CITY AND VICINITY

☞ GOLD in New York at 3 o'clock 116½.

POLICE COURT Thursday.—Mary Redfern, vagrant, sentenced to three weeks in gaol.

PERSONAL.—On Dominion Day, Mr. P. C. McGregor, Principal of the Almonte High School, left for an extended visit of several months in Europe.

THE SS. Corinthian, from Glasgow, with 1 cabin, 9 intermediate and 58 steerage passengers, inward, passed Father Point at 12:30 p.m.

ADMITTED.—At the recent meeting of the Phi Beta Kappa Society of Harvard University, Prof. Donald McLean, of the University of Michigan, was elected a member.

RAILWAY AND STEAMBOAT GUIDE.—have received the July number of this publication, which is an indispensible necessity to every traveller. Published by C. R. Chisholm & Bros., Montreal.

THE Cape Vincent *Eagle* again boasts of the defeat of the little Grammar School boy at base ball by the overgrown youth of that village. Some people are easily made vain.

SHORTS.—The Band played the best programme yet last evening, and the weather and the water were very pleasant.—The schooner *China* has been safely taken off the Ducks.—More vessels are now en route here from Chicago with grain than at any time this season.

THE MILITARY COLLEGE.—The Public Works Department announces that the works at the Frigate building, Kingston, are sufficiently advanced to admit of its being occupied in about a fortnight. But, of course, it will be many weeks before it is more than taken charge of by a caretaker.

KINGSTON SYNOD.—Under the union of the churches the bounds of Kingston Presbytery were made to include the territory formerly occupied by the two late bodies. Rev. Professor Mowat was elected Moderator of the Presbytery, which was appointed to meet at Kingston on the second Tuesday in July, next week, in Chalmer's Church.

PEACE.—We are again in receipt of a touching circular from the American Peace Society. It has filled us with such kindly thoughts that we rejoice in the fact that we find no occasion to day to give our amiable and loving contemporary a stab under the fifth rib. How blessed a thing it is for brethren to dwell together in unity.

NO BUGS THERE.—The potato bugs which have ravaged Kingston garden plots for three or four years past, have not yet reached Gananoque or its vicinity. Why that locality should escape and others east and west be inflicted is more than we can make out or hear without murmuring against Providence. It is a wicked enough place to be punished in common with the rest of the world.

SEIZURE OF A STEAMER.—The *Intelligencer* says that the steamer Rochester was seized by the Custom House officers on Wednesday at that port for infraction of the Customs laws. On a bond being given and an officer placed on board she was allowed to make her usual trip to Kingston. The offence, we predict, is not likely to turn out a very serious or wilful one.

POLICE COURT, Friday.—Julia Walker was fined $1 and Henry J. Hotchkiss $2 for being drunk—an unfair discrimination, when it is considered how much more shocking it is for a woman than a man to get intoxicated. John O'Connell, drunk, disharged, as his centennial is near at hand. Jas. Jordan, a steamboat hand, charged with stealing a coat from Mr. Grimshaw, was convicted and sentenced to three months in gaol.

NEW CHURCH.—Father Davis is building a new Church in Marmora. In response to his invitation last week, the Roman Catholics of that section drew 180 loads of stone, all the required timber, and excavated the greater part of the foundation for the new edifice, which is to be made one of the finest rural churches in Canada. In one Sunday $3500 was subscribed towards its erection. A grand pic nic is to be given in its aid, and Bishop O'Brien of this city is to lay the corner stone.

THE BIG EGGS.—If reports be true we need cackle no longer in Kingston over big eggs. Erie Council, N.Y., sends up the shout of triumph, and we ask Belleville to step out too. A farmer near Buffalo has a hen that gave him a litter of 16 eggs, the average size of which was 8½ inches by 7 1-19. The largest was 9 inches by 7¼, and weighed 5½ ounces. Nine of these eggs had double yolk, but the largest was single. That settles it. And now Carleton Place comes to the fore with a hen that as an every day recreation lays eggs which measure 6½ inches in circumference, 7½ inches in length, and weigh 5 oz. Macduff, nor any other hen, need not lay on any more.

The devotion with which the members of Plymouth Church cling to Mr. Beecher is strikingly illustrated by their emanuma resolve to increase his salary from $20,000 to $100,000, the largest salary many times over ever given a preacher. The increase, however, is not likely to be a permanent one, but only to enable Mr. Beecher in part to defray the expenses of the defence in the recent trial. Even twenty thousand is a large annual sum to give a preacher supposed to be devoted to things spiritual than to carnal pleasures which money can buy. It is to be hoped that this generous devotion to persecuted innocence is not misplaced. For an innocent man Mr. Beecher is the most maligned and the most foolishly indiscreet gentleman on the footstool.

CURRENCY.

—The Picton Horticultural Society will hold their exhibition on Wednesday 8th September.

—A bore, a man who persists in talking about himself when you wish to talk about yourself.

—In Boston on the 7th, thirty liquor dealers were each fined $100 and costs for violation of the liquor law.

—What's the difference between the lower part of the leg, and the late comet? One's shin and bone, and the other's been and shone.

—There will be a very heavy crop of raspberries this season. The canes are loaded with green fruit at present and they look healthy.

—The Buffalo Express condemns the present fashion of women's dress as Black Crook on the streets.

—What next? They are now offering photographs of actors in the Beecher case as prizes with minstrel show tickets.

