CITY AND VICINITY

IT is easy to orthograph L-i-g-h-t-n-i-n-g, but the Dominion Telegraph officers can show the worst spell of it ever seen outside of Josh Billings' almanax.

SPELLS are the order of the day. There are champion spells of dull business, of rains and thunder storms, of drains, of lectures, and sich, but yet no public spell! Whose afraid? Don't point at us.

THE HARBOR.—Jas. Swift's Wharf the prop. R. W. Standly, from Hamilton, and prep. Celtic, from Hamilton, called. The schr. Ben Folger, from Oswego, arrived. The str. Corinthian left for Toronto and Hamilton on Sunday evening.

FIRE GUARDS.—City Commissioner Conley is off on a new scent. This morning he called on two owners of city houses to answer for the neglecting of repairs on fire guards. Others equally negligent will do well to take a note. The Commissioner never rests.

THE KINGSTON CLOTHING STORE.—The stand of Mr. M. Fahey, in the Market Square, is again occupied. It has been stocked with a full stock of ready made clothing and Mr. Norris has been installed as manager, and will, no doubt, make friends for the new store rapidly through courtesy and attention.

THE SALE OF LOTS.—A good deal of attention is being paid to the sale of lots in Selma Block, Brock Street, better known as the Rourk Property. There is likely to be some lively bidding to-morrow, and the land is sure to be secured by eager purchasers. The building mania is so virulent that improvements may early be looked for in that quarter.

TEMPERANCE LECTURES.—Many years ago Mr. Carswell, the Canadian temperance orator, as he is popularly called, was heard in Kingston, and his animated, forcible style found him numerous admirers. His return to-morrow, consequently, is looked forward to with pleasure and interest, and if he has not degenerated with years, (which is not likely, as he is still a young man,) there is in prospect three nights of very pleasant entertainment.

REGRETFUL ACCIDENT.—We regret to learn from the *Recorder* that Kingston's late popular station master, Mr. William Neilson, manager of the Grand Trunk Stock Yards at Lyn, was, on Thursday, trampled upon and severely injured by an infuriated Texan steer. Mr. Neilson is very low, and fears are entertained that his injuries will prove fatal. We hope for better tidings of his state to-day.

POLICE COURT, Monday—Before Mr. Strange, P.M.—James Kennedy, drunk, a second time, $3.00 or 30 days. Patrick Lynch, drunk, $2.00 or 30 days. Charles Gilchrist, charged with being disorderly and breaking windows, acknowledged the soft impeachment, and was fined $2.00 and costs or 60 days in gaol, to also pay for the broken windows. A Brock street grocer was summoned for selling liquor without license. Case adjourned until Wednesday. A Market square grocer for the same offence was fined $20,00. Two citizens summoned for neglecting to repair fire guard wall, promised to comply with the law, and further action in the cases was suspended.

HOME MADE WINE.—One of the most fruitful as well as prettiest spots in Central Canada is that of the Islands owned by Mr. S. Loynes, of this city, situated in the Bay of Quinte opposite Adolphustown, and near the Stone Mills. Mr. Loynes has here one of the most cool, healthful and delightful residences anywhere to be found, and judging from the quality of home made wine which he left on our table, that receptacle of good things from generous, disinterested patrons, it is a profitable home as well. The Islands are in a state of the highest cultivation, and display the good qualities of soil and production with which the district is proverbially credited.

THE CAMP.—The D.A.G., Col. Jarvis, is now choosing a site for the annual volunteer camp to be formed here in June. The Dockyard and Fort Frederick are no longer available for this service, being now exclusively devoted to the Military College. The location now most favored is one on the commons west of the Drill Shed, where the enclosed lots would answer for the artillery and cavalry. As a site it is the next best to the Dockyard. The following, anent camp service, appears in Saturday's *Canada Gazette*:—

Adverting to the General Order of June, 1874, reducing the strength of officers to two for each troop of cavalry, Garrison Battery of Artillery, Company of Rifles (infantry), and Engineers, it is authorized that the strength of the officers of the corps referred to may be increased to three, being the strength allowed previous to the issue of that order, but drill pay for only two officers for each such corps will be allowed as fixed for the annual drill of 1875-76.

Y. M. C. A.—The meeting of the Y.M.C. Association last night was very interesting. The chair was occupied by Mr. Gage, and the meeting was addressed by Mr. J. Curtis, late of Gloucester, England, who gave a very interesting account of his late trip across the Atlantic, and of the trial of his faith in a heavy storm when all on board the steamer expected to be lost, and while many were rushing to and fro wondering what they could do to be saved. He himself was quite calm in the thought of meeting death in the face, knowing that Christ would never leave nor forsake him, his only prayer being for the unconverted on board the ship. The address was listened to with great attention throughout, and many went away with their faith strengthened, and, doubtless, many others were benefitted by his testimony. The meeting was closed by singing the doxology and the benediction.

CURRENCY.

