MONDAY MORNING, NOV. 1, 1869.

RELIGIOUS.—On Friday evening Professor Tassie gave his third and last Evening with the Poets in Kingston, at the Hall of the Young Men's Christian Association of St. Andrew's Church, and under its auspices. Owing to the unfavorable state of the weather, and other causes unfortunately occurring, the attendance was not as large as on former occasions, but the Readings were not the less charming and interesting. Prof. Tassie threw his whole life into the pieces which were very as life in character, and gave the diversified powers of the Professor wide scope. His readings will be remembered, as bringing us one of the most pleasing re-unions with the poets we have ever enjoyed.

INSPECTION.—On Saturday morning a salute was fired from Fort Henry in honor of the arrival of Lieut. General Wyndham, K.C.B. On Saturday morning the Lieut.-General inspected the R.C. Rifle Regiment in the Royal Barracks.

THE GRAIN MARKET.—The market yesterday for barley was active at 75c on opening and rose to large; under private advices of a decline of 5c at Oswego the market fell to 72c and before 3 p.m. it touched 70c, at which price the farmers grumbled considerably. In the present state of the market the buyers cannot offer more. Rye very dull at a decline of 5c from Friday—500 offered at remarkable severity, only one load came in. Peas were in very good supply at a decline of 4c, bringing 68c.

SAILED.—Two fine regiments have left our shores, and are not to be replaced. The 23th regiment left Quebec on Thursday night in the "Tamar," troopship, and the 53rd sailed on Saturday in the "Himalaya."

SORE PORK.—On Saturday Jas. McCarroll, J.P., of Otta a brought to Market a pig of six months and seven days growth which weighed 300 lbs. A challenge is up to beat it. It was pronounced a very fine sample of good breeding!

LATE UP.—The first of the Royal Mail steamers of the season to lay up has been the Champion, which went into winter quarters at Montreal on Saturday. In consequence of her withdrawal, there will be no steamer up on Saturdays or down on Wednesdays. The other steamers of the line will run for over two weeks yet.

POLICE COURT, Friday.—The Court was held in the Police Station this morning, the Council Chamber having been vacated while repairs are going on. Wm. Coburn was discharged on paying costs, and entering into bail to keep the peace towards Thos. Keys. Wm. Toner, drunk, fined $2. Francis McGovern, drunk, do. Johannah Murphy, drunk, ten days in gaol, being an incorrigible case.

Saturday.—George W. Maxwell, a sailor, was charged with being drunk. He was fined $2, paid it, but did not leave, as Mr. Creighton had a word to say to him concerning some bad bills he had on his person, only for a lark.(!) They were not counterfeits of a legal currency, but merely spurious money, which might or might not fool a person. Wm. David, Princess street, had an obstruction of old stoves and furniture on the boardwalk in front of his shop, and not removing it when notified, was summoned up this morning for a breach of the city by-law. He was reprimanded and discharged, on promising to prevent the nuisance in future. Michael Fitzgerald, a guard in the Kingston Penitentiary, was charged by Mr. Ferres, the Warden, with a breach of prison discipline, in passing letters in to the convicts. This is the second case of the kind which has occurred. The case was adjourned until Tuesday morning.

The Latest News.

The condition of Mr. George Peabody is reported as slightly improved.

Miss Ryder left Liverpool on Thursday for Canada, bringing with her another batch of female emigrants.

Mr. John Seriver has been elected by acclamation to succeed Mr. Roe in the Commons as member for Huntingdon.

Despatches from Vienna state that the insurrection in Dalmatia is more formidable than was at first supposed.

The remains of Earl Derby were interred at Knowsley. There were no public processions.

Mr. Rankin, late of North Renfrew, is to receive an appointment in the Inland Revenue Department in New Brunswick.

Marked depositions received in London indicate that the visit of the Duke of Genoa as King of Spain, Meetings of the different parties were held to discuss the question of a King. The Unionists went against the Duke, while the majority of the Progressists, Democrats and Republicans favored his election. At the general meeting of representatives, where, notwithstanding the efforts of Prim, the utmost division prevailed, a vote was cast by leaders of the Duke, the majority being 78—122 to 44.

Notes.

La Minerve thinks that as the session of the Ecumenical Council approaches, there are growing fears of a split between the ultramontanes and the secular clergy of Europe.

Forty-nine reporters interviewed Father Hyacinthe, and forty-seven reporters had to sit and bite their pencils and hear the other two talk French.

