CITY OF KINGSTON

THURSDAY MORNING, SEPT. 2, 1869.

A BALM FOR EVERY WOUND.—Green's Celebrated Salve is now so generally used for the cure of flesh wounds, cuts, burns, ulcers, felons, sprains, and all diseases of the skin, that praise of it seems to be needless. Those who have tried it once always keep a box on hand, and nothing will induce them to be without a supply.

SPORT.—The Montreal Gazette publishes the full programme of the sailing races of the Kingston Regatta, with a full announcement of officers, &c., and informs us that they are postponed until the 13th. The Committee had better correct a misapprehension.

A most exciting match took place at Cornwall on Saturday between the twelve best men that St. Regis can produce and the first twelve of the Cornwall Club. The first game was taken by St. Regis in ten minutes, the second by Cornwall in two minutes, and the third by St. Regis in 17 minutes. The fourth and the last game was won by Cornwall, after a desperate struggle, in 58 minutes.

PIC-NIC.—The St. Patrick's Society announce their grand Olympic Tournament and Pic-Nic to-day at the Crystal Palace, and promise numerous amusements. The principal features will be the match between the Shamrock and Harmony La Crosse Clubs which will be hard fought and decisive contests. Several games are announced, for which liberal prizes are offered, including a foot ball match in which the nearly of Connaught and Munster will be displayed. The music of the Band of the R.A. Rifles will enliven the sports. The pick-nicers may look for a gay time.

4TH P. W. O. RIFLES.—The Battalion is to parade this evening when the prizes will be presented to the successful competitors in the late rifle match. The Band will play during the evening, and the shed is to be opened to the public.

A STRIKE.—News comes from the Quinte Gold Region with evident reliability and confidence, that an extremely rich strike was made on Monday at the mine of the Gilen Mining Company, Marmora, at the depth of sixteen feet.

DISTINGUISHED TOURISTS.—Prince Arthur will arrive at Quebec on the 20th September. He is not expected to stop, however, but will probably at once proceed to the West. The Governor General will be in Ottawa on the 10th.

MEDICAL.—At a meeting of the medical men of this city and vicinity, which took place on Tuesday evening, for the purpose of appointing delegates to the Canadian Medical Association, which holds its Convention in Toronto on the 6th inst., the following gentlemen were elected, viz.: Drs. H. Yates, Lavell, Spooner, and A. S. Oliver.

THE TROOPS.—It is rumored, apparently on good authority, that the intended removal of troops from Canada this autumn has been postponed.

COUNTY SHOW.—The County of Prince Edward Agricultural Show will be held in Picton on Tuesday and Wednesday, 12th and 13th October next. The introduction of the two days' Exhibition might be followed up with advantage in this County by a similar movement in connection with our County Show.

INSOLVENCY.—We regret to hear that owing to the late smash up of Isaac Briggs of Gananoque, five other respectable houses of the village have been obliged to succumb to their financial difficulties and make assignments under the Insolvent Act, of their estates and effects.

THE LATE FATHER O'CONNOR.—The remains of this lamented clergyman were removed yesterday evening in solemn procession and with imposing ceremony, from the Hotel Dieu to St. Mary's Cathedral. His Lordship the Bishop of Kingston, with the clergy of the city, and a large number from other parts of the diocese, took part in the procession. This morning at nine o'clock the solemn requiem mass and interment will take place in the Cathedral.

POLICE COURT, Wednesday.—Thos. Scott got drunk and now pays the penalty, $2, and retires a poorer and a sadder man. George Harry Cortland, a carpenter by trade, stood charged with larceny, on the complaint of Messrs. Thomas Slater and John Austin. The prisoner lately came from Montreal, and has been loafing about the city. On Tuesday a coat was stolen from the premises of Mr. Alderman McMillan, on Ontario street, and a description resembling the prisoner's being given as that of a person who had been seen walking away with the coat, Sergt. Nugent went in pursuit of him, and arrested prisoner with the coat on his back under his own. He had also a valise in his hand, and was evidently about to set off on tramp out of the city. The coat was identified, and soon also the valise found an owner in a gentleman who had missed one from the steamer Bay of Quinte, about this time on its return from the excursion to the Thousand Isles. The prisoner was locked up, and on being brought before Mr. Creighton this morning pleaded guilty, and at his own request was tried summarily, and sentenced to two months imprisonment in gaol.

