VOL. VIII.

WEDNESDAY MORNING, AUG. 4, 1869.

A GLORIOUS HARVEST IN VIEW.—There is every prospect of reaping a glorious harvest. The abundance of all descriptions of vegetables and fruits already glut the market, and large quantities had to be taken home yesterday by the farmers. Beef, mutton, lamb and veal, all excellent in quality, as well as potatoes and other vegetables and fruits are declining in price every day. Flour and grain must soon follow. Let rich and poor thank God.

COAL VS. WOOD.—Those who have adopted coal stoves and discarded wood are likely to be left in the lurch next winter, as according to present appearances coal will be at least $9 per ton, and perhaps $12, if some arrangement is not come to immediately with miners who have struck work. To be sure they will have the Pictou coal a little cheaper to fall back upon, but it will be a poor substitute for Anthracite in the improved coal stoves, and from the quantity consumed by the powerful draught, will be little cheaper than the highest price Anthracite may be in the end.

LA CROSSE.—The Cornwall Club and St. Regis Indians played on Saturday. Cornwall lost the first game in 95 minutes, and won the second in 72 minutes. Then a "draw" was agreed to.

GRAMMAR SCHOOL SCHOLARSHIPS TO THE COMMON SCHOOLS.—At the close of the High School Examination on Friday evening, Mr. Ford, the Chairman of the Board, announced that a lady and gentleman had intimated to him their intention each to place a Scholarship at the Grammar School at the disposition of the Board, so pleased were they with the examination, and we have since heard it reported that a gentleman has intimated his intention of giving two more. This is very encouraging, and will no doubt give an additional impulse to the competition amongst the pupils of the Common Schools, so essential to their efficiency, especially to the progress and success of the High School.

☞ The excursion of the Brock Street Presbyterian Church took place yesterday. The str. Bay of Quinte left Carruthers' wharf at 9 a.m. for the Thousand Islands, having on board a large crowd of excursionists, accompanied by the Garden Island Brass Band.

THE FLANIGAN CASE.—The steamer St. Helen arrived on Monday night, and the Police Magistrate examined the cook and others belonging to the boat respecting the girl Flanigan, charged with larceny. The examination lasted some time, and resulted in the prisoner being committed for trial at the first Court of competent jurisdiction. She admits giving the articles to the cook, but denies stealing them, saying they were given to her by Mr. Coleman. She was undefended.

From Quebec.

Quebec, August 2.

Eudore Cauchon, son of the President of the Senate, died on board the steamship "Austrian," when within three days sail of Quebec. Mr. Cauchon left here about a year ago for Europe for the benefit of his health. He was a young man of some promise, and displayed good ability.

A young man named Boisson had both legs cut off on the Grand Trunk Railway at Stanfield while running from one car to another. He died almost immediately after the accident.

The local Ministry meet to-day to consider the appointment of District Stipendiary Magistrates provided for by the Act of Parliament last session. There are over 200 applicants. It is probable that but two are to be named for the present.

The sailor stabbed a few days ago on board a ship lying of Rimouski is recovering. The guilty man is still in jail.

The St. Lawrence Tow-boat Co.'s steamers now carrying passengers to the watering places are doing a good business.

STEAMER COINCIDENCE.—A singular coincidence has happened in the family of a respectable citizen of this city. The birth of a little child occurred some nine months since. Its mother was ill at the time of consumption. Since the child came into the world it has followed the physical condition of its mother with marvellous precision. Would she be taken with vomiting the child would be afflicted in the same manner; when her health declined, the child's would also begin to decline at nearly the same time. A short time since, the mother was taken much worse; the symptoms of the child were of a similar character. Finally the mother died and only a few seconds after breathing her last the child followed into eternity. The case is a strange one, showing how great influence unconscious sympathy may exert over physical conditions. Syracuse Courier.

The Quebec session will probably commence about the 1st November, so as to get through by Christmas.

The King of Prussia has issued an order forbidding the continuance of the celebration of the Sadowa anniversary, because jubilations over the defeat of the Austrians wounds the feelings of Germans who fought on that side. This is by far the most sensible thing we ever heard of King William.

The Newcastle Journal states that a young woman has died in that town from a disease communicated by the chignon she wore, which is supposed to have contained some of the hair known to be supplied to chignon makers from the cemeteries and hospitals of the East.

From the Mining Regions.

A correspondent of the Ottawa Times, writing from Fort William, gives the following facts:—

There are a number of parties exploring for silver mines, and, I believe, several new sections are being taken up.

The old Montreal Mining Co. are again in the field, and not only surveying the outline of their locations, but actually subdividing them into sections of one mile square. They are also developing several mines, some two or three of which are turning out exceedingly rich in silver.

The Ontario Government not to be outdone by the Montreal Mining Company, have two extensive surveys in operation in this region. This looks as if they meant business, and were bound to clear the way for private enterprise.

Prof. Bell, of the Geological Survey of Canada, is also in this locality, and is to make a geological survey of Lake Neepigon (of which nothing officially is known), and of the Dog Lake region.

