BY ATLANTIC CABLE.

Madrid, April 30.

In the Cortes yesterday Senor Cubas proposed an amendment to the constitution establishing the Catholic as the only religion of the country. After a debate, it was rejected.

New York, April 30.

European mail services state that the whole length, 8,600 miles, of the French Atlantic cable was completed on April 16th.

Berlin, April 30.

The International Convention to promote the care of the wounded in time of war, which has been in session in this city for several days, adopted an address to the people of the United States of America.

LATEST.

London, April 30.

The speech of the Mayor of Cork at the recent banquet in that city was the subject of long debates in both Houses of Parliament this evening, the attention of members being called especially to the Mayor's language respecting O'Farrell, who attempted to assassinate Prince Alfred in Sydney, New South Wales, as well as to his reference to the Prince himself. The Tories unbraided the Government with being the indirect cause of the present state of Ireland.

OTTAWA.

Ottawa, April 29.

There was a dinner and ball at Rideau Hall to night.

Several bank managers have arrived in town; they will hold a meeting to morrow, and design to confer with the government on the banking policy.

There is much feeling about Mr. Huntington's speech; it is regarded as looking towards annexation. Mr. Mackenzie was applauded by the ministerial side while opposing Mr. Huntington's views.

The Floods.

FRAFUL ACCIDENT ON THE NICOLET RIVER.

A Nicolet correspondent sends the following graphic account of a great disaster in that vicinity:

A very sad accident happened in the evening of Thursday, about 8 o'clock. Five miles up Nicolet river the bank is about 100 feet high. There was a dreadful breaking down of the bank, say 4 acres long by 3 acres deep. The crash was heard at a great distance. The landslip blocked up the river its full width, and forced away the water so as to cover over the easy slope on the opposite side of the river. On that easy slope a small house was built, with four persons in it. At about half past seven o'clock, p.m., a young man, a neighbour, left the house and his friends therein, not suspecting what would happen within half an hour. Just as he was entering his house, that young man heard the tremendous crash! Cries were heard! People ran to the river side, but finding 20 feet of water on the spot were the small house was built, they hastened back for a light. Light displayed a new bank, the house broken down, and the waters running at a fearful rate in the new channel. No more cries! In the morning, Friday, the river broke open another channel through the landslip, and left uncovered the spot where the house once stood. It was first supposed the inmates of the house, hearing the noise, had tried to run away and had been buried beneath the sliding bank, but it is most likely they have been wasted away by the surge. The man's name is Toremir Boivert, aged about 40, his wife, his son, 6 years old, and his sister-in-law, about 50 years old. Bodies not yet found.

☞ 'The child is father to the man.' Yes, but why? Because, of course, as soon as he's born he becomes apparent.—Fun.

DISSATISFIED WITH GRANT.—A portion of the American press seems to be determined not to be satisfied with the appointments of President Grant. Very general complaints are made that he has secured good births for all his family; and it is alleged that several members of his Cabinet were chosen without any regard to the fitness for office, but because they had contributed towards the purchase of a splendid mansion for him.

Great Fire at Chatham.

RAILWAY FREIGHT HOUSE DESTROYED—LOSS $75,000.

Chatham, April 30.

The Great Western Railway freight house at this place was totally destroyed by fire this morning, also six cars loaded with produce, together with a large quantity of freight stored in the warehouse and on the platform. Loss cannot be correctly estimated at present, but is supposed to be about $75,000. Mr. Jas. Lamont, Mr. Robt. Lowe, and Mr. Geo. Stringer, are the principal losers. The Fire Brigade was on hand, and by great exertions saved the Station House, wood-shed and other buildings. A man named Burns, a discharged employee of the Great Western, was seen running away when the fire broke out. He is arrested on suspicion.

(Respecting the above, there is the following from the Managing Director of the Great Western:—)

Hamilton, April 30.

Some absurd rumors having been circulated about the fire at Chatham, I would be glad if you would state the following facts:—The full value of the freight consumed will not exceed $9,000, and both the building and the freight were heavily insured by the Company. The building itself was an old one. We have not yet ascertained the cause of the fire. A man named Byrnes has been arrested on suspicion.

THOS. SWINYARD.

The Line for Emigrants.

The Liverpool Courier of the 14th inst., says: 'The first party of emigrants for Canada, via Liverpool, numbering about 230, sent by the London Emigration Fund, arrived from London last evening.' The same paper contains a letter from the President of the Clerkenwell Emigration society, in which he tenders the warmest thanks of the Society to Messrs. Allan, of this city and of Liverpool, for the very great kindness shown by them to emigrants who travel by their line. It is certain that while a majority of the emigrants to New York and Boston are exposed to horrors of all kinds, those who come to Canada by the Allan line of steamers make the trip in comfort. When we bear in mind how many emigrants to the United States have died from ill usage on board the crowded vessels, or endured injuries of various kinds, some of which have been worse than death itself, that is certainly a strong argument in favor of an emigrant making a trial of Canada before taking up his home elsewhere.

