For the British Whig.

Scottish Church Music.

A Song respectfully inscribed to a certain worthy representative of the Precentor Fraternity.

By Evan McColl.

Air.—"Alister Macalister."

How canst thou, sir, with conscience clear,
Persist in murd'ring music here?
Have pity on us, and forbear
This owlet harmonie.
A choir of ghosts would less appal
Than those dreed tones you singing call:
One would need ears as deaf's a wall
To stand such melodie!

Chorus.—O weary sir, O weary sir,
To list such music eerie, sir,
The meekness of the man of Ur
Would quick exhausted be!

There's something lively in the chaunt
Of tom-cats on some spree gallant;
The bull-frog, though his notes be scant,
Ne'er strikes a drawling key;
But of the way you drawl and drone
The language of de-vo-ti-on
Some dying Crumbie's latest groan
The model seems to be!

Chorus.—O weary sir, O weary sir,
If David could but hear thee, sir,
He w.ll might wish some thistle-burr
Adown thy throat to see.

Now, some old wife's asthmatic croon
Seems the sole spirit of the tune;
Now, some long ba a would reach the moon
Breaks from thy choir and thee;
And now the climax grand you reach—
A something 'tween a scream and screech,
Your sole ambition seeming which
The most pan torture me!

Chorus.—O weary sir, O weary sir,
O dismal, d smal dreary, sir!
A whipsaw rasped, or pulping cur
I'd sooner stand than thee.

The "Kist o' whistles" may be bad,
But where's the mortal man, not mad,
Who once heard you would not, right glad,
Give it a welcome free?
O any, anything at all
To drown this Kirk-nursed caterwaul!
How Scotland *it* can music call
None but herself can see.

Chorus.—O weary sir, O weary sir.
For all the love I bear thee sir,
I sometimes wish thyself and choir
Down where the mermaids be!

A Warning to Velocipedestrians.

Listen now, ye gay young fellers,
To a tale which late befell,
Which I, Pleeceman X. experienced
On my beat in Clerkenwell.

I was walking down and upwards,
To and fro, as duty called,
When I suddenly beheld a
Sight to make a man appall'd.

Right before me, on the pavement—
Scarce believed I wot I seed—
Was a individual coming,
Working a velocipede.

Rushing onwards came the wehicle,
And one wretched man forlorn,
As was looking in a winder,
Crotch'd it cruel 'cross his corn.

That such doings are a nuisance
George the Third laid down the law;
In cap. 29 you'll find it,
Wich it's section 64.

He's been summoned for to answer,
And I very much suspex
That the gent will be convicted
On the evidence of X.

—Judy.

The World Over.

Sonora has declared its independence of Mexico. Cause deficit in Treasury an expectations from the United States.

The London Owl announces that the Sultan of Turkey has some idea of giving up Mahometanism and becoming a Roman Catholic!

A battery of field artillery was recently despatched from New York for the use of the Cuban insurgents, and news was received on Monday last of its safe arrival.

Queen Victoria will visit Switzerland again this year, and make also a trip to Sicily and Greece. She will avoid Florence and Rome, and go by steamer from Genoa to Palermo.

Jackson Haynes, the skater, has been passing the winter at Copenhagen and St. Petersburg, where his skating feats are highly appreciated.

Queen Isabella is said still to cling to the idea that she will be recal'ed to the throne of Spain, and consequently she still refuses to sign her abdication in favor of the Prince of the Asturias. Fa her Claret has quitted the service of his fallen mistress and retired to Rome.

The 'Girl of the Period,' and other essays of the same class which have appeared in the Saturday Review, and which have been ascribed to various female members of the aristocracy, were written by Mrs. Lyan Lynton, authoress of 'Lizzie Corton,' and other novels.

It was well understood that the shooting of Maximilian would not restore peace to Mexico. Their disease was of too chronic a form for that. The last news is that Vega, the new revolutionist leader, has declared Sonora an independent republic, and has banished the Mexican officials; and that in the adjoining State of Sinaloa, Reyes has declared against the Juarez government. The object seems to be the establishment of a North-western Republic.

Many attempts have been made, both by the Congress of the United States and the British Parliament, to prevent over-crowding emigrant ships crossing the Atlantic, but all legislation, thus far, is impotent as it has been, though it has undoubtedly accomplished much good, has failed to attain complete success. The English law goes much further than the American law on this subject. It applies to ferry boats and coasting vessels, as well as to those ocean-bound. The other day, the captain of a Liverpool and Eastham ferryboat was fined fifteen pounds for allowing his steamer to be over-crowded beyond the number it was certified to carry. Such a deserved punishment could not be inflicted under the States' laws.

