COUNTY COURT and General Sessions at the Court House to-day at noon.

Ontario Legislature.

Toronto, Friday, Dec. 10.

The House met at the usual hour. Several petitions were presented.

Mr. Pardee presented a report from the Select Committee on Land Improvement Funds, stating that the claims of the residents of Bruce to participation therein was proved. The report was concurred in.

The Atty-General moved, that during the remainder of this session, when the House adjourns on Fridays, it do stand adjourned till eleven o'clock on Saturdays, and that the sittings of this House on Saturdays shall not continue later than 4 o'clock, p.m. The hon. gentleman permitted the motion to stand over for the present.

The Atty General introduced a Bill to amend the Law Reform Act of the Province of Ontario.

The House went into Committee on the Drainage Bill, which had been referred back. The Committee reported the Bill with a slight amendment, and the Bill being moved to a third reading, Mr. McKellar moved in amendment that the Bill be not now read a third time, but be referred back to the Committee for further consideration. The object was to limit the powers of the Government.

The Attorney General believed the measure was a popular one, and when foreshadowed in the Lieutenant Governor's speech, it was well received. The honorable gentleman, however, wanted to get up a feeling in the country against the Bill. Every thing would be open and above board in connection with the work, all the contracts would be advertised for, and the Government would come from the House with clean hands. It was only a piece of claptrap on the part of the Opposition.

After a debate the amendment was lost on a division—43 to 20.

Mr. Boyd moved another amendment to refer back the Bill, with instructions to amend the Bill so that no drainage should be undertaken without the consent of a majority of the people in the respective Municipalities. The motion was declared lost.

The Bill was read a third time and passed.

Hon. Sandfield Macdonald moved a second reading of his bill to remunerate certain members of the Court of Error and Appeal.

Mr. Boyd spoke against the measure on the ground that it was unconstitutional, inasmuch as the Court of Error and Appeal was a Superior Court, and under the jurisdiction of the Dominion Parliament.

The Atty.-Gen. said the House last session unanimously passed the Bill referred to, and although the Act had been disallowed, the promise to the Judges should be redeemed. He saw the justice of the act in view of the refusal of the General Government to do what was now sought to be done.

Mr. Perry would not lend himself to such an act of evasion as that proposed by the Atty.-Gen.

Mr. Lount did not believe in the remuneration of Judges being taken out of the hands of the Local Legislature, on the grounds that otherwise their independence would be endangered.

Mr. Cameron and Mr. Wood supported the measure.

After recess, the debate on the Bill to remunerate the Judges was continued, and the six months' hoist amendment was lost by 31 to 17. The Bill was read a second time.

Mr. Calvin thought they ought to have the right of administration of justice, and if they liked of abolishing capital punishment. Let each province endeavor, if possible, to get the model, partly for the purpose of economy, and partly to carry out justice in accordance with their own ideas. If this were a step in that direction he should vote for it.

The Atty.-General rose, and, addressing the Opposition, commented severely upon their repeated failures to defeat the Government.

Mr. Blake replied in a fiery and indignant speech.

The Provincial Secretary laid on the table the annual reports of the Commissioner of Agriculture and Public Work, on Emigration and the Toronto University.

The Hon. Mr. Wood, on motion to go into Committee of Supply, presented his annual financial statement to the House. He began by congratulating the Legislature on the fact that within the period which had elapsed since the present form of Government had been established, and notwithstanding all the outgoings incidental to the first commencement of the Provincial administration, they had already an invested surplus of $2,500,000. In 1868 he had calculated on a surplus of $143,000 and it had amounted to $170,000. For the present year he had reckoned on a surplus of $50,000, whereas it would amount to $800,000. He explained at length several items in the estimates already published, and remarked that although the revenue appeared large, it was, under certain heads, a falling off—indicating the gradual decrease of Crown timber and lands in proof of this. He reviewed the progress of Canada from 1839 to the establishment of Confederation under the old Union, the country had thriven marvellously, and he expressed his doubts whether the same result would follow upon the new order of things. He anticipated, allowing for large $385,000, after spending all the estimates for the current year, there would be an accumulated surplus of $2,000,000 at the end of the coming year. The Hon. gentleman then went at some length into matters of detail—he made no change in the incidences of taxes,—and concluded by a formal motion to go into Committee.

