NEWS OF THE DAY

FRIDAY MORNING, JULY 30, 1869.

BRIERS.—Genuine July weather yesterday of the laziest kind. Jolly time for pic-nics.

Times are very dull indeed, perhaps worse than might reasonably be expected.

It is said a lump of camphor heated and evaporated in a room will drive out the mosquitoes.

The Concert given by the Band of the Christian Brothers' School of Kingston, at Napanee on Monday evening, was well attended, and altogether was a gratifying success.

Conversation at the Press Reception Lunch, as reported: "Well, money makes the mare go," to which a city wit replied "In this case the Mayor makes the money go." Good boy!

We are glad to learn from the Oswego papers that there is prospect of a Cricket match there between the Kingston Club and the St. George Club, about the 25th of August.

KINGSTON LA CROSSE CLUB.—On Wednesday evening, at the regular meeting of this Club, Mr. Wm. P. Tossell, the President, tendered his resignation, in consequence of a contemplated removal to the Western States in a few days. The resignation was accepted with considerable regret, and a vote of thanks passed for his able, generous and efficient services in the past. He was also elected an honorary member of the Club, an exceptional honor, seeing that it is the first of the kind. Mr. H. Minnes, 1st Vice, was elected President, Mr. A. Horn, 2nd Vice, elected 1st Vice, and Mr. James Galloway was made the 2nd Vice-President. Mr. Alex. Falconer was chosen delegate to the National Convention. On Tuesday evening Mr. Tossell will be entertained at a complimentary dinner. The K. L. C. suffer a great loss by his departure in an energetic and efficient officer, and a popular and agreeable member.

THE NEW REGISTRY ACT.—Very little attention has as yet been paid to the requirements of the new Law, and the County Registrar is compelled to advertise its provisions. To-day is the last day on which Clergymen should make their returns of Marriages solemnized by them. See Advertisement and Statute.

MAITLAND DISTILLERY.—This establishment has ceased running for the present, and it is said to be doubtful whether operations will be resumed.

RAIN, RAIN!—The farmers are beginning to cry, 'Hold, enough.' On Wednesday night another heavy rain storm visited this section, and put the haymakers to considerable inconvenience. The hay lying on the ground has been injured by successive showers this week.

HOPE SO.—An old Californian gold-digger, in a correspondence to the Quebec Chronicle, states the soil of Canada to be prolific with gold, and suggests to the Government to give a standing reward for all discoveries of the precious metal.

HUSSARS.—About 200 men of the 13th Hussars, the bulk of the Regiment, passed down yesterday morning by steamer from Toronto, en route to England.

THE PEST.—No steps have been taken to cut down or kill the numerous fields of blooming Canadian Thistles to be found in all parts of the city. We have twice already called attention to the vacant lot on the corner of Bagot and William Streets. The manner in which the ugly giant stocks are permitted to flourish is disgraceful. Another vacant lot also requires notice, that is, one on Barrie Street, a few steps north of the junction of Bagot Street. If the machinery of the Thistle Act will not work, then let the City Council declare these lots to be nuisances, and permit the proper authorities to proceed against them. Ottawa has a similar nuisance to contend with. The remarks of the Citizen apply very closely to Kingston:—

"It is really a disgrace to see the way in which that greatest of pests, the Canadian thistle, is allowed to flourish in every vacant spot of ground in this city. Turn where you will the weed may be found growing, blossoming and ripening without an effort being made to destroy it, though a statute ordering its destruction is among the laws of the country. A few examples made of those who neglect the requirements of the law would soon awaken others to a sense and performance of their duty, and at a mere trifle of individual expense and trouble one of the gardener's worst enemies might be greatly checked in its increase. Let the authorities lose no time in looking to the matter, for in a short time the blossoms will have ripened and the seeds of another summer's nuisance will have been sown broadcast."

POLICE COURT, Thursday.—John Leadbeater was fined $2 for getting drunk, and James Avison, from Brantford, accused of the same offence, was reprimanded and ordered to leave the city, which he appeared very anxious to do. Peter Rice, with property in his possession supposed to have been stolen, was remanded for eight days. Margaret Flanigan, the young girl accused of stealing the money and other articles from Mr T. L. Coleman, of Belleville, on board the str. Helen on the 13th inst., was remanded to allow the cook of the boat to appear as a witness, until Saturday next. One of the boys charged with trespassing on Ald. Livingston's garden, was brought up, reprimanded and discharged at Mr. Livingston's request. The other boy named Frazer failed to appear, and will be arrested, if possible, and severely punished.

Scandal Corner.

ENOUGH FOR ONE DAY.

A couple of Cincinnati nymphs paid off a grudge against a recent admirer by soaking his bed with sulphuric acid.

The frontier towns of Minnesota find it difficult to retain school-ma'ams. They all become wives after a three months' residence.

An action of breach of promise has been brought by the daughter of a leading merchant of Toronto against a young barrister. Damages are laid at $10,000. It is expected that the case will be compromised.

Lord Courtney has left England, the reason assigned being that his lordship has had so many losses on the turf that he has not sufficient means to do his duty as a representative of East Devon.

