CONQUERING AND TO CONQUER.

HOWLE'S CELEBRATED HAIR DYE is another trophy of the age. Johnny have before, the public for several years, and wherever introduced, the sales have been beyond all precedent. Repeaters have been sold to a number of exhibitions and, whenever it becomes that competition with other preparations for dyeing the human hair, especially has been acknowledged to every purchaser by certificate of Silver Medals and Diplomas. It is a rapid and easy application, and forms a beautiful brown or black without staining the skin, to which the operator attests, and every purchaser who has already used it will join in the testimony, that this is the best Hair Dye in the world. It is now universally preferred in London and Paris. Price, 50 cents. 149 1-2w.

HOWLE'S EXCELLENT SHAVING COMPOUND is another article that highly deserves attention. Shaving is a delicate luxury.

Rapper Hodgson, or Rose of Cyllene, respectfully intimates to the ladies the fact, to the elected portion of them, and to gentlemen, that the very best article for beautifying the complexion.

To Barbers, Hotels and Retail of W. HOWLE, 277 Washington Street, Boston; and may be had in the city of Toronto of C. Gates and Sons & Co., Druggists.

In Kingston, of E. HOWARD, Queen Street, Druggist, Dr. Jones, and Kingston, Druggist, Toronto, A. W. FOLEY, 90 Bleecker Street, Manchester, and of Agents throughout the world. 147

"Ogilvie per Odiem Diem."

WEDNESDAY MORNING, AUG. 15, 1855.

Letters and Telegraphs Received.

S. C. McD., Tamworth; K. K., Colborne; P. M., Dundas.

London, July 27th, 1855.

Government barely surmounted a great danger last Friday night inasmuch as it carried the terms of the Turkish loan by the mere majority of three. Turkey is unable to prolong the war, unless she can obtain a loan of £5,000,000; but this she is not able to do upon her own credit. No security which his Imperial Majesty, the Sultan, can offer would be sufficient to induce the capitalists of Europe to advance a single shilling, and hence it became necessary for his allies to join him in giving a guarantee for the due payment of the interest. This guarantee was signed by the governments of England and France on the 27th ultimo. Accordingly, the House of Commons was called upon to ratify the contract, when, on a division, as we have said, the motion was only carried by a majority of three, out of a house of 272 members, speakers and tellers included. This result was brought about by a coalition of the Opposition, the peace party, some radicals, and the Peelites. And next morning when the world woke up, and found the London press frantic with anticipated danger to the French alliance, it seemed to arrive at a due appreciation of the difficulties of the moment.

The Turkish loan has very heartily produced more than a scene in Parliament.—It had nearly staggered opinion in France, and led to general election; for had ministers been left in a minority on Saturday morning last, these results would probably have followed. The question had not been properly apprehended as to its consequences, and the advanced Tories under Mr. Disraeli, not appreciating the effect of their

[illegible]

withdraw their bills at once, and lay them up for the season.

A similar course would necessarily be adopted by a considerable portion of those now engaged in navigating Lake Ontario. But nothing of the kind, the Commercial says, will be sanctioned by the Secretary of the Treasury, and the only result of the strange movement of the Rochester Collector will be to embarrass commercial men on Lake Ontario for the time, and ultimately bring upon himself the censure of the department. We venture to say that not another Collector on the Frontier would fall into a similar error. In fact we do not give full credit to this story about the Rochester Collector. We are quite certain the American line of boats would not stop at the mouth of the Genesee as they now do, if subjected to the charges stated, which is more than they receive for all the passengers they take and land at that point.

The Crops.—The attempts made by a disinterested class of agriculturists to frighten the country into the belief that the wheat crop has been ruined, are well characterized in the New York Times of August 6th. Our contemporary says:—"The rags, just now, of sending specimen heads of sprouted wheat to editors to frighten them, and through them the public, with stories of damaged crops and prospects of famine prices, does not seem to have the effect desired. Sending a head of damaged wheat as a sample of a whole field, or of a whole district, is very much like carrying about a brick as a specimen of a house. We presume there are no wheat fields in which some shrivelled, or sprouted, or worm-eaten heads could not be found. The farmers had better put a good face upon the present prospect of the crops. And make up their minds to lower prices. We have no doubt there has been some damage done by the rain, but not, we have reason to believe, to any great extent, or sufficient to affect the prices of grain a cent a bushel. Whatever damage may have been done to the wheat by the rain, has been more than compensated by the benefit which the other crops have received from the same cause."

Yacht Race.—A Yacht Race, by the Toronto Yacht Club, came off on Saturday afternoon. It was, we understand, merely preparatory to the Annual Race, open to all the yachts in the Province, to be held next month. The boats started from Finning's Wharf, at one o'clock, P. M. The Storm Queen, belonging to F. Jones, Esq., came in first—making the distance (twenty-five miles,) in four hours and eleven minutes. The Fairy Queen, belonging to W. K. Wells, Esquire, came in second—but four minutes behind her rival. The other yachts arrived at the winning post in the following order:—Wave, Green, Esquire; Rover, J. Hamilton, Esquire; Queen; Osprey,—Baron, Esquire; Cygnet, Dr. Hodder; Nora Creina, Commodore McGrath. The Undine and Jenny were excluded from the races in consequence of having failed to round the buoys, in returning.