After remarks from Messrs. Blake, Richards, Cameron &c., the committee rose and reported, and the House adjourned at 12 30.

Appointments.

Ottawa, Dec. 11.

His Excellency the Governor-General has been pleased to make the following appointments viz.:—The Honorable Hector Louis Langevin, C.B., to be Minister of Public Works, vice the Honorable James Cox Aikins, to be Secretary of State of Canada, vice the Honorable Hector Louis Langevin, C.B.

Charles Eldon Ewing, of Cobourg, to be a landing waiter and searcher in Her Majesty's Customs, vice George Petry, Esq., promoted. Alured Henry Gosford, of the village of Grafton, to be a preventive officer in Her Majesty's Customs, vice Charles Eldon Ewing, Esq., promoted. Alfred Richard Cecil Selwyn, Esq., of the city of Montreal, in the Province of Quebec, to be Director of the Geological Survey of Canada in the room and stead of Sir William E. Logan, knight, resigned.

OTTAWA.

CHANGES IN THE POSTAL SERVICE—GEOLOGICAL SURVEY — THE RED RIVER TROUBLE.

Ottawa, Dec. 11.

A meeting of the Privy Council was held to day for the transaction of routine business.

The advisability of removing the head office of the Geological Survey to Ottawa is receiving some consideration.

The excitement with regard to the Red River trouble is quieting, as there is now every assurance of a satisfactory settlement of all the difficulties with the half breeds.

The Post Office Inspectors now in town have been called together by Deputy Postmaster General Griffin. It is probable that the basis of the annual report will be made up. The appointment of an Inspector General of Post Offices for the Dominion, to reside at Ottawa, may be recommended. It is reported that Mr. Dewe, of Toronto, is to be appointed Chief of the Inspectors.

It is reported that the Hon. Mr. Rose has not yet paid over to the Hudson's Bay Company, in London, the million and a half of dollars purchase money for the North-West Territory.

Mr. Stephens, Deputy Post-Master, who replaces Mr. Cluff, resigned, arrived this evening from Kingston, and enters on his duties on Monday morning.

A new evening paper, to be called the Free Press, is to be started here during this month. The new paper is to be independent in politics.

Latest.

London, Dec. 13.

Mr. Lowe, Chancellor of the Exchequer, does not find it necessary to raise a loan in the open market in order to provide the means for the purchase of the telegraph lines in accordance with the recent Act of Parliament.

M de Lesseps denies that the Suez Canal company is in want of funds or requires international protection. He promises that all the unfinished work on the canal will be completed without interfering with navigation.

Paris, Dec. 12.

A council of ministers was held at 5 o'clock this afternoon at the Tuileries to consider and decide upon the immediate change of the cabinet.

Private advices from Madrid assert that General Prim contemplates a coupe d'etat; that, sure of 180 voices in the Cortes, he will proclaim the Duke of Genoa King, and then present the law to the Cortes making himself Regent during the Kings minority. He relies on the support of the army, the generals being in his favor.

On the other hand a public despatch announces that General Prim had made a speech in which he denied any intention of making a coup d'etat. He declared however, his belief that the country was in favour of the Duke of Genoa; and, in all probability, the Duke of Genoa would soon be proclaimed King of Spain.

Consumptives, try Dr. J. Briggs' Throat and Lung Healer. It will relieve and cure you. For all diseases of the Throat, Chest, and Lungs, nothing can surpass its beneficial effects. Sold by E. H. Parker and R. White, Kingston; and all Druggists.

Catarrh, a disease which distresses us and disgusts our friends, can be instantly relieved and quickly cured by using Dr. J. Briggs' Alterantor, an invaluable Remedy for all pain and inflammation. Sold by E. H. Parker and R. White, Kingston; and all Druggists.

Inverted Toe-Nails are a very painful disease, generally the result of wearing tight shoes, and is usually accompanied with more or less inflammation, and, at times, ulceration. The great toe is the one usually attacked. At first, there is only a little uneasiness, which causes when the shoe or boot is removed from the foot; after a time the part becomes tender or inflamed, and the corner or edge of the nail in some, and arched notes. Ulceration eventually ensues, proud flesh appears, and the pain becomes very severe. For the sloughing off of the proud flesh, healing the ulceration, and eventually curing the toe, use Dr. J. Briggs' Modern Curative, according to directions. Sold by Druggists and Country Dealers. Dr. J. Briggs & Co., Proprietors, 209 Broadway, N. Y., and No. 6 King St. West, Toronto.