Items of News.

There is an established price current in Paris of the charges for getting up ladies in different styles of beauty. For twenty francs one can be made beautiful, not forever, but for six weeks.

A man who was fined in Philadelphia "would rather go to prison than bifurcate the mulct" according to an ingenious and learned inventor of slang in that city.

Investigation into the cause of a late fire in London proves conclusively that it was occasioned by the rays of the sun setting fire to a swallow's nest under the eaves.

Baron Beust, the ambitious Saxon-Austrian statesman lays himself open to perpetual criticism from the Prussian and Russian press by his irrepressible mania for speech making.

A horrible disclosure has come to light in London. A woman has confessed to having given birth to a child, and then superstitiously buried it. The father of the child was the mother's uncle.

Mr. Pendleton, the Democratic candidate for Governor of Ohio, is prevented going into a personal canvass, in consequence of the dislocation of his ankle by being thrown from a buggy. He is working up the election, however, in other ways.

Chicago is unfortunately the Local reporters paradise. The catalogue for one week in that city was five suicides one infanticide, six murders, a wife cut to pieces, three children run over, four on divorces, and a score of deaths by lightning, drowning and sunstroke.

Objection to color still prevails in New York. A coloured lad, formerly employed in the office of the Tribune, having taken up a position as reporter on the staff of another journal, attended a meeting of Engineers on Wednesday night, and was expelled because not white. It seems to be hard for colored men to get along in the States. The son of Frederick Douglass was prevented working as a compositor in the Government printing office, and now a coloured reporter is not allowed to report a public meeting.

The doctors at Cincinnati have been inspecting the soda-water of that city, and in one hundred different specimens have found fourteen contaminated by the presence of copper from the fountains, and in ten they found lead also. In a few boiled the soda water and a green scum rose to the surface, which on upon evaporation proved to be metallic.

Bishops of the Established Church of England are, during the next two years, to be allowed to retain up to £5,000 year, or one-third of their present revenues.

At Sarah Iss, Sweden, when a sewer was dug recently, the skull of a horse was found eleven feet under ground which is estimated to have been there about three hundred years.

Prendergast, a well known bettor, died a week ago in Pittsburgh. He was but twenty-two years of age. He has raced all over the country, but was a native of Canada.

A tub race took place in Berlin, Conn., last week, in the Mattabassett river in the presence of several hundred people. A woman gave the signal to start, and in the contest that followed nine tubs capsized and nine men got a fresh water bath.

On Saturday week last Mr. Wickstead, Accountant in the P.O. Department, Ottawa, while walking on the Railway Wharf at Point du Chene, slipped and fell breaking one of his arms. He proceeded to Shediac and had the broken limb set, and took passage in the steamer Napoleon the Third for Quebec. Mr. W. was accompanied by his wife.

Ex-Secretary Seward was entertained at a public banquet by the municipal authorities of Victoria, Vancouver's Island, on the 26th inst., while on his return from Alaska.

The codfish is not so fond to the North Atlantic coast, but is found also in the Pacific, and an important codfishery business has lately sprung up in San Francisco. That city sends out a fleet of twenty vessels, ranging from fifty to five hundred tons each, and more vessels of the same class have been ordered from New England.

Another death through the mistake of a druggist's clerk, has occurred in Boston. The death of a Mr. Norton a few days ago, it appears, was caused by a dose of laudanum sold to him for tincture of rhubarb.

A young fellow of pious externals has been committing some very immoral acts in Brantford. Some of the papers try to defend him.

