Religious Quarrelling in Lower Canada.

(From the Witness.)

PERSECUTION OF THE TWO MOUNTAIN INDIANS.—Another letter about the Indians appears on our first page to-day. We do not publish the documents forwarded along with it, as the story is pretty completely told. The conviction took place, without any advocate appearing for the defence, before two Justices of the Peace,—Messrs. J. C. Leduc and Pierre Valois. By the new law all the expenses, even to the cost of conveying them to Court, is charged to the Indians. This is quite in keeping with Mr. Langevin's management at Caughnawaga, where the Indians have chosen a Protestant teacher, there having been none there before! The Minister of the Crown has recently, as we understand it, threatened to deduct the salary of a teacher from the Chief's Government allowance until he dismisses the Protestant teacher. Such extremely daring play must be for high stakes. For the little patrimony of these small remnants of the nations, which once ruled all Canada, it would not be worth while to incur the reproach of such high-handed proceedings. There is more to be gained and lost than that. We are just opening a new field of labor for our self-denying missionaries, among the boundless wilds of the West, and how willingly would the Romish church put forward its claim to the guardianship of all the Indians there—as well as to large possessions to be held for their benefit. A man in Boston, we are told, gathers a few boys every day for an hour or two, and collects throughout New England, by means of agents, large sums for a Home, which has on its books so many thousands of little wanderers in a year. It is necessary, however, that he should always have some boys on hand. So it is necessary that the Seminary should keep some Indians under their control, and hence their apostolic desire, in the midst of threatened apostacy, by all kinds of means, to save some.

(To the Editor of the Daily Witness.)

STR,—The Chief "Le Cigne" returned from St. Scholastique (the Indians' Smithfield) yesterday evening, and brought the accompanying copies of the proceedings of this "Star Chamber," which I forward to you at once. The warrant was not produced at the trial, nor the complaint or information, which, the Chief says, very somewhat from the quotation of the accusation in the sentence; but their lawyer will of course know how to obtain them.

It appears that the Indians, after a public meeting of their Protestant brethren, held for the purpose, did, upon their own property, cut down a certain quantity of timber, intended for the repairs and addition to their meeting house, within their village limits, on the 10th and 11th insts. The timber is still on the spot. Six Indians, out of forty who cut down the timber, having been apprehended before removing the same, they were tried yesterday, the 14th, and condemned—

"En avant marchons,
"Braves du Pape, a Pavant garde!"

To pay 'with with aux Messieurs les Ecclesiastiques the sum of fifty dollars damages	£12 10 0
Item, four dollars currency, each of the six defendents, penalty	6 0 0
Item, fifty-one dollars and thirty cents for the costs of the said Ecclesiastiques in this cause	12 15 0
	£31 5 9

And in default of payment, to be imprisoned in the common gaol of said district at St. Scholastique for the space of four months, unless the above sums, with the costs and expense of their imprisonment, and the costs of conveying the defendants from their residences to the said parish of St. Scholastique, amounting to six dollars currency (over and above the £31 5s 9d.)

Now, sir, the six Indians are all in gaol, awaiting timely Legal redress for so monstrous an abuse of justice.

You will perceive that the Court forgot to adjudicate upon the right to the timber, and the other Indians are determined to remove it to where it is needed, claiming it as their property.

Another striking instance of the boldness of the bailiffs when under the orders of their familiar spirits, the priests. Two of them forced their entrance into the house of the Chief Le Cigne, where our Protestant friends had assembled for worship, and during their divine service, demanding their prisoners. They were answered by one of the Indian attendants in the following style:—"Do you not know that we are in the presence of God here? If you wish to join us, you are welcome. Six days has the Lord appointed you to do your work, but the seventh is his own. We will surrender to-morrow, but this day—No!" The bailiffs excused themselves, being confounded at so much firmness, and went back, their intrusion having been without effect.

I remain, sir,
Your obedient servant,
M. G. T. De LaRonde, N. P.

St. Andrews, June 15, 1869.

Foreign News.

The Japanese have again been committing outrages upon foreigners, and the English Minister has complained regarding the matter to the Japanese Government.

The Mikado had arrived at Yeddo with his fleet and army, and an unsuccessful attempt had been made to capture the Ram Stonewall.

An uneasy feeling prevailed among Chinese officials respecting the future course of political events at Pekin.

Heavy dust storms were prevalent, and but little rain had fallen for some time.

The Russian man-of-war Port Lieson had arrived from Corea, where she had had a difficulty with the inhabitants, in which several men were killed and wounded.