THE EDITOR'S TABLE—No. 510.

New Publications received last week:

THE INSOLVENT ACT OF 1869. By John Popham, Barrister-at-law; Dawson Brothers, Montreal. 12m. pp. 238.

This is a very useful, and much needed publication. Nova Scotia and New Brunswick having joined themselves to Quebec and Ontario, it was deemed advisable to have but one Insolvent Law, and, therefore, this Act was passed. It contains some important changes from that of 1864, which all Official Assignees should carefully study. The present law was therefore passed—and this little manual is intended to illustrate the legal meaning of certain sections of the law chiefly by decisions of the Courts of Ontario and Quebec on analogous sections of the Act of 1864; and of others, by decisions of the English, Scotch, and French tribunals. It is very nicely printed.

THE MANUFACTURER AND BUILDER for November. Western & Co., New York, $1.50.

THE FARMERS' ADVOCATE for Dec. Wm. Weld, London, Ont. $10.

BALLOU'S MONTHLY MAGAZINE for January, 1870. Elliott, Thomas & Talbot, Boston. $1.50.

This is an old friend come back to 'Our Table' much improved. It is really a very handsome, interesting, domestic Magazine, very popular with the fair sex. We hope to see it regularly on 'Our Table.'

THE INTERNATIONAL RAILWAY GUIDE for December. C. R. Chisholm & Co., Montreal. 10 cents.

THE AMERICAN STOCK BOOK for December. N. P. Boyce & Co., Parkesburg, Penn. $1.

The publishers of this Journal, wishing to place a copy of that publication in the hands of every Farmer, Planter, and Stock Breeder in the country, have put up 100,000 packages, containing a specimen copy, large illustrated Show Bill, a premium list, and one of the following 25 cent Books: Horseman's, Hog Breeder's, Sheep Breeder's, Dairyman's or Poultry Breeder's Manual. These packages they offer to send free and post-paid to all who apply for them. We hope all our farmer friends will avail themselves of this generous offer, as the Premium list contains many articles, such as Blooded Cattle, Sheep, Hogs, Poultry, Potatoes, Seeds, Agricultural Implements, Sewing Machines, Books, Watches, &c., &c, that can easily be obtained by a few days' canvassing for this popular Journal, which is published at the low price of $1 a year.

GODEY'S LADY'S BOOK for January, 1870. L. A. Godey, Philadelphia. $3.

Time and again have we had the pleasure of uniting our voice with the thousands of editors throughout the United States in praise of this valuable household guide. The present number is as perfect a Magazine as could be desired. Besides the usual attractive features which commend this number it contains a portrait of the publisher, who for a long period of forty years has done so much to make this periodical the leading one of America. There is not a department in which women of any class can possess an interest, be it useful or ornamental, that he does not devote his pages to. There is an originality and gracefulness in every issue that goes far to place it above other publications of a similar character. As to the engravings, we never saw finer ones in any Magazine.

JOURNAL OF EDUCATION for November. Province of Quebec. E. Senecal, Montreal. $1.

THE CANADIAN ILLUSTRATED NEWS for December 11th. G. E. Desbarats, Montreal. 10 cents.

There was only one thing wanting to render this illustrated newspaper perfection of its kind, and that was the clearness of its leggotypes, which we are happy to say are getting clearer, that is better printed, with every number.

FIGARO for Nov. 17th. Hudson & Menet, New York.

This lively little sheet visits us now and then, and when it does come, we read every line of it. Theatricals and Items of Masonry are its chief attractions.

THE AMERICAN ARTISAN for December 8th. Brown, Coombs & Co., New York. $2.

We shall take an early opportunity to publish the Prospectus for 1870 of this journal.

THE LAW COURTS AND MUNICIPAL GAZETTE for November. W. C. Chewett & Co., Toronto. $2.

THE GALAXY for 1870. Sheldon & Co., New York. $4.

