Facts and Fancies.

Velocipede neck ties are to be ordered off the sidewalks. More conspiracy.

Rifle Association—A gang of Robbers.

Two animate aldermen—The Livingstones.

New reading of an old quotation—"Sweet are the uses of advertisements."

Social Chat—Mrs. O'Shaughnessy is "at home" on Tuesdays—and on every other day.

Unparalleled show—We are to have two and one half hour's eclipse of the sun in August.

An exchange says the Census embraces 17,000,000 women. Who would not be a census?

The Niagara Fall season commenced early this year. The rose-on was at its height during the late freshets.

A number of disappointed candidates for the County Judgeship have left for Madrid to offer themselves for the Spanish throne.

Street lamps are preferable in a city to policemen. They are always at their posts, and show themselves at night when most wanted. Still the residents of Queen street would delight to have the services of the lamps as freely and regularly as they do those of the police.

Flourishing business—Ornamental penmanship.

An Ontario exchange says: "Mr. Preston, of Hornby, sold a Durham heifer the other day for $105." Did the writer intend that as a joke?

The gambolings of the little lambkins are impeded by rheumatism, and the shepherds on the hills have not yet exchanged their pea-jackets and coon-skin caps for white satin knee breeches and palm leafs.

Atlantic Cable Summary.

Details of the War in Paraguay. The partizans of President Lopez were numerous, and were pursuing a guerilla warfare.

Outside the tone of the English people is anti-American, and more so since having read only a partial publication of Senator Sumner's argument.

The protocol for a conference between France and Belgium had been signed.

In the Spanish Cortes the amendments to the constitution abolishing the prerogatives of the crown in ecclesiastical matters were rejected.

The Mary Lowell.—Instructions have been sent to Commodore Stillmore, commanding the British West India squadron, to demand of the Spanish authorities in Cuba the restoration of the brig Mary Lowell, and an apology for her seizure.

Later Advices from Paraguay represent that President Lopez with ten thousand men is preparing to take the offensive.

The Russian Council of State propose to grant more power to the municipal councils throughout the Empire, to enlarge the number of voters, and to modify the press law.

The steamships Australasian and Etna have arrived at Queenston.

In the Spanish Cortes the debate on the new constitution has ended. All the amendments proposed have been rejected. An amnesty has been granted for all persons who took part in the insurrections at Cadiz, Malaga and Xeres.

LATEST.

FENIANISM IN CORK.

Cork, May 3.

A mass meeting was held on Saturday night at which the recent speech of the Mayor was endorsed and resolutions adopted expressing sympathy with and confidence in that functionary.

CONSERVATIVE MEETING.

London, May 3.

A public meeting was held at St. James' Hall to-night under Tory management to protest against the bill for the disestablishment of the Irish church. The audience was large and many conservative peers and members of the House of Commons were present. Resolves were adopted strongly condemning Mr. Gladstone's bill and calling on the House of Lords to reject and materially alter it.

THE IRISH CHURCH BILL.

The House of Commons in committee to-night resumed the consideration of the Irish church bill, clause 36, concerning the regium donum was so amended as to include within the provision for compensation the ministers of all congregations entitled even only to a share of the grant. Mr. Gladstone admitted that the compensation was small, but the endowments were small compared with the services rendered by the Presbyterians in Ireland, and according to the principle of the bill the present endowment was the only basis for compensation. Clause 37, providing for compensation to the professors, and for payments in respect to the buildings of Belfast College, was struck out in compliance with the request of the Presbyterian synod, and with the consent of the government. Mr. Gladstone intimated that other provisions would be made for this college.

United States.

A mechanic in New Albany, Indiana, has spent two years in making a checker-board containing 6,431 pieces.

A suit is set down for early trial in a Tennessee court to test the right of a magistrate solemnizing a marriage to kiss the bride.

A rejected lover attempted to blow up, with powder, the entire household of his amorosa, in St. Louis, the other night. The merest accident only prevented a trip cloudward.

