CONQUERING AND TO CONQUER.

Many fact more conclusive than another were necessary to prove the great benefits derived from the use of BOOLE'S CELEBRATED HYPERION FLUID, now hailed throughout the world as the great American Hair Tonic, it would be that of its rapid sale—quadrupled every year—and the immense number of certificates from all parts of the world, extolling its manifold virtues when everything else had failed. There is no mistake about it, it effects the Hair but this one cure. In your Hair thin, coarse, wiry, turning bald or grey, BOOLE'S HYPERION FLUID will restore it to its pristine beauty and luxuriance. It is the only article to cure scurf and dandruff, and is highly esteemed for headaches and colds in the head. On children's heads it keeps the foundation of a good head of Hair, and at this early period it is indispensable. Price 25, 50 and 75 cents per Bottle.

BOOLE'S ELECTRIC HAIR DYE is another wonder of the age. It has now been before the public for several years, and wherever introduced the sales have been beyond all precedent. Specimens have been sent to a number of exhibitions and wherever it has come into competition with other preparations for dying in intensest superiority has been acknowledged in every instance by awards of Silver Medals and Diplomas. It is a liquid easy of application, and turns Hair to a beautiful Brown or Black without staining the skin. In fact the inventor asserts, and every person who have carefully used it will join in the statement, that this is the best Hair Dye in the world. It is now universally preferred in London and Paris. Price, 50 cents, 1.00 1.50.

BOOLE'S AMOLIENT SHAVING COMPOUND renders this usually unpleasant operation (Shaving) a comfort luxury.

Boole's Histoire, or Blanc de Cytheria removes Freckles or Tan from the face in the shortest possible time, and is acknowledge to the very best article for beautifying the complexion.

To be had Wholesale and Retail of W. BOOLE, 277 Washington Street, Boston; and may be had in this city of Palmer & Cozzens Harbor & Co., Druggists.

In England, of R. HOVENDEN, Crown Street, Finsbury Square, and King Street, Regent Street, London; of W. JOLBY, 69 Market Street, Manchester; and of agents throughout the world. 181

Dr. James McClintock's Anti-Bilious Pills.

Surpassing all others for their excellent action on the liver, in removing superfluous bile, and cleansing the Stomach from those acrid secretions which cause Headache, Nausea, Dizziness, Motes or Specks before the eyes, Ringing in the ears, pain in the right side or Shoulder, costiveness, Yellowness around eyes, Clay-Colored stools, &c., &c., symptoms which, if neglected, are the forerunners of serious and often fatal diseases. These invaluable Pills are put up with full directions for use, at 25 cents per box. Five boxes $1.

New York, Dec. 1, 1854.

Dr. James McClintock—Dear Sir—Your Anti-Bilious Pills have done more for me than any medicine I have ever taken. They act like a charm, and give no pain or inconvenience. I can heartly recommend them to all who like myself suffer from an occasional bilious attack.

J. K. Kane,
613 Broadway and Irving House.

Cholera Infantum (May Prove Fatal)—Dr. McClintock's Diarrhea Cordial and Cholera Preventive, a preparation recently introduced, and never known to fail, by the eminent Professor James McClintock, in his extensive private practice in the hospitals of Philadelphia, and elsewhere, is a medicine which should be kept at hand by all families, in hotels, on ships and steamboats, and wherever the services of a physician cannot be had at a moments warning. Dysentery and Bowel Complaints, incident to this prevailing season, are promptly cured by this excellent medicine. Sold by all Druggists, and by E. W. Palmer and E. H. Parker, Kingston, C. W. 163

Holloway's Pills, the most celebrated Remedy in the World for the cure of diseases of the Liver and Bowels. Colonel Alga, of Niagara, was for the period of nineteen years a complete misery to himself, and a burthen to his friends, he suffered so severely and continuously from liver complaint, and a disordered stomach, that he was constantly for weeks together confined to his bed, the doctors did him no good, and he therefore left off consulting them. Nine weeks ago he commenced using Holloway's Pills, and his wife called this week at the store of Professor Holloway, to acknowledge most gratefully that her husband is quite cured. Professor Holloway hopes that the thousands and others who have been benefited will now come forward. 169

The Poetry of Physic.—Doses have always been associated in our minds with wry faces, and medicine has seemed from the days of childhood, another word for nausea and disgust. Its remedies were the worst part of sickness, and pain was not so hard to bear as the revolting potions we were compelled to swallow for its relief. Dr. Ayer's preparations herald another era. His Cherry Pectoral is like honey on the tongue, and healing balm in the stomach. His Pills! Try them—they are sweet morsels to the taste, and glide unnoticed over the palate, but their energy although wrapped up is there, and strikes with telling force to the very foundation of disease.—[Cincinnati Citizen, O.

