Motto: A man who gives his children habits of industry provides for them better than by giving them a fortune

Oddity: A sign of politeness in Thibet on meeting a person is to hold up the clasped hand and stick out the tongue

Fashion: High-necked evening gowns are one of the most useful costumes these days, and one of black chiffon, accordion-plaited and trimmed with motifs of Duchesse lace, is most effective

Philosophy: It is believed by vegetarians that a purely vegetable diet makes people amiable, good-natured and generous and that those who eat largely of meat become quarrelsome, selfish and mean.

A Woman's Pleasure.

You can always please a woman with Chinaware. You can make home brighter because nice Chinaware will improve the appearance of the home and increase the pleasure of the occupants. We'll be glad to have you see the excellent line we are offering.

BLEW UP THE VILLAGE

And a Great Number of Persons Were Killed.

Denver, Col., Feb. 8.—A special from Chihuahua says several hundred tons of dynamite, stored in an underground chamber, in San Andres mine, situated in Sierra Madres, in the western part of the state of Durango, exploded with terrific force, blowing the whole top of the mountain off and destroying a portion of the village of Myers. Eighty-seven men, women and children were killed and many badly injured. None of the men in the mine were seriously hurt.

A KING IS DYING

And the Queen Is Also a Severe Sufferer.

London, Feb. 8.—A despatch to the Telegraph, from Copenhagen, says that the king of Sweden and Norway is dying. Late despatches announced that queen Sophia was suffering from an attack of influenza, accompanied with swelling and severe inflammation.

Calls For $750,000.

Washington, Feb. 8.—Senator Platt, New York, has introduced a bill appropriating $750,000 to aid the pan-American exposition at Buffalo.

The strike of the fifty girls of the machine and boxing department of the Dominion suspender company, Niagara Falls, N.Y., has been settled and the girls have returned to work.

Nicholas Heeney, Cleveland, Ohio, the murderer of Frank Johnston, the watchman, was arrested Thursday night. He has made a complete confession.

IS TO MANAGE THE I.C.R

New Head Of Road Began His Career On It.

A LEADING RAILROADER

POTTINGER WILL REMAIN AS GENERAL MANAGER.

The Liberal Party Will Elect Its Whips At the First Caucus—Men Who Are Named For the Places—Gossip At the Capital.

Ottawa, Feb. 8.—Russell of the Delaware and Lackawanna railway will be appointed manager of the Intercolonial railway. He will be under Mr. Pottinger, who will be general manager of the entire government system of railways. Mr. Russell is a native of Charlotte county, N.B., when a young man he was on the Intercolonial as telegrapher, and left to improve his position for the United States roads. Since that time he has been advancing from one position to another, and to-day he is one of the best railroad men in the country.

The liberal whips will be elected at the first party caucus. W. S. Calvert, West Middlesex, who acted as junior Ontario whip last session, is slated as chief party whip. In Ontario the whips will likely be Maj. Andrew T. Thompson, who defeated Dr. Montague in Haldimand, and M. K. Cowan, South Essex, who won his oratorical spurs last session. For Quebec Louis Lavergne, who sits for Drummond and Athabaska, is mentioned; for the West, T. O. Davis, Saskatchewan and for the maritime provinces, T. B. Flint, Yarmouth, and Hance J. Logan, Cumberland.

The conservatives at Ottawa have prepared an address to be mailed to Sir Charles Tupper in reply to his valedictory.

An order-in-council has been passed which provides for the refunding of the duty paid on wheat imported from the United States into Manitoba and the northwest for seed grain.

F. H. Cunningham, of the marine department, has been appointed head of the fish breeding establishments of Canada.

Dr. Sproule will move in favor of a bounty for beet root sugar manufactured in the dominion during the next ten years.

Lieut.-Col. Hughes wants to obtain the whole of the correspondence which took place between Gen. Hutton and himself over the question of volunteering for service in South Africa.

Mr. Fortier will ask the house to declare that the salaries of public officers or government employees should be attachable as those of ordinary citizens.

Capt. Eccleston and Sergt. Murray, of the Canadian postal service, who went to South Africa with the Canadian contingents, have returned to Ottawa from England.

The finance committee of the city council has arranged to hold a conference with leading city bankers and property owners to devise some scheme to tide over the crisis. The city's revenue is being taken up by interest and sinking fund, and money is needed for street improvements, etc.

F. W. Loudon, an editor of Wellington, New Zealand, is in the city on pleasure. Mr. Loudon says Canada, within the past two years, has become much more widely known throughout Australasia than she had during many years previous. The sending of the Canadian contingents, Mr. Loudon said, attracted a great deal of attention, and the people throughout Australasia are becoming well acquainted with Canada's resources. The completion of the Pacific cable will greatly deepen the cause of imperial federation and help to develop trade. There is, he says, a great future for Canadian goods in Australasia, and he adds that Canadians and Australians are alive to this.

Made A Good Bargain.