SINGULAR PRESENTIMENT.—The Pall Mall Gazette mentions the occurrence of an extraordinary phenomenon recorded by Herodotus as having been observed in remote times by the tribes inhabiting the shores of the Caspian Sea. That huge salt lake is dotted with islands, from which enormous quantities of naptha are yearly taken. Early last month, owing to subterraneous disturbances, the naptha wells on these islands overflowed, and the inflammable substance spread over the entire surface of the lake. It accidentally took fire, and for forty-eight hours burned furiously over a surface of many thousands of square miles, presenting a magnificent and terrifying spectacle to the inhabitants of the surrounding country, who imagined the end of the world was at hand. The fish in the lake were entirely destroyed, and for miles around vegetation was parched and the country made like a desert.

DAILY WHIG

THURSDAY MORNING, JUNE 24, 1869.

MILITARY FUNERALS.—Now that the Military General Hospital is on the hill behind Fort Henry, the severe duty of attending a Funeral will be greatly enhanced. The Firing Party, Band and Mourners will now have to leave the Tete du Pont Barracks, walk more than a mile to the Hospital, and return to the city with the body. The distance to the Cemetery at Waterloo is 4½ miles from town, which the Funeral Party will have to walk, nine miles; this added to the preliminary marching, will make 11 miles, the greater part of it at slow time. Surely the General Commanding should interfere, and put an end to this extra severe duty.

Fires.

Yesterday morning the large frame building on Division Street, situated on the angle between All Saints' Church and the late Dean Stuart's fine stone building, was totally destroyed by fire. The place was occupied by Capt. Browneley, of the schr. "Union Jack," who is at the present time on one of the upper lakes. His wife and family were at home. About 3 a.m. the wife was aroused by a neighbor, who, discovering the flames first, had rushed to the rescue of the inmates. He found Mrs. Browneley house with suffocation, and assisted herself and little ones from the building. The flames broke out in the cellar, and had penetrated to the heart of the building, so that its abandonment, with all its contents, was imperative. One of the steam fire engines was on the ground, and emptied all the wells of the vicinity in the effort to save the late Dean's building, the roof of which had caught, placing it in imminent jeopardy. The water works do not extend so far out, which crippled the firemen's exertions, and further there were no ladders at hand to scale the building. (Query, what is the use of the city fire by-law, if its provisions respecting ladders are not carried out?) Indeed if it were not for the willing and hazardous exertions of Assistant Engineer Devlin, who climbed up the building and cut away a portion of the burning roof, another property would have fallen a prey to the flames. Mr. Browley had an insurance of $450 on his furniture, with Mr. Swift agent of the "Home," of New Haven. Mr. Ald. Allen, the landlord, had an insurance of $400, a policy for a much larger amount having only lately expired. The property was formerly part of the Weyine's estate. The origin of the fire is not yet known, but some design of outsiders is hinted at, from trifling occurrences which have taken place lately.

Fires in Kingston are few, but they never come singly. Yesterday afternoon another alarm called out the whole city, including the fire brigade. The chimney of Dr. Yates' residence on King street had been on fire, and some smoke subsequently issued from the roof, but after a deal of unnecessary clamor, all danger was averted. No damage.

RIFLE ASSOCIATION.—On Tuesday the prize meeting of the Ontario Rifle Association was opened at Toronto, by Lt.-Gov. Howland, who fired the first shot, though he did not make a bull's eye; the marksman, with traditional courtesy, scored one, however, for His Excellency. There is a large attendance, and arrangements have been completed. Col. R. Dennison has charge of the field and camp.

The five marksmen who left here to represent the 47th Frontenac Battalion are Messrs M. Strachan, Wm. & J. Baillie, and J. & W. Allen.

DOMINION DAY.—Law abiding citizens will please observe the reading of an official advertisment in the proper column. The Mayor calls for a general holiday next Thursday.

CAUTION! In our changeable climate, coughs, colds, and diseases of the throat, lungs and chest will always prevail. Cruel consumption will claim its victims. These diseases, if attended to in time, can be arrested and cured. The remedy is Dr. Wistar's Balsam of Wild Cherry.

MISS RYE'S EMIGRATION SCHEME.—Yesterday morning Miss Rye, the well-known and philanthropic lady engaged in the commendable work of supplying the want of female domestic servants in Canada, through a small but promising emigration from England, passed west by yesterday morning's express train, with 80 of her latest arrivals. She brought 100 in all, 10 of whom were left in excellent places in Montreal, and six remained in Kingston to answer urgent requisition. Triple the number of girls could have obtained good places within twelve hours, but Miss Rye had none to spare, having yet to visit Toronto, Hamilton, London and St. Catharines, with a supply by no means equal to the demand. The girls left here are healthy and vigorous, and appear altogether to be of a very good class. Miss Rye travels direct through by train, and the railway authorities, she says, have dealt very liberally with her. Of course she could not stop to see her girls placed here, but she promises to visit them all on her return.