To what Extremes it is Hard by Public Men.—Hon. Nath'l F. Williams, formerly Collector of the Port of Baltimore, Md., writes: "I have never, since autumn of 1844, (nineteen years,) been without the Khaumagra Pulmonary Balsam, having found it superior to all other preparations, for my constitution, troublesome sore throat, hoarseness, colds and severe coughs, to which I have been subject, from youth."—For sale in Kingston, by E. W. Palmer. 163

We seldom recommend a manufactured medicine, believing that in most cases, nature herself perfects a cure more quickly and effectually than can be accomplished by the vegetables and minerals and medical skill. But in the matter of dyspepsia, there are chronic features about it, which very often defy all the efforts of nature to create a healthy action of the digestive organs, and it not unfrequently happens that thousands suffer for years, diseased both in body and in mind, from indigestion and its kindred ills. To such, Hoofland's German Bitters, prepared by Dr. C. M. Jackson, are truly a most valuable preparation. It is a tonic medicine, giving a healthy action to the stomach, and will be found highly serviceable at all seasons, but especially during the spring. Dyspepsia can only be cured by a patient perseverance in one course of treatment, and to all those suffering under the sad malady we would recommend an application to the Depot of Hoofland's German Bitters, 120 Arch Street Philadelphia.—[Philadelphia Inquirer.]—See advertisement. 163

The Daily British Whig.

"Optier per Orbem Dicor."

TUSEDAY MORNING, AUG. 14, 1855.

Letters and Telegraphs Received.

E. W., New York; C. C., Chatham; T. H., London; S. W. Montreal; M. O. & M., Auburn; D. F., E. Brockville; O. W., California.

Vienna, July 16, 1855.

The speeches of Montalembert and Lord John Russell supporting, as they do, the policy of Austria, have given great satisfaction to the majority of the population of Vienna, and our papers have discussed them again and again, till every paragraph has been worn threadbare. As you will no doubt receive accounts of these speeches from other quarters than Vienna, I shall make no further remarks upon them.

The Prussian reply to the Austrian proposal ranks as the great feature of the week, and though it has not as yet been made public, its contents are pretty generally known. Prussia refuses her support to Austria in laying the "four points" before the Bund, but, at the same time, considers it fitting that the confederate Army of Germany should be maintained on a footing of war, and in this respect she is ready and willing to put forward her voice at the Bund.—Though the letter was received in Vienna on the 6th, no answer has as yet been returned, or if it has, the matter has hitherto been kept most profoundly secret. What the course of Austria will be no one knows, but it is generally thought that she will abandon her purpose if she be not sure of a majority.

The Prince of Prussia has started on a visit to the Court of St. Petersburgh, a fact which has caused much discussion in all quarters here. It is generally asserted that his visit is entirely unconnected with political affairs, but the statement meets with little belief among the people and the press of Vienna; and, nevertheless it is probable it meets with as great an amount of credit as that to which it is entitled. The Prince of Prussia, however, if report be true, it is said to be hostile to Russia, and to entertain views totally at variance with those professed by his brother.

It is generally reported that thirteen levies of troops is to be made in Russia. Twenty more souls out of every 1 000 are to be drawn for military service, and those who have been dismissed after twenty-five years' duty are called on to bear arms again. Meantime Germany is agitating in fact for a reduction of her army, and the example set by Austria is likely to be followed by several minor States. Prussia is fortifying her ports in the Baltic, and everything seems to indicate that she considers herself likely to be involved in a struggle with the Western Powers. How far such a notion will be verified remains yet to be seen.

The Emperor returned from his tour of inspection of the 3rd and 11th armies in Gallicia on the evening of the 6th, and has issued an order of the day in which he expresses his unqualified satisfaction of the general condition of the troops. He expresses his warmest thanks to General Hess, the commander-in-chief of the above armies, and desires him to convey his acknowledgments to the officers under his command, and to notify his general satisfaction to the troops, and especially his warm approbation of the manner in which they conducted themselves during the last trying winter.

It is generally said that a grave change will shortly take place in the position of the Austrian Jews. It is well known that they are altogether prohibited from the possession of land, and from holding office in the State of any description whatever. The subject has lately been brought under the Minister of Interior, and it is not unlikely that all disabilities will shortly be removed. The better class of Austrian Jews are men of exceedingly good education, and the measure will no doubt be advantageous to the State, and meet with general approval.