Winnipeg, Man., Feb. 8.—Premier Robin, left for Toronto to-day. Just before his departure he said that there was nothing more to do in connection with the lease of the Northern Pacific's Manitoba line. The deal had been consummated. He said: "Yes, there is no necessity of any further conference in this direction." The transfer, Mr. Robin thought, would be made about March. The premier was disinclined to talk freely concerning the terms of the lease or the effect the transaction would have on affairs in Manitoba. He did say, however, that he would make a public statement on Tuesday next, which he thought would show that Manitoba had obtained a good bargain.

Fell 175 Feet To His Death.

Niagara Falls, N.Y., Feb. 8.—While moving ice about penstock No. 2 of the Niagara Falls hydraulic power company's plant, at the edge of the high bank yesterday, James Birth, aged 40, slipped and plunged over the bank. He fell 175 feet and was picked up dead. He was married, but the whereabouts of his family are unknown.

Edit Paper In Seven Languages.

Pekin, Feb. 8.—The China Times, of Pekin, will start the new century by issuing its paper in seven languages: Chinese, Japanese, English, French, German, Russian, and Italian. J. Cowan, formerly of the London Times, and T. Cowan, also connected with the Times, and Reuters' agent, will edit the paper.

Newspaper Office Burned.

L'Orignal, Ont., Feb. 8.—The large dwelling house of Watson Lytle, editor of the Advertiser, with contents, also the printing office, with press, etc., were burned to the ground yesterday. There was no insurance.

Owing to the fact that the outbreak of bubonic plague at Cardiff, has been traced to rats, the municipality have offered a reward of four pence for the carcass of each rodent delivered to a designated official.

DRIBBLING THROUGH.

Boers Are Found in Cape Colony Districts.

Cape Town, Feb. 7.—The prime minister reports that the further invasion of Cape Colony, anticipated in his last report, has not occurred, but that it may only be delayed. There is a certain activity again in the southern part of the Orange River Colony. Although there is no considerable movement across the Orange River, small bodies of Boers continue to dribble through, some being reported in the Colesburg, Albert and Richmond districts. Hertzog's commando has apparently abandoned all intention of moving further south.

Kritzinger's commando has divided in two parts, one which has marched in the direction of Prince Albert road. Thence, barred by a small force, the Boers proceeded northward after a few shots were exchanged. They have not been heard of for several days. It is possible that they were the men who fired on the sentry, on the Fraser road; stragglers from this body and from the main body are moving south easterly from the Wilgemere district. They are closely pressed all the time by the British mounted troops. They were reported yesterday to be near Styldrville, where there is a small garrison.

The tactics of the invaders are unchanged. They move fast, living upon the country, and never seriously attack any place offering a show of resistance. They avoid engagements with the British mounted troops.

Mr. Cartwright, editor of the South African News, was arrested this afternoon, on the charge of publishing a seditious and defamatory libel. He was remanded on bail till to-morrow. The arrest followed the receipt of a letter by the attorney-general from Gen. Kitchener. The News recently published a statement alleged to have been made by a British officer to the effect that Gen. Kitchener had instructed the troops to take no prisoners. In this letter the commander-in-chief assured the attorney general that the statement was a baseless libel. Such instructions, he said, had never been given or thought of. He added, "We treated our enemies who surrendered with every consideration."

The supreme court has refused the application of the South African News for a mandamus to compel the postmaster-general to allow the free circulation of that paper through the post.

Urged To Surrender.

Durban, Natal, Feb. 7.—The burghers of Volksrust have issued a strong appeal to the commandants in the districts in that vicinity, reminding them that thousands of Boers have been exiled, killed or wounded, and that ruin is impending from the hopeless struggle. They say that the railways and the sources of income are in the hands of the British, that sending deputations to Europe is hopeless, Holland's reception of president Kruger discouraging any such action. They say that England, after the heavy sacrifices she has made, will retain the country, but will treat the Boers as she treats other colonists. The powers, including the United States, endorse the British policy. The British have probably made their last offer of fair conditions for surrender, and the burghers implore the acceptance of this offer in the interests of themselves, of the helpless women and children and of humanity.

News, four days old, from the Doorn River country shows that the Boers have a base at Calvinia. From that point they have sent patrols far and wide. Col. Delisle is moving toward them. He lost Lieut. Clowes and one man killed in a skirmish with a Boer patrol. The country is wildly mountainous.

What A Paper Says.

London, Feb. 8.—The Morning Leader prints a curious story, which is admittedly only a rumor, that John Morley, and, it is believed Sir William Vernon Harcourt, also have lately been visiting colonial secretary Chamberlain at his Berwingham residence, in response to his invitation, he wishing to consult with them in reference to South Africa. The Leader also launches a leader that Mr. Chamberlain has begun to have doubts regarding Sir Alfred Milner's fitness to control affairs in Cape Town. The whole story suggests a ballon d'essai of rather a more pronounced type than some of the others that have been floated since the death of queen Victoria, and, it is based, on journalistic gossip, to the effect that king Edward, fulfilling her wishes, is trying to influence the ministers in the direction of peace.

THE CHARGE DISMISSED.

No Law to Prevent Wreckage of Unlicensed Saloons.