Address.

The Ottawa Board of Trade have presented Sir George E. Cartier and Mr. Macdougall with a congratulatory address on their successful negotiations for the North Western territory.

Sir George made an interesting speech concerning the troubles and difficulties he had had to contend with in obtaining such favorable terms, and did not consider the money payment large, and the land reservations had advantages as well as disadvantages. The shareholders of the Hudson's Bay Company were influential men, and as their consent was necessary to the transfer, it had to be obtained on some terms. He spoke for half an hour, concluding by warmly thanking the deputation.

Mr. Macdougall made a brief speech and complimented Sir George on the great patience and perseverance with which the negotiations were pursued. He thought that the acquisition of the north-west would be an additional guarantee for the perdurance of the capital at Ottawa.

The deputation then withdrew.

United States.

Iowa has nearly twenty-five times as great a population as thirty years ago.

The old and new school Presbyterians of Chicago are about to unite.

There is some talk of removing the United States seat of Government from Washington to New York.

The rain storm and flood did great damage in New Hampshire, Tennessee, and Ohio on Tuesday.

Memphis must be a pleasant place for policemen. Eight have been murdered in that city in two years.

The French mission has cost Gen. Dix $20,000 a year more than his salary, so great is the expense of living in Paris.

The Chicago Post says that Bishop Duggan is sane "on ordinary matters," but mad on "ecclesiastical ones."

The delegate convention of the knights of St. Crispin of the United States and Canada was largely attended. The session was very spirited.

Drew, the great steamboat owner, has been committed to twenty-five days jail for refusing to take the oath tendered him by the Massachusetts Legislature.

John Moriarty, Fenian President, has sent the thanks of 20,000 Irishmen of Pennsylvania to Senator Chandler for his late "Alabama" speech.

More Reverdy Johnson dining and wining. Several members of Grant's Cabinet were among Mr. Thornton's guests a day or two after Sumner's speech.

Great scene in the U. S Treasury building when the lady clerks was discharged. Crying and wringing their hands. Widow with fourch ildren. Grant bad, hard-hearted man, etc., etc.

Water is still rising at Albany at the rate of an inch per hour. It is within 3 feet of the great freshet of 1857. Several bridges on the Central have been carried away, and travel is entirely suspended.

A correspondent of the Practical Farmer claims that celery is possessed of important medical properties. He says that a moderate use, daily, of the blanched foot-stalks of celery leaves as a salad, will cure nervousness and palpitation.

Albany has a queer trouble. Two members of a church choir having seceded therefrom have been singing in the congregation lustily out of tune, to break down the enemy. Arrest and discharge and re-arrest followed to no purpose, the offenders still singing out of tune.

President Lincoln made his name great throughout the land, particularly the land of the Northern States, by liberating the slaves, yet, there is not at present one first-class respectable hotel in New York that will receive a colored person, no matter how refined or well educated. The two ideas don't seem to harmonize.

Sixty-six vessels are now en route to Great Britain from San Francisco with cargoes aggregating 1,700,000 sacks of wheat; also eight vessels for domestic Atlantic ports with 160,000 sacks of wheat, and ten vessels for Rio Janeiro with 51,000 barrels of flour. The California wheat and flour afloat for China and other countries aggregate 2,300,000 sacks of wheat, valued at $4,000,000.

During the recent rain storm at Laconia, N. H., several persons noticed a great number of fish on the snow beside the road. When first noticed they were alive and lively. They were about one and one-fourth inches long and of very uniform size, and there were hundreds of them. How they came where they were found is the question.

Indiana has some ingenious villains. The other night six disguised men went to a gentleman's house, forced an entrance, knocked him down with clubs, dragged him naked to the woods, bound him to a tree, filled his mouth with tar and beat him cruelly. They then returned and set fire to the house, which was wholly consumed with all its contents, including every rag of the owners clothing.

A queer attempt at black mail has been made by a man and a woman hailing from Utica. A short time since they went to Schenectady, and took an room at a hotel, registering themselves as man and wife, which was probably incorrect. Early in the day the man left the hotel and did not make his appearance again. The woman kept close to her room until tea time, when the landlord sought her out, fearful that something was wrong, and invited her down to tea. She responded to the effect that he was a nice man to insult a lady in his hotel! He became angry and ordered her out of the house, and she went. Joining her husband at another hotel, she sent her first mine host word that he must give her hushmoney or she would create scandal and a law-suit. He positively refused, and the amiable twain after a short stay left the town together.