Baron Rothschild, the great English capitalist, passed through Vienna a short time since and during a sojourn for a few days which he made in that city, had an interview with the Austrian authorities relative to the purchase of the railways in Lombardy and the construction of others. It is said that the reply was of a very satisfactory character, and the Baron has consequently made provincial arrangements for the construction of three new lines; one through Novara, another through Lodi and Cremona, and a third through Lesto Calende. It is probable that operations will soon begin.

DOMESTIC.

Something New. — President Pierce with a numerous retinue, will shortly visit Montreal and Quebec, and the principal cities of this Province.

Robbery—Pursuit and Apprehension of the Offender.—A Mr. Abraham Levi, a New York jeweller, arrived in London, C. W., on Friday evening last bearing a warrant for the apprehension of a brother Israelite named Burnsteine, who had illegally deprived him of $550 worth of valuable gold and silver articles. The document was placed in the hands of officer Shadwell for execution, who immediately made the necessary inquiries, and, through the instrumentality of the underground telegraph, found that his man had gone to Chatham. Shadwell proceeded to that town and succeeded in securing Burnsteine, whom he brought before Justice McRae, and he was ordered to find good bail for his appearance before that gentleman on Thursday next. About $200 worth of the missing jewellery have been recovered. Mr. Levi was so much pleased with Shadwell's promptitude and activity in serving the warrant that he has presented that officer with a very valuable gold ring. It is to be hoped that the other members of the police force will emulate Shadwell's conduct and that they will form for themselves a character for efficiency of which it is not in the power of many of our sister cities to boast.—[London Free Press.

Arrest of the Reeve of Bosanquet.—Our readers will remember that we announced a short time ago that a warrant had been issued for the apprehension of William Ketchum, Reeve of Bosanquet, on a charge of having taken a large sum of money, the property of a farmer named Donald McDonald. On Tuesday night last officers Shadwell and McWhinnie received information that Ketchum was staying at Mr. Strong's Hotel and they accordingly proceeded to that establishment and took him into custody. Witnesses have been subpœned and at the close of an examination before the magistrates we will furnish our readers with the full particulars of the alleged robbery. Some strange revelations are expected to be made.

Railway Accident. — The Montreal Herald of Tuesday, says:—We learn from Mr. Howes, the superintendent of the Express Company, that an accident occurred on the Vermont Central Railroad, near Canaan, N. H., on Saturday last, by which Mr. B. P. Cheney, one of the proprietors of the Express line of this city, was seriously injured. It appears that the car in which Mr. Cheney happened to be, together with a messenger, ran off the track. Mr. Cheney's right arm was so much injured as to make an immediate amputation at the shoulder necessary. The messenger escaped unhurt. According to a message received by telegraph yesterday, Mr. Cheney is doing well.

Two children named Leeson, aged seven and nine years, were burned in a shanty near Guelph on the line of the Grand Trunk Railroad, on Saturday evening last. They had fastened the door of the shanty inside in the absence of their parents and when the fire broke out they were unable to escape, and therefore perished in the flames.

A murder was committed on Thursday last, at Coldwater, in the township of Medonte, arising, as is stated, from jealousy. It seems, from what we learn, that a person named Poukins, who held the responsible situation of teacher in St. James's Parochial School in this city, had some intimacy with a family named Kennedy, now residing at the above-mentioned place, but formerly of this city, and sent a letter to Mrs. Kennedy intimating his intention to pay them a visit during school vacation. Accordingly, on Thursday, he arrived at Coldwater. Kennedy, from some cause or other which we have not learned, suspected an improper motive in Poukins' visit, and resolved to be revenged. Having procured a double-barrelled gun, he awaited Poukins' approach to the house, and as soon as he came within distance, fired upon him, killing him almost instantly. Kennedy, we learn, is a shipbuilder by trade. The above are the circumstances of the case, as they have come to our knowledge.

Admitted on Bail.—William Ketchum, Reeve of Bosanquet, who was arrested, as mentioned in the Free Press, on a charge of robbery, has been brought before J. Morrell, Esq., J. P., and admitted on bail—himself in £150 and two surities of £150 each, to appear when called on. The examination has not been commenced in consequence of the absence of material witnesses. J. Harris, Esq., has been retained for the prosecution and J. Daniell, Esq. for the defence.

A Colony of Germans.—The Chicago Tribune states that a Colony of Germans are about to settle on the Michigan coast, opposite the South Manitou Island. The colony has purchased about 700 acres of land there, and the settlement or town is to be called North Unity. Six or seven hundred Germans are preparing to join the colony, most of them recent emigrants to this country. The propeller also takes up a pile driver, with which to construct a dock and breakwater at that point.

