THE FENIANS.

A New Sensation.

VOLUNTEERS ORDERED TO GODERICH.

The air is again filled with mysterious rumors of Fenian Invasion. The Government is unceasing in its precautions, and the people relying on the sincerity of its action, are beginning to think that there is something in the wind. Where there is so much smoke made, there must be Fenian fire below, so that if the country believes one-quarter of what it hears, it will receive some benefit, if not truth, and be prepared for the emergency, which over-agitated, nervous old women and warriors see so clearly in the immediate future.

THE RUMORS.

That important Fenian movements are on foot, which may necessitate the calling out of the Volunteer force at once. Already rations have been served out to certain sections of the force, in some parts of the Dominion.

These precautions are made in consequence of information that the Fenians have a gunboat on the Upper Lakes well armed, and that a force in the West is to act in a co-operated movement with a force in the East. It is believed that the Fenian mad-caps, in their efforts to get up a scare, will attempt to give trouble on the eastern part of Canada at the boundary line, while the expedition above spoken of will create a stir on the Upper Lakes. The whole affair was originated and discussed at the late Fenian Congress and decided on by nearly a unanimous vote of all present, with the exception of one representative from Canada, whom it is said voted against and was strongly opposed to any movement on Canada. Our authorities claim that the orders given last week were on most authentic information, and that the Fenians are determined before the end of this month to give the poor servant girls they robbed of their hard earnings, some satisfaction for the money that they have paid into the Fenian Treasury.

NOT POSITIVE.

Prominent Fenians say the recent scare in Canada was caused by the report of two British spies who were in New York the week before last. The Fenians knew their character, and talked in their presence of an immediate movement upon the Canadian frontier.

FACT.

Simultaneous with the order to put the Gunboat Rescue in trim at Kingston, were forwarded instructions to the person in charge of the Canadian Gunboat Prince Alfred at Goderich to be put into commission at once, and this order was supplemented by another, requiring the forwarding of a quantity of ammunition from London to that station. We have already reported the completion of preparations, placing the Rescue in condition for active service in Kingston harbor.

In Toronto there has been some excitement. One half of the Toronto Field Battery, consisting of 20 men and 2 guns, were ordered to proceed to Goderich, and man the "Prince Alfred." Orders to that effect were read at ten o'clock on Monday night. Men turned out of their beds amidst general excitement, and were supplied with arms, ammunition and provisions. They left at 7:30 in the morning by the Grand Trunk Railway for Goderich, Lieut. Gray in command. Col. Dotte inspected the men, and told them that, in all probability, they would be again called upon to do duty for their country, and that he felt confident that they would be found in the right place at the right time.

A DEAD PIN-SHOT.

Yesterday morning it was reported in Kingston that an attempt had been made to fire the armoury at London. Could the report have originated in the following paragraph.

A SENTRY ALARMED.—Last night a sentry on the drill shed—a volunteer belonging to the 7th Light Infantry—imagining he heard the sound of footsteps in the neighborhood of the magazine, challenged, and receiving no answer, loaded and proceeded to make an inspection of the place from where the sounds proceeded. As he advanced he observed through the darkness a body in motion, and at once sounding it was a Fenian, challenged again. No answer was returned, and bringing his Snider Enfield to the present, he blazed away at the object. A howl of pain followed, and the "Fenian" was seen to hobble off as if wounded. A second shot was fired, and the enemy dropped. The whole guard was by this time alarmed, and proceeding to where the supposed dead body lay, they found a large dog weltering in his blood—two legs of the animal having been broken. London Free Press.

THE FENIAN AMNESTY.

London, Oct. 18.

