PITH OF THE NEWS.

The Very Latest News Culled From All Over the World.

To-day grand duke Friedrich Franz IV. of Mecklenburg, Germany, attained his majority and began his reign in Schwerin with solemn ceremonies and festivities.

It transpires that "May Wright," who figured in the Todd murder trial at Winnipeg, as having aided in securing a confession from the prisoner, was a boy in female attire.

The employees of the Central railway of New Jersey are casting ballots on the strike question. Should two thirds of the men be in favor of a strike, the brotherhood's chiefs may order all hands out and the railway system will be tied up.

The saw mill of the Conger lumber company, Perry Sound, was completely destroyed by fire this morning, cause unknown. The mill had been expected to start operating within a few days. 250 hands are out of employment. The loss is $50,000.

BOERS STILL ACTIVE

A Commando Raids Town Of Ingogo.

CAPTURED AMMUNITION

PLUMER TOOK SIXTY BOER PRISONERS.

Treason is Now Punishable by Death in South Africa—Patrol of Brabant's Horse Captured by Boers.

London, April 10.—Col. Plumer took sixty prisoners and a seven-pound gun at Pietersburg, the late capital of the Boers, which he entered with slight opposition on Monday. He destroyed 21,000 rounds of small ammunition, 10,000 pounds of seven-pounder ammunition, and a considerable quantity of powder and dynamite.

Captured A Patrol.

Cape Town, April 9.—A patrol of the second battalion of Brabant's horse, under May, Arbuthnot, was captured in the dense bush early last week.

Robbers Sent To Jail.

Pietermaritzburg, April 9.—A hotel keeper and four railway men have been sentenced to terms of imprisonment varying from one to two years for being concerned in the robberies of goods in transit by railway. The judge remarked that it was a notorious fact that there had been robberies on an enormous scale on the railway.

Baulked The Attempt.

Vryheid, April 9.—The British, under Col. Alderson, have baulked an attempt of Grobelaar's commando of 500 Boers to escape in a northerly direction. One hundred and twenty Boers, who have been operating in Zululand, have surrendered.

Boers Raid A Town.

Durban, April 9.—One hundred and fifty Boers, part of the commando which attacked a train last week, suddenly appeared at Ingogo on Sunday night. The owner of the hotel and store awoke and found seventy armed Boers in his room. They looted and set fire to the premises. Later, they raided a neighboring house, the owner of which guarded his wife's bedroom with a revolver. A bullet passed through the door and wounded him in the shoulder. After the looting, the Boers decamped. The fire at the hotel was extinguished, but the store and canteen were destroyed.

Boer Generals Meet.

Cape Town, April 9.—Gen. Dewet is reported to be west of Keilbron, with Mr. Steyn. Commandant Gen. Louis Botha, who has been with Gen. Dewet, has returned to the Transvaal.

Death For Treason.

Cape Town, April 9.—The official Gazette announces that hereafter treason will be punished by death, instead of imprisonment, fining or disfranchisement as heretofore.

The government reports that Scheepers' commando has divided. The larger portion, under Scheeper, is clinging to the mountains on the Aberdeen Murraysburg road. It is an extremely difficult country to operate in. The British have kept the invaders moving, with some success.

Major Moltins, of Scobell's column, has captured a Boer camp near Roodepoort. Commandant Fouchee has been kept moving in the Murraysburg and Richmond districts. Fouchee is apparently awaiting instructions from Scheepers. He invariably declines engagements.

Commandant Kritinger has sent his worn out men and horses to join Vanreenan. The latter's subcommandos have gone west from Dreytontein towards the Middleburg district, where they are probably awaiting a general concentration of the forces operating in that area.

Part of the invading commandoes, driven north, attempted to swim the Orange river, but failed. They finally crossed at Ondejontein with the aid of one boat. They were attacked on the north bank and scattered, fleeing north of the railway. They have been attacked in desultory fashion more than once, but without loss.

He Is Irresponsible.

Berlin, April 10.—Diedrich Weiland, the man who made the attack on Emperor Wilhelm at Bremen, has had another violent epileptic outburst. He attacked his lawyer, and three wardens had much difficulty in restraining him. Subsequently he slept for hours and upon wakening remembered nothing of the occurrence. He is unquestionably irresponsible.

To Purchase A Residence.

London, April 10.—The United States government are among the possible purchasers of Thorneyhouse, opposite the Broad walk, Kensington gardens. This consists of a small residence, but includes nearly an acre of land. It is said that the American government desires the property for an ambassadorial residence.

Has Filed A Caveat.

St. John, N.B., April 10.—Mrs. Boyle Travers, sister of the late bishop Sweeney, has filed a caveat against his lordship's will, which leaves his property of $10,000 to the church.

According to expert opinion, China would be able to pay from twenty to £30,000,000 sterling without crippling her financial resources, while the amounts which the powers at present demand aggregate from £80,000,000 to £100,000,000.

