REMINDERS.

SALES, MEETINGS, AMUSEMENTS, &c.

Court of Revision meets this afternoon.

Sale of a Poney at Mr. Wm. Murray's this morning at eleven o'clock.

Ministers are bringing the labors of the Dominion Parliament to a speedy close. By the middle of the month all will be over, and Ottawa left to its nine months' comparative solitude. Ministers have had easy times this session. All their measures save one have been carried by large majorities, and that exception, the Banking Scheme, has not miscarried completely, but is laid over. Touching this Banking Scheme, all the newswriters and all the moneyed quid nunncs have been airing their opinions of it, and we might have followed among the crowd, but the simple truth is, we can't thoroughly understand it, consequently silence was the better course.

The Dominion may now be said to be most flourishing. Nova Scotia is becoming daily more and more satisfied; Newfoundland is knocking at the door for admission; and the Red River Settlement and the immense Hudson's Bay Country has been purchased, and remains only to be paid for. So far, everything is couleur de rose. A contented People, a popular Administration, and a free Government—if with these three cheice blessings Canada desires Annexation or Independence, then she is the most ungrateful land on the face of the earth.

The Vacancy on the Bench.—The lamented death of Mr. Justice John Wilson creates a vacancy on the Bench at Toronto. It is to be hoped that the vacancy will be filled with Mr. James O'Reilly, whose talents entitle him to the elevation. Moreover, there are nearly Half a Million of Roman Catholics in the Province of Ontario, and their numbers entitle them to have at least one Judge in the Higher Courts of Law. Mr. James O'Reilly has deserved well of his country, and most richly merits what his friends universally ask for him. It has been too much the custom to give the cormorants of the law at Toronto all its honors and emoluments, but it is to be hoped that Sir John A. Macdonald will have the firmness on the present occasion to resist the pressure, and bestow the dignity where it is most deserved. And whatever Sir John does, let him reflect that 'procrastination is the thief of time,' that 'hope deferred maketh the heart sick,' and act upon the principle 'bis dat qui site dat.'

Parliamentary.

THE SENATE.

Ottawa, June 3.

After prayers and routine,

On motion of Senator Mitchell, the bill respecting the measurement and registration of vessels was, after a lengthy discussion, read a third time on a division.

The fifth report of the Joint Committee on Printing was adopted.

On motion of Senator Campbell, the House went into Committee on the Bill from the Commons respecting larceny and other offences.

An amendment by Senator Campbell, constituting it a misdemeanor to send a letter through the Post Office, purporting to be a money letter, which did not contain money, was withdrawn after discussion.

The Committee rose and reported progress.

The House went into Committee on the Summary Administration of Criminal Just ice Bill

The Bill passed through Committee, and was read a third time.

The Bill relating to the Duties of Justices of the Peace out of session, in relation to indictable offences, was read a second time. The Bill read a third time and passed.

The Senate then adjourned.

HOUSE OF COMMONS.

Mr. Morrison introduced a bill to incorporate the Canada Marine Insurance Company.

Mr. Rose apologized for the late arrival of ministers, but the House would understand that that delay had been in the interest of the public business, when he stated that he had to give notice that the House would at some future day go into committee of the whole on certain resolutions respecting the admission of Newfoundland into the Union. (Applause.) Also, that on a future day he would move the House into committee on certain resolutions respecting Prince Edward Island. (Cheers.) Also, that he would move on a future day that the House would go into committee of the whole on certain resolutions respecting Nova Scotia. These resolutions would be printed, and it was proposed that the House should take them into consideration on Tuesday.

On motion of Sir G. E. Cartier the report of the standing committee on railways, &c., recommending an appropriation of $2,000 for the completion of a large map of the Dominion, was adopted.

The House then went into Committee of Supply, and sat till 12:30 a.m.

New Catholic Church.

(To the Editor of the British Whig.)

Sir,—On June 1st the laying of the foundation stone of the Church of the Assumption, at Erinsville, Sheffield Township, took place, according to the ritual of the Catholic Church.

Over three thousand persons were present, amongst whom we noticed several clergymen of different denominations. The order and kindly feeling exhibited by those present paid a high compliment to their sense of courtesy, and evidenced a spirit of true christian generosity.

In the unavoidable absence of His Lordship, the Right Rev. Dr. Horan, the Very Rev. J. Farrelly officiated. The beautiful order of the Roman Ritual was strictly observed, and the attention and decorum of those who witnessed the celebration proved their high appreciation of the solemn rite.