CUBAN MATTERS.

Grant said "Let us have Peace."

HOW HE IS SECURING IT.

Chandler's motion and speech sent gold up!

U. S. Bonds are falling in England and Germany.

What's up? All the vessels in Brooklyn Navy Yard are to be put on a war footing, Ditto as to Philadelphia. 'Let us have peace.'

Boston Advertiser thinks Grant is honest and will act fairly by Spain, but nevertheless admits that extensive preparations are going on for conquest of Cuba. 'Let us have Peace.'

The New York Nation says that the Cuban 'movement' closely resembles the 'Fenian movement' not being quite as contemptible, and that the 'chiefs of the revolution' are to be found in the hotels and boarding houses in New York and Washington.

Many well informed persons consider war with Spain, arising out of the late seizures, inevitable. What a contrast to the late loud talk about enthusiastic admiration of American institutions! What with wars with Spain and England, as fire-eaters complacently recommend, the States bid fair to have a lively time—on paper.

At an interview between the Spanish Minister and Secretary Fish on Tuesday, the latter refused to issue a proclamation discouraging filibustering expeditions to Cuba. He also informed Senor Roberts that the United States Government considered the British Government liable for the capture of the 'Mary Howell,' and reparation had therefore been demanded through the British Minister. He also said that he had demanded full reparation and identity from Spain for the capture of the 'Lizzie Major,' and that if an answer was not forthcoming shortly war would ensue. Secy Fish's action has caused great excitement both in England Spain and the United States. Minister Roberts, withdrew very much surprised and afterwards submitted the demand in writing. The iron-clad fleet now fitting out, Mr. Fish told Minister Roberts, is intended for Cuban waters.

Round the World.—The new steamship America, of the Pacific mail line, will sail on a trip round the world on or about the 1st of June, and will return to New York by the middle of November. Fare $1,000, with the privilege of living on board while in port. With the exception of Noah's Ark, and a timber ship built in Quebec about 30 years ago, she is the largest wooden vessel ever constructed, her burden exceeding 4,000 tons.

A Neat Swindle.—Some few days ago a respectable looking young man went to a well known hotel in Kingston and took a room. After getting the key he deposited an open satchel with the book-keeper for safe keeping, having in it twenty 10 dollar rolls of silver. After remaining about a week at the house he went for a days travel into the country, taking his trunk with him, asking the book keeper to retain his silver and his room for him. As he did not turn up at the end of three days the confiding book-keeper became anxious, and examined the contents of the satchel, when he discovered that he had been acting guardian angel to a score of small pieces of broom handle neatly put up in paper, and loaded with lead. He is very anxious to have an interview with the owner who so far has neglected to come after his property.—Citizen.

*** All very well, Mr. Citizen, but ought not somebody in Kingston know a little about it?

The Printers' Strike at Montreal.—There is no appearance of the printers' strike ending. Both employers and men make no inclination to give way. One office has managed to get a few compositors from the 78th Highlanders, by permission of the Colonel. Representations are to be made by the Printers' Union against this to General Bissett. The offices who give the wages are Le Nouveau, Le Monde, Perrault's, Stark's, the Star, Stevenson's and Wilson's. But they employ only a few hands. Lovell's, Longmoore's, the Herald, Gazette, News, Telegraph, Witness, Le Pays, La Minerve, and Le Ordre, refuse to give in, so that at least 150 men are idle.

Suicide of Lord Cloncurry.

The English papers of the 6th inst. mention that Lord Cloncurry committed suicide on Saturday, at his residence, Lyons Castle, Kildare, Ireland. His Lordship had been under restraint for some time, having recently twice attempted self-destruction by the most extraordinary means, but on Saturday he eluded the vigilance of his medical attendant and threw himself from his bed-room window; the result of the injuries he received being that he survived but an hour. The deceased, Peter (Edward) Lawless, was the third baron, was born September 13, 1816 and succeeded his father in 1853. He leaves a widow and eight children, of whom four are sons and four daughters.

Good Harvests.—Accounts from the States point to the probability of very large harvests this year. Throughout the West, the States of Ohio, Indiana, Illinois, Michigan, Iowa, Minnesota, Kansas, Nebraska, &c., a larger breath of land than usual has been sown in wheat. In all respects the winter sown promises well, while a considerable space of new ground has been broken up and sown with spring wheat. From the South, too, encouraging statements come. Georgia is spoken of as being particularly fortunate in its wheat culture. Tennessee has been afflicted with the grasshopper, and Alabama has been touched by unexpected frosts. New York, Pennsylvania and New Jersey matters are very hopeful. If the expectations which these accounts raised are fulfilled, and a European war is averted, prices for grain must continue to rule low.—Free Press.

