NEWS OF THE DAY.

FRIDAY MORNING, AUG. 27, 1869.

EXCURSION FROM CLAYTON.—The str. Watertown went down to Clayton (French Creek) to bring up a large party of ladies, gentlemen, and children, some 300 in number, on an Excursion to Kingston and Cape Vincent. The Band of the 14th Volunteers was on board. The Watertown arrived at three o'clock, p.m., and after staying a couple of hours, went round to Cape Vincent, taking with her the whole party of Excursionists, and a very jolly party they all seemed to be. It is said that the gentlemen on board were mostly Masons, but if so, they shewed no sign.

WOLFE ISLAND CANAL.—A new danger threatens the navigation of this great work. On Tuesday morning the steamer Watertown was behind her time considerably in her arrival from Cape Vincent. The delay was occasioned by the passage of the Wolfe Island Canal having become obstructed by a dense drift of floating vegetable matter known as "floating bog," large quantities of which has to be removed to open up a passage for the vessel.

AT IT AGAIN.—About three months ago a nymph du pave, Maggie Dougherty, preferred a charge of larceny (stealing a purse) against the keeper of a bagnio in this city with whom she lodged. The charge was disproven, and it is believed was trumped up with a malicious motive, as Maggie is known to have made an equally false charge at Ottawa. Last week we hear of her again at Napanee under very similar circumstances. She charged the proprietors of the Cataraqui House with stealing her purse and $5 enclosed, when in fact it was proven that she had no money but after paying her board, and tried to borrow some. Of course the case was dismissed. But should not Maggie have been punished?

POLICE COURT, Thursday.—There were no prisoners before the court this morning and but one summons case, which was settled out of Court.

It appears that the Dominion Arbitrators are at length to have a meeting to settle the question of the public debt. The 31st inst. is the day named. The Hon. D. L. Macpherson representing Ontario, Judge Day for Quebec, and Col. Gray for the Dominion, will then assemble.

David Stirton, M. P., arrived to-day.

Production of Petroleum.

The production of petroleum goes on with unremitting energy and success in the States, the yield in Pennsylvania touching 12,000 bbls. per day, and in Virginia and Ohio 2,500. In Canada, too, the production is large, and needs but the stimulus of the exporting trade to become very much greater. At the same time Shale oil is being made in large quantities in England, and we hear of 50,000 barrels having been placed on the Baltic market. This has been possibly owing to the improvements that have recently taken place in the manufacture of it, though it still sells several cents per gallon less than the American or Canadian burning oils. One thing is certain, which is, that the material from which it is produced is cheap enough, and if the product could be raised a little in quality it would compete injuriously with petroleum oils. The reason why it finds its market in the Baltic is owing to the fact that north there are less fastidious than at some other points, while the cheapness of shale oil makes its use a desideratum with the population of that part of Europe.

The Provincial Exhibition.

A GOOD SHOW.

The London Advertiser says it is gratifying to know that the entries in horses, cattle, sheep, swine and poultry, for the coming Exhibition at London are considerably in excess of last year's. Entries of grain, field roots and other farm products, machinery, and manufactures generally, must be made on or before Saturday, 28th inst. Entries of horticultural products, ladies' work, the fine arts, &c., must be made on or before Saturday, September 11th. Prize lists and blank forms for entries may be obtained of the secretaries of all Agricultural Societies. Every indication favors the belief that the London Exhibition will be the best ever held in Canada.

A Canadian Atlantic Cable.

[From the Montreal News.]

Although we are not at all inclined to agree with all the political views of the Hon. John Young, we must give him credit for a large amount of enterprise and energy. We are exceedingly glad to hear of the progress which has thus far been made with the new Atlantic Cable which Mr. Young proposes to run from Canada to England via Denmark and the Faroe islands, and we hope that this line of communication with the old country may speedily be established. The only cause for regret is that a Canadian line direct to England was not established years ago. No one has more reason to wish for the construction of such a line than the public journalists of this country. Every word of cable news which we now obtain comes by way of New York, and is furnished exclusively to suit the American public. Consequently, three fourths of the news we receive by cable is not of the slightest interest to Canadians, while the political intelligence is, as a general thing, so wofully distorted as to be absolutely worthless. Nor is this the only evil. It is a well ascertained fact that every despatch passes between Downing Street and Ottawa, unless it comes in cypher, is at once transmitted to Washington for the information of the United States authorities. When Mr. Young's line is constructed, there may possibly be some chance of a short daily telegram for the use of the Canadian press, containing nothing but matters of interest to the Canadian public, while at the same time official telegrams will pass between London and Ottawa, without being subject to the censorship of Washington employes. We do not know all the circumstances connected with this enterprise, nor are we aware what are the difficulties which stand in its way. We can only say that we hope that they will be speedily overcome.

An Irish Jury at an Inquest.

We take the following from an Irish paper at hand this week. It is entitled:

A SCREAMING FARCE.