'The Galaxy's' programme for 1870 is, in every respect, a very inviting one. A new story from Mrs. Edwards, the author of 'Susan Fielding,' 'Archie Lovell,' etc., and one of the very best novelists writing the English language, is promised to begin, probably, on the completion of Mr. Reade's story. Anthony Trollope will furnish a series of 'Editor's Tales,' in which he will work an entirely new vein. Parke Godwin, one of the ablest of American writers, will give 'The Galaxy' a series of noteworthy articles on historical subjects. Richard Grant White will continue his critical and social essays. Justin McCarthy, whose skill as an effective magazine writer is perhaps unequalled, will supply critical analyses of prominent individuals in politics, science and letters. A very attractive series of articles will be that of a late Ecclesiastic of the Roman Catholic Church, in which he will give personal recollections of the interior life of Rome, describing the character and daily life of the Pope, the cardinals, the priests, monks, etc. Another series likely to attract attention will be one dealing trenchantly with the society of to-day, under a unique form.

PETERSON'S LADIES' NATIONAL MAGAZINE for January, 1870. C. J. Peterson, Philadelphia. $2.

Any gentlemen that wants to give a lady friend a present ought to send her 'Peterson's Ladies' Magazine' for 1870, as it promises to be better than ever, and Peterson always keeps his promise. It would be a very interesting and useful gift. The January number of this most excellent Magazine is on our table, with two most splendid steel engravings. The first one is called 'Parted by Fate,' and is accompanied with a very powerful story by Frank Lee Benedict. The second is called 'A Bitter Morning,' and represents two children skating on the ice. This is one of the most cunning pictures we have seen for a long time. As for Peterson's fashion plates, they can't be beat. We cannot understand how Peterson can afford to give the superb colored Berlin patterns he does, as every color in these patterns has to be printed separately, which costs excessively.

THE NEW YORK ALBION for December 4. Kinahan Cornwallis, New York. 10 cents.

"CANADA.—Wanted, a well-informed correspondent, resident in Canada. Address, stating particulars, New York Albion Office, New York."

We are glad to see the above, for the want of a correct Canada Correspondent has been felt by its Canada readers since the lamented death of its late contributor. The Albion is a first class newspaper, much valued for its many excellencies; valued both in Canada and at Home for the soundness of its views. Here particularly, where its circulation is very large, no newspaper stands higher in public opinion; but of late it has been losing ground, chiefly because of the unsoundness of its Canadian intelligence. We do not mean politically but generally. And in its facts, it is now often incorrect. Witness the account of the forming of the Grand Lodge of Canada—a tissue of improbabilities and impossibilities. As we have always wished well to this Journal, let us hope that it will obtain what now it greatly needs, a good reliable Canadian Correspondent.

APPLETON'S JOURNAL for December 18. D. Appleton & Co., New York. 10 cents.

DIOGENES for December 10. Montreal. 5 cents.

A very spirited Number. The Cartoon—'The Waking dreams of Beauty,' is very good.

THE PHRENOLOGICAL JOURNAL for 1870. S. R. Wells, New York. $3.00.

This Pictorial Journal for January, appears in bright array! A new form, new types, numerous rich illustrations, with sound and sensible reading matter renders this the best ever issued. It contains Hon S. Fisher, of the U. S. Patent Office; De Lesseps, of the Suez Canal; President Cespedes, of Cuba; George Peabody; Dr. Tischendorff, the eminent Biblical Scholar; Portraits — Steam, Electricity, Scientific Discovery, Anatomy, Physiology, Medicine, Phrenology; Brain Waves—How thought and sentiment are transmitted; What can I do Best?; The Faces we Meet; What they tell us;—An afternoon at '389;' The Wasp Waist—Its physiology; Application—Its culture; Our Agricultural Resources—Productions during the past fifty years; Natural History—Will a horse hair become a snake? The Hedge-hog—Illustrated; The Sponge—Its Origin, growth, and uses; Joan of Arc. This favorite Journal has now reached its 50th vol, and appears in a handsome magazine form.

Notes.

The Malarias are unusually epidemic in Cuba. Out of 27,000 Spanish troops who came to the island in 1868, 21,000 of them fell under this death-dealing sun. Penned within cities, and, when they sally out, indulging in eating large quantities of fruit, disease peculiar to the climate makes easy triumph over the foreigner. Of the 13,500 men who have arrived there from Spain since last May, 7,600 have died by cholera and black vomit, or yellow fever.