The Montreal Pilot says that an awful catastrophe occurred at Rouse's Point, Lower Canada, on Saturday evening, the 28th ultimo, involving the death of three persons. A Mrs. Mary Kanally had procured a barrel of whisky from Montreal which some means caught fire, and the flames spread so suddenly that two of the children of Mrs. Kanally, and a man by the name of Patrick M'Grath, were burned to death.—Mrs. Kanally herself was also severely burnt, and was not, at last accounts, expected to live. Coroner Douglas was called and a jury empanelled on Monday, who brought in a verdict in accordance with the facts above stated.

The Reciprocity Treaty and the Wheat Crop.—The Oswego Times says: No class of our citizens will probably derive greater benefits from reciprocal free trade than our millers. To say nothing of the Canadian wheat crop, the removal of the 20 per cent duty opens to them the flour markets of the St. Lawrence, which are frequently better than the Eastern markets of the sea-board, as has been the case the present season.—Most of the flour manufactured here is now being shipped to Montreal and Quebec, those markets being better than the New York market. This will not always be the case, when prices are reduced to the export value, but the large consumption of the lower provinces, which buy most of their breadstuffs, will always give importance to the markets of the St. Lawrence.

Dog Shooting at Toronto.—The Police have been very active of late in shooting any dogs which they might find at large unmuzzled. A few days since a gentleman had a favorite animal shot by a policeman, who had a dog himself which was in the habit of following him on his beat. "What is sauce for the goose is sauce for the gander," thought the gentleman; so, procuring a gun, he soon despatched the policeman's canine companion.

The Foreign Legion.—A great many recruits continue to come in to join the Foreign Legion, at Niagara, and are weekly shipped off for Laprarie and Halifax, from which latter place 500 have been embarked for England. The gallant Duke of Cambridge has been appointed Commander-in-Chief of the Legion, and a great many able German officers, among them, Carlavon Blutcher, Grandson of the immortal Marshall Blutcher, have been commissioned as officers in the legion.

The Sarah has taken two hundred tons, of gunpowder on board at Montreal, and after taking three hundred more at Quebec will sail for Gibraltar.

Belleville, Aug. 11.

About two o'clock this morning, a most disastrious fire broke out in the stable belonging to the Dafoe House, which with the sheds, &c., were entirely consumed. Two houses, an omnibus, some carriages and buggies were burnt; also the third and fourth storeys of the new stone building lately erected by Mr. Dafoe, and attached to the Dafoe, House forming part of the main building, it is now burning. The Dafoe House was owned by Mr. Dafoe, and occupied by O. S. Oakes. Mr Dafoe's loss is very heavy. We are informed that the insurance on both buildings is only £5000. No insurance on Mr. Oakes' furniture, part of which was saved.

Notices of New Books, Magazines, &c.

Memoirs of James Gordon Bennett and his Times. By a Journalist.—Stringer & Townsend, New York; John Duff, Kingston. 12mo. pp. 488. $1 bound.

This work has long been promised. It purports to be the Life and Times of the Editor of the New York Herald, one of the most remarkable men of the age, and one against whom more has been said and written than against any other living man. These Memoirs do not so much pretend to be panegerical or eulogistic, as they are explanatory of Mr. Bennett's career. They trace his actions since he first was a humble proof reader in Boston until he became what he unquestionably is, "the Napoleon of the Press." Whether Mr. Bennett be a very bad man, or a very badly abused man, the reader will not discover from these pages; but he will learn a great many truths that he does not know, and cannot fail being of opinion that Mr. Bennett, good or bad, is a very great man. Who the writer is, we know not, nor have we seen any allusion to the authorship in any of the New York papers, but he has executed his task very pleasingly. All he tells of his hero personally he may have known of himself, seen told by Mr. Bennett, or gathered from the columns of the Herald, for it does not amount to much; but of Mr. Bennett's Journalism, his isms, his intrigues and his escapades he is very prolix and very entertaining. We heartily commend this work to the public.

Barney O'Rierdon and other Irish Tales. By Samuel Lover. Garrett and Co. New York; J. Duff, Kingston. 8vo. pp. 112. 25 cents.

This is a compilation of several of Mr. Lover's more popular short stories. They are all old acquaintances, but not the less welcome or pleasing on that account. The author of "Handy Andy" writes so naturally and so well that we cannot meet with anything from his pen that will not bear a second perusal.

Chamber's Journal for August. New York Edition. Bunce & Brother; J. Duff, Kingston. $1.50.

This is a reprint of Chambers' excellent Weekly Magazine done up in a monthly form and so issued. It is as usual replete with useful and pleasing matter, nearly the whole of it original, and among other things, "Karl Hartmann," a story of the Crimea, a tale begun and ended in the Number before us.