QUEBEC.

O'Farrell's Suit—Quinn Murder Case.

The Grand Jury of the Court of Queen's Bench, threw out the Bill for libel preferred by Mr. O'Farrel, advocate, against Mr. Foote of the Chronicle. The prosecution was brought for having copied an article from the Toronto Telegraph, which went to connect some man of legal life with the McGee murder. Mr. O'Farrell applied this article to himself, and had Mr. Foote held to bail to answer the charge. He has vowed vengeance against the whole press of the Dominion, and is to devote his remaining days to the nice little task of battling with all the newspapers from Sandwich to Halifax. He has commenced with the Chronicle, and made a sorry beginning of it.

In the Quinn murder trial, the Judge charged directly for murder, but the jury could not agree and were locked up. Next day they came into court, and returned a verdict of murder in the first degree. The prisoner looked pale, but did not show any sign of agitation. Sentence of death will be pronounced at the close of the session, but it is very probable that the executive will commute it to imprisonment for life. Quinn was under the influence of liquor when the murder was committed.

VELOCIPEDINE.—The Hamilton Times narrates:

IMPROMPTU BATH.—A youth who was among the first to run up and down the streets on a velocipede had become so enamoured of the exercise that since the recent order to the police to arrest all velocipedists found on the sidewalks (that is, provided they could be caught) he has been daily corvetting up and down McKay's wharf. Yesterday afternoon, while gaily displaying his skill to a number of admiring spectators, his steed became unmanageable, and rider and steed, all splendid and brave, dashed over the wharf to the water below. Through the assistance of his friends young Pharoah was rescued, but the treacherous steed went to the bottom. It was, however, fished out, and the impromptu bather went home to his mother, wetter and wiser.

A WORD OF ADVICE TO TRAVELLERS AND RESIDENTS IN CANADA.—The unprecedented success of Rowlands' Macassar Oil, during the last half century, in promoting the growth, restoring, and beautifying the human hair, has caused imitators to spring up in every possible variety: some so far copy the label as frequently to deceive the unwary; some offer to dispose of the receipt of a Macassar Oil (omitting Rowlands' name), with other receipts of a similar character, for a few postage stamps, while others profess to manufacture the real (?) article at a considerable reduced price, if the people will only purchase it. Indeed, the name of those wretched purloiners from cheap and trashy receipt books is Legion, and calls for more than usual care on the part of the purchasers in their selection of articles for the toilet. Messrs. Rowlands have complaints repeatedly from parties who have materially suffered from the use of these trashy compounds; and to frustrate to some extent such impositions, purchasers should see that Rowlands' name is on the wrapper of each bottle. It may be obtained at most of the principal Stores and Chemists' Shops throughout the Country.

A Velocipede Ride.

Rochester, N.Y., April 30.

Frank Swift, of skating celebrity, and Boyle rode on velocipedes from Syracuse to this city, a distance of 90 miles, in 15 hours. They left Syracuse last evening and arrived here about eight o'clock this morning. The time given is the riding time.

NEWS OF THE DAY.

MONDAY MORNING, MAY 3, 1869.

THE EXODUS.—The emigration of French Canadians to the United States continues unabated. On Friday afternoon 430, principally from the parts below Montreal, left the Bonaventure Station there, by train, for New York and Boston. The number proceeding West by the Grand Trunk is also very considerable. On Friday afternoon two car loads of the emigrants passed through Kingston Station, and we are told that this was by no means an unusual sight.

NAW ACCOUTREMENTS.—The 14th P. W. O. Rifles will at once be supplied with a thorough outfit of new accoutrements.—All the old accoutrements in possession of the men are to be returned immediately into store, in order to effect a speedy change.

☞ THE EYE AND EAR.—Dr. Stewart, the celebrated Oculist and Aurist, is now at the British American Hotel. This is the Doctor's second professional visit to this city. When here before many derived much benefit from his scientific treatment. His testimonials are very numerous, and from some of the most respectable gentlemen in the Dominion. Persons having any disease of the Eye or Ear should not neglect to call on him immediately, at the British American Hotel, as he leaves on the 15th inst.

QUEEN'S COLLEGE.—At the meeting of the Trustees of this Institution, it is understood that the progress and prospects of the Endowment scheme were reported. The amount already subscribed is $70,000, and $50 000 more is confidently expected. Official letters from the Church of Scotland give hope of liberal aid from the mother country. The establishment of two additional chairs is contemplated. The Rev. Mr. Macdonell, of Peterboro', and Rev. Mr. Gordon, of Ottawa, were elected Trustees.

ANNIVERSARY SERVICE.—Saturday, 1st May, being the 11th anniversary of the Consecration of his Lordship Rt. Rev. Dr. Horan, Bishop of Kingston, a Grand Pontifical Mass was celebrated in St. Mary's Cathedral. The Te Deum was sung after the service. The grand and impressive character of the service filled the large edifice with church people.

