BROOMMAKERS DISCHARGED

Because They Joined The Union—Trouble Brewing.

When employees of Bailey's broom factory, instrumental in forming a broom-makers' union, reported their time last night, they were told that their services would no longer be required. A special meeting of the trades council will be held on Saturday night to discuss the situation. A committee of the union, composed of H. B. Bennett and two others, will wait upon Mr. Bailey and discuss the matter.

A Whig representative visited the factory this afternoon, but Mr. Bailey was out. W. J. Lee, a partner in the business, when asked if it was true that the men were laid off last night, replied that it was. "They were let go," he said, "because they were union men. Their places are already filled, and the factory is running the same as usual."

The men discharged are H. Bennett, president of the new union; H. Crozier, George Irvin, Daniel Lynch and J. Black. The proprietors will not recognize the union.

FIVE REBEL MURDERERS.

Leaders of Secret Society Must Pay The Penalty.

Manila, March 28.—Gen. MacArthur has approved the sentence of the military commission which tried the leader of the Philippine secret society known as the Mando-Ducat, who murdered Quisimbing, native president of the town of Calamba, on Bay lake, and took his head to the headquarters of the insurgent general, Cailles, of that district. Five of the ringleaders of the Mando-Ducats were sentenced to be hanged at Calamba April 5th, one to imprisonment for life and four others to imprisonment for twenty years.

BRAINS CRUSHED OUT.

A Frightful Accident at Peterboro Electric Works.

Peterboro, Ont., March 28.—A shocking accident happened at the Canadian general electric company works this morning by which J. Beck, son of H. G. Beck, St. Thomas, Ont., lost his life. Mr. Beck was a machinist and was running a plane. While interested in his work he unthinkingly lowered his head when it was caught between two pieces of iron which came together crushing his brains out. Death was almost instantaneous. The whole works at once shut down on account of the sad accident.

AN ARMY OF 50,000 MEN.

Kept in Philippines Until Peace is Assured.

Washington, March 28.—The present plans of the war department contemplate the maintenance of an army of 50,000 men in the Philippines until order has been completely established under the proposed new civil government, and the garrison can be safely reduced to a peace footing. There are now about 65,000 troops in the Philippines and China.

Another Bumper House.

Prof. Vernon, hypnotist, had a bumper house to appear before last night at Victoria theatre. His clever feats were all new, and the performance was the very best ever given in Kingston by a hypnotist. Prof. Vernon has greater success with his subjects than usual. He works quickly and there are no tedious delays. Prof. Vernon's mind reading is particularly mystifying; he, blindfolded, finds hidden articles without coming into contact with the person selected to make the test. The feats of mesmerism are also clever, entertaining and free of objectionable traits.

Likely Conscience Money.

Miss Bateson, who conducts a small store on William street, this morning received through post a note evidently written by a lady, to the effect that fifty cents would be found enclosed, which the writer owed Miss Bateson. The note was not signed. Fifty cents worth of postage stamps were enclosed.

Does Not Approve.

It is said that Prof. Dupuis, whose practical work for Queen's college, has been of great value, so disapproves of the new heating plans, that he has withdrawn from his advisory capacity.

The appellate division court at Rochester, N.Y., has handed down a decision in the case of the Thousand Island park association vs. Ora Tucker, affirming the judgment with costs. This decision settles the right of the association to prohibit unauthorized persons from peddling or delivering goods and merchandise on the grounds of the association.

This morning a sub-committee of the water works committee examined the claims of residents affected by the main break on Wellington street last month. The claims total $750. Several will be paid in full, but others will receive more careful consideration.

The Indian reserve north of Solsgarth and Riding mountain, Man., has been quarantined, owing to an epidemic of what is believed to be smallpox, of a very mild type. No deaths have occurred.

Elliott Dunlop, son of ex-alderman William Dunlop, who enlisted in Baden-Powell's constabulary, for another term of service in South Africa, has been promoted to the rank of sergeant.

THE RECORD OF A BAD MAN

HE WAS ONCE IN THE KINGSTON PENITENTIARY.

Chicago Authorities Wanted to Learn of His Career—He Was Only Released From Kingston Prison Several Weeks Ago.

