NEWS OF THE DAY.

THURSDAY MORNING, SEPT. 9, 1869.

LOOK FOR IT SOON.—The proclamation for the union of the North-West may be looked for any day. Some arrangements had to be made with the Company. It is believed that these arrangements are now completed and that the proclamation will be issued at once.

NEWFOUNDLAND AND UNION.—The news from Newfoundland is not favorable to the union cause. Many of the wealthy merchants are still in determined opposition; two of them, Messrs. C. J. Bennett and Walter Grieve, have brought out from England a small iron steamer called the "Maty Austin," to carry anti-Confederate speakers from place to place.

RETURNED.—Sir John A. Macdonald and Lady Macdonald were registered at the St. Lawrence Hall, Montreal, on Tuesday, on their return from Portland.

SCHOOL BOARD.—There was no meeting of the Board of Common School Trustees on Tuesday evening, a quorum of members not being present.

Few people unacquainted with physiological chemistry are aware of the quantity of iron in the blood, but all should know the importance of keeping up the supply, for debility, disease and death are sure to follow when the quantity becomes too much reduced. The Peruvian Syrup (a protoxide of iron) supplies this vital element, and has cured many chronic diseases.

BODY FOUND.—A Mr. Vanarman, of Maitland, while fishing on the river opposite that place on Monday, found the dead body of a man, supposed to be the bargeman reported about a fortnight ago to have fallen overboard from a barge which was towing up behind the tug William, of this place.

THE MENAGERIE.—This Great Show drew an immense crowd yesterday afternoon, in spite of the heavy rain. Of men, women and children, there were within the large Canvas 2,500 souls. The exhibition of Wild Beasts was good, not better than that of other Menageries, but fully as good. The Sports of the Ring were—but why should we complain, for as one of the Showmen said, "as you get this for nothing, you should not grumble." Perhaps the heavy rain may account for the poverty of this part of the entertainment. This was a Great Moral Exhibition, and the admittance money, fifty cents, was twice as much as that to an ordinary Show; while the amusement afforded was very small indeed. This was paying for Morality with a vengeance. There was another Exhibition in the evening, fully as great.

THE YACHT RACE.—In consequence of the unfavorable state of the weather, the race for the Prince of Wales' champion cup, was postponed at Toronto on Tuesday.

LACROSSE.—The long-looked-for match between Prescott and Montreal, to determine the question of championship, has been fully arranged for Friday (tomorrow.) The Prescott and Ogdensburg people are quite enthusiastic in favor of the Ontario Club. The former town proposes giving a general holiday, to enable hundreds of its citizens to accompany their favorites to Montreal and witness the wresting of the championship from the Montreal Club.

THE PRINCE.—We learn that Prince Arthur will arrive at Quebec by the Gulf boat on Tuesday next, the 14th inst. He will probably stay there until Monday, the 20th.

Afterwards we believe he will proceed West, and pass through Kingston on his way in an informal manner.

POLICE COURT, Wednesday.—There was little business before the Court this morning—three names only graced the docket, all charged with drunkenness. The first, George Ushman, was sent back to the cells to sober off. James Blackburn, up for the first time, was allowed to go, and Isabella Long, out of gaol on Saturday last, was admonished and permitted to leave.

THE HARVARDS.—The Harvard boat's crew is expected to arrive at New York this week, where a splendid reception awaits them in the form of a banquet, to be given to them shortly after their arrival.

Ottawa.

PRIVY COUNCIL—ARBITRATION—RACES.

Ottawa, Sep. 7.

A meeting of the Privy Council will be held this week and the tenders printing decided.

The Provincial Arbitrators will probably come to a decision on O'Leary's case on Saturday. His claim is for $12,000. Garritt's claim will then be taken up, amounting to $36,000, and Mr. McGeorge's for $40,000. It is believed that the arbitrators will reduce the amount considerably.

About 30 English emigrants arrived here to-day. Eight or nine were men, the rest women and children. They all proceeded north in the course of the day.

A Prussian emigrant, who settled near Pembroke a year ago, arrived here to-day on foot, having walked over 100 miles to purchase a draft to remit $30 to his brother at home, to enable him to join him here. A year or two ago this man was worth nothing.

BOILS.

Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its Life Element, Iron.

THE PERUVIAN SYRUP,

(a protoxide solution of the Protoxide of Iron) will do this effectually, and give strength, vigor and new life to the whole system.

Extract of a Letter from Rev. Richard S. Edes, of Bolton, Mass.

"For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence; finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut, and the prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character."

A 32 page Pamphlet sent free. The genuine has "PERUVIAN SYRUP" blown in the glass.

They are admirably adapted to the Organs of Sight, and afford the best artificial help to the human vision ever invented. A peculiar and important feature in these Spectacles is witnessed where people have been obliged to resort to Glasses from physical debility having temporarily affected their vision. In such cases the eye regains its healthy powers, and the Glasses can be laid aside without injury; while other kinds of Spectacles, when once worn, cannot be dispensed with.