The Saturday Review has an editorial on the course of the Government towards the Fenians now in confinement. The writer, after reviewing the recent amnesty agitation, asks if Mr. Gladstone is prepared to act with vigor and severity in case of a new Fenian rising, and if he has calculated on the extraordinary efforts required not only to cope with treason, but to galvanize into energetic life the former rulers of the law. His impressionable mobility sways towards the recognition of Irish independence. The supposition is barely credible—not wholly inconceivable. If he shows the faintest leaning to tampering with treason and traitors, there is an end to his votarial Parliamentary majority and his existence as a minister. It is impossible to exaggerate the gravity of the issue to be decided when a final answer is given to the partisans of amnesty. The power of Government in Ireland is shaken, and the awe of Government nearly extinct. Let Parliamentary concessions be made, and from that moment the very idea of Government will be inseparable with ridicule and contempt.

LATEST.

Goderich.

Goderich, Oct. 19.

The gunboat Prince Alfred is being fitted for active service with all speed. The orders came from headquarters last evening, and she is now coaled, supplied with provisions, sailing crew, &c. She is manned by 25 men from the Goderich Garrison Artillery, and the same number from the Toronto Field Battery. The latter, with two guns and ammunition, have just arrived. Our boys are delighted with the idea of this naval service. No appearance of Fenians in this section yet, although the vague rumors flying about here caused considerable excitement.

ACTIVITY.

In twenty-four hours from the first intimation that they would be wanted, troops, guns, war materials, captains, engineers, firemen and crews were on hand at Goderich, and the gunboat Prince Alfred was in every respect fully equipped and ready for sea, a pretty good proof, considering the distance the men and arms had to be carried, of what may be done in the way of giving the Fenians a suitable welcome should they seriously entertain the design of coming across.

In addition to the two gunboats armed, there are three others which can be manned to put to sea at a few hours' notice, and a number of others which could be put in order and armed within twelve hours.

A statement obtains that a steamer is at Chicago with a lot of suspicious characters on board, whose destination is said to be a port on Lake Huron, but this report is to be received with caution.

Court of Queen's Bench.

The Fall Assizes for the County of Frontenac opened yesterday at the Court House. Shortly after twelve o'clock His Lordship, Mr. Justice Gwynne, took his seat on the Bench, and the Court was formally opened.

The names of the Grand Jury were then called, and the following sworn:—John Breden, Esq., Foreman; and Messrs. Freeman, S. Bennett, Jas. A. Allen, Wm. Brophy, D. D. Calvin, Geo. Campbell, Jas. Daly, Philip Dougherty, R. J. Dunlop, John Ewings, Neil Ferris, Jas. Gibson, John Herchmer, Jas. Davis, John C. Innes, Wm. Martin, John Montgomery, John McLean, D. D. Rogers, and Wm. Smith.

His Lordship then addressed the Jury at very considerable length from a prepared manuscript, and his remarks were inaudible in the vicinity of the reporter's desk. His Lordship touched but lightly on the business of the Court and the calendar. He explained and eulogised at great length the new act for the summary trial of offenders before county judges, and this being His Lordship's first Court in Kingston, he feelingly alluded to the affection and interest he has always had for Kingston. His Honor Judge Burrowes was an associate on the Bench.

The business of the Assizes was then proceeded with. There are 33 cases on the civil docket: 15 C. P.'s; 4 Q.B.'s; 7 C.C.'s; and 6 B.R.'s—none of them of more than ordinary interest. Among the lawyers from other places attending to take part in them are Mr. Radenhurst Perth; Mr. McCaul, Toronto; Mr. Lees, County Attorney, Ottawa; Mr. B. C. Davy, Napanee; and Mr. Wallbridge, Q.C., Belleville.

The criminal calendar contains ten cases, which were explained in our last issue. None of them, at least those expected to come to trial, are of any interest. Mr. John Bell, Q.C., of Belleville, acts as Crown Prosecutor.

In the Return of Summary Convictions made to this Court, an official copy of which is printed on our first page, a very singular fact was shewn. Out of 97 cases not one came from the County, all being returned by Mr. Creighton from the Police Court. The County has been remarkably free from petty cases, which fact is a fair index of the absence of heavier crime.

Several undefended issues were tried, and the Court adjourned at half past two o'clock until this morning at half past nine o'clock.

Belleville Railway Meeting.