BAY OF QUINTE OIL COMPANY.—A meeting of the Stockholders of this Company has been held at Napanee. Mr. J. D. Noble, the Managing Director, read a report showing the operations of the Company since the 30th of June, 1867. It appears that the Company's well is one of the few that has paid running expenses, notwithstanding the low price of crude oil, during the past two years, and that since the first of last January, in 14 weeks it has cleared $300, over and above all expenses. The improved state of affairs is owing to the formation of an association amongst the Crude Oil producers, which has brought the price of crude oil up from 40cts. per barrel to $1 for exportation, and $1.65 per barrel for home market. Owing to this combination amongst the crude oil men, the ruinous competition that formerly existed has been stopped, and a still further advance in the price is confidently looked for. This is the blessing of monopoly, but not as consumers view it, we think.

POLICE COURT.—There was no business whatever before the court on Saturday.

MELANCHOLY.

When the nervous system loses its tone and vigor the whole body suffers in consequence; not unfrequently some one organ suffers more than the rest, hence the origin of Heart Disease, Consumption, softening of the Brain, &c. The most direct method of cure lies in restoring the vital principle to the nerves, which is most easily accomplished by using

FELLOWS' COMPOUND SYRUP.

ATROPHY ARRESTED.

FELLOWS' COMPOUND SYRUP.

Wasting of the tissues of the body is arrested, the muscles made firm, and the nerves regain their power by using FELLOWS' COMPOUND SYRUP.

IRON IN THE BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude, and "all goneness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

Peruvian Syrup,

a protected solution of the protoxide of Iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicine to cure diseases occasioned by a deficiency of IRON IN THE BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone.

An eminent divine says: "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

Pamphlets containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address.

The genuine has PERUVIAN SYRUP blown in the glass.

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE, I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."

R. MENZIES.

A. A. A. is fast becoming a household remedy throughout Canada, and superseding the other so-called Ready Reliefs and Pain Killers to which sufferers have long resorted. See advertisement. 48

PHILOSOPHY OF MARRIAGE.

A new Course of Lectures, as delivered at the New York Museum of Anatomy, embracing the subjects: How to Live and what to Live for; Youth, Maturity, and old Age; Manhood generally reviewed; The cause of Indigestion; Flatulence and Nervous Diseases accounted for; Marriage philosophically considered, &c., &c. Pocket volumes containing these Lectures, will be forwarded post-paid, on receipt of 25 cents, by addressing "SECRETARY, New York Museum of Anatomy and Science, 618 Broadway, New York."

R. R. R.

The high praises emanating from people in all parts of the world that have derived benefit from the use of RADWAY'S REMEDIES, prove their title to confidence. There is no pain so severe no disease so malignant or swift in its destruction of life, but that the READY RELIEF will stop the pain and arrest it in its progress. Every one has heard of it, if not tried it. Let those who have not used it, if sick, give it a trial. A few minutes will prove its power of stopping pain. See Dr. Radway's Almanac for 1868.

A. A. A.

Arnot's Arnica Anodyne!

THE NEW PAIN RELIEVER,

IS THE MOST RELIABLE REMEDY for all Pain, of whatever kind, whether internal or external. It is a certain cure for

NEURALGIA, TOOTHACHE, RHEUMATIC AFFECTIONS, INFLAMMATORY SORE THROAT, DIARRHŒA, COLIC, DYSENTERY, CRAMPS, COLDS, DYSPEPSIA, FLATULENCE,

And all Complaints of the Stomach and Bowels.

It is not a weak or untried Medicine, rashly or carelessly intruded on the public attention, but has been used by thousands in this immediate vicinity, as well as elsewhere through Canada, and in every case, as far as known, with the best results. DR. ARNOT, the eminent Physician whose name it bears, was well known as one of the most distinguished Medical Practitioners in the Empire, and this remedy has been pronounced by all who have experienced its wonderful curative powers as well worthy its author's reputation.

No one need continue a sufferer from pain when by the timely and proper use of A. A. A, the suffering is sure to be alleviated immediately, and entirely banished after a few applications. Its taste and odour are both agreeable, so that when taken it gives no offence to the most delicate palate, and when inhaled through the nostrils it refreshes and stimulates the olfactory nerves more than the best Eau de Cologne.

If you suffer from NEURALGIA, use A. A. A.
If you are a martyr to TOOTHACHE, use A. A. A.
If you are afflicted with RHEUMATISM, use A. A. A.
If you are attacked by DIPTHERIA, use A. A. A.
If you have been BURNT, or SCALDED, or STUNG, or FROST BITTEN, or BRUISED, use A. A. A.
If you have CHILBLAINS on your feet or hands, use A. A. A.
If you are troubled with DIARRHŒA, or COLIC, or CRAMPS IN THE STOMACH, use A. A. A.
If you suffer from any painful affection in any part of the body, internal or external, use ARNOT'S ARNICA ANODYNE, and you will not be disappointed