NEWS OF THE DAY.

SATURDAY MORNING, APRIL 24, 1869.

St. George's Day.

This Day was observed yesterday by the interchange of civilities among the Englishmen resident in Kingston, and by the hoisting of all the flags in the city,—at the City Building, Court House, Custom House, and at many private dwellings. In the evening the Englishmen dined together at the British American Hotel, at which *we believe* the St George's Society of Kingston was revived, of which more anon.

More Ruin and Decay.—The Coils on the Bath Road were sold yesterday to Messrs. Horatio Ault (No 1) and John Fledger (No. 2), and fetched an advance of twenty per cent. over last year's prices.

The 13th P.W.O. Battalion.—The weather last Tuesday having proved most unfavorable, the march out was postponed until Monday evening. The Band will accompany the Battalion, and play in the Market Square about half-past eight o'clock.

Police Court.—Again yesterday there was no business before the Court. The police station has not been empty, as it has received several voluntary lodgers, who begged for protection.

IRON IN THE BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the hole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude, and "all gooness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

Peruvian Syrup,

a protected solution of the protoxide of iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicine to cure diseases occasioned by a deficiency of iron IN THE BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone.

An eminent divine says "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

Pamphlets containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address.

The genuine has PERUVIAN SYRUP blown in the glass.

J. J. LINTON.
Kingston, March 6, 1869. 56

APHONIA CURED.

FELLOWS' COMPOUND SYRUP.

Aphonia or Loss of Voice, is remedied in a short time, no matter whether the cause be from inflammation of the living membrane, from cold, or from nervous derangement:

Mr. Fellows:—
Dear Sir,—Some three months ago one of my daughters lost her voice, and was for a long time was unable to speak above a whisper; it continued so long we became anxious, and resorted to every means we could hear of, but without any good effect. She was advised by a friend to use your Compound Syrup, and strange to say, one hour after taking the first dose her voice was completely restored.

Yours truly,
J. S. ARMSTRONG.
Greenhead, N. B., January 1867.

Sold by Apothecaries. Price $1.50 per bottle, or 6 for $7.50.

JAMES I. FELLOWS, Chemist,
St. John, N.B.
FRANCIS CUNDILL & CO.
Wholesale Agents.
Lamoine Street, Montreal.
91

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."
R. MANZIES.

A. A. A. is fast becoming a household remedy throughout Canada, and superseding the other so-called Ready Reliefs and Pain Killers to which sufferers have long resorted. See advertisement. 48

PHILOSOPHY OF MARRIAGE.

A new Course of Lectures, as delivered at the New York Museum of Anatomy, embracing the subjects: How to Live and what to Live for; Youth, Maturity, and old Age; Manhood generally reviewed: The cause of Indigestion; Flatulence and Nervous Diseases accounted for; Marriage philosophically considered, &c., &c. Pocket volume containing these Lectures will be forwarded post paid, on receipt of 25 cents, by addressing "SECRETARY, New York Museum of Anatomy and Science, 618 Broadway, New York."

R. R. R.

The high praises emanating from people in all parts of the world that have derived benefit from the use of RADWAY'S REMEDIES, proves their title to confidence. There is no pain, sore or disease so malignant or severe as to resist the destruction of R. R. R., but that the READY RELIEF will stop the pain and arrest it in its progress. Every one has heard of it, if not tried it. Let those who have not used it, if sick, give it a trial. A few minutes will prove its power of stopping pain. See Dr. Radway's Almanac for 1869.

Kingston, April 4, 1869. 80

LIGHT HOUSE SUPPLIES.

SEALED TENDERS will be received at the Department of Marine and Fisheries, until Noon of MONDAY, the 10th day of MAY next, for the supply, in bond, of 32,000 gallons of the best quality of COAL or REFINED PETROLEUM OIL.

The Oil is required to be non-explosive, at a vapour test of 115° Fahrenheit, must burn brilliantly, without smoking, until entirely consumed, and not crust the wick, must be free from all deleterious substances, and remain fluid at 10° Fahrenheit. A sample of a quart to accompany each tender.

The Oil to be delivered in iron-bound casks, containing from 30 to 40 gallons each, properly prepared to prevent the oil from permeating the wood, and evaporating from the surface.