A curious branch of industry has lately sprung up in New York, that of preserving in their natural color and form the flowers used at decorations at weddings and funerals.

Fourteen railway locomotives have exploded within the past seven months in the United States, killing twenty-nine persons and severally wounding a much larger number.

Mr. Thornton will live in a New England town this summer. He is evidently under no apprehension as to the position of his relation with the U. S. Government.

The New York papers say that it is a matter of 'grave of concern' to know who have the welfare of New York State at heart, to find that no movement is made with a view to the proper improvement of the canals which are 'utterly inadequate' to the demands made upon them. The people of the Western States are just now giving the subject of transportation the serious attention it deserves; they complain very much of the delays so frequent upon the Erie canal,—how, if our Government would do something towards widening and improving the canals, we could, without doubt, attract a very large portion of the immense trade of the West down the valley of the St. Lawrence.

NEWS OF THE DAY.

WEDNESDAY MORNING, MAY 5, 1869.

THE ALABAMA CLAIMS.—The news of the reception accorded to Senator Sumner's speech in England has already had its effect in high circles at Washington. The telegraph brings thence the soothing assurances that Minister Motley has received no particular instructions, and the course of action on the part of the American Government is still open; that the Government will act with the deliberation due to the important subject, and carefully avoid any cause of offence, while firmly presenting the American side of the question to Her Majesty's Government when occasion shall require; and finally, that no injurious consequences need be expected from the late rejection of the treaty by the Senate.

THE CANALS.—The report yesterday morning was that the Canals were not in a state to ensure their opening before Friday next, but in the afternoon, Mr. C. H. Hatch, Agent of the Royal Mail Line in this city, received a telegram to the effect that the steamers Spartan and Passport had left there in the morning on their upward trips, and they would not start without the assurance that there would be no interruption on route. The Spartan proceeds straight through, while the Passport makes the regular calls, and may be expected to leave Kingston at the usual hour this evening. The steamer Grecian arrived from Toronto yesterday, and proceeded downwards, and at this writing all the steamers of the line are below. A week's running will set things right on the line.

POSTAGE ON NEWSPAPERS.—It is regretable that so many persons have so forgotten that under the postage act of last session the postage on all newspapers not sent directly from the publishing office in two cents, and not one as previously. A large number of papers are being continually posted bearing only a cent stamp, and consequently find their way into the dead letter box. To ensure the transmission of transient papers a two cent stamp must be put on them. This is a little matter that should not be forgotten.

EMIGRANTS.—About 80 emigrants who arrived at Toronto on Sunday, left for the West. Five families are going north to take free grant lands of Muskoka, with an aggregate capital of $10,000. The Atlantic steamship Prussian has arrived off Father Point, with over one thousand emigrants. The third instalment within one week.

☞ We feel gratified to be able to state that after weeks of suspense, the health of the Hon. Judge Wilson manifests symptoms decidedly favorable to his recovery.

☞ The Picton Assizes opened yesterday, before the Hon. Mr. Justice A. Wilson.

IRON IN THE BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude, and "all gooseness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

Peruvian Syrup,

a protected solution of the protoxide of Iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicine to cure disease occasioned by a deficiency of iron in the blood, without restoring it to the system, is like trying to repair a building when the foundation is gone.

An eminent divine says: "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

Pamphlets containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address.

The genuine has PERUVIAN SYRUP blown in the glass.

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE. I got a bottle, and after using it a few times obtained the greatest relief. The high praises emanating from people in all parts of the world that have derived benefit from the use of RADWAY'S REMEDIES, prove their title to confidence. There is no pain so severe, no disease so malignant or swift in its destruction of life, but that the READY RELIEF will stop the pain and arrest it in its progress. Every one has heard of it, if not tried it. Let those who have not used it, if sick, give it a trial. A few minutes will prove its power of stopping pain. See Dr. Radway's Almanac for 1869.