CRITICIZES LORD KITCHENER.

Says he Does Not Use The Volunteers Right.

Toronto, Ont., April 10.—Trooper R. D. Campbell, Kitchener's horse, writing from South Africa to his father, Dr. W. A. Campbell, French River, Ont., severely criticizes Lord Kitchener. Referring to the time when he might return to Canada, the writer says: "I do not know when we will be out of it. Kitchener said there were to be no discharges among the colonials for some time. We joined for three months, if required six, but not to exceed that. We have sent in three or four times for our discharges, but cannot get them. Kitchener is no man at all. He thinks every man is a dog at his feet. He wants to know what we want our discharges for, when there is fighting to do. Three Canadians have got six months hard labor already, so this is the way he is treating volunteers."

Continuing the writer exclaims: "You can't get soap to wash yourself with, or money to buy it. I have had only ten shillings since I joined. I have the same shirt I was served out with, and the same socks and pants." He concludes by declaring that his situation "is a hell on earth."

CAPTURES A COUNT.

American Heiress to Become Austrian Countess.

New York, April 10.—The romantic story of the courtship of Miss Marie Satterfield, daughter of John Satterfield, of Buffalo, and Franz Josef, count Von Larisch, of Austria, has become known. The prospective bride, who has just reached her majority, met her future husband a year ago while touring the continent. The count, who is twenty-two, came to America several months ago, propos of marriage and was accepted. The empress of Austria was his aunt, and when he was baptized the emperor stood as his sponsor, became his godfather and gave him his name.

Prince Heinrich, one of the Austrian princes, and a close friend of the count, is expected in New York on Wednesday, and the formal announcement of the engagement will then be made. Miss Satterfield's father, connected with the Standard oil company, died suddenly in Europe a few years ago, and left the future countess, his only daughter, an independent fortune.

SIGNED PEACE MANIFESTO.

Aguinaldo Attached His Signature—Rebels Surrendering.

Manila, April 10.—Although the officials are uncommunicative, it is, nevertheless, said that Aguinaldo has signed the peace manifesto. Chief justice Artellano drafted the document. Aguinaldo strongly objected to two clauses therein, and considerable argument was required to overcome his objection.

Col. Alaba, the insurgent leader of Zambles province, with thirteen officers, eighty-three men and ninety-two rifles, surrendered to Lieut. Col. Goodrel, stationed at Olongapo, on Subig Bay. Gen. Malvara, with about 300 men and as many rifles, is expected to surrender at Silanang, in Cavite province.

VISION CAUSED RESIGNATION

Gives up His Church to Devote His Life to Children.

Denver, Col., April 10.—Rev. Richard W. Lewis, pastor of the First Cumberland Presbyterian church, described in graphic detail, a remarkable vision under the spell of which he tendered his resignation to an astonished congregation.

In his vision he saw huge waves dashed by a terrific gale against the church in which his people were gathered. A child was struggling in the angry waters outside. Facing almost certain death a man plunged into the sea and brought the little one to land. Mr. Lewis has determined to devote the rest of his life to saving children.

SHOWS FORETHOUGHT.

Celebrated Economist Says America Will Rule.

Vienna, April 10.—The French economist, Paul Leroy Beaulieu, in an article discussing which civilized nation is likely to exploit China, says: "It is probable that the chief roll will fall to the United States, especially when the Nicaragua canal has been cut. China will then, for economic purposes, become an American colony. The Americans know this and the whole attitude during the recent events has been marked by finesse and foresight."

Duel To Death With Knives.

Santiago De Cuba, April 10.—Stench and buzzards revealed the bodies of two Cubans in the mountains sixteen miles from this city to a native coffee pack train. The men had fought to the death with machetes and knives. One man had his hand on the other's throat, the other had his knife in his opponent's breast. They were both terribly mutilated. The men were recognized as neighboring countrymen who were returning home from the city with loads of merchandise. The fatal quarrel occurred while they were camped by the side of the trail.

Carrie Nation In England.

London, April 10.—A married woman named Jane Tindall called for her husband at the Royal vaults public house and asked him to "come home." He promised to follow her in a few minutes, but she snatched up a water bottle, went outside, and hurled it through the plate glass window. Rushing in again she sent water bottles, match stands, and flower pots flying in all directions. She was committed for trial.

DEMAND NOT REFUSED

China Wants Concessions From Russia.

TO DEMAND INDEMNITY.

LUMP SUM TO BE DIVIDED BY POWERS.

The Japanese-Chinese Alliance to Resist Russia's Demands, is Gaining Strength—British Appointed a Russian as Commissioner of Customs.

Pekin, April 9.—A new view of the Manchurian situation is expressed by certain influential Chinese, namely, that China has not definitely refused to make an agreement with Russia, but desirous to secure further modifications in the proposed convention, especially a definite statement that for whatever privileges are granted, Russia, in turn, will openly assist in maintaining China's integrity and will formerly recognize her sovereignty. If this view should be impressed upon the court, it is still possible that the Chinese will yet ratify the agreement. On the other hand many Chinese officials continue to urge the court not to ratify any agreement, fearing, doubtless, that such ratification would create the impression that China's independence had been weakened, and thus hasten the international scramble for China's territory.