Belleville held its Public Railway meeting on Monday evening, and it is claimed to have been largely attended. The Mayor presided. A large number of speakers addressed the audience, only three of whom expressed any great confidence in the feasibility of the Road. Messrs. Diamond, Corby, Nelson, Bowell and Holden, supported a Railroad of some kind, while the first named gentleman showed the absurdity of a wooden railway, when a narrow guage Railway, with iron rails, could be built much cheaper. A contractor was willing to build the road for $6,000 per mile, including rolling stock and stations,—where the wooden railway would not cost less than $4,000 per mile for grading and laying the track alone. The whole scheme was opposed by Messrs. J. I. Cronk, W. W. Dean, and C. V. Bogart. A Resolution was passed affirming the necessity of more extensive communication to the back country; and a committee of nine appointed to attend the Madoc meeting, including Hon. Billa Flint, Messrs. Brown and Bowell, M. P's, and Corby, M. P. P.

Mr. Neilson is reported to have said that the action taken here, "was simply a bluff game on the part of Kingston, and there was no likelihood of the road ever going there." Belleville should get weight other people's corn by its own measures. If the little town has in the past been guilty of too many "bluff games" in connection with local and general enterprizes,—as it was very plainly reminded at the preliminary Madoc meeting,—that is no reason why Kingston should now be guilty of a despicable action of a similar kind. The present debt of the city, and the grounds on which it was contracted, show conclusively that Kingston has earnestly engaged in too many enterprizes in the past to pursue an underhand game with the present scheme, which promises the best of any yet mooted in Kingston, and deserves to be all the more liberally dealt with.

NOTE.—A gentleman of respectable standing in Belleville, at present in Kingston, states that this Railway Meeting was almost a fizzle. There was a poor attendance, and the meeting was not fired with effervescent enthusiasm, notwithstanding the frantic efforts made to get up a public spirit in the matter. A sneer at Kingston from such a quarter is contemptible.

Thanksgiving Day.

The Lord Bishop of Ontario having appointed to-day (Thursday) a Day of Thanksgiving to Almighty God, Services will be held in the various Episcopal Churches of the City as follows:—St. George's Cathedral at 10 a. m., at which Service the Lord Bishop will preach; St. Paul's at 7 p. m., St. James' at 7 p. m. Special collections will be taken up in each Church.

Dr. Jenkins, Moderator of the Church of Scotland, Canada, has appointed Friday, the 5th November next, as a day of Public Thanksgiving for the late abundant harvest and the blessings of health and peace. The President of the Wesleyan Conference, and the Moderator of the Synod of the Canada Presbyterian Church, have agreed, after friendly correspondence, to issue to the Congregations of their respective Churches, a notice appointing the observance of the same day. Dr. Jenkins suggests that it would be well if the Government were to appoint a day of general thanksgiving, from time to time, by agreement between the several churches.

Victoria College.

An article appeared in the Kingston Daily News of Saturday last which took a rather glowing view of the present financial condition of Victoria College. It must certainly be admitted that the withdrawal of the Government grant proved a very serious loss, which for a time must cripple the finances of that institution. A movement was set on foot some time ago for the purpose of raising a permanent endowment fund of at least $100,000, and we are glad to learn that of this amount nearly $50,000 has been subscribed. A large number—indeed the greater number—of the circuits have yet to be appealed to, the result of which will be, we have no doubt the completion of the $100,000. We observe in the columns of the Christian Guardian the announcement of meetings in aid of the College, to be held at Belleville, Picton and elsewhere; and also that canvassers have been appointed to visit the different parts of the Provinces of Ontario and Quebec not yet appealed to. With the success that has already attended the movement, we trust that future efforts may be accompanied. With regard to the rumor which the News circulated to the effect that it was thought of to transfer the students of Victoria College to University College, Toronto, we question very much its accuracy, and are inclined to believe that time has not yet arrived. The Wesleyan Methodists regard Victoria College as a Denominational necessity, and we are very much mistaken if they will allow it to be closed for the want of a generous support in establishing its permanent endowment. It must be remembered that the members of this church very recently made a noble effort and swept off a debt of $40,000 under which the College was lying; and if some of the subscriptions are now not so large as they might be this fact should be kept in recollection—that nearly all who now subscribe towards the endowment fund, subscribed towards the liquidation debt. Then again, it is only a short time ago, since the same people subscribed upwards of $50,000 towards the Centenary Fund; so that taking all these facts into consideration, we think that the response which has already met the appeal of the College authorities is highly creditable. The Wesleyans are proverbial for their liberality. In Great Britain they sustain six colleges—three of which are exclusively for the education of candidates for the ministry—besides a seminary for the purpose of the education of ministers sons. Surely the Wesleyans of Canada can support one college, the maintenance of which the church authorities consider of such vital importance to its students. We hope to hear of the ball being kept rolling until the sum of $100,000 has been subscribed.