A curious fact is brought to public attention by recent statistics published in England. In thirty-two counties in that country and in twelve of Wales, there are one thousand three hundred parishes and hamlets in which no liquor is sold. Norfolkshire contains one hundred and twenty-seven parishes and townships in which there is neither beer shop nor public house.

The New York Sun says there are indications that a new set of gold operators have entered the field, and are speculating to a extent on a large scale, if not preparing to make a corner in the market. The breaking of the last great ring has sent gold down to a point from whence a reaction may naturally be expected; and as there are but a few millions afloat outside of the Treasury, it would be comparatively easy to turn this tendency to good advantage.

The telegraph operators of the United States have begun to find out that they are amongst the poorest paid of any engaged in skilled pursuits. Recognizing this fact, the operators in the employ of one of the New York companies have struck for higher wages, and are determined that the effects of the strike shall be felt by their employers. An operator holds a very responsible position, and companies should not, we think, hesitate to pay them at least a decent remuneration for their services.

INTENDED POLITICAL STATION.

A rumor is afloat to the effect that a Banquet, or a grand society in honor of Sir John A. Macdonald, is shortly to be given in Paris, to which Sir John and a number of his colleagues will be invited. Sir John's well-known partiality for the country of Prince Edward will make his acceptance of an invitation of this kind almost certain; and considering the obloquy which has been cast upon the name of Sir Francis Hincks—the new Finance Minister—we should be highly pleased were that gentleman to consent to accompany the Premier, meet the charges made against him of his connection with the policy in matters of finance.—Toronto Gazette.

ANOTHER STEAMBOAT HORROR.

Over 200 Persons Lost.

GREAT LOSS OF LIFE.

St. Louis, Oct. 28.

The steamer Stonewall, caught fire on Wednesday evening at a point a little below Nelson's landing, and 125 miles below St. Louis, from a candle which the passengers had placed near a mow hay, while they were engaged playing cards. The Stonewall was run on a gravel bar, the pilot supposing that the passengers could wade ashore, the unfortunately at the end of the bar there was a slough, and there it was that the larger number of them were drowned. The boat was run on the bar but two feet, and the shallowest part about her had five or six feet of water. She had so much hay on board that she burned like tinder. All attempts to extinguish the fire were without avail. The Belle of Memphis, came at half-past nine, three hours after the accident, and rendered all the assistance possible. Out of 252 passengers and crew only 30 are known to be saved. There were 50 cabin passengers and 60 of the crew. There were quite a number of ladies on board and all are supposed to be lost except one. She had about 900 tons of freight on board, including 270 cattle, horses and mules.

George McPutton, chief engineer, has arrived and gives further particulars. Sixteen persons were saved by clinging to planks, and sixteen swam ashore. There are all out of between 250 and 260 persons on board, of whom positive safety there is any certainty. Of the three lads on board, only one, Gregg, was saved. Capt. Scott was last seen floating on a spar. The scene on board was heart-rending in the extreme. The flames spread with wonderful rapidity under the action of a strong wind, and the passengers, in wild error, crowded the forecastle until forced overboard in a mass, and drowned each other in the desperate struggles to free themselves.

ANOTHER CATASTROPHE.

New York, Oct. 30.

The ferry boats Morrisania and Delaware collided on the North River yesterday and smashed one another considerably. Fifteen persons were dangerously injured. It is believed that some were knocked overboard and drowned.

DEBILITY.

Every one at times feels the necessity of something to tone up the system depressed by mental or bodily exhaustion. At such times let every one, instead of taking alcoholic or medical stimulants, which afford only a temporary relief, reinvigorate his debilitated system by the natural tonic elements of the

PERUVIAN SYRUP.

or Protected Solution of the Protoxide of Iron, which vitalizes and enriches the blood by supplying it with its Life Element Iron.

Being free from Alcohol in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing a rough, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Wm. C. Sterling, Esq., of Poughkeepsie, N.Y., says: "Since taking the Peruvian Syrup I feel better, my strength is improved, my bowels are regular, my appetite first rate.

There is an old Physician in this city (older than I am), used the Syrup for three months, and gives it as his decided opinion that it is the best Alterative Tonic Medicine he ever knew."

For Dyspepsia, Debility, and Female Weaknesses, the Peruvian Syrup is a specific. A 32 page pamphlet sent free. The genuine has "Peruvian Syrup" blown in the glass.

HOSTETTER'S BITTERS. MISHLER' BITTERS. RICHARD-ON'S BITTERS. PLANTATION BITTERS, &c.