—How did Queen Elizabeth take the pills? In cider.

—An edition of the Bible is to be printed in London with all the proper names accented to show their pronunciation.

—Here's your word: "encephalotrophophogy." Spell that. It means *brain-al food*, so no excuse, STAND UP!

—John G. Saxe has been invited to read a poem at sunrise at the decoration of Farragut's grave in Woodlawn Cemetery, New York, on Decoration day.

—Now refiang your gates and make them latch. Nothing looks so disorderly as a gate that won't stay shut or open, unless it is a school girl without any garters.

—An exchange says that every woman has a chance of being married sometime or other. It is not unlikely. There's no tell what a man will do when he is drunk.

—The fact that Philadelphia has three professional base ball clubs on her hands this season, should entitle her to more sympathy in that Centennial matter than she is receiving at the hands of the newspapers.

—The Buffalo *Courier* says lake captains place ten days between now and the opening of navigation at that port, and then consoles itself by the reflection that navigation did not open until the 1st of June in 1807.

—A man has invented a machine which can turn out fifty broom handles per hour. In an age when Woman's Rights are making such headway as they are at present, the danger of such an invention cannot be too much deprecated.

—Up Goderich way the rivalry between competing stage lines is so great that the proprietors offer free rides and a hot meal to all passengers who will travel by their route. The editors of the Goderich papers are said to have acquired a special fondness for travel all of a sudden.

—The Milwaukee *News* says that notwithstanding the fact that Nebraska is appealing to the civilized world for charity, a big circus is out there, and the bald-headed grasshopper sufferers, who are tired of waiting for fortunes from the East, sit on the top seats and laugh and chew tobacco the same as other people.—*Sun.*

—Mrs. Ruth Page, of Burlington, Maine, is a smart old lady. Though seventy years old, she supports a rheumatic husband and an invalid daughter, and takes two boarders, eighty and eighty-nine years old, oversees the outdoor work milks three cows, etc. Her exertions have also placed a deaf mute grandson in an asylum, and she pays most his of bills.

In the Ice.

THE EXPERIENCE OF THE STEAMSHIPS.

Quebec, May 9.—The steamships Polynesian, Dominion, and Lake Champlain arrived up to-day, apparently none the worse for their long detention in the ice. The three steamers were confined in very heavy field ice in close proximity to each other, floating helplessly about and unable to use their engines for nine days. So closely was the ice packed that the passengers could leave the ships and walk about. In consequence of sickness some of the passengers from the Dominion were landed at the Quarantine station.

Montreal, May 9.—The Polynesian's cabin passengers and mails arrived to-night by special train. By arrangement of the Post Office Department the train proceeded no further, and western mails and passengers have to wait over for the regular train to-morrow. The Polynesian was twelve days in the ice, which was said to be twenty-four feet thick around her. Several of her plates and the blades of her screw were broken, and she will have to undergo repairs before leaving. Large quantities of seals were seen on the ice, and some of the passengers amused themselves seal-hunting, but caught none. On getting into the ice, passengers were put on short allowance, the fires were banked up, and the vessel allowed to drift, sometimes turning around and heading for England. Provisions held out well for the cabin passengers, and the last turkey was eaten in sight of Quebec. The steerage people fared worse, and were reduced to rice rations. Two of the passengers were nearly lost while out sealing.

BETHEL LODGE INSTALLATION.—Last Thursday evening Bro. E. Rose, P.D., assisted by Bro. C. J. Mitchell, P.W.C.T., installed for the ensuing quarter the following officers, viz.:—

W.C.T., Bro. G. C. Kemp.
W.V.T., Sister E. Whitcomb.
W.C., Bro. G. W. Abrams.
W.S., Bro. S. H. Grafftey.
W.T., Bro. G. F. Wilson.
W.F.S., Bro. T. Minnes.
W.M., Bro. — Bridon.
W.I.G., Sister C. Crumley.
W.O.G., Bro. — Bassum.
W.A.M., Sister Jenkins.
W.A.S., Sister Grafftey.
W.R.H.S., Sister A. Wilmot.
W.L.H.S., Sister M. J. Burton.
P.W.C.T., Bro. J. Galloway.

THE ANGLICAN CHURCHES.—Yesterday morning Rev. Mr. Kirkpatrick preached in St. George's Cathedral, the Rev. Mr. Wilson exchanging and taking the service at St. James', assisted by the Rev. Mr. Rogers. In the evening at St. Paul's Mr. Wilson preached, and at St. James' Mr. Rogers. At St. Mark's, Barriefield, a change was announced in the hours of evening service from 7 o'clock to 4 o'clock. In all the churches, Holy Communion and collection for the Diocesan Mission Fund were announced for next Sunday—Whitsuntide.

DROUGHTY.—Despite the heavy rains of May there is a prospect of a dry season in Frontenac. The Dunkin Act has been carried in Storrington and is likely to be passed in other townships. Besides this over 40 new temperance lodges have within a month been organized under Mr. Johnston's efforts.

