NEWS OF THE DAY.

WEDNESDAY MORNING, JULY 28, 1869.

THE TWELFTH IN IRELAND.—Irish papers to hand per Prussian, represent the Orange demonstrations in that country as the largest ever known. Several very large meetings were held at different places where, it is said, in some cases as many as 60,000 people were present, amongst whom were a large number of noblemen. We learn that the Belfast Orangemen, when the mail left, were preparing to receive McKenzie Bowell, Esq., M. P., Grand Master of Ontario. Canadian Orangemen are always well treated in Ireland.

THE BAND.—The Band of the R. C. Rifles will not play in the City Park this week.

POLICE COURT, Tuesday.—The counter cases of selling liquor without license at the Grove were brought up, and dismissed, as not proven, the squabble between the inmates of the Grove having been settled among themselves, thereby defeating the quiet game of the License Inspector. The defendants yesterday were Susan Spencer and Nancy Duncan. Catharine Hall was charged with using abusive language towards Mary Mannox, a servant at Major White's. The defendant's husband is a servant also at Major White's, and the defendant is very jealous on Mary's account, and abused her roundly. Fined $5, which as a dutiful husband Hall will pay.

EITHER AND NEITHER.—There is an absurd practice among American and Canadian newswriters of making Either and Neither plural instead of singular. It is quite common to see such phrases as these:—

"Either of which were objectionable."
"Neither one nor the other were acceptable."

Nothing can be more absurd.

CRICKET.—The one-innings match played on Saturday, on the Cricket Ground, between the Kingston Club, exclusive of crack players, and the Bank Clerks, was won by the former, on a score of 99 to 44. Not very much good play, but a very interesting match nevertheless.

THE ARBITRATION.—The Hon. Mr. Rose is engaged at present in arranging for the arbitration between the Provinces of Ontario and Quebec.

HOGS.—Thirty-two double decked cars containing about 2600 hogs, passed this Station going east on Sunday and Monday.

PETROLIA.—By the Petrolia News Letter, of this week, we see that the wells are producing finely, and that the still lately erected by the Ontario Carbion oil company has been highly successful in its operations, making the finest sample of distilled oil ever produced there; and thoroughly demonstrating that our oil can be distilled in less time, and consequently at less expense than refiners have hitherto been able to accomplish. It also shows that our oil can be distilled in stills of equal capacity with the American, and with quite as favourable results; notwithstanding its greater gravity. The wells are producing 1000 bbls daily. Among the improvements noted in this: Mr. J. D. Noble (formerly of Kingston) intends putting down three new wells on territory near the Loughead No. 1 well; and has commenced building the rigs. This will make Mr. Noble proprietor of 19 wells; nearly all of which are good ones. The annual meeting of the Oil Producers Association was held on the 21st, at which Mr. Noble presided.

The colleges throughout France are to be provided with Chassepot rifles, so that the students may become accustomed to the handling of arms, and relieved at a latter period from the preliminary exercises of the National Guard Mobile.

The country plant at Rochester draws many to that city, some of whom have come purposely hundreds of miles to see it. It now shows the beautiful pyramidal form of flowering, and will soon be in blossom.

A Western paper says that a suit has been entered against Coleman & Co., of Rochester, for forfeiture of proper y, amounting to $70,000, for smuggling Canada lumber to that amount.

During the highest southwest gale on Lake Ontario, July 19, the water in Oswego river suddenly fell nearly a foot below its present mark, and about ten minutes rose fully the same distance above the point where it before stood and now stands. This was repeated two or three times. The same phenomenon was observed at different points on the shores of Lake Ontario.

The Carleton Place Herald, says a company has been formed to navigate the river at that place. Locks are to be constructed on the river and timbers for a new steamer are on the ground. The steamer will run between Carleton Place and Lanark, and up the Mississippi to Fitzpatrickville. She will bring down all the sawed lumber on the Mississippi and the Clyde.

Olive Logan is disgusted with bathing at Long Branch, because there are no "brawny fellows" to take her out and teach her to swim. She says they do these things better in France.

The bees in Iowa are actually starving, the continued wet weather depriving them of their accustomed food. In one apiary of twenty-five colonies of pure Italian bees at Marshal, there were probably not ten pounds of honey.

A man guilty of murder would stand a better show for his life before the Supreme Court of New York than to ride the length of the Erie railway. This shows which of Fisk's agents are the most careful of human life.

A horse thief in New Jersey having been convicted of stealing 15 horses, has been sentenced to 10 years imprisonment for each offence. He has therefore the pleasant prospect of 150 years imprisonment.