The Fenian Prisoners.

The quotation from an article in the Saturday Review which was among Monday's items per Atlantic Cable, shows how strongly feeling is being entertained in England regarding the proposition to release the Fenian prisoners now serving their term of punishment in different parts of the country. If Mr. Gladstone gives way in this matter, he will have to encounter a fierce opposition. The time has not yet arrived for extending mercy to the Fenians, who if they were released from custody, would immediately set about their old work of endeavoring to disturb the peace of the country. A lenient policy towards these scoundrels is a mistaken one, and this lesson England should have learned. We are not advocating undue severity to political prisoners, but the case of the Fenians is very different from ordinary political offenders. They have no stake whatever in the country; generally a set of idle blackguards, they have no occupation but to prey upon the pockets of those who support them, and when opportunity occurs to shed innocent blood. The utmost rigour of the law should be dealt out to them, and they should be taught that they cannot interfere with the peace of a community with impunity. The statesman, who, to please those who have sympathy with them, releases them from confinement commits a grave error, which we hope will not, for the present, be any more indulged in England.

Common School Board.

A special meeting of the Common School Board was held at the Council Chamber, on Tuesday evening. Present: Messrs. Britton, Carroll, Cunningham, Conley, Draper, G. W. Fenwick, Massie, McCrae, Newlands, Phillips and Robinson.

In the absence of the Chairman, who was prevented from attending by particular business, Mr. G. W. Fenwick was called to the Chair.

Mr. Massie, on request of the Chairman, opened the proceedings with prayer.

APPLICATION.

From Miss Elizabeth Robinson for employment as teacher, submitting certificates from the Inspector of National Schools, Belfast, Robert Murray, Esq., Principal of the National School, Belfast, Rev. Dr. Knox, Belfast, Alfred H. Ernessley, Esq., Editor Harper's Magazine, New York, &c. ordered to be placed upon the file and submitted to the Committee when a vacancy occurs.

COMMUNICATIONS

From S. Woods, Esq., Local Superintendent, submitting his visiting book, and requesting the board to make some arrangement by which he would receive his quarterly report from Wellington Street School.

Mr. Conley also called attention to the neglect of the Caretaker of Wellington Street School.

The Superintendent, on leave granted, addressed the board at some length on the position of the Wellington Street School, and a debate ensued in which most of the members present took part, when it was,

Moved by Dr. David Cunningham, seconded by Mr. W. P. Phillips, resolved, that the Communication of the Local Superintendent be referred to the Committee on Schools to report at the next meeting of the Board.

Moved in amendment, by Mr. Thos. Robinson, seconded by Mr. Thos. Conley, that the communication of the Superintendent, and the matter regarding the Caretaker, be referred to the Committee of the School, to report at next meeting of the Board.

The amendment being put was lost, and Mr. Cunningham's resolution was carried without dissent.

The Chairman informed the Board that the Visiting Committee of Wellington Street School would investigate the matter of the Caretaker and report to the next meeting.

Mr. Massie closed the proceedings in the usual manner and the Board adjourned.

Return from Prescott.