VERDICT AGAINST A PRIEST.—An action for libel, brought by Mr. John Green, J.P., proprietor of the Wexford *Independent*, against the Rev. Thomas Doyle, parish priest of Rams-grange, tried at Wicklow Assizes, terminated in a verdict in favor of Mr. Green, damages £100. The Rev. gentleman had been writing and speaking against the proprietor of the *Independent* for upwards of twenty years.

WELL ORGANIZED.—The latest discovery in France is that the numerous gipsy bands scouring that country are entirely under marching orders and military discipline from Berlin. They are wont to pick out their camping grounds fifty miles ahead, and know in advance the name of the man owning that ground as well as he knows himself. Just as the Uhlans did.

FATAL EXPLOSION.—On Friday an accident occurred at the Windsor Powder Company's mills at Windsor, P.Q., in the building used for packing. Two workmen were sorting powder at the time and both lost their lives. How the accident occurred cannot be accounted for.

GOOD BYE, OLD MAN.—New York, May 8.—Col. George Albert Mason, lately convicted of having in his possession and uttering counterfeit notes, was sentenced by Judge Benedict to-day to twelve years in the Albany Penitentiary and a fine of one dollar.

THINGS IN GENERAL.

—The proposed trip of the Prince of Wales to India, it is estimated, will cost $1,250,000.

—The corporation of Dublin has adopted a resolution in favour of closing public houses on Sunday.

—The London journals say that Hans von Bulow, the famous pianist, will soon visit the United States.

—The bill for the abolition of the Legislative Council of Manitoba, received the three months' hoist at the hands of that body.

—The trial of the Bishop of Breslau, for violation of the ecclesiastical laws has resulted in his removal from German territory.

—The Pennsylvania miners, who are on strike, have warned those few who have continued work, to leave the country under penalty of death.

—Plots against Bismarck's life are stated to be alarming; a special staff of detectives has been told off for his protection, and the Prussian police have redoubled their vigilance.

—The Alert and Discovery, two strong steamers, are now nearly ready for the English Polar Expedition, and there is a place for everything except that no room can be made for a chaplain.

—The Port au Prince disturbance was set afoot by four men who aspired to the Presidency. Only two foreigners are said to have been killed during the riot, and they accidentally.

—Debate on Sir Stafford Northcote's budget took place in the Imperial House of Commons. Lowe, ex-Chancellor of the Exchequer, said the budget was unworthy of the confidence of the House.

—The week day average attendance at all the Moody-Sankey meetings numbers 27,000 persons, while 45,000 people are present during the Sunday exercises, and thus 209,000 souls experience the religious influence weekly.

—No tidings have been recieved of the missing steamer Metropolis, from Bermuda, it being almost certain that the craft has foundered, and seventeen passengers and crew of twenty-four men, have found a watery grave.

—A new order of Monks has been established in Ireland, with the direct sanction of the Pope. They have incorporated themselves until the title of "The Brotherhood of Presentation." Their object is to visit the sick, and teach the poorer classes of children.

—There are entire counties in Mississippi in which there is not a resident minister of the Gospel of any denomination, and that there are plenty of grown men and women in the State who have never heard a gospel sermon preached."

—It was stated at the Irish Church Synod in reference to the sustentation fund, that the receipts last year amounted to £257,000—a sum considerably larger than had been reached in any year since the disestablishment of the church.

—At a ball given by the Countess de Hatzfeld at Berlin, the Emperor William, taking aside the Viscount de Gountaut-Biron, French Ambassador, said to him in a very friendly tone, "Monsieur, an attempt has been made to sow discord between us; it is all over now, and I was advious to tell you so."

THE Town Council of Brockville have just supplied the police there with a new uniform of grey coats and pants, trimmed with black, and a blue cap bearing the word "Police" in gold letters. They should have added a pair of light boots with elastic soles, so that they could run real fast when there was a fight going on or when a prisoner turns Turk on them.

IMPERTINENCE.—The Kingston *News* hazards the statement that "assertion without proof is valueless." We quite agree with our contemporary as to the truth of this maxim; but what a humiliating commentary upon the slanders upon the Government which continually garnish its columns!—*Ottawa Free Press.*

PREPARATIONS.—A gun factory in Upper Austria is said to be making 250,000 rifles for Germany. It has delivered 180,000, and has received a further order for 75,000. A Vienna firm is executing a German order for 30,000,000 cartridges for delivery in June.

As Numerous Cases of Poisoning and Death have occurred from the use of Compound Syrup of Hypophosphites, containing strychnine, sold the public without being properly labelled "Poison," purchasers of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, are requested not to confound the two preparations, as they are entirely different chemically and medicinally. Phosphates are necessary elements of the human organism, and essential to the phenomena of life, entering into the composition of every solid and fluid of the body, and are as harmless as our ordinary food. As Strychnine is frequently poisonous in the smallest doses, it is of the greatest importance that this caution be heeded.
