Strawberries.

In the early part of the season, Strawberries are imported into Canada from New York and Philadelphia, but after a brief while the growth of Canada supplies in great abundance all that can possibly be wanted of this charming fruit, one of the fruits par excellence of Canada. This used not to be the case, for the cultivation of Strawberries was not much attended to, and all the year round the United States supplied both dealers and consumers. Now, the Strawberry in its many varieties is largely planted, and in consequence Strawberries in Canada are as good, as plentiful, and as cheap, as formerly they were scarce and dear. Of course all this is irrespective of the delicious Wild Strawberry, which is indigenous to the soil of Canada, and which from its delightful flavor is preferred by many housekeepers, both for table and preserves.

Strawberries are largely cultivated near Kingston by the Brothers Nicholl at Waterloo (now Cataraqui); the one Brother growing them on his Nursery Grounds adjoining the Waterloo Cemetery; and the other brother on his Grounds on the road to Sydenham half a mile from Cataraqui. Both plantations are but a couple of years old, and yet so abundant is the produce, that on Monday last one brother picked 458 quarts, and the other 720 quarts, and could have gathered a great many more. And the supply is expected to last for a fortnight to come. A visit to Mr. Nicholl's Nursery, Greenhouse, Hot House and Melon Beds on the Sydenham Road will repay the trouble and expense of a visit. And we recommend all who have occasion to visit the Cemetery, to extend their trip, and pass an hour or so at the Grounds we allude to, and they may depend upon it, that they will not regret taking our advice.

Orange Pic-Nic near Elginburg.

Monday last, the anniversary of the Battle of the Boyne, was celebrated by the Orangemen of Cataraqui, Elginburg and the surrounding country by a Pic-Nic in a grove near Counter's Corners. There was a very large attendance on the occasion, the fair sex, as usual, predominating. During the day large numbers arrived from the city. The Band of the P.W.O. Rifles was on the ground at an early hour, and played at intervals. After the good things provided had been disposed of, speeches were delivered by several reverend and other gentlemen from a stand erected for the purpose, which were attentively listened to, and were evidently appreciated. Large numbers availed themselves of the opportunity afforded of indulging in various amusements. The day was delightfully fine, and all seemed to enjoy themselves to the best possible advantage. About six o'clock the large assembly began to disperse, and by seven the grounds had assumed their characteristic loneliness. The Pic-Nic was a decided success.

TROUBLE IN HIBERNIAN CIRCLES AT QUEBEC.—There is great dissatisfaction in the camp of the Quebec Hibernian Society between the President and members. The Society adopted a famous resolution in answer to the letter of the City Clerk, requesting it to co-operate with the other National Societies in the reception of the Gov.-General. The purport of the resolution is set out in a long preamble, introducing the present state of Irish affairs and the continued imprisonment of Rev. W. McMahon as the ground of refusal to receive Sir John Young. The President contends that the resolution was passed at a small meeting, and does not reflect the opinions of the majority of the Society, and for this reason has prevented it from appearing in the public newspapers.

A CANARD.—The assertion that the Hon. Mr. Ross intends to resign the post of Finance Minister is not true.

CRICKET IN NEW YORK.—On Thursday last, the celebrated St. George's Club, of New York, played a match with the Alpha Club, of Salem, Mass., and defeated them in one innings, with 34 runs to spare. Among the players in the St. George's eleven we notice some famed names, Norley, in particular, coming out with a score of 41 runs. In this connection it is pleasing to hear the announcement in the "World," "that Dr. Meagher, the crack bowler, of the Kingston Club of Canada, made his debut in the St. George's Club on the occasion. His bowling is praised for its swift pace, and we see that the analysis of the bowling in the 2nd innings gives him the credit of 6 wickets, while Norley in both innings, brought down only 5; Butterfield 3 and Torrance 2. Good for Kingston.

☞ Twenty-five New York Wall street brokers have been indicted for alleged usury, but only one arrest has yet been made.

☞ By late advices from the Island, the health of the Cuban army is reported good. It is also said to be well organized.

RECIPROCITY.—There are reports in Ministerial circles that Mr. Rose is meeting with encouragement from the Cabinet in Washington in relation to the new reciprocity treaty.

ANNUAL GATHERINGS.—To-day two important meetings will commence. First, the fourteenth annual Communication of the Grand Lodge of Ancient Free Masons of Canada, is to open in the Masonic Hall, Montreal; and secondly, a Convention of delegates from Young Men's Christian Associations of the United States and British Provinces is to be inaugurated at Portland, Me.