The casks to be furnished by the contractor, and their cost included in the price of the Oil.

The Oil to be subject to inspection and test before acceptance, and to be delivered at the contractor's risk on the locality designated by the Department as follows:

5,000 gallons at Quebec—one-half on the 8th JUNE, and one-half on the 20th SEPTEMBER next.
10,000 gallons at Montreal, on the 1st July next.
14,000 gallons at Halifax, N.S., on the 1st July next.
3,000 gallons at Saint John, N.B., on the 1st July next.

Tenders will be accepted for the whole quantity, or for any of the lots above mentioned.

Parties tendering must give their names and addresses in full, also the signatures of two responsible persons, willing to become sureties for the due fulfillment of the contract. The Department will not be bound to accept the lowest or any tender.

By order,
WM. SMITH,
Deputy of the Minister of Marine and Fisheries.
Department of
Marine and Fisheries,
Ottawa, 14th April, 1869. 92

PATENT IRON-CLAD
PIANO FORTES!

John Breden, Jr.,
MANUFACTURER.
The only Purchaser and Proprietor of John C. Fox's Patents).

At the original and principal Factory,
Corner Princess & Ontario Sts.,
KINGSTON, ONT.

THE reputation of these Pianos is fully established and their qualities appreciated throughout the Province, and still further improvements have been introduced in the action which renders them unparalleled for BRILLIANCY AND EQUALITY OF TONE, ELASTICITY AND INSTANTANEOUS REPETITION OF TOUCH, which last is of much importance in the performance of rapid passages. In addition to these the Agraffe system has been introduced, extending throughout the Scale.

Another great improvement in the action of these Pianos is the bushing of all pivot bearings, which renders the action perfectly noiseless after being in use for years.

The public and intending purchasers are respectfully invited to visit the Factory and inspect the instruments, which will bear the examination and give satisfaction to the most critical judges.

This Manufactory possesses the following advantages:—THE EXCLUSIVE USE OF FOX'S IRON-CLAD SOUNDING BOARD, the adoption of every known, and the introduction of many original improvements, and first-class workmen.

Each Piano is guaranteed by a written warranty, and references can be given to parties throughout the Provinces who have been purchasers.

Kingston, Feb. 12th, 1869.

A. A. A.

Arnot's Arnica Anodyne!

THE NEW PAIN RELIEVER,

IS THE MOST RELIABLE REMEDY for all Pain, of whatever kind, whether internal or external. It is a certain cure for
NEURALGIA, TOOTHACHE, RHEUMATIC AFFECTIONS, INFLAMMATORY SORE THROAT, DIARRHŒA, COLIC, DYSENTERY, CRAMPS, COLDS, DYSPEPSIA, FLATULENCE,
And all Complaints of the Stomach and Bowels.

It is not a weak or untried Medicine, rashly or carelessly intruded on the public attention, but has been used by thousands in this immediate vicinity, as well as elsewhere through Canada, and in every case, as far as known, with the best results. Dr. ARNOT, the eminent Physician whose name it bears, was well known as one of the most distinguished Medical Practitioners in the Empire, and this remedy has been pronounced by all who have experienced its wonderful curative powers as well worthy its author's reputation.

No one need continue a sufferer from pain when by the timely and proper use of A. A. A. the suffering is sure to be alleviated immediately, and entirely banished after a few applications. Its taste and odour are both agreeable, so that when taken it gives no offence to the most delicate palate, and when inhaled through the nostrils it refreshes and stimulates the olfactory nerves more than the best Eau de Cologne.

If you suffer from NEURALGIA, use A. A. A.
If you are a martyr to TOOTHACHE, use A. A. A.
If you are afflicted with RHEUMATISM, use A. A. A.
If you are attacked by DIPTHERIA, use A. A. A.
If you have been BURNT, or SCALDED, or STUNG, or FROST BITTEN, or BRUISED, use A. A. A.
If you have CHILBLAINS on your feet or hands, use A. A. A.
If you are troubled with DIARRHŒA, or COLIC, or CRAMPS IN THE STOMACH, use A. A. A.
If you suffer from any painful affection in any part of the body, internal or external, use ARNOT'S ARNICA ANODYNE, and you will not be disappointed

For sale in Kingston by J. G. King, Heath & Gunn, G. S. Hobart; Bath, J. G. McTavish Ross; Gananoque, S. McCammon; Napanee, Lettler & Scott.
January 23rd, 1869.