At the conclusion of the sacred ceremony the Rev. J. M. J. Graham, of Long Island, preached a sermon on the "Triumph of the Catholic Church," which was listened to with marked attention.

A very generous contribution concluded the proceedings, after which the vast assembly dispersed.

Amongst the clergymen present were: Very Rev. J. Farrelly, J. Mackey, J. Tuoney, Jos. Browne, E. Murray, F. Leonard and J. M. J. Graham.

The music was under the direction of Rev. F. Leonard, whose fine abilities added much to the success of the celebration.

Military.

Assist. Com. General Pennell, who had charge of the Commissariat Department in this city, has been ordered to Montreal on the 15th inst.

The batteries of Royal Artillery in this garrison are under orders to leave for Quebec on the 19th inst. They will be replaced by one battery from below.

The system of fines for drunkenness instead of imprisonment, came into effect here this week.

The movement of the Rifle Brigade from Ottawa to Montreal will not take place for some months.

The Montreal Witness says:—

Major General Stisted and his staff moves from Toronto to Point Levis in time to assume command in the camp to be formed there by the 10th instant. The following moves of troops will also take place:—2 companies of the 69th Regt. to Quebec on the 9th inst.; the 53rd Regt. to Point Levis, under canvass; headquarters, 4 companies 69th Regt. to Quebec on the 10th instant, 4 companies on the 11th instant; 2 companies of the 60th Rifles to Toronto on the 12th inst., and 3 companies on the 14th inst.; 4 companies of the 29th Toronto to Point Levis, and exchanges of batteries, 3rd Brigade, R.A., after 18th inst., between Montreal, St. Helens, Toronto and Quebec.

The North West.

Sir John Macdonald has given notice of resolutions for the establishment of a provisional government in the North West Territory. The difficulties in the way of a permanent governmental organization are so great now that the leader of the government will be sustained in his proposal to make such legislation as may take place this session provisional, lasting only till the close of the next session. Before that time arrives there will be opportunity for such necessary enquiries which are now almost impossible. It is said that Mr. McDougall will be appointed governor of the territory. We think, if he desires, or will take it, he has fairly earned the position. He has done good service in connection with this question; and it would be a fitting acknowledgment of his labors to offer him the Governorship.—Leader.

Accident on the Grand Trunk.

LOCOMOTIVE EXPLODES.

"A Passenger" writes as follows to the Buffalo Courier. A terrible accident occurred on the Grand Trunk railway, Saturday morning, at 10 o'clock. Whilst the train from Detroit to Port Huron was waiting at Ridgeway for the train coming in an opposite direction, the latter came rapidly up under a full head of steam, and when near the train upon which I was a passenger, the boiler of the engine exploded, breaking nearly every window in our two passenger cars, killing three or more, as I was informed, and injuring a number. One of the killed was a girl who was standing in the door of a house near by, and the other two were on the platform of one of the cars. I saw one of them with his head cut open and breathing his last as I suppose. The moment of the explosion was the most awful of my life. The first cry I heard was that of a woman exclaiming 'Oh, my dear baby is killed,' and when the dense hot steam cleared away, and I could see the faces of the passengers, some of them bleeding, we all felt grateful that no one in our car was killed. The wood work of our car was badly smashed, the stoves were knocked down, one corner of the roof was raised and the whole was so jammed that it was difficulty getting out of it. Our train did not wait long enough to allow me to obtain the particulars."

OTTAWA.

Board of Public Works'—The Banking Question—Prince Edward Island.

Ottawa, June 3.

Hon. Phillip Vankoughnet and Mr. Jas. Cowan, Ontario; Mr. Herteau, Quebec; and Mr. William Compton, Halifax, are appointed a board of arbitrators of public works—salary $1,000 per annum.

It is rumored that a vessel will be chartered by the Government to convey rifle men from Ontario and Quebec to the Dominion Rifle Match at Halifax.

A subscription already amounting to $300 has been made in Prescott towards celebrating Dominion Day. Nothing yet has been done here toward celebrating this anniversary.

The water in the river Ottawa has fallen about three feet. The thermometer at noon indicated 88 degrees below zero.

Business on the Rideau Canal and Montreal by the Ottawa River has opened brisk this season.

The crops look well in this section of the country. The great depth of snow last winter saved the fall wheat and fall rye from injury during the winter and spring. Spring wheat also looks promising, although not so far advanced as generally in the first week of June. The apple trees this year are about a week later than usual in blossoming.