Topeka, Kan., Feb. 8.—Mrs. Carrie Nation was called up yesterday in the police court on the charge of wrecking an unlicensed saloon at 406 Kansas avenue. About 100 of her followers were present. At the request of the assistant attorney, the charge was dismissed. Mrs. Nation and the women in the court room then sang "Nearer My God to Thee." Police judge Magaw tried to interfere with them but chief of police Staple refused to interfere.

A Plot To Murder a Duke.

Rome, Feb. 8.—The Fanfulla states that an anarchist, arrested at Avellino, capital of the province of that name, had in his possession documents indicating a plot to murder the duke of Abruzzi. The prisoner was brought to Rome, where he was interrogated by the public prosecutor, after which he was lodged in jail. The police refuse to give any details of the case.

Imprisoned On A Lake.

New York, Feb. 8.—Imprisoned in a naptha launch in Manset bay, without food or fuel, four men have been battling against death by freezing for forty-eight hours. Efforts are being made to reach them in the hope that they are still alive. The shifting masses of ice prevent the passage of boats.

Father James Callahan, of St. Patrick's church, Montreal, is dead.

Capt. W. Crozier, who served in the expedition to Pekin as chief ordnance officer gives a description, not complimentary, of the United States forces as compared with other troops who marched and fought by their side. They were not so well disciplined as others, nor so well drilled, and were slouchest of all but the French.

The king of Portugal is staying a few days longer in London than he originally intended, at the express wish of king Edward. His visit is likely to have important developments. The Portuguese section of the Delagoa Bay railroad is now in British hands, but this is merely a temporary arrangement between the governments.

Theodore S. Wigle, one of the oldest settlers and most prominent men of South Gosfeld township, died Tuesday night at his farm residence, west of Kingsville, in his eightieth year. Mr. Wigle was born near Olinda, Ont. He was once warden of Essex county and had been a member of South Gosfeld township council longer than any other man in the county, having served as reeve and councillor for twenty-two years. He was a staunch liberal conservative. His wife, four sons and three daughters survive him.

REPLY TO THE ADDRESS.

No Division on Reply to Speech From The Throne.

Toronto, Feb. 8.—The address in reply to the speech from the throne was carried in the legislature yesterday without division. Dr. Bridgland, the mover, and Mr. Breithaupt, one of the new members, who was heard in the house for the first time, acquitted themselves admirably. In keeping with the great loss sustained by the country and the empire by the death of the queen, the speeches of the premier and of Mr. Whitney were entirely non-political. The leader of the opposition delivered himself in most appropriate terms, while the speech of the Hon. Mr. Ross, who closed the debate, was a dignified and impressive utterance.

The particular feature of all the addresses were the eulogistic reference to the lieutenant-governor, the fitting manner in which the empire's bereavement—the death of the queen—was referred to, the tribute to the value of the Canadian soldiers who served in South Africa, and the acknowledgment of the services of speaker Evanturel at the Paris exposition. At the close of the debate the house adjourned until Tuesday next, when the resolutions on the death of the queen and of sympathy with the royal family and allegiance to his majesty the king will be passed.

EXCITED BY A SPECTRE.

Residents Kept in Whirl of Excitement.

Butler, N.J., Feb. 8.—For more than a week the residents of this place have been kept in a whirl of excitement by a ghost in the home of George Reardon. The house has been shaken by mysterious poundings and the family terrified almost into spasms. An investigating committee of citizens found the occupants of the house mourning over the death of Mrs. Reardon's mother, of which they thought they had been warned by the rappings.

The family to-day received the news from Meadtown, three miles from here, that Mrs. Abbie Witte, Mrs. Reardon's mother, had died Wednesday. The Reardon's say that the death of some one near and dear to them was the message which the ghostly fingers sounded upon casement and wall. When the funeral is over they think that the token will be lighted from their roof. Several citizens visited the house and for two nights they watched, but all in vain, until they went upstairs and put out the lights on the ground floor. Then the rappings came as loudly and distinctly as ever. Most of the committeemen who were inside heard it, as did nearly all who were outside.

KING FACES A PROBLEM.

Parliamentary Parties Are in A State of Chaos.

Rome, Feb. 8.—The ministry having resigned, king Victor Emmanuel is confronted with a task of great difficulty owing to the chaotic state of the parliamentary parties. The majority which defeated the government consisted of a transitory coalition of the members of the right and the left, only the Rudini group supporting the government, the socialists opposing the cabinet because they considered it not sufficiently liberal, while the rightists accused it of lacking a coherent policy and yielding to the socialists.

More Quarantines Raised.

Watertown, N.Y., Feb. 8.—The smallpox situation is further improved. Yesterday afternoon the quarantine was raised on No. 9 New York avenue, where there were four cases, Mr. and Mrs. William Chawgo and children; and at No. 38½ Bronson street, and No. 27½ Leray street, the residences respectively of Mrs. Belle Spaulding and Alexander Sly, one case in each house, were relieved of quarantine. This reduces the quarantine cases in the city from fifteen to nine and indicates an early conclusion of the epidemic.

Cramp Deal May Be Off.

Philadelphia, Feb. 8.—According to reports in financial circles all negotiations between Vicker, Sons & Maxim, of England, and the Cramp ship building company, of this city, looking to the practical amalgamation of the companies have been broken off.