A Chicago husband seeks divorce because his wife has a habit of beating him with broomsticks, cracking his head with iron bars, throwing tumblers at him, scratching him, and kicking him out of bed.

A fascinating young Englishman left Cleveland suddenly last week, while under engagement of marriage with two of the belles of that city. A woman from England has come around that way, looking for her husband.

A case of black-mailing has recently transpired at Toronto. A young man met a female on the street and accompanied her to her house on William street, where two roughs attacked him, one claiming to be the woman's husband, and exhorted his money and watch.

The Montreal Telegraph asks 'Is it True,' and adds: "It is said that a house of bad repute has been opened in one of the most fashionable terraces of the West End, and that the house was established by, and is carried on by a joint-stock company formed of mercantile men of no insignificance in the city. Surely this cannot be true."

Commodore Vanderbilt buried his wife a few months since—a noble woman who had been his companion from early manhood and to whom he was indebted for very much of his success in life. When he kept a country tavern on Staten Island she ran the house and attended to everything while he was absent on his boating expeditions. Report has it that the Commodore, who is now seventy-five years of age, is to lead to the hymenial altar in a few days a blooming maiden of seventeen summers.

THE OLD STORY.—On last Sunday evening a young girl named Mary Gallagher, whose parents are said to reside at Windsor, attempted to drown herself by jumbing into the bay from off the Queen's wharf at Toronto. Having taken the rash leap she became penitent and lustily cried for help, when a watchman appeared and fished her out. The reason of her extraordinary conduct is said to be her seduction by a private of the 13th Hussars, named Anderson.

A DREADFUL WARNING.—A case of death through use of arsenic, for cosmetic purposes, occurred in this city a short time ago, which furnishes another instance of the persistent folly of some of the fair sex in partaking of arsenic for the purpose of beautifying their complexion. A young lady residing on Bay street had been in the habit of using the acid for the purpose of improving the tint of her complexion, and of imparting a softness to the skin, as well as to obtain a brilliancy for the eye which she supposed she required to complete her personal charms. She suddenly discontinued the daily practice of imbibing the acid, and the consequences was that she died in a few days thereafter, by reason of a reaction having occurred. Young ladies should take warning by this occurrence, and desist from using dangerous cosmetics for the unavailing purpose of trying to make themselves "beautiful for ever."—Toronto Telegraph.

EUROPE.

By the Atlantic Cable.

ARRESTS IN SPAIN.

Madrid, July 28.

Many arrests continue to be made on suspicion of disloyalty.

PARDON ASKED.

At Cindad Real hundreds of people are soliciting pardon. They state that they were deceived by the Carlist leaders.

STREET FIGHT.

A sharp street fight occurred yesterday at La Mancha between Carlists and the Government forces. The Carlists were defeated and fled to the mountains.

The insurgents of that place released the prisoners confined in the jail at Almadover del Penar, near Cuerca.

Paris, July 28.

Don Carlos has ordered a cessation of the movement in his behalf. His partisans are therefore much discouraged.

NAPOLEON AND GRANT EXCHANGE COMPLIMENTS.

Duxbury, Mass., July 28.

The French cable is now in good working order, and the following despatches have passed over the wires to-day:—

Paris, July 28.—The Emperor of the French to the President of the United States at Washington:—I am highly gratified to inaugurate the new line of telegraph which unites France with the United States by sending to you the expression of my good wishes for you and for the prosperity of the United States.

(Signed,) NAPOLEON.

The President of the United States to the Emperor of the French:—I cordially reciprocate your good wishes and trust that the liberal policy of the United States pursuant to which this cable has been landed, may result in many such means of communication, especially between this country and its earliest ally and friend.

(Signed,) U. S. GRANT.

MR. GLADSTONE.

London, July 28.

Mr. Gladstone is reported to be better to-day.

Berlin, July 28.

Yesterday a grand fete took place in honor of the memory of Alexander Von Humbolt, and the day was observed as a holiday. In the evening a public banquet was given, and an immense torch-light procession passed through the streets.

AUSTRIA VS. PRUSSIA.

The Provincial Correspondence newspaper expresses astonishment at Baron Von Buest's assertions about Prussia in his speech to the Hungarian committee. It denies that any advances have been made by Austria, and says if she requires to establish a true and solid friendship Prussia is quite ready to meet her.

AUSTRIA.

Hungarian Delegation.

Vienna, July 27.

Baron Von Beust, to-day, received the budget committee of the Hungarian delegation, and made an important address to them. He said the relations between Austria and France had been on the best possible footing ever since Austria relinquished her Italian territories, and the interests and intentions of the two countries were identical. Alluding to his eastern policy he said he would not insist on the programme of 1867, but would leave it to the opinion of Turkey to follow his counsel regarding concessions to Christians. On this point he would bring no pressure to bear. He declared that he had honestly striven to establish more cordial relations with Prussia, but his efforts not having been met in a similar spirit he had not been successful. He closed with a strong defence of the general policy of the Imperial government. The Prime Minister's speech was received with great satisfaction.

Remarkable Masonic Incident.