The Newfoundland delegates have come to terms with the Dominion Government, as to the consideration to be observed by Newfoundland on entering the Union. The delegates had the resolutions of the Newfoundland Legislature as their guide. Compromises have been, I understand, made on both sides. Hon. Mr. Stabb, one of the delegates' returns home to-morrow. The terms of Union will be submitted to the people of Newfoundland at the general election next fall; and on the assembling of the Legislature next January the question will have to be confirmed.

Mr. William Elliot, barrister, of London, has been appointed judge of the county of Middlesex, in place of the late Judge Small.

It is supposed that the resolutions relating to Prince Edward Island, promised by Mr. Rose, merely provide for the opening of navigation, and empowering conditional terms of admission. Those relating to Newfoundland will substantially embrace the terms of union already made public.

The Nova Scotia agreement is already before the public in exact detail.

Sir John Macdonald gave notice to-day of a bill for a provisional government of the North West territories. A Lieut.-Governor will be appointed with power to summon a provisional council of not less than seven nor more than fifteen members. All laws in force in the territories not inconsistent with the Union act or act of the Dominion Parliament are to remain in force. All ordinary officers are to remain in office, and the act is to be in force only till the end of the next session of Parliament. The whole matter will be provisional and discretionary with the Governor in Council until next session, when a measure will be introduced providing for the permanent organization of government machinery.—Leader.

RIOT IN WALES.

London, June 3.

Despatches have been received to day from Moid, a small town in the northern part of Wales, giving the details of a formidable riot which occurred there last evening, whereby several lives were lost and many persons injured. An attempt was made to rescue two prisoners in the hands of the Sheriff. The Sheriff and his guard resisted manfully, but the mob being too strong it was found necessary to call out the military force, which fired upon the rioters, killing four of them instantly, and wounding many more. The town is quiet and the prisoners still in custody.

THE ALABAMA QUESTION.

The London journals still continue to discuss the Alabama claims and the relations between Great Britain and the United States.

The Daily News hopes that Minister Motley will assist England to forget the treaty that was recently rejected.

The Standard felicitates Mr. Motley on his recent speeches, and hopes that England will be able to reciprocate his sentiments.

Royal Canadian Bills taken at Par Value by JAMES DAVIS, Montreal House.

The series of free grant and pine timber rules and regulations have been adopted by the Lieut.-Governor in Council.—The most important points are the amount of grants which is settled to be equal to 100 acres of cultivated land; the right of purchase to squatters at 50 cents per acre; the reservation of rights of the Crown as to space for new roads, and the reservations of pine timber for sale.

A very serious accident happened to Mr. John Ross, of Belleville, while driving to Brighton on Tuesday. He was run into by an engine on the Grand Trunk Railway. The buggy was riddled to pieces, and Mr. Ross received very serious injuries, being cut in the face and neck, as also receiving internal injuries. The engineer stopped the train as soon as possible, and took Mr. Ross to Brighton, where he now lays under the treatment of Dr. Fife.

Personal.—We understand that J. J. Burrowes, Esq., our respected County Judge, is about to leave us, having received the appointment as Judge for the County of Frontenac. We are sure when we say that we regret his departure from amongst us, we express the feeling of every inhabitant of the County, for a more gentlemanly man, and upright Judge, could not be found, and we wish him prosperity and happiness under his new appointment. But whilst regretting the departure of Judge Burrowes, it gives us pleasure to announce the appointment of his successor has fallen upon one we think every way competent and worthy to fill the Office with satisfaction—he has been known to many of us from childhood, and has occupied the position of County Attorney since the separation of the Counties, and has done so in a manner to satisfy every one who had business with him; and it is a pleasure to know that W. H. Wilkison, Esq., our new Judge, has been suitably rewarded for his industry, perseverance, honesty and ability.—Napanee Standard.

The June Conferences.

Ottawa, June 3.

The business of the Methodist Episcopal Conference has been brought to a close. They were in session eight days, and labored most assiduously and harmoniously during the whole of that time. The reports show that the Church during the past Conference year has been very prosperous.

Hamilton, June 2.