There is no form in which distilled spirits or diluted alcohol is presented to the public more likely to create confirmed habits of tippling, and a final and fatal slavery to the cup, than in the form suggested by the healing of this article. These compound are nothing more nor less than whiskey or rum, disguised by the addition of some bitter herbs, woods and roots, of which a man with a miserable acquaintance with botany might gather a fortnight's supply in almost any patch of woodland in our country. * * * These bitter makers are building fortunes out of the sale of flavored whiskey, and one of the credulity and conscientiousness of those who from impaired nervous systems, have a demand for stimulants or narcotics and who have yet too much regard for an improved public sentiment, and too much conscience to drink whiskey raw from a whiskey saloon or a barroom. In a future number of the Advocate I propose to unmask with an unsparing hand of smooth hypocrisy, mock philanthropy and affected sympathy for suffering humanity with which this colored whiskey business is so artfully gilded. In the meantime, let all friends of temperance and lovers of their country and race beware of the whiskey devil disguised as medicine.—Charles Jewett.

Laboratory of Department of Agriculture,

Washington, Dec. 28, 1868.

A. M. F. Gianelli's (Italo-Peruvian) "Wine Bitters," tested in this Laboratory, yielded the following results: "Red Italian Bitters" (2 bottles examined) specific gravity, 1.000.

Mean of several determinations

Alcohol (by weight)	15.200 per cent.
Sugar (cane)	3.37 do.
Do. (fruit)	0.3 do.

The extract on was abundant, and contained several alcoholic colors. Upon evaporation, precipitation and reprecipitation with the usual reagents, it yielded a substance having the medicinal "Smattching" of Faustre. Tartaric acid was separable in appreciable quantity and easily detected. Solution of Nitrate of Silver was not reduced by the liquid ("Bitters") nor was there any other evidence of the presence of Fusil Oil.

This analysis shows that the ethereal principle of Wine (Oenanthin) is present in considerable amount—that the peculiar acid of Sherry Wine is also present, and that no traces of Fusil Oil can be detected.

From these reactions it is evident that Wine has been used in the manufacture of the "Italian Wine Bitters," and that no whiskey—as this latter is usually sold (i.e., without high rectification), has been used in the manufacture.

The greater portion of the alcohol found, certainly belonged to Wine present in the Bitters, and not to whiskey. (Signed)

THOS. ANTICHELL, M.D.,

Chief Chemist U.S. Dept. Agriculture.

To A. M. F. GIANELLI, Esq.

DEAR SIR,—After a fair trial, I take pleasure in recommending your Royal Bitters. It is a very excellent stomachic bitter, having vigorous and lasting tone to the digestive organs. In your next you informed me of the ingredients. I think it is a most admirable combination; alpha-ant, useful, and reliable tonic.

Yours truly,

R. T. COOKE, M. D.,

New York City.

MR. GIANELLI.

(TRANSLATION.)

PARIS, BOULEVARD DES MALESHERBES, No. 45, 4th July, 1867.

Al Signor Angelo M. F. Gianelli,

Montreal, Canada:

Gentilissimo Signore:

Fearing that a former letter which I addressed you, addressed by a gentleman who was going to Montreal, might not have reached you, I beg to—it does—duplicate it. On my arrival here I opened the two cases of "Italian Bitters" which I purchased of you when in Montreal, and had many applications of a medical nature to the judgment of very many distinguished persons who have honored me with their attention during my sojourn here.

I have very great pleasure in acquainting you that the Bitters met with universal approval, both among Ladies and Gentlemen, and for myself I must say that I have derived great benefit from its use.

An eminent chemist of this city says that you commanded a grave error in omitting to send a sample to the Great Exposition, being as sure that it would have received distinguished honor.

As many of my friends are now almost habituated to it, I will thank you to forward by the first steamer, through your agent in New York, five cases, together with the usual assortment, on receipt of which I will immediately remit the amount.

With best wishes of your success,

I remain, truly yours,

ADELAIDE RISTORI DEL GRILLO.

In adducing the foregoing unimpeachable testimonials to the salutary properties of my "Royal Italian Bitters," I would earnestly protest against the imputation of being a promoter of the improper use of intoxicating drinks. I believe, indeed, that Wine, as one of the Creat Gifts to man, is good in itself, and its temperate use allowable to all; and the tribe, have no hesitation in asserting it to be a long edition in my generation, with as much of the alcoholic principle as is separable from its nature. But I am no apologist for drunkenness or drunkards, and believe that those who have conscientiously learned to avoid running into excess had better abstain altogether from its use.