Toronto, March 28.—At the request of the census bureau of identification at Chicago, inspector Stark forwarded to the authorities of the windy city the record of one Robert Kennedy, alias Reynolds, alias Ryan, alias Forepaugh, also known by several other names. Kennedy was one of the first prisoners measured and photographed after the Bertillon system of identification was introduced in this city. His record is a bad one. He was convicted of burglary at Denver, Colorado, in October, 1889, under the name of Thomas Ryan, for which he got three years in the state penitentiary. He completed his term, and in August, 1896, was again found guilty of burglary in Denver. He was sent back to the penitentiary for three years more, but managed to escape on Nov. 10th, 1897.

From Denver he made his way to Toronto, and made his presence known here in the following month of May by breaking into a cigar store situated on West Adelaide street, opposite the Grand Opera house. He was captured, and, after being convicted of the burglary, was sentenced by magistrate Denison to three years in Kingston penitentiary. He was released a few weeks ago, and drifted back to Chicago, where he is now under arrest on two charges of highway robbery and one of attempting to murder a police officer. He was captured last Thursday night, and is at present awaiting trial. The record forwarded by Inspector Stark, which will be used by the prosecution at the trial, also shows that the prisoner served a term in the San Quentin penitentiary, California, between the years 1892 and 1896, under the name of Forepaugh.

The grand jury, at the assizes now being held here, visited all the cells at police headquarters, where all persons arrested are confined, this morning. With indignation foreman Jesse Mills, read a protest in which it is stated that the cells are "a disgrace to civilization," that the building is "infested with vermin," that all of one sex, are huddled into the same filthy hole," where they are liable to be kept for twenty-four hours.

Strong representations will be made to the council for improvement. They also recommend that the lash be given as the penalty in cases of habitual drunkenness, the number of strokes increasing on each conviction. Judge Macdougall said he feared that the suggestion would shock those who thought drunkenness was a disease and not a crime.

It developed at Osgoode Hall today, that the books of the St. George mining and development company, now in liquidation, have disappeared. Samuel Birkett, the president, in the course of whose examination the fact came out, had last seen the books at the office of the company's solicitor, where they were in process of examination. The master gave Mr. Birkett until Wednesday to make reasonable and proper search for the missing books.

Lieut.-Col G. Sterling Ryerson has been notified that he has been gazetted a knight of grace of the Order of St. John of Jerusalem in England.

THEY HAVE EMBARKED.

Canadians Ready to Proceed to South Africa.

Halifax, March 28.—The Canadians for Baden-Powell's constabulary embarked on the steamer Montfort at noon to-day, trains from the west, arriving shortly before the hour. Col. Steele did not arrive with the western men, and it was rumored at the dock that he was going out in charge of another contingent. The trooper will haul out in stream this afternoon, but it is not decided when she will sail owing to fitting up not being completed. Men are protesting against sailing on Friday, and if she does not get off to-night she may remain till Saturday morning. The men who were in barracks here arrived at the dock at the same time the train pulled in with the western men. The embarkation was very quiet. There was no band in attendance.

The pilot has orders to be on the steamer Montfort at three o'clock this afternoon, and take her to sea. All the men were on board at one o'clock except those from St. John, who arrived later and went on board at once. The force consists of thirty-one officers, one warrant officer, thirty staff-sergeants, and 1,190 men.

EVIDENCE IN COOK CHARGES.

The Continuation of the Investigation in Ottawa.

Ottawa, March 28.—The senate committee appointed to enquire into the Cook charges met again this morning. The first witness was Allen Hancock, book-keeper to Mr. Cook. He said that W. T. R. Preston called at Mr. Cook's office in the fall of 1898. After Mr. Preston left Mr. Cook came to him and said: "What do you think of that scoundrel, Mr. Preston? He wanted me to pay $10,000 for a senatorship." Mr Cook was very annoyed. This closed the case for Mr. Ritchie and for Mr. Marsh.

Mr. Blake then called on Sir Wilfrid Laurier. In reply to a question the premier said that the statement that he and other members of the cabinet had offered Mr. Cook a senatorship for the payment of $10,000 was absolutely untrue. The late Mr. Cameron, so far as he was aware, never either directly or indirectly offered a senatorship to Mr. Cook. He had no authority to make any such offer. As premier, Sir Wilfrid, said he followed the rule that where his Ontario colleagues are unanimous he takes their advice in nominating senators. Where they are not unanimous he exercises his own judgment and the responsibility rests with him.