During one week in July this year 20,801 letters were received at the Toronto Post office against 20,028 the same week in 1868. The number of registered letters were 2,216. Number of Newspapers to subscribers, paying commutation rates, received for delivery in the week, were 3,251. Number of transient papers, 9,535.

From all quarters comes the story of the inoperative state of the Registration Act.

A Minnesota railroad conductor lately stopped the train to hunt prairie chickens, and caused his passengers to miss all their connections.

It is said that the reason why Nilsson, Titiens and other noted singers refuse all offers to come to this country is because they have a dread of sea sickness, which they think, will ruin their voices.

A letter from Moldavia gives an account of cruel persecutions which have been revived against the Jews of that province. Whole families have been despoiled and driven from their homes.

There is a lady in Boston who has a constitutional peculiarity by which she winks her left eye, and which is beyond her control. The consequence is that every gentleman she meets gets a wink.

A western paper announces the birth of her thirty-first child to a lady of the place where it is published. The eldest of the family, if living, would now be only 30 years of age. There were three pairs of twins in the lot.

BOILS.

Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its Life Element, Iron.

THE PERUVIAN SYRUP,

in presenting solution of the Protoxide of Iron, will do this effectually, and give strength, vigor and new life to the whole system.

Extract of a Letter from Rev. Richard S. Edes, of Bolton, Mass.

"For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence; finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut, and the prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character."

A 32 page Pamphlet sent free. The genuine has "PERUVIAN SYRUP" blown in the glass.

GREAT GOLDEN MENAGERIE.
HENRY BARNUM, MANAGER

The Largest Exhibition in the known World.

This gigantic Establishment contains the most varied, comprehensive and interesting collection of rare and wonderful animals ever seen in a travelling Menagerie on either hemisphere. It has been the leading Show of America for nearly half a century, and for nearly twenty years, the only exhibition on this continent of zoological character unaccompanied by objectional circus performances. It is exclusively a

Congress of Animated Nature!

Composed of a vast array of the most beautiful animals ever seen in a Menagerie. Words are inadequate to do justice to this greatest of all American institutions for propagating and encouraging that

GREAT STUDY OF NATURAL HISTORY!

Which should and justly is commended by the press, pulpit and every class of learned men of modern times. Being organized and perfected on a scale of immensity hitherto unknown in any country. It necessarily contains living specimens of

LIVING LION LOOSE in the STREET UNCHAINED.

And subject to no restraint whatever, except the ever watchful eye of of his keeper, mounted on the very summit of

The Great Golden Car of Egypt.

That magnificent mass of golden splendor, modeled after ancient Egyptian designs, and constructed on a scale of magnificence absolutely unequalled in the world, except by

The Colossal Golden Chariot,

Which for gorgeous grandeur and magnificence is utterly unparalleled in any country on the face of the globe, and it may be as well here to state the correctness of which is beyond dispute, that

The Vans, Dens & Cages

Belonging to the Great Golden Menagerie are constructed and ornamented with a style and finish entirely new and original with the great Menagerie Company, and undeniably surpassing in point of dazzling brilliancy and artistic execution anything the world ever dreamed of. On the sides and ends of the carriages containing the animals and paraphanalia are panels elected from designs by that world-renowned Parisian Artist, Gustav Dore, and are faithful copies of his incomparable

ILLUSTRATION OF THE HOLY BIBLE!

This exhibition being purely zoological, can and does have every department conducted on a strictly moral principle, and is unquestionably the grandest exhibition of any age or country.

THE CELEBRATED

Pantescopic Spectacles

ARE constructed in accordance with the philosophy of Nature, in the form of a CONCAVE-CONVEX LENTICULAR. They are admirably adapted to the Organs of Sight, and afford the best artificial help to the human vision ever invented. A peculiar and important feature in these Spectacles is witnessed when people have been obliged to resort to Glasses from physical debility having temporarily affected their vision. In such cases the eye regains its healthy powers, and the Glasses can be laid aside without injury; while other kinds of Spectacles when once worn, cannot be dispensed with.