The flight of Masonic Delegates to Montreal has perceptibly increased the number of travellers on the steamers and the cars. The following members proceeded from Kingston in the str. Champion, which also conveyed delegates from different points between this and Toronto:—P. G. M. Simpson, Rt. W. Bro. Noel, R. W. Bro. Kirkpatrick, W. Bro. Hendry, W. Bro. Wilkinson, and W. Bro. Malone, of Garden Island.

Paris, July 11.

The Council of Ministers and the Privy Council have held frequent meetings at the summons of the Emperor to deliberate upon the interpellation for political reforms now pending in the Corps Legislatif. It is said that the following programme has been agreed upon with the concurrence of the Emperor. The Senate will be immediately convoked, when parliamentary changes of a liberal character will be proposed by the Government. These reforms will probably include the extension of the right and facility of interpellation and the creation of a responsible ministry, the Emperor choosing his ministers from the Corps Legislatif, with the view of arriving at the particular responsibility of each member of his cabinet.

PACIFIC DECLARATION.

The official red book says that the Government has no reason for keeping from the public its dealings with Prussia and other German States; that diplomacy is interested in maintaining the existing status. It does not menace the general peace; but respects all other Powers, and remains perfectly neutral in their affairs.

QUEBEC.

Quebec, July 12.

Another unseemly contention like that at Montreal took place to-day between different national societies here, in the presentation of addresses to the Governor General. The President of St. Jean Society claimed precedence; others objected but offered to draw lots. This was refused and the Governor heard of the dispute and refused to receive any of them. At the Levee the Consuls, Judges, and Roman Catholic Clergy and Archbishop of Quebec, &c., were presented to His Excellency; also addresses from the Board of Trade and Synod.

It is rumored that the St. Patrick's Society of Montreal and the Hibernian of Quebec are sending several hundred letters to Cork, Tipperary, Waterford, Kerry and all through Connaught, warning the people against Mr. J. G. Moylan in his efforts to induce emigration to this country, and denouncing him as being worse than Corradan or Massey.

WASHINGTON.

INTERVIEW WITH A FENIAN.

Washington, July 10.

"Col. Warren, a Fenian, had an interview with Secretary Fish yesterday. Col. Warren represented the cases of several American citizens incarcerated in England on charges of Fenianism and urged prompt interference in their behalf. If American citizenship was to be no protection abroad, the fact should be understood, so that foreigners may know hereafter what it is worth to them to swear allegiance to the United States. Secretary Fish promised to lay the matter before the Cabinet. It is understood the subject was among those discussed at an unusually protracted Cabinet meeting yesterday. It is stated that at the Cabinet meeting the Alabama claims, the situation, the Fenian business and the Canadian Reciprocity were discussed."

THE ŒCUMENICAL COUNCIL.—Rumors are again prevalent that the Œcumenical Council will not convene this year. It is reported that the overtures made to various powers by Prince Hohenlohe, the Bavarian Minister, with the object of organizing a coalition against the Papal pretensions, have had a certain degree of success. France and Italy appear disposed to join Bavaria in opposition, and neither Austria nor Spain is willing to support the Pope, though they decline to take any active steps against him. Cardinal Berardi, it is added, has been sent by His Holiness on a special mission to Paris, in order, if possible, to arrange matters.

SAVED FROM DROWNING.—About 12 o'clock on Saturday night, as Mr. Thompson, of the firm of Glassford, Jones & Co., whose business called him to the wharf of the company at an unusually late hour, was passing through the small gate leading to the dock, he saw a man deliberately walk off the wharf into the water. Hastening to the spot he saw the man struggling in the water, who, however, uttered no cry of terror, but found that he was unable to reach him from the dock, and accordingly Mr. Thompson shinned out on a hawser which was stretched from the Avon to the dock, and succeeded in grasping the drowning man by the hair of his head, and with the greatest difficulty got him to the bore. The drowning man proved to be the engineer of the Avon, who was under the influence of liquor at the time of the accident. The drowning man seized Mr. Thompson by one of his legs, and it was no small undertaking, with the disengaged arm and leg, and the additional weight of the man to get back to the wharf; and great credit is due the gentleman for the courage and perseverance displayed.—News.

THE NORTH-WEST.—The Indians at Portage La Prairie recently interfered with the taking up of land claims, and the settlement of some persons from Canada on Rat Creek. Mr. Mair and Dr. Schultz afterwards visited the Indian camp, and after a talk, satisfied the Indians that the new Government of Red River would consider their claims to the land in that locality, and, if they were found good, make them compensation for any portions taken up by white settlers. Now that the first ripples of the tide of emigration have touched the fertile land of the North-West, it is well that this little difficulty should be quietly arranged. Amongst the most pressing questions which the new Government will have to consider, will undoubtedly be the settlement of the claims of the Indians to the land, and their establishment on suitable reserves.