Sir Richard Cartwright was next called and sworn. To Mr. Blake's questions he replied: "The charge is absolutely untrue. The first I heard of it was the statement made by Mr. Cook prior to the general elections. The only correspondence I ever had with Mr. Cameron was as to the lieutenant-governorship. I never wrote Mr. Cameron a letter in which it was stated that 'our friend Cook must do something,' or to that effect. I never wrote him any letter which he was to show but not give to Cook."

Cross-examined by Mr Marsh, Sir Richard said that as soon as the ministers were sworn in in 1896 Mr. Cook was on hand and put in his application for a senatorship. Mr. Cook had many interviews with Sir Richard upon this subject. Sir Richard then went into Mr. Cook's claims as stated by Mr. Cook.

GROWTH OF HORNERISM.

Holiness Movement Has 11,600 Supporters in Canada.

Ottawa, March 28.—The annual report of the Holiness movement in Canada for 1900-1901, has just been completed. The report shows that progress has been made by the body during the past year. In Canada the movement now numbers over 11,000 members, with 152 ministers and over eighty evangelists engaged. The value of churches and chapels owned is about $60,000; while several new churches are well under way. The amount raised by collections for all purposes during the year was over 42,000. There are now about eighty circuits in which conventions are held frequently.

Reports from the missionary work being done in England and Ireland show that good progress is being made, while in Egypt the movement is making rapid strides under the direction of Rev. H. E. Randall. A native school has been established at Assouit, in which two interpreters are employed.

Mr. Horner is at present engaged on an entirely new hymn book which will be submitted to the church as soon as completed.

Price Denmark Asks For Sale of West Indies.

London, March 28.—The News publishes the following despatch from its Copenhagen correspondent:

"I am enabled to state, on the very best authority, that Denmark has communicated to the United States the following conditions for the sale of the Danish West Indies:

"First—$4,000,000 to be paid to Denmark.

"Second—The population to decide by vote whether to remain Danish or to be transferred to America.

"Third—If the vote is favorable to the United States, then the inhabitants to become immediately American subjects.

"Fourth—Products of the island to be admitted to the United States free of duty.

"It is supposed here that Washington will not readily accept the third and fourth conditions."

WHAT IT WOULD INVOLVE.

Reciprocity Towards Canadian Goods by Great Britain.

London, March 28.—Replying in the house of commons to-day to a question put by Sir Charles Howard Vincent, suggesting reciprocity towards Canadian products for the preference granted to British goods by Canada, the chancellor of the exchequer, Sir Michael Hicks-Beach, pointed out the difference between the Canadian and the British tariffs, and suggested that reciprocity would involve the imposition of duties on goods from other countries for the benefit of Canada. He was not prepared to propose this and was certain Canada did not expect it. Great Britain had already shown her appreciation of Canada's preferential treatment by assisting the steamship service between Canada and Japan, and by assistance promised in the case of the Pacific cable.

Potsdam, N.Y., March 28.—The dead body of Miss Oliva Goodnow was discovered on a couch in the kitchen of Charles M. Brush at Nicholville, twelve miles from here, yesterday. Developments lead to the supposition that she was murdered.

When last seen she was in the company of a young man, who cannot be found now.

Yesterday about four o'clock officer Dennis Coakley met the man in front of the Albion hotel. His horses seemed quite warm, as though they had been driven hard.

He took the 7:03 train west and on inquiry of the station agent it was thought he bought a ticket for New York, but this the district attorney is not sure of.

He tried to cash a cheque at the Albion house before his departure, but did not succeed. Again on the train near DeKalb Junction he accosted Homer McGarey, of this village, for the purpose of cashing his cheque, but was again unsuccessful.

Mr. Ross heroically declares that his government will not give a cent to Queen's or any other denominational university; but that it will financially "strengthen" the school of science at Kingston. As the school of science is virtually a department of Queen's, principal Grant will probably be satisfied with his arrangement, and smile as he winks his shrewd ecclesiastical eye.
