New York paper, the World, is envious of the financial position of this country. In its issue on Tuesday it says: "The revenue of the Dominion of Canada for the month of March last was a trifle less than a million; expenditures something over half a million. So much for bloated despotism. Would that our despotism would bloat a little in the same way."

NEWS OF THE DAY.

TUESDAY MORNING, APRIL 13, 1869.

Adjourned Vestry Meeting.

The adjourned meeting of the Vestry of St. Mark's Church, Barriefield, was held yesterday morning. After the adjustment of the year's accounts had been made, the Rev. Mr. Bower appointed Mr. John Rutton, Church Warden, in the place of his son, absent, and the Vestry made choice of Mr. William Hutton as the other Warden. The Delegates to the Synod are, Messrs. Ferguson and George and Dr. Barker.

Inquest.—Dr. Barker held an Inquest in the City Hall yesterday afternoon on the body of a male infant, found in the ice and snow at the Long Wharf, foot of Clarence Street, on Sunday. After the finding of the child had been proved, Dr. Octavius Yates gave the following evidence:—

I examined the body of an unknown child lying in the dead house this morning. It was that of a full grown child—above the average weight; a male child. I do not think, from an examination of the lungs, that it had breathed but a very short time. I believe that it was born alive, but that it died immediately after birth. My opinion is that it had never been dressed. It was wrapped in a newspaper, either Globe or Leader, and the last date of the advertisement I could make out was Jan. 13th, 1869. There was also a piece of a child's dress in the box of brown tweed. The box contained a few pounds of moist sand. It was in a partial state of decomposition. It (the body) probably had been in the water one or two months, more or less. It had been crammed, if the box containing it was the one in which it was found, into a box shorter in length than the length of the child. I could find no ligature of the umbilical cord, but a portion of the cord (3 inches long) was found in the neighborhood. The cord was torn from the navel. Inside the abdomen the cord was not shrivelled, leading me to believe that it did not live long after birth.

Octavius Yates.

The question for the Jury was whether the child had been born alive, and then deserted by its mother, in which case a verdict of Wilful Murder against some person unknown must have been returned; or whether the child died in the birth, or immediately afterwards.

The Jury returned a Verdict of 'Found Dead.'

Inspection of Butchers' Scales.

Kingston, April 12, 1869.

To Robert Chanonhouse, Esq., Chief of Police.

Dr. Wistar's Balsam of Wild Cherry.

In the whole history of medical discoveries no remedy has performed so many or such remarkable cures of the numerous affections of the Throat, Lungs, and Chest, as this long tried and justly celebrated Balsam. So generally acknowledged is the superior excellence of this remedy that but few of the many who have tested its virtues by experience fail to keep it at hand as a speedy and certain cure for sudden attacks of Cold—fully believing that its remedial powers are comprehensive enough to embrace every form of disease from the slightest cold to the most dangerous symptom of pulmonary complaint.

Unsolicited Testimony.

From Rev. Francis Tiebbell, Pastor of the South Congregational Church, Bridgeport, Connecticut.

"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of Dr. Wistar's Balsam of Wild Cherry. I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

"I commend it to my brethern in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed."

Prepared by Seth W. Fowle & Son, 18 Tremont St., Boston, and for sale by Druggists generally.

Grace's Celebrated Salve.

From Mr. E. Tucker, Depot Master at Salisbury, Mass.

"I have been troubled for years with a bad humor; sometimes outward and sometimes inwardly. During the past summer it manifested itself more than usual outwardly, and I used your Salve. All signs of it have since disappeared, without affecting me inwardly, indicating, I think, the eradicating nature of the Salve."

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of Arnot's Arnica Anodyne. I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."

PATENT IRON-CLAD

PIANO FORTES!

John Breden, Jr.,
MANUFACTURER,

The only Purchaser and Proprietor of John C. Fox's Patents,

At the original and principal Factory,
Corner Princess & Ontario Sts.,
KINGSTON, ONT.

Under the supervision of Mr. William Cunningham, whose name appears on every instrument.

THE reputation of these Pianos is fully established and their qualities appreciated throughout the Province, and still further improvements have been introduced in the action by Mr. Cunningham, which renders them unparalleled for BRILLIANCY AND EQUALITY OF TONE, ELASTICITY AND INSTANTANEOUS REPETITION OF TOUCH, which last is of much importance in the performance of rapid passages. In addition to these the Aigraffe system has been introduced, extending throughout the Scale.

Another great improvement in the action of these Pianos is the bushing of all pivot bearings, which renders the action perfectly noiseless after being in use for years.

The public and intending purchasers are respectfully invited to visit the Factory and inspect the instruments, which will bear the examination and give satisfaction to the most critical judges.

This Manufactory possesses the following advantages:—The exclusive use of Fox's Iron-Clad Sounding Board, the adoption of every known, and the introduction of many original improvements, and first-class workmen.

Each Piano is guaranteed by a written warranty, and references can be given to parties throughout the Provinces who have been purchasers.

Thos. H. B. Purdy is the only authorized Agent for the sale of the Celebrated Iron-Clad Pianos.

PATENT
Wire Rope and Galvanizing Works
ESTABLISHED 1835.

Stafford Street, Mill Wall Poplar, E. London, March 19th, 1869.

[To the Editor of the British Whig.]

Sir,—In your impression of Feb. 25th, we much regret to read the announcement of the death of Captain Gaskin, who has been Agent for the sale of our Galvanized Wire Ropes for the last ten years, feeling sure that his loss will be most severely felt by all who knew him. As far as we ourselves are concerned, we shall miss him both in a private and business point of view, he having first introduced and fitted out a great many Vessels in the Lake District with our Wire Rope Rigging, which has given such universal satisfaction.

We cannot let this opportunity pass without expressing publicly the upright and honest way in which he always carried out all his business transactions with us, by inserting this in your journal for six weeks.

We are, Sir,
Yours truly,