The Westminster Review for July. L. Scott & Co., New York; E. W. Palmer, Kingston. $3.

The weather has been a little too hot to read Reviews, still we have managed to look into this Number our especial favorite Quarterly. It contains an excellent article on the "Physiological Errors of Teetotalism," showing too plainly for the satisfaction of its deluded votaries, that it cannot maintain itself, because it is not healthful; that men do not live longer, or combat better with disease, because they totally abstain from vinous or alcoholic drinks; and that to debar one's self from the moderate enjoyment of the bounties of the Creator is positively a hindrance to longevity. This is a very cleverly written paper, and we recommend its attentive perusal to the advocates of the Maine Liquor Law. The other articles are "Spinosa," "International Immorality," "Self Education," "Decline of Party Government," "Earth and Man," "Foreign Policy of the United States," and "Contemporary Literature."

The Panorama of Life and Literature for August. Littell, Son & Co., Boston. $3.

This is the Second Number of the Messrs. Littell's new Magazine, a compilation from the best English Periodicals like their "Living Age," but appearing monthly instead of weekly. This Number contains a very charmingly written tale called "Love's Provocations," which all girls in their teens should read and remember. It also contains a continuation of "Zaidee," from Blackwood, and a hundred other good things that we have neither time or space to mention.

THE INDIAN STUDENT.

Oh! give me back my beaded bow—
My cap and feather give them back;
To chase o'er hills the bounding roe,
And follow on the otter's track.
Ye took me from my native wilds,
Where all was free, was bright, was Blest;
Ye said the Indian hunter's child,
In classic halls and bowers should rest.

Long have I dwelt within those walls—
I've pored o'er ancient pages long;
I hate those antiquated halls,
I hate the Grecian trophy song.
My soul was formed for nobler deeds;
Was formed o'er Indian plains to roam;
Your bells of call no more I'll heed,
I long to see my native home.

I wish I were as I have been—
With bended bow and blood-hound free;
Hunting the roe o'er forest glen,
Oh! that's the life designed for me.
There, too, my brothers bound as free
As the wild eagle's soaring wing;
There, too, my sisters think on me,
At eve when their low chant they sing.

Yes, and perhaps—away! away!
How can I think and linger here;
In dreams I hear their lonely lay,
In dreams I see the silent tear.
'I is past! 't is done! as free as air,
I'll seek the wildest, deepest shade;
On, on, nor toil, nor foot-steps spare,
I'll greet them in the forest glade.

NEWS OF THE MORNING.

FIRE.

This morning, about 2 o'clock, a fire broke out in the wing of the Lambton Building, Bagot street, occupied by Mr. Urquhart as a dwelling—his store being at the corner. The occupants had a very narrow escape, and the contents of the dwelling house were entirely consumed. The exertions of the firemen confined the fire to that portion of the building in which it originated, there being a good supply of water, and one of the companies, No. 2, having arrived very opportunely. Fortunately there was no wind, or the disaster might have been a serious one.

ON A VISIT TO ENGLAND.

Mr. Sheriff Corbett, Colonel Hill, R. C. R., and Mr. Councillor Millsapp, left Kingston yesterday afternoon to take the Asia at Boston, all on a trip of pleasure to England.

Miss Macarthy's Irish Entertainment.

Miss Marion Macarthy, the Daughter of Mr. Michael Berry Macarthy, the celebrated Irish Comedian, purposes to give her Father's Irish Entertainment in Kingston on Thursday next, August 16th, in the City Hall. Miss Marion Macarthy is certainly a very clever young lady and sings beautifully; but it certainly is a bold undertaking for a girl not yet seventeen years of age, to attempt to entertain an audience during an entire evening. But bold as it is, we have no fears for its success. Miss Macarthy has been well taught, has often accompanied her father in his Tours, and will no doubt do no discredit to her parentage. She has made herself a great favorite in Kingston, and we are quite confident will draw a prodigious House. See Programme.

Public Entertainment.

Brimful and bursting with loyalty, the City Fathers intend entertaining at Public Dinner, the two very intelligent Monkeys who have amused the Children of Kingston, (those who have grown up as well as those who are young,) during the present week. One of the Monkeys is a Sardinian Monkey and the other a Neapolitan Monkey—both nations Allies of the French in the present war.

The Truth Coming Out.

"M. de Belveze stated at the public dinner in Montreal, that his original mission to North America, was to purchase flour in New York on account of his government, to relieve the inhabitants of the St. Pierre Islands, at that time suffering from great scarcity."