The Dominion Government have S. J. Dawson, Esq., with from two or three hundred men, building the Red River Road, which he expects to complete next season. This looks like opening up the North-west in earnest.

Dissatisfaction exists in Madrid at the leniency of the French Government towards Carlists on the frontier. The press comments severely on it.

There is some talk of introducing a bill at the next session of Congress to extend the income tax, and collect it on government bonds held in Europe.

The Vienna Presse, an official organ, says that Baron Von Beust intends to publish the despatches with Prussia, to justify the late assertion made to the delegates.

Don Carlos has returned to France, and General Prim is about to leave Madrid for Vichey on a trip for his health. This speaks badly for the Carlist movement.

The Carlists, in La Mancha, have become disorganised, and have disappeared. One party is hemmed in by the troops, with no chance of escape. Those under Lavarlos are in the mountains near Toledo, with the troops in close pursuit. The fate of the prisoners taken at Pampeluna is not yet decided. The volunteers are everywhere offering their assistance to the Government.

The City Budget.

COMMITTEE ROOM, CITY HALL,
Kingston, Aug. 2nd, 1869.

The Committee on Finance and Accounts beg to congratulate the Council, that notwithstanding the large deductions made from the amount of Assessable Property in this City, in consequence of the late amendments to the Assessment Act, they are able to present the Budget for the same rate as last year, viz., one and three-eights cents in the dollar, as will be seen from the following abstract statement:—Amount to be raised by taxation, $54,749 49, the gross assessment for the year being $4,327,490, which at one and three-eights of a cent in the dollar would realize $59,502 00, from which must be deducted the following, viz.:—

Separate Schools say		$1700	
Remissions by Court of Revision		1500	
Taxes for 1869 uncollectable, say		600	$3,800 00
Showing a surplus of			953 00

They therefore recommend that a By-Law be introduced to impose said rate of one and three-eights of a cent in the dollar for the present year.

All which is respectfully submitted.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

DR. WISTAR'S BALSAM OF WILD CHERRY,

whose value in curing Coughs, Colds, Bronchitis, Whooping Cough, Asthma, Pulmonary Affection, and Incipient Consumption is inestimable.

Strong Testimony.

From BENJAMIN WHEELER, Esq., Depot Master of South Royalston, Mass.

"In the spring of 1868 I was most severely afflicted with a hard dry cough, with its usual accompaniment of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters I was prevailed upon through the influence of a neighbor to try Wistar's Balsam, of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more elated my depressed spirits, and soon I had attained my wonted strength and vigor. Thus has the Balsam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning grave. You are at liberty to use this for the benefit of the afflicted."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

Arnet's Arnica Anodyne.

A correspondent of the Brampton Times thus writes to that journal: "Some time ago I was attacked with Inflammatory Rheumatism in both limbs and feet, and confined to the house for several weeks. Hearing of ARNOT'S ARNICA ANODYNE, I got a bottle, and after using it a few times obtained the greatest relief. It took all the soreness out of my feet, and I am now able to walk nearly as well as ever. I will always recommend it as the best thing I ever used for that disease."

R. MANZIES.

A. A. A. is fast becoming a household remedy throughout Canada, and superseding the other so-called Ready Reliefs and Pain Killers to which sufferers have long resorted. See advertisement. 84

THE AGE OF RAILROADS AND THE TELEGRAPH,

Gives rise to fast living, and increases the desire for making rapid fortunes—some wishing to outstrip, and other to be at least equal to their neighbors. In order to keep up with this eager and unequal contest, the brain is taxed to its utmost power, while humanity is rendered an easy prey to disease. The heart, Liver, Stomach, Lungs, or Nervous System becomes affected, and sickness in the form of Heart disease, Jaundice, Dyspepsia, Bronchitis, Consumption, Paralysis, or Mania, is the result. The use of PARSONS' CONCENTRATED SYRUP will enable the mind to sustain a greater strain unfettered by conflicting thoughts and unwearied by continued study: it imparts power of concentration. What before seemed difficult of solution becomes comparatively easy, and the body is physically stronger under its use.

MADAME MONSUER,
SEEING MEDIUM,
Astrologist and Phrenologist,

HAS arrived in town, and will remain a short time only at Mr. Gardiner's Stone Cottage, Princess Street, the 5th door above Mr. White's, the Dyer.

Please walk to the Reception Room, Parlor, where she can be consulted in regard to future events, relative to sickness, health, distant friends, place of residence of persons in future, and even the complexion and condition in life of the future husband and wife, and she will answer any question given her on any one subject whatever, agreeable to the person propounding the same. By what means she can do this last is not known to herself, but she barely knows as others know—she can do it.

She is descended from a long line of French Astrologists, and can also tell the future by the hand and cards.

Those who wish for consultation will please call on Madame Monsuer at her residence, from 9 a.m. to 9 p.m. Consultation fee, ladies and gentlemen, 50 cents each.

N.B.—Remember to come soon, as her time is limited in Kingston, owing to arrangements in other places.