On dit that a new Irish Catholic daily is shortly to appear at Montreal and will probably be printed in connection with Le Nouveau Monde. The Irish Catholics seem dissatisfied with the True Witness, which they say is too entirely polemic, and under control.

A country clergyman says he has married but one couple in a year, and that they paid him nothing, stayed to dinner as it was a rainy day, and then borrowed an umbrella when they left, which he has never seen since.

The case of the Rev. Mr. Tate, of Ohio, who was presented for trial for employing a surplised choir in his church, has come to an abrupt termination, the court organized to try him having decided that it had no jurisdiction in the case.

It is said that many of the English converts to the Church of Rome are quietly returning to the English Church. Among the number are Thomas Arnold, Mr. Palgrave, Mr. Walford, and a son of Mrs. Hemans.

The mutiny at Sing Sing prison has been effectually quelled, and about 300 of the prisoners, who had been placed in close confinement, have been released and returned to work. The leaders intended the revolt to be universal, having for its object a general clearing out of the prison, at no matter what sacrifice of life.

Frank Leslie's illustrated Newspaper for last week contains photographs of all the Prescott twelve, a view of the St. Regis team, and a graphic view of the championship match. The engravings are from photographs by McIntyre.

The policy of Secretary Boutwell, and the favorable financial state of the Treasury disclosed by his recent exhibit, have had a good effect in strengthening the credit of the United States abroad. It needs care, economy and peace to raise the securities to par, or even to a premium, for the United States are abundantly able to meet all their liabilities.

The announcement of an express train that shall run from Liverpool to London in four hours is a remarkable event. The distance is two hundred miles, and in order to make the fifty miles per hour it will be necessary to make it a through train; that is to allow no stop between the two places. The necessity of stopping for water is obviated by mechanical means.

The Bermuda Dock made a splendid passage out to Halifax. A speed of five miles and a half per hour was averaged, and the dock reached Porto Santo at 2 p.m. on the 4th of July, leaving the same evening for Bermuda.

The length of the Pacific Railroad is such that a courtship that began in Ohio, was consummated in a marriage before the two travellers reached the end of their route.

A Syracuse lady seated herself on a second story window sill the other evening, in a vain effort to keep cool, when she lost her balance and fell into the street. She struck an awning ten feet from the ground, and descending from thence feet foremost, her garments were inflated like a balloon, and she alighted as gracefully as a bird, amid the admiration of a crowd.

We are favored with the information that the Grand Army of the Republic, that means the United States Army, calls upon the Government for the recognition of Cuba. Fussy follows those soldiers are in Jonathan's territory. What would Yankeedom have said had the British army called upon, if such a thing could have been possible, their Government to have recognized the South?

THE AGE OF RAILROADS AND THE TELEGRAPH.

Gives rise to fast living, and increases the desire for making rapid fortunes—some wishing to outstrip, and other to be at least equal to to their neighbors. In order to keep up with this eager and unequal contest, the brain is taxed to its utmost power, while humanity is rendered an easy prey to disease. The heart, Liver, Stomach, Lungs, or Nervous System becomes afflicted, and sickness in the form of Heart disease, Jaundice, Dyspepsia, Bronchitis, Consumption, Paralysis, or Mania, is the result. The use of Fellows' Compound Syrup will enable the mind to sustain a greater strain unfettered by conflicting thoughts and unwearied by continued study. Its imparts power of concentration. What before seemed difficult of solution becomes comparatively easy, and the body is physically stronger under its use.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe to relieve and to cure, is enhanced tenfold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

DR. WISTAR'S BALSAM OF WILD CHERRY,

whose value in curing Coughs, Colds, Bronchitis, Whooping Cough, Asthma, Pulmonary Affection, and Incipent Consumption is inestimable.

Strong Testimony.

From BENJAMIN WHEELER, Esq., Depot Master of South Royalston, Mass.

"In the spring of 1858 I was most severely afflicted with a hard dry cough, with its usual accompaniment of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters I was prevailed upon, through the influence of a neighbor to try Wistar's Balsam, of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more elated my depressed spirits, and soon I had attained my wonted strength and vigor. Thus has the Balsam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning grave. You are at liberty to use this for the benefit of the afflicted."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

Dr. Radway's Pills Cure all Diseases

of the Stomach, Liver, Bowels, Kidneys, Bladder, Nervous diseases, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, Bilious Fever, Inflammation of the Bowels, Piles, and all derangements of the Internal Viscera. One to six boxes warranted to effect a positive Cure. Purely vegetable, containing no mercury, minerals, or deleterious drugs.

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE, I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."