Another Robinson Crusoe.

THRILLING AND ROMANTIC STORY—TERRIBLE SUFFERING OF A SHIPWRECKED CREW—SEVEN MEN EATEN BY CANNIBALS.

(Paris Correspondence New Orleans Picayune.)

In the month of August, 1863, the French ship Adelina Elisa quitted Bordeaux for Hong Kong. A month afterward she was spoken off Cape of Good Hope. She was never heard of again until a few days since her history and the history of all her crew became public. A typhoon in the Indian ocean threw her out of her course, dismasted her, broke her rudder, and tossed her toward Oceanica. Had she other lasted thirty days, and when fair weather returned, she struck upon a coral reef, and the exhausted crew were scarcely able to take refuge in the boats.

It was a moonless, starless night when this accident occurred. They rowed wildly, and thanked God when the breaking day showed them a harbor, surrounded by a charming landscape. They reached land and laid down to sleep. When they awoke they found themselves bound hand and foot, and surrounded by savages. Their captors proved to be Cannibals. Eleven of them, their captain included, were slain and eaten. Three others contrived (how does not appear) to make their escape, but they were mutilated. The one who succeeded in reaching Europe has one arm cut off and one eye torn out. The three reached a remote part of the island, where they found a canoe and embarked in it, preferring the risk of being devoured by sharks to the certainty of being killed and eaten by Cannibals. Fortunately they found themselves in an archipelago, and were able to go easily from one island to another. After wandering for some time, moving as rapidly as possible away from Cannibals' home, George Samazon's two companions died of exhaustion.

He remained alone, mutilated, hopeless, upon a frail canoe. He, nevertheless, continued to push on, touching land when necessary to sleep and to get water and food. He ate shell-fish and roots. One day he reached the last island of the group, and nothing lay before him but the wild ocean. He set to work to build a raft. It took him a year. He launched it. The waves threw it back on the island. He several times tried to put it to sea, but constantly failed. He resolved to turn his footsteps landward but in a different direction from the Cannibals' home. He climbed a mountain, crossed a desert, fell again into savages' forests; his feet were bitten by venomous insects; his face scabbed by mosquitoes, at last, more dead than alive he came upon white men. He had been walking three years, and had crossed South America on foot! The white men received him kindly, and did what they could for him. He embarked upon a small Portuguese ship and at last reached Europe. His family had long given him up for dead.

Alabama Claims.

It is reported that an important official despatch was received at Washington from London on Monday saying that Minister Motley had a protracted interview on Wednesday with Mr. Gladstone and Lord Clarendon in relation to the Alabama claims, and that the result was not satisfactory to the American Minister. The details of the interview are not given; but the mere fact that it took place would seem to indicate that Mr. Motley has been instructed, notwithstanding the positive announcement to the contrary, to reopen at once negotiations for the settlement of the Alabama question.

Woman's Rights.

A NEW VERSION—A WIFE LIVES WITH TWO HUSBANDS.

(From the Chicago Evening Post.)

There is a very remarkable case of matrimonial felicity (?) in this city, which is not generally known to the public. In the west division lies a women with two husbands, to each of whom she has been married in legal form. At the time the war broke out this woman was living with her first husband, by whom she had three children. Soon after the breaking out of the rebellion, her husband enlisted and went off in the role of a "brave soldier boy." A year or two after, his wife heard that he was killed in battle. She heard nothing from him personally, the war closed, and he failed to write or to report at his former headquarters in Chicago. His wife now considered herself a widow beyond all doubt, and in course of time she married again. But a few months ago, to her amazement, husband No. 1 whom she had mourned as dead, returned to his long deserted domicile, but, like Enoch Arden, only to find his wife the spouse of another man. But, unlike Enoch Arden, he failed to die of a broken heart. A council of war was held by the three heads of the family, and the difficulty amicably adjusted. What to some men and women similarly situated would have resulted in pistols, blood and litigation, was settled readily and satisfactorily by this amicable trio. It was mutually agreed that both husbands should continue to be "lords" of the woman on equal terms, and she should be the wife of both husbands. Soon after the soldier husband's return home, the wife presented to him and to the world another child, the offspring of husband No. 2. But this circumstance did not seem to disturb the equilibrium of No 1, nor the peace of the household. And there dwells that happy family,—one wife, two husbands and four children—in a small cottage as quietly and content to all appearances, as if nothing unusual had ever happened.