Yesterday afternoon the three companies of the R. C. Rifles lately camped out at Prescott returned to this station. They arrived in the str. Corinthian about four o'clock, and were met at the wharf by the Band of the Regiment, and played up town to their Barracks, after receiving the welcome of their comrades. They were under command of Major Whyte. During their stay of many weeks in Prescott they have had an uncomfortable time, and the men will no doubt hail the return to Barracks with pleasure.

A detachment of volunteer artillery from Ottawa have arrived at Prescott to man Fort Wellington, under the new arrangement proposed by the Government.

EUROPE.

By Atlantic Cable.

A SPANISH REPUBLIC.

London, Oct. 18.

The Pall Mall Gazette thinks the formation of a Republic in Spain would be a step in the right direction; but adds that Spain has a long journey to make before she can become well instructed, civilized and prosperous.

The Times in an article declares that Prim is not a man of transcendant genius, but has depths of coolness and boundless ambition. He has the army in his hands, and intends to keep it so long as Spain is without a King. No one can wrest from Prim the sword, which is the real sceptre of Spain. Prim sees this, and resolves that no King shall preside over Spain but one of his own making, or under his influence, and above all no Montpensier, whom he has always opposed.

FROM MADRID.

Madrid, Oct. 13.

The loss of life in fighting which preceded the capture of Valencia was trifling of national troops, only 2 were killed and 7 wounded. No tax payer or householder of Valencia took part in the revolt. The capture has had a tranquilizing effect all over the country. Only a few remnants of the dispersed bands are now roaming through the provinces.

The sales of turpentine and other combustibles recently are extraordinarily large, and are supposed to be used for incendiarism in case of revolt.

FROM PARIS.

Paris, Oct. 18.

Prince Gortschakoff has arrived.

King Leopold has been invited to meet Napoleon at Compiagne.

It is probable that Marshall Bazaine will be appointed Commander of the Imperial Guards.

A council of ministers met this morning at Compiegne, the Emperor presiding, and held two sessions.

The opposition deputies to the Corps Legislatif held a meeting to-day, at which they drew up a manifesto. They will not go to the Legislative Chamber on the 26th inst., as has been proposed, because they do not wish to provoke a demonstration of Imperial returning liberty. A pacific revolution, the result of which is daily becoming clearer, having commenced, they must not become the instruments of or furnish a pretext for disorder.

What Did It?

INJURY TO THE ATLANTIC.

A fresh injury is reported to have happened to one of the cables of the Atlantic Telegraph Company. The accident which has caused the parting of the cable has occurred about seventy miles from Heart's Content, near the locality of the former fractures of the line. The injured cable is the one laid in 1866, and which has alone suffered from the casualties. The present is the fourth fracture that has occurred in the 1866 cable on the Newfoundland side. About six weeks since a fault was also discovered in the same cable a short distance from Valentia. A steamer has been for some time past lying off the harbor, waiting for fair weather to proceed to the spot where the fault exists, to repair the damage. The cause of these fractures has not yet been distinctly stated, but there is reason to believe that the course taken in laying the cable—the latter portion having been laid in a heavy fog—was over rough, sunken rocks, that the cable has been injured by the chafing upon them. The first injury to the cable off Heart's Content had every appearance of being caused by an iceberg settling down upon it. The second injury bore traces of wilful damage, and suspicion attaches to a strange craft, which, during the time of the excitement about the Fenians, was seen hovering about the spot where the rupture took place. The 1866 cable remains perfectly safe, as it is laid in a channel that was carefully surveyed. This is the cable which was lost in the attempt to lay it by the original Atlantic Telegraph Company.

A number of Faro Banks are in operation at Toronto, and largely patronized by a number of respectable citizens. The police authorities are cognizant of the fact, but neglect to act.

RAILWAY.

Kingston Victorious!

The Meeting Almost Unanimous.

By telegram from Madoc last evening we received the great news of the success of the Railway meeting at that village yesterday afternoon. The Kingston Delegations have done nobly, and the people of Madoc have acted well. When the show of hands was called for it was almost unanimous for Kingston.