The young Duke of Genoa has expressed his firm determination "not to accept the Crown of Spain, either now or at any time."

Boston has five or six hunded millions of assessed valuation, New York eight or nine hundred millions. The two cities combined own nearly one-tenth of the entire property of the country. The city of Boston alone has more wealth than the State of Maine, New Hampshire, and Vermont combined. New York has some sixty or seventy millions of banking capital, Boston nearly fifty millions. The two cities combined have within their limits (not including any suburban institutions) nearly one-third of the entire banking capital of the United States.

The large majority on the question of the payment, out of the Ontario Exchequer, of the Judges sitting in appeal, like the majority on the proposal to entrust the Commissioner of Public Works with $200,000, for drainage experiments—shows how thoroughly Ministers enjoy the confidence of the House.

Red River.

FORT GARRY OCCUPIED.

St. Paul, Minn., Dec 11.

A Pembina letter dated November 28th, received, says nothing new has transpired. A small force guards the road at St. Norbert. Sixty-five men occupy Fort Garry. Believed insurgents won't dissolve till they frame a permanent Government. Mr. McDougall is quietly residing at Pembina.

O'Donovan Rossa.

It is hardly to be wondered at that the Fenian O'Donovan Rossa, was elected as member for the British Parliament for Tipperary. It appears that the Fenians in the constituency threatened to shoot any one who voted against their man, and the consequence was that two-thirds of the electors thought prudence the better part of valor, and staid away from the polls.

The Œcumenical Council.

The gathering at Rome fails to produce any great stir on this side of the Atlantic. Whether the age is more interested in things material than in things spiritual, or whether Cardinal Antonelli's staff of reporters are not sufficiently enterprising, the fact is that the Œcumenical Council excites little agitation outside of Catholic circles. On the whole, the absence of useless excitement speaks well for this generation. A hundred years ago all the sects and parties opposed to the Holy See would have been roused to anger, and fierce anathemas would have been launched from all Protestant pulpits against the alleged idolitry of the Church of Rome. But at the present time all is quiet in the Protestant ranks. What a change from earlier times!

Trust and Loan Company.

The report of the Trust and Loan Company of Upper Canada which was presented at the annual meeting on the 30th ult., shows an available total of £18,375, including a previous balance of £3,623, and recommends a dividend of 8 per cent. per annum less income tax, and the appropriation of £4,452 to reserve, which will leave £3,923 to be carried forward. The reserve fund has been charged with £1,520 for losses on realization of securities and after adding the present appropriation it will stand at £73,550. "The demand for loans in Canada," says the report, "is not active; but investments on mortgage have increased during the last six months, and the accounts received of the recent harvest and of the general condition of the agricultural classes are good."

Dr. J. Briggs' Pile Remedy is acknowledged by all who have tried it (and their name is Legion) to be the best, most successful and efficacious Remedy ever used for that disease. Sold by E. H. Parker and R. White, Kingston; and all Druggists.

Frosted Feet, Chilblains, Corns, Bunions, Bad Nails, &c., are positively cured by the use of Dr. J. Briggs' Modern Curative. This remedy has been compounded with great care, and, used as directed, never fails. Sold by E. H. Parker and R. White, Kingston; and all Druggists.

Consumption is a distressing and fatal disease, characterized by cough, debility, emaciation, purulent expectoration, and hectic fever. It chiefly attacks the young, the fair, and the amiable, and is generally considered incurable. In certain northern latitudes it prevails with the greatest violence, owing, probably, to the frequent atmospherical changes from heat to cold, dryness to dampness, &c. It is also found to exist in some warm climates. Some persons consider it contagious; this, however, if true at all, must occur very rarely, and only among those who, having a predisposition to the disease, sleep with a patient in whom the disease exists in an ulcerated stage, and is attended with fetid expectoration, and cadaverous night-sweats. For restoring to health or relieving the sufferer, when this fearful disease is too far advanced, Dr. J. Briggs' Renovator, the Great Throat and Lung Healer, stands unrivalled. A few doses proves its excellence. Dr. J. Briggs & Co., Proprietors. Sold by Druggists and County Dealers. Office, 209 Broadway, New York, and No. 6 King St. West, Toronto.