—The imports of coal at Toronto this season compared with the same period last year show a falling off of 13,864 tons.

—Arrangements are being made for the Exhibition of Murray's Rail Road Circus at Brockville on the 30th inst.

—Just now inventors will find a good deal more money in a plan for destroying insects than in iron ships, torpedoes, and repeating rifles.

—The party of Mennonites who recently passed through here, brought with them $70,000 in cash, besides miscellaneous effects.

—A. H. Bogardus, of Illinois, yesterday defeated the champion of England in a pigeon shooting match, killing 36 out of 50 birds to his opponent's 30.

—The bug-men inform us that it is the female mosquito which does all the biting. Quite likely; but what business have they in a man's bedroom at night?

—There are prospects of a duel between U. S. Marshall Newcomb and W. V. Walcott of the St. Louis Evening Journal, but fears are expressed that neither will be hurt.

—On Tuesday evening a son of George Weeks, 7 years' old, when returning home at Toronto was stopped by a man and stripped naked. In this condition the little fellow arrived home.

—Mrs. Bloomer, the woman who chiefly known to the world by the name she has given to the style of dress for women that she championed, still lives at Council Bluffs, Iowa, is on the shady side of fifty, and wears long skirts.

—Gilderslee've won the cup given by the Mayor and citizens of Belfast by two points after shooting off the ties with Lee of Belfast, twice. The match was shot on Lord Dufferin's grounds. There of the American team missed the target altogether, and had to retire ingloriously.

The Chicago *Tribune* tells of a swarm of grasshoppers which, moving at the rate of fifteen miles an hour, occupied sixty hours in passing over a town in Missouri, and was estimated to be from thirty to seventy-five miles wide and a half a mile deep.

THE FRUITS.—The lovers of fruit will be pleased to learn that the prospects of peaches, apples, pears and grapes in the fruit-raising States are this year magnificent. In spite of all gloomy predictions, which are generally abundant enough among those who have to do with the culture of the soil, the peach tree comes out well and showed a healthful vigor in flowering and "setting" of fruit, which shamed the faint-hearted growers who were so confident that there could be no crop. The fact is, that there is likely to be a larger peach crop harvested in the famous Delaware and Chesapeake region then has ever before been grown in that favored locality. And what has been said of the plentifulness of peaches is substantially true of other varieties of fruit, with possibly some exceptions against two kinds of berries. The season of peaches will be succeeded by those of apples, pears and grapes, all of which are promised in profusion.

NEW YORK.—The report of the Commisioners of Assessment and Taxes of this city for the current year states that the assessments have fallen off as compared with 1874 by about $53,000,000. This and more than this deficit, however, has occurred upon assessments, other than than those upon real estate. Upon that item there has been an increase of not quite $2,000,000; but this merely represents the new houses which have been built, plus the reductions on old houses. They represent the taxation upon personal property as very unsatisfactory and productive of not half the fair amount apparently exigible; and they condemn the exemption from taxation of churches, colleges, and charitable buildings, and the property of the Federal Government. These exclusive of the property of the Federal Government amount in value to $63,410,000.

In the village of Baraon, in the district of Shahabad, a tiger of large size was sitting in a sugar cane field. The alarm was given and brought together many people, among whom there were two Gowalla youths, who had been tending their buffaloes close by. While the whole crowd dared not approach the tiger, one of these young men proceeded, bare handed, towards the ferocious animal, which in one leap brought him under its body. The man, although in such a position, had the presence of mind to catch hold of the fore-legs of his adversary, while the other youth, with unparalleled boldness and dexterity, ran and took hold of the tiger's neck. A scuffle ensued, and the spectators now lending their assistance, the brave Gowalla youths came out victorious, with their adversary slain and fallen at their feet.

WIDOW GRAHAM'S VIEW OF A THIRD TERM.—Mr. Blivens, an old bachelor of Rochester, who is much absorbed in politics, visited the Widow Graham the other day, just after reading Grant's letter and asked her what she thought of a third term. Now, the widow has been twice married, and in response to the question she made a rush for the astounded Mr. Blivens, and taking him tightly in her arms, exclaimed,—"O, you dear, dear man! What a happy woman I am!" At last accounts Mr. B. had locked himself in his wood-house, and was endeavoring to explain things to the widow through the key-hole.

BAD TIMES.—Vessel men have passed through dull years before, but we question if ever they experienced a more unprofitable season than the present. The only times that the tariff has approached the present figures were in 1858, 1859, and last year. But even the low prices in the years named did not fall anywhere near the figures prevailing now. Seeing that there is no gain, and so much risk of loss, the wonder grows that there are so many crafts running.

BEECHER.—At an enthusiastic meeting of the Plymouth Church congregation last night, Beecher's salary was raised from $20,000 to $100,000 per annum by an unanimous vote. This increase is meant to assist in defraying his expenses in the trial. One of the speakers said the congregation would spend millions, if necessary, in defence of their minister's innocence. In the midst of this it is said that Moulton intends to prosecute Beecher for perjury.

ROMANTIC GIRLS.—A sensation was caused in a ladies' school in Toronto, by the discovery of a plot, by which four young ladies were to leave the establishment and proceed to the States, with the intention of going on the stage. One of the girls turned Queen's evidence the day before the runaway was to have taken place, and the plot was frustrated.