French Footman.—A French gentleman, rescued from a ducking in the Thames, and taken to an adjacent tavern, was advised to drink a tumbler of very hot brandy and water, and thus affirmed the waiter who was mixing it:—"Sir, I shall thank you not to make it a fortnight." "A fortnight!" replied Jac, "hadn't you better take it quarterly?" "Oh, yes," said Monsieur, "decently, to be sure, but not a fortnight—not two week."

United States Items.

—Hiram Gourley is still imprisoned in prison at in France, on account of the Crystal Palace exhibition. Hiram says the French post office appointments the papers which contain his own statement of the matter, probably because the Tribune has written in a offensive to the government, but that it utters all sentiments opposed to him to circulate freely. Notwithstanding the imprisonment, he appears to be free to go from or stay in France, and he says he will take his leisure to depart.

—A few months ago an elderly and very genteelly dressed gentleman was found lying senseless upon the sidewalk in Cincinnati. A crowd soon gathered, some of whom said he had a fit, while others said he was drunk. A little girl, apparently six years of age, emerged from the crowd, raised the fallen man's head into her lap, and then used every effort she was able for revived him so as to be able to sell for water, a crutch, and explained that the little girl might accompany him home. He proved to be a retired merchant, and his protection a case of paralysis, while the juvenile Samaritan who contributed to his relief was the daughter of a poor widow. He has so far recovered that on Monday last he rode to the residence of the mother of the child, and presented her with a check for $200, and hung a handsome gold chain around the neck of his little ministering angel, on which was suspended a gold box curiously wrought, upon the cover of which was the following inscription:—"Presented to Mary Cordelia Perkins by her friend William Brothers."

The Louisville Riots.—The Louisville Journal, thus comments upon the riots:—

We deeply regret to have to record the scenes of violence, bloodshed and heart-rending which occurred in our city yesterday. We cannot now express our great abhorrence of such things, nor can we find upon us which to say what we would wish to say upon this subject. A terrible responsibility rests upon those, who have incited the foreign population of the city to the deeds of violence which were the commencement of the riots in the first and eighth wards. We are confident that these riots were not occasioned by anything that happened at any of the several voting places. The election throughout the city, as far as we can learn, had passed off with unusual quiet, with the exception of a brutal outrage in the first ward, of which we shall speak presently, and some fighting at the eighth ward polls, in which no one was much hurt.

The riots were occasioned by indiscriminate and murderous assaults committed by foreigners, chiefly Irish, upon inoffensive citizens, peaceably attending to their own business, at some distance from any of the voting places. All the circumstances connected with these assaults strongly indicate that they were premeditated and instigated by other parties than those by whom they were actually committed. We are not now prepared to say that they were the consequences only of the incendiary appeals, for some time past publicly made to our foreign population by some of the leaders of the anti-American party, or that they were instigated by direct instructions of men with fiendish hearts, who control in a great measure the passions, and are able to dictate actions to the Germans and Irish who made these attacks.

All the facts will probably be ascertained judicially, and then the responsibility will rest where it properly belongs. The circumstances, as detailed to us, and the complaints of some of the miserable wretches who were made the victims of their insane folly and malpractice yesterday, shows that these assaults were unoffending and inoffensive native born citizens were premeditated, and that the Home attaches to others who are so very unmanly.

We have not now time to give details. We cannot, however, but say now that it will be proven by respectable witnesses, that many act of bloodshed, was begun by foreigners. That in every instance where mortal violence ensued, the beginning of the riots was an unprovoked slaughter by foreigners of peaceable Americans while quietly passing the streets at a distance from the polls. This inflamed the populace and led too prompt and terrible resistance to such violence, by which many foreigners were killed and much property was destroyed.

A young lady was so terribly frightened by the attempt of a young man to commit suicide at her residence in Boston, a few nights since, that she sprang out upon the roof of the house, and was found hanging over the edge by her hands. Two young men named Sennett, who lived next door, seeing her position, ran to the roof and rescued her almost exhausted.

A Remarkable Man.

AND A UNIVERSAL REMEDY FOR DISEASE.

This city is now the home of one of the most remarkable men of the age—a man who has traversed the civilized globe, and established in almost every country which he has visited, the sale of his medicines for the relief of human suffering, and which are a certain cure for disease in all its forms. We allude to Professor Thomas Holloway, of London. It is now several years since this benefactor of the human race first proclaimed to the world, through the British press, that he had, after deep research, prepared a remedy that was sure to eradicate disease. Years of patient investigation into the laws of human physiology which control our bodies in health and when diseased, led to the invention and preparation of the world-renowned Holloway's Pills and Ointment. Nearly, if not quite, one half of the human race have taken his medicines! His name is as universally known over the globe as that of Alexander, Napoleon, or Washington, when in the height of their ambitious career. If they conquered nations in the field of battle, Professor Holloway has, with no weapon but that of science, conquered disease in all its forms. His meritorious career is bounded by no imaginary lines of latitude and longitude short of those marking the confines of civilization itself. No isolated country or nation was so friendly extensive for the operation of his enterprising and gigantic intellect. Wherever disease has a resistance, there he has penetrated with his medicines, and left an enviable and enduring reputation. After enlightening Europe, he came upon over Asia, and the civilized portions of Africa, and finally appeared in America. He has translated the cures he has performed, and the virtues of his medicines, into as many languages as the missionaries have the Bible. Governments, otherwise the most despotic, have been forced by the great value of his medicines, and their popularity with the people, to remove antiquated and time-honored restrictions upon the introduction of foreign medicines, and open their custom houses to a free introduction to the Pills and Ointment, of this distinguished man. Empires and kingdoms removed the barriers of ages against the introduction and sale of proprietary or patent medicines, and finally permitted Holloway's medicines to become the physician of the nations.—N. Y. Dispatch.