The first stage of the coroner's inquiry at Tralee into the circumstances of the death of John Alman, who, in the words of a local reporter, "was struck on the head with a stick at Ardfert fair," closed with a screaming farce. After certain evidence had been given, the Coroner, Mr. R. C. Harnett, of Listowel, announced the inquest adjourned to Thursday, and directed the jury not to separate until re-bound to appear again. A Juror—I'll stay no longer. (Laughter.) Mr. McCarty—We have something else to do. (Hear, hear.) Coroner—Timothy Griffin, do you acknowledge yourself bound to our sovereign lady the Queen in the sum of £10 to appear here on next Thursday? Griffin—I am bound to a farmer, Sir, in service. (Laughter.) Coroner (excited)—Do you hear, Sir? Griffin—I do, Sir. McCarthy—Yerra, I won't come here any more. (Laughter.) The Coroner—Do you acknowledge yourself bound? McCarthy—I do if you order up a gallon of whisky. (Loud laughter and confusion.) Coroner—These things I am not accustomed to, Mr. McCarthy. Do you acknowledge yourself bound, Sir? McCarthy—Very well, fine me if I do not be here. Coroner—You are on your oath, Mr. McCarthy, and I would expect something better from a person of your appearance upon your oath. (A laugh.) Mr. McCarthy—Yes. Coroner (very excited)—Do you acknowledge yourself, Sir? McCarthy—I don't say. The Coroner—Do you acknowledge yourself, Sir? McCarthy—I do, Sir. (Laughter.) Coroner—John Mounsell, do you acknowledge yourself? Mounsell—You know well I do. (Laughter.) The Coroner—Bartholomew McGillicuddy, do you acknowledge yourself? McGillicuddy—Begor, I don't know will the Coroner be here. (Laughter.) The Coroner (out of temper)—Come, Sir, answer. Do you acknowledge yourself bound? McGillicuddy—Well, if I am bound, I will. (Laughter.) Coroner—'Tis a shame for you! Pat Brosnan. Pat Brosnan (awaking out of his sleep)—Here Sir. (Loud laughter.) The Coroner (very angry)—Turn here, Sir. Upon my word I'll put you into the hands of the police if you don't answer. Pat Brosnan—I hear you, Sir; I will, Sir. (Great laughter. The Coroner—Do you acknowledge yourself bound in the sum of £10? Pat Brosnan—I do. A juror—Will the Queen pay us for coming here again? (Laughter.) Another Juror—Her Majesty will. The Coroner—You are all to be here at eleven o'clock. A Juror—Take care, don't forget sending to the Queen for our pay. (Laughter and confusion, amid which the jury dispersed.)

Defalcations in the Whitby Post Office.

THE POSTMASTER DISMISSED.

An investigation in progress for some time past has led to the discovery of serious defalcations in the Whitby Post Office, and the result has been the dismissal of the Postmaster, Mr. Francis Keeler, on Saturday last. Mr. Dewe, Post Office Inspector for this division, visited Whitby on the day named, and then installed Mr. Patterson, of his staff, into temporary charge of the office while the books and accounts were being examined. It appears that suspicion of the irregularities in the management of the office was first engendered by the fact that the Postmaster was in arrear to the extent of something like $1,000. Several visits were made to prompt him in his efforts to pay up, and of the total sum about $442 was returned to the department. Meanwhile serious charges were made against his management of the office by outside parties, and an investigation showed him guilty of serious irregularities. The research of the officials into the office affairs discovered that he resorted to a mode of "kiting" to keep himself afloat worthy of more pretentious financiers. He had issued fictitious money orders for the purpose of obtaining funds to pay his indebtedness to the department, and when these came to be settled, issued others to meet the amounts. How often this habit was kept up or indulged in is not known; but that it was successful in concealing the actual state of affairs from the department is quite evident. It is also stated that he removed the stamps from drop letters, and afterwards marked them "paid." This would not have realized him a great deal; but in conjunction with the other peculations, served to add to the total amount. It is suspected that he had also made out erroneous returns to the department of the amount due on receipts, and also on newspapers. It appears to be easy to falsify the latter returns as no check exists whereby to regulate them. What further action the department intends taking is not known.—Globe.

BOILS.

Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its Life Element, IRON.

THE PERUVIAN SYRUP,

(a protected solution of the Protoxide of Iron) will do this effectually, and give strength, vigor and new life to the whole system.

Extract of a Letter from Rev. Richard S. Eden, of Bolton, Mass.

"For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence; finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut, and the prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character."

Arnot's Arnica Anodyne!

THE NEW PAIN RELIEVER,

IS THE MOST RELIABLE REMEDY for all Pain, of whatever kind, whether internal or external. It is a certain cure for

NEURALGIA, TOOTHACHE, RHEUMATIC AFFECTIONS, INFLAMMATORY SORE THROAT, DIARRHŒA, COLIC, DYSENTERY, CRAMPS, COLDS, DYSPEPSIA, FLATULENCE,

And all Complaints of the Stomach and Bowels.

It is not a weak or unmed Medicine, rashly or carelessly intruded on the public attention, but has been used by thousands in this immediate vicinity, as well as elsewhere through Canada, and in every case, as far as known, with the best results. Dr. ARNOT, the eminent Physician whose name it bears, was well known as one of the most distinguished Medical Practitioners in the Empire, and this remedy has been announced by all who have experienced its wonderful curative powers as well worthy of its author's reputation.

No one need endure a sufferer from pain when by the timely and proper use of A. A. A. the suffering is sure to be alleviated immediately, and entirely banished after a few applications. Its taste and odour are both agreeable, so that when taken it gives no offence to the most delicate palate, and when inhaled through the nostrils it refreshes and stimulates the olfactory nerves more than the best Eau de Cologne.

If you suffer from NEURALGIA, use A. A. A.
If you are a martyr to TOOTHACHE, use A. A. A.
If you are afflicted with RHEUMATISM, use A. A. A.
If you are attacked by DIPTHERIA, use A. A. A.
If you have been BURNT, or SCALDED, or STUNG, or FROST BITTEN, or BRUISED, use A. A. A.
If you have CHILBLAINS on your feet or hands, use A. A. A.
If you are troubled with DIARRHŒA, or COLIC, or CRAMPS IN THE STOMACH, use A. A. A.
If you suffer from any painful affection in any part of the body, internal or external, use ARNOT'S ARNICA ANODYNE, and you will not be disappointed.
