

## More action in store for Tigers

**From pg. 33**  
over three innings in Ontario's opening 11-3 win against B.C., drove in three runs during the tourney and had four putouts as an outfielder. He allowed just one unearned run in eight innings of work.

The Tigers' season isn't over yet as they'll play in the OBA championships on the Labour Day weekend in North York, where they'll be searching for their fourth consecutive provincial championship as a group.

Douglas said he'll join older brother Jacob next season in the lineup of London's

Great Lake Canadians, who'll play in the newly formed Canadian Premier Baseball League beginning in the spring of 2016.

**CNE TOURNEY:** It was one and done for both Halton Hills Eagles' peewee teams that entered this year's Canadian National Exhibition 32-team single-elimination tournament this week in Toronto.

The peewee AA Eagles committed four errors that resulted in five runs in their 8-6 loss to North York AAA, while the Tier II squad was on the short end of a 12-1 decision against Royal York.

## Defence proves key to success

**From pg. 33**  
under-8 youth soccer and those half-dozen players are now in their early 20s, said coach Scott Brydie, whose squad sits in second place in the six-team loop at 6-3-2 with four regular-season games left.

The Mustangs also advanced to the League Cup final a couple of weeks ago in Milton and had the undefeated and more-experienced Burlington Clash City side on its heels before giving up a last-minute goal in a 3-2 loss.

One of the Georgetown club's strengths is a stingy defence fortified by the goalkeeping of local native Martin Omes, a Mount Allison grad who has recorded five shutouts.

On offence, the team is led by Josh Sinopoli's five goals, with three apiece from Liam Adamson and Joao Ngoma.

"We don't score a lot of goals, which is something we can improve on by maybe getting another striker at some point," Brydie said.

## Team of the Week

After finishing as finalists at a 16-team tournament in London, the Halton Hills minor peewee Eagles broke through and took top spot at the Barrie Minor Baseball 12-team event earlier this month, winning five straight games to capture the title. Preliminary round — Halton Hills 11, Innisfil 4; Halton Hills 10, Clarington 5; Halton Hills 8, Brantford 6 Semifinals: Halton Hills 13, Ajax 4 Championship: Halton Hills 17, Barrie 8. Here team members, front, from left, are: Joseph Stoddart, Jordan Adams, Sam Dunn, Zack Rogers, Edward MacDonald, Evan Ashe Back row: Coach Tim Kerr, Keegan Darragh, coach Mike Mattachini, Zach Mattachini, Evan Brasil, coach Frank Brasil, Austin Crawford, coach Mike Rogers, Aidan Craig. Absent: Alex Gombocz.

### What Municipal Approvals will I Need to Build My Project? Can an Architect Help?

There is a large public misunderstanding with respect to obtaining "Approvals" to proceed with a Building Project. "Approval" entails two distinct but related issues, "Land Use" and "Building Permit". A Client, may pursue answers to one issue but will not be aware of the other.

"Land Use" issues deal with Zoning By-laws as set out by the Municipality and Planning Law as set out by the Municipality, the Region or the Province. This may also include meeting the requirements of Conservation Authorities, the Ministry of the Environment, and others.

"Building Permit" issues, deal with "construction" (as defined under the "Ontario Building Code Act"). Building Permit issues deal with the Ontario Building Code, and the Ontario Fire Code, Electrical Safety Act, and other Acts and Construction Standards.

A lot to know! Most Clients do not know the questions that need answers or who they should ask!

An Architect can provide Clients with potential sources for answers as well as the implications on a Clients Property or Building Project.

I would not advise utilizing "off the cuff" remarks regarding Permits from friends, Realtors or Contractors. Clients should consider utilizing the services of an Architect who can provide continuity on behalf of the Client through the Design, Approval and Implementation of the Project.

Should a Minor Variance be required for a Project that may not meet Zoning Requirements, an Architect can assist with necessary Drawings, Applications and Hearings.

Should Site Plan Review and Approval be necessary, an Architect can assist in assembling a Team of professionals including Planners, Site Engineering, Cost Control and Landscape Architecture. Architects can also assist Clients with obtaining other Permits as necessary for Conservation Authorities, MOE and others.

Needless to say the Approvals process is complex and "Shark Invested Water". I advise caution and care – and allow for lots of time for the process to unfold!

**Q:** I have heard a lot about kids health and backpacks. What should I look for when I buy my child's back pack?

**A:** Here are some helpful guidelines

- Choose shoulder straps that are padded and wide, but allow free arm movement even in a winter coat
- Consider back pack compartments to prevent shifting of the contents
- Adjust backpack straps so the bottom of the pack sits above the beltline.
- Make sure that it's cool/ hip/ happening or whatever term is being used these days
- Also be as selective as possible with what is placed in the backpack the child should be able to get the pack on and off without straining.

Call us if you have any other questions... I posted a few more tips on our website under children's health at [www.rossphysio.com](http://www.rossphysio.com) under children's health, bottom left of the home page!