NEWS OF THE MORNING.

"Defeat for Carthage."

At the time of the British Whig going to Press last night there was no news of the arrival of the Halifax Steamer Secundus must be taken!

CRICKET.

The Kingston Cricket Club in no way disheartened by their late defeat, by the Brockville Elevens, have decided on accepting a challenge from the Prescott Club, to be played to-morrow morning, (Thursday,) on the Barriefield Parade-Ground, at eleven o'clock. The admirers of this truly manly game will certainly make it a point to attend, and, no doubt, a comfortable seat will be provided, a large number of the fair sex may be expected.

Attendance.—The absence of one of the Carriers yesterday prevented a large number of his customers in the Daily British Whig from being supplied with their paper. It may be a day or two yet before that particular Round be thoroughly accomplished.

Breach in the Rideau Canal.

The Breach in the Rideau Canal, near Harmon's four miles from Bytown, will be completely repaired by the latter end of the present week.

Coroner's Inquest.—An Inquest on the body of an infant in the Township of Richmond before Mr. S. C. Macdonnell Coroner, daughter of Jane Fralick, and supposed to have been smothered. The evidence before the Jury proved the child to have been still-born. Verdict accordingly.

Lamb's Hotel, Toronto.

The well known Hotel Keepers of Quebec are gradually wending their way upwards to be in readiness for their parliamentary customers. First the Brothers Russell, and now Mr. Thomas Lamb, of Lamb's Hotel, Quebec, who we find (see advertisement) has located himself in King Street West, near the Houses of Parliament. "Good wine needs no bush."

Oil of Peppermint.—Messrs. Hutchison and Company, have attempted to corrupt our editorial corps of the Globe by sending to our sanctum a bottle of Champagne. We beg to inform the said firm that we write no editorial notices for such things—but suppose if we did, less than a basket would be utterly unappreciable.

Quebec Races.—A correspondent of the Rochester Democrat, writing from Quebec, says that the officers having charge of the citadel at that place, have had for years, annual horse races on the Plains of Abraham, that are attended by the Governor General, the officials, the aristocracy of both sexes, and "the rest of mankind." It has just come off, and no reciprocity in the horse trade was included in the late treaty, this year, the Military Club invited American horses to compete for the prizes, if rode by United States Army officers; the rule being that British officers must ride the horses they enter. But one American officer and horse was on the ground. "Sam Letcher," the Yankee horse, stood for the three mile heat against "Frazier," who had never been beaten, and has been the pride of the course for the last five years. Over ten thousand spectators were present. The English horse was backed very heavy in bets by the British, and the Yankee horse was the favorite of the Americans, a great number being present, visiting that section on pleasure trips. The Yankee took the prize, and the backers of him pocketed about two thousand sovereigns.

THE CASE OF WEBSTER, CHARGED WITH VIOLATING THE NEUTRALITY LAWS.

Boston, August 11, 1855.

The United States Commissioner, in the case of Webster, charged with enlisting men for foreign military service, decided to-day to send him to New York for trial. The evidence of enlisting men in that city is quite strong against the defendant.

YELLOW FEVER.

Baltimore, Aug. 13.

At Norfolk and Portsmouth the yellow fever is increasing to an alarming extent. Several physicians have died. There have been 20 deaths at Norfolk since Saturday.

The telegraph reports the yellow fever to be on the increase in Virginia, and that the people were leaving Portsmouth and Norfolk as rapidly as possible. The hotels at Richmond were overrun. At Norfolk the buildings known as Barry's row had been burned down.

LATER FROM HAVANA—YELLOW FEVER IN NEW ORLEANS.

New Orleans, August 11.

The steamship Grenadier has arrived at this port with Havana dates to the 8th inst., but there is no news worth telegraphing.

The yellow fever deaths from the charity hospital, in this city, during the past week amounted to 125, and the number of cases cured 109. An abatement of the disease, owing to a change in the weather, is looked for. Most of the above cases occurred in the early part of the week.

DEATH OF AN OLD LAKE CAPTAIN.

Buffalo, Aug. 13.

Captain Tims, an old Lake commander, was drowned at Sandusky yesterday. He was captain of the steamer Erie, and saved from that vessel when she was burned several years ago. He was also saved from the steamer Alabama when she sank last year.