Kept by the principal Wine Merchants, Druggists and Grocers. Retail price 75c. per bottle.

Arnot's Arnica Anodyne!

THE NEW PAIN RELIEVER,

IS THE MOST RELIABLE REMEDY for all Pain, of whatever kind, whether internal or external. It is a certain cure for

NEURALGIA, TOOTHACHE, RHEUMATIC AFFECTIONS, INFLAMMATORY SORE THROAT, DIARRHŒA, COLIC, DYSENTERY, CRAMPS, COLDS, DYSPEPSIA, FLATULENCE,

And all Complaints of the Stomach and Bowels.

It is not a week or unused Medicine, rashly or carelessly introduced on the public attention, but has been used by thousands in this immediate vicinity, as well as elsewhere throughout Canada, and to every one, as far as known, with the best results. Dr. ARNOT, the eminent Physician whose name it bears, was well known as one of the most distinguished Medical Practitioners in the Empire, and this remedy has been prepared by all who have experienced its wonderful curative powers as well worthy of its author's reputation.

No one need continue a sufferer from pain when by the timely and proper use of A. A. A. the suffering is sure to be alleviated speedily, and entirely subdued after a few applications. Its taste and odor are both agreeable, so that when taken it gives no offence to the most delicate palate, and when inhaled through the nostrils refreshes and stimulates the olfactory nerve more than the best Eau de Cologne.

If you suffer from NEURALGIA, use A. A. A.
If you are a sufferer from TOOTHACHE, use A. A. A.
If you are affected with RHEUMATISM, use A. A. A.
If you are troubled with DIPTHERIA, use A. A. A.
If you have been BURNED, or SCALDED, or STUNG, or FROST BITTEN, BRUISED, use A. A. A.

ROYAL INSURANCE COMPANY.

SECURITY

Should be the First Consideration in Insurance Transactions.

THE DIRECTORS of the Royal Insurance Company have the pleasure of supplying the following information to the public, as evidence of the ample security they afford to their assurers:—

THE CAPITAL

of the Company, available for the purpose of meeting any unusual calamity happening to the Assured, is

TWO MILLIONS STERLING.

The amount actually paid up is £288,495. This with the Accumulated Funds in hand, makes the invested resources of the Company upwards of ONE MILLION SIX HUNDRED THOUSAND POUNDS, which amount is invested as follows:

INVESTED FUNDS OF THE ROYAL INSURANCE COMPANY, 30th June, 1869.

Real Property owned by the Company	£219,571	11	3
Mortgages on Freehold Property	35,000	0	0
£35,000 Reduced 3 per Cent. Consols	28,085	1	3
Irish Government 5 per Cent Debentures	100,000	0	0
English Railway Debenture Bonds	53,690	17	7
Foreign English Railway Preference and Guaranteed Stocks	313,476	11	11
Loans to Local Authorities of various towns in Great Britain, who have obtained the sanction of the Secretary of State to borrow the amounts	145,360	12	
Bonds of the Mersey Docks and Harbour Board	63,341	14	8
Bonds of the British and Irish Magnetic Telegraph Co.	70,000	0	0
Bonds of the Liverpool Corporation	5,500	0	0
United States Government Stocks	101,510	7	10
Canada Bonds and Canada Dominion Stock	31,004	11	6
Short Loans on first-class English Dividend-paying Stocks, with margins, from 20 to 50 per Cent. on market values	477,195	0	0
Loans on Security of Life Policies	63,958	8	5
	£1,672,336	16	11
The above is a complete list of the Investments of the Company at the date specified. In addition to which the funds are still further increased, by amounts constantly varying, at different periods, in the hands of the Bankers and the Company's Agents. At 31st Dec., 1868, these stood at	£168,089	2	0

For the satisfaction of the Public the whole of the Securities belonging to the Company are annually submitted to the careful scrutiny of two independent Auditors, and the following is an Extract from their Report to the last Annual Meeting:

"The whole of your Books have been Audited—every Document, every Account, every Voucher, your Bank-book, and every Security all have been most carefully kept, and there is not one doubtful Security in the whole."

The Accumulations of the Life Department.

After payment of Losses, Annuities, and Expenses of every description, have been as follows:—

Funds in Hand at the last Quinquennial Valuation, 31st Dec., 1864,	£ 21,474	15	5
Added to 31st December, 1865	103,146	7	3
" " " 1866	124,165	7	5