THE RIFLES.—Reports were rife yesterday concerning the probable removal of the R. C. Rifle Regiment from Kingston, but nothing reliable could be ascertained. Probably a hoax.

SPORTING.—A game of LaCrosse raged on Tuesday evening in Barrie street, in front of the fashionable terraces near Earl street. The match was between twelve of the Barrie street Arabs and twelve of the Little's lane Mudlarks. A good sized potatoe was used for a ball, and those who had not Lacrosses provided themselves with shingles in lieu thereof. The Arabs got the ball and the game commenced by a furious outclaught on the potatoe which was sent flying gaily about, until, unfortunately, it struck one of the Mudlarks in the eye, who, howling with rage, rushed on the Arab next him, and soon a free fight ensued. After the fight was finished the game was resumed and would have been concluded had not the potatoe flew in pieces. A new potatoe was begged from a neighboring grocery and game second began; the potatoe being well kept at the Mudlark's end. Just as it was being thrown past the goal, one of the Mudlarks got it on his shingle and giving it a vicious throw sent it crashing through a window of a neighboring liquor grocery shop. Both sides then rushed away until the grocer's rage was appeased, when one by one the contestants returned, and having found the potatoe, the third game began amid much shouting and swearing, until the retailer having armed himself with a long switch rushed into the field and both parties vanished as quickly as their legs could carry them, one of the Arabs viciously throwing the potatoe at the said retailer's head as he turned the corner. The match, it is expected, will be played in another street, at a future day.

SONG OF IRON.

I am mighty in the salon,
Fearedly walked by the brave,
Glorious in the stalwart steamer,
Laughing at the storm and wave.

Resistless in the palace pillars,
Saving in the painted roof,
As it brings the deadly lightning,
Quelled and harmless to the soil.

But there is a glorious essence,
Where I take my grandest power,
Giving to the Race my succor,
Sweetest aid, in danger's hour.

See! before me fly diseases!
See the darkest hydras bow!
See the rose of health and beauty
Take the pallid cheek and brow.

Fly, dyspepsia! fly consumption!
Yes, all ills are crushed at length,
For I give what human nature
Only ever needed—Strength!

Shall I tell in what great essence
I can thus your spirits cheer up?
Pallid, trembling, dying sufferer,
'Tis the famed "Peruvian Syrup."

The Peruvian Syrup is a protoxide solution of the Protoxide of Iron, a new discovery in medicine that strikes at the root of disease by supplying the blood with its vital principle or life element,—Iron.

The genuine has "Peruvian Syrup" blown in the glass.

CAUTION—HYPOPHOSPHITES.

Fellows' Compound Syrup.

As this preparation is entirely different in its combination and effects from all other remedies called Hypophosphites. The genuine has the name of FELLOWS & Co. blown on the bottle.

FELLOWS' COMPOUND SYRUP

Is prescribed by the first physicians in every city and town where it has been introduced, and it is a thoroughly orthodox preparation.

Fellows' Compound Syrup is free from all nauseating drugs, such as Antimony, Ipecac, Squills, &c., and from sedatives such as Opium. It is really an assistant to nature—creating an appetite, causing the food to assimilate, promoting easy expectoration, and imparting strength to all the bodily functions.

Sold by Apothecaries—price $1.50 per bottle or 6 for $7.50.

JAMES I. FELLOWS, Chemist,
St. John, N. B.

Would it not be better to give our youth strong constitutions, and allow the body to grow in proportion to the brain? Children whose brain development is unusually large in comparison with the body, notwithstanding the care judicious parents can bestow, are those who are frequently singled out for a premature final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. Fellows' Compound Syrup is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Sold by Apothecaries—price $1.50 per bottle or 6 for $7.50.

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal:—"Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE, I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."

Pocket volumes containing these Lectures, will be forwarded post-paid, on receipt of 25 cents, by addressing "SECRETARY, New York Museum of Anatomy and Science, 618 Broadway, New York."

R. R. R.

The high praise emanating from people in all parts of the world that have derived benefit from the use of RALWAY'S REMEDIES, prove their title to confidence. There is no pain so severe no disease so malignant or swift in its destruction of life, but that the READY RELIEF will stop the pain and arrest it in its progress. Every one has heard of it, if not tried it. Let those who have not used it, if sick, give it a trial. A few minutes will prove its power of stopping pain. See Dr. Radway's Almanac for 1869.