The first Masonic funeral that ever occurred in California took place in the year of 1846, and was performed over the body of a brother found drowned in the bay of San Francisco. An account of the ceremony states that on the body of the deceased was found a silver mark of a Mason, upon which were engraved the initials of his name. A little further investigation revealed to the beholder the most singular exhibition of Masonic emblems that was ever drawn by the ingenuity of man upon the human skin. There is nothing in the history or traditions equal to it. Beautifully dotted on his left arm, in red and blue ink, which time could not efface, appeared all the emblems of the entire apprenticeship. There were the Holy Bible, the square and the compass, the twenty four inch guage and common gravel. There were also the Mosaic pavement, representing the ground floor of King Solomon's Temple, the indented tessel which which surrounds it, and the blazing star in the centre. On his right arm, and artistically executed in the same indelible liquid, were the emblems pertaining to the Fellow craft degree, viz.: the square, the levels and the plumb. There were also the five columns, representing the five orders of architecture—the Tuscan, Doric, Ionic, Corinthian, Composite.

On removing the garments from his body the trowel presented itself, with all the other tools of operative Masonry. Over his heart was a pot of incense. On the other parts of his body was the bee hive, the book of constitutions, guided by the Tyler's sword, the sword pointing to a naked heart; the All-seeing eye; the anchor and ark; the hour glass, the scythe, the forty-seventh problem of Euclid; the sun, moon, star and comets; the three steps emblematical of youth, manhood and age. Admirably executed was the weeping virgin, reclining on a broken column, upon which lay the book of constitutions. In her left hand she held the pot of incense, the Masonic emblem of a pure heart, and in her uplifted hand a sprig of Acacia, the emblem of the immortality of the soul.

Immediately beneath her stood winged Time, with his scythe by his side, which cuts the brittle thread of life; and the hour-glass at his feet, which is ever reminding us that our lives are withering away. The withered and attenuated finger of the destroyer were placed amid the long and gracefully flowing ringlets of the disconsolate mourner. Thus were the striking emblems of mortality and immortality beautifully blended in one pictorial representation. It was a spectacle such as Masons never saw before, and, in all probability, such as the fraternity will never witness again. The brother's name was never known.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

DR. WISTAR'S BALSAM OF WILD CHERRY,

whose value in curing Coughs, Colds, Bronchitis, Whooping Cough, Asthma, Pulmonary Affection, and Incipient Consumption is interminable.

Strong Testimony.

From BENJAMIN WHEELER, Esq., Depot Master of South Royalston, Mass.

"In the spring of 1858 I was most severely afflicted with a hard dry cough, with its usual accompaniment of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters I was prevailed upon through the influence of a neighbor to try Wistar's Balsam of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more elated my depressed spirits, and soon I had obtained my wonted strength and vigor. This is the Balsam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning grave. You are at liberty to use this for the benefit of the afflicted."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

Arnot's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE, I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."

THE AGE OF RAILROADS AND THE TELEGRAPH.

Gives rise to fast living, and increases the desire for making rapid fortunes—some wishing to outstrip, and other to be at least equal to to their neighbors. In order to keep up with this eager and unequal contest, the brain is taxed to its utmost power, while humanity is rendered an easy prey to disease. The heart, Liver, Stomach, Lungs, or Nervous System becomes afflicted, and sickness in the form of Heart disease, Jaundice, Dyspepsia, Bronchitis, Consumption, Paralysis, or Mania, is the result. The use of FELLOWS' COMPOUND SYRUP will enable the mind to sustain a greater strain unfettered by conflicting thoughts and unwearied by continued study. It imparts power of concentration. What before seemed difficult of solution becomes comparatively easy, and the body is physically stronger under its use.

Sold by Apothecaries—price $1.50 per bottle or 6 for $7.50.

AND SEA BATHING!

At Murray Bay, Cacouna, and Tadousac.

THE SPLENDID STEAMERS

UNION, - - - Capt. Fairgrieve,

AND

MAGNET, - - - Capt. Simpson,

WILL leave Napoleon Wharf, QUEBEC, during the season, at SEVEN o'clock A.M. for

RIVER SAGUENAY

TO HA! HA! BAY,

Calling at MURRAY BAY, RIVER DU LOUP and TADOUSAC as under.

UNION on Tuesdays & Fridays.
MAGNET on Wednesdays and Saturdays.

By taking these Steamers at Quebec, the Tourist and Invalid will enjoy the refreshing and invigorating breeze and picturesque scenery of the Lower St. Lawrence, and avoid the annoyance of transhipment, as the steamers run direct to Murray Bay, River du Loup, Tadousac and Ha! Ha! Bay.

Passengers leaving Montreal by the steamers of the Richelieu Company on the evening of Monday, Tuesday, Thursday and Friday, connect with the "UNION" and "MAGNET" at Quebec.

No expense or inconvenience in exchanging Boats at Quebec, as in every instance the Steamers are brought alongside of each other.

These fine steamers are of great strength, and equipped with every appliance for safety; they are most comfortably furnished, and in every respect unsurpassed.

Tickets, with any information, may be obtained at the Company's Office, St. Lawrence Wharf.