The Synod of the Church of Scotland met last evening. An excellent sermon was delivered by the Rev. Robert Dobie, retiring Moderator. Dr. Jenkins, of St. Paul's Church, Montreal, was unanimously elected Moderator. This morning the corresponding members from the Canada Presbyterian Church and from the Congregational Union were cordially received. Interesting correspondence from British Columbia was read. The report of the Temporalities Fund was presented by the church agent. This afternoon there was an animated discussion on church polity. This evening the Synod unanimously resolved to celebrate the sacrament of the Lord's supper on Sabbath first. Earnest and animating speeches showing the propriety of this were made by Drs. Barclay and Snodgrass and Messrs. Tawse, McColl, Fraser, Campbell, Croill, and others. The greatest harmony prevails among the members.

The War in New Zealand.

FURTHER ATROCITIES BY THE MAORIES.

The Melbourne Argus gives some additional details as to the war in New Zealand. Though the rebels have become much less formidable, the native war in New Zealand is not yet at an end. That troublesome rebel, Te Kooti, who was defeated at Ngatipa, and afterwards reported as killed, has again appeared, and has produced a good deal of mischief. After accomplishing the murder of Mr. Pitcairn, a surveyor, he tried to take Ruaporapa, but was repulsed with a loss of forty-five men, the garrison less being only twelve. He also attacked the house of a Frenchman named Guerin, slaughtering all the inmates except one. Subsequently he burnt the village of Whekarane, including the Catholic Mission and the European houses. There is a small force under Major Mair in the field, but it is hardly strong enough to face the enemy. The news from the west coast is more encouraging. On the 13th March, Col. Whitmore, with a force of about 400 men, attacked the camp of Tito Kowaru, the leader of the insurrection on the side of the island, and after a sharp fight completely outed the enemy. The attack was commenced in the early morning, under cover of a dense fog, and the firing at one of their sentries was the first warning the Maories had. About 400 of them in a state of nudity, and carrying nothing but their guns and pouches, rushed into the open ground, but were met by such a tremendous fire that they dropped down as quickly as they could into a steep wooded gully. A terrific close fire was then kept up for an hour, at the end of which time the mist rose. The men then fairly took to the bush, and fought from tree to tree with a valour never surpassed. For three long hours furious fighting was kept up in that way. The Hau-haus tried to climb the trees, but were quickly brought down, the women in the meantime carrying off the dead in the midst of the heaviest fire, their cries being terrible. There was no shrinking among our men. At the end of four hours, the Hau-haus had retreated through the dense undergrowth, leaving the bush fairly in our hands. Col. Whitmore had sent Lieut.-Colonel St. John up the opposite bank of the river to Gentle Annie, which prevented the enemy from crossing there, and he was consequently forced back, with Kemp's Volunteers following him up closely. All behaved equally well—the armed constabulary, the Arawas, and Kemp's men. All the Maori clothing was captured, as well as guns, tomahawks, revolvers, money, tents, axes, spades, and shovels—in fact, the whole of the enemy's baggage. Seven dead Hau-haus were found, and two women were made prisoners. The attack was planned with consummate skill, and carried out without a single mistake, the men being thoroughly under command during the whole of the engagement. On the side of the attacking force one man was killed and thirteen wounded. Colonel Whitmore is in active pursuit of the fugitives, with the view of preventing their escape into the fastnesses of the interior.

Death of Judge Wilson.

Mr. Justice John Wilson, who had been seriously ill for some four or five months previously, died yesterday morning at his residence near London. He rallied so much a few weeks since that his friends and family had strong hopes of his recovery. They were doomed not to be realized, however; for upon a change for the worse taking place he sank rapidly.—His disease, we believe, was dropsy and an affection of the heart. We do not exactly know what Judge Wilson's age was, but he is said to have been about fifty-five years old. He was in Parliament first, we think, in 1849, and remained in the Legislative Assembly, as member for London, until 1857, when he was succeeded by Mr. Carling. In the House he was a forcible speaker. As Judge he ranked high. He had not the legal knowledge or the education of some of his associates on the Bench, but he was a man of excellent judgment, whose analysis of evidence was generally clear and searching, and who rarely made mistakes. His death places a judicial appointment in the hands of the Dominion government, and there are already several gentlemen of the long robe named for the vacant seat.—Leader.

Fairbanks' Scales.

Hartford, Conn., May 20, 1869.

We, the undersigned, having in use the Fairbanks' Scales, for weighing loaded teams or cars, cheerfully give testimony to their accuracy, sensitiveness, strength and great durability.

Notwithstanding importunities of various other manufacturers who have risen from time to time, invariably claiming new principles, and improvements to correct some imaginary fault, our full confidence in the above goods remains unabated.