The correspondent learns that the faction in Japan favoring a Chinese-Japanese alliance for united resistance against Russia is gaining strength.

To Ask Indemnity.

Berlin, April 10.—Dr. Stoudel, director of the colonial office, has returned from London, where, it is understood, he arrived at a complete understanding with Great Britain in reference to the indemnity to be paid by China. Each government, it is said, will adopt the same system, namely, receive and consider private claims and losses, and then demand a lump sum, which it will itself distribute.

In response to an enquiry from the foreign office, Dr. Mumm Vonschwartzenstein, the German minister at Pekin, cables that there is no truth in the story that Mr. Rockhill, the American representative, and Sir Ernest Satow, the British minister, were insulted by German soldiers, while returning from a dinner in Sedan chairs, carried by Chinese bearers.

Sir Robert Hart, director-general of the imperial customs, has appointed a Russian as commissioner of customs at New Chwang, his action being based upon the fact that Russia claims all the customs revenue there. This indicates the possible procedure of the other powers, each of them directing the customs at the treaty ports within its special sphere, notwithstanding Sir Robert Hart's strenuous efforts to retain the customs as a Chinese department, and as helping to solidify the Chinese government.

ANXIOUS TO EMIGRATE.

Besieged By Applicants Who Desire to Go to Africa.

London, April 10.—The duchess of Marlborough is interesting herself in the woman emigration society, to which Mr. Chamberlain gave such a fillip. She was present at a meeting, held by Miss Balfour, a sister of the leader of the house of commons.

Applications came in by thousands from women who wish to go to South Africa, but they want their passages paid. Two young women, who directly addressed Mr. Chamberlain, say that they are first rate lady barbers.

Mr. Chamberlain cautiously hinted at the possibility of the government granting the indulgence of passages to suitable women, and they are going out in transports. That means about half fare. It is said that the colonial secretary was rather nervous over the probable replies from fair ones to his suggestion of their going out to join the wife-lacking men in Africa.

SOMEBODY MADE HAUL.

Four Gold Bars Mysteriously Disappears From Strong Box.

Cherbourg, France, April 10.—On the arrival here yesterday of the North German Lloyd steamer Kaiser Wilhelm der Grosse, from New York, it was announced that three gold bars, worth £1,000 each, had been stolen during the voyage. All the baggage landed was examined with the utmost care by the customs officers and detectives, but the gold could not be discovered. One hundred and fifty passengers landed for Paris and several detectives travelled in the special train with them.

King's Week-end Residence.

London, April 10.—The World says king Edward will make Frogmore his week-end residence during May, June and July. This place is an ideal residence during hot weather. The grounds are heavily wooded, and an aviary built by the prince consort adjoins a large, pleasant room, with an immense bay window looking out on the terrace.

It is reported at Paris that Sarah Bernhardt has arranged with M. Sienkiewicz, the well known novelist, for a dramatization of his novel "With Fire and Sword."

BE PRUDENT

In the medicines you take when you suffer from grippe, cough, cold, catarrh, bronchitis, asthma, etc. "Morin's Wine Cresophates" is the great remedy for all these ills. Insist upon "Morin's Wine Cresophates" and never accept an imitation. Sold by all dealers in remedies.

WORST SINCE THE SIEGE.

Immense Loss to France Through Labor Strike.

Paris, April 10.—The object lessons furnished by the strikes, which since the close of the exposition have been so general throughout France, are beginning to take effect. Calculations have been made showing that the Calais strike caused loss of life and $1,600,000 to local industry, besides $2,000,000 loss in workmen's wages. The Marseilles strikes, not yet ended, although seventy per cent. of the strikers resumed work, have dealt such a terrible blow to the prosperity of Marseilles, that the city can scarcely hope ever to recover its lost position. The loss to trade at Marseilles is estimated at $8,000,000 each week during the strike; sales in retail business diminished sixty per cent. There are indications on all sides of additional withdrawals of capital from French undertakings, and shop-keepers in Paris and elsewhere have the greatest difficulty in meeting their engagements and paying their rents, their situation being worse than at any time since the siege of Paris.

PIERCED HIS HEART.

It Was Four Inches Larger Than Normal—Cut It In Operating.

San Francisco, April 10.—Frank Seiler, whose heart extended four inches beyond the space occupied by the normal heart, caused consternation among the surgeons at the city hospital. Seiler went to the hospital to be treated for pains in the chest. There being evidence of dropsy, it was decided to tap him. The needle was driven in at a point four inches from the place ordinarily occupied by the heart. Instead of dropsical fluid the needle caused a flow of blood. The patient collapsed and died on the operating table.

An autopsy revealed the fact that the heart was badly affected, being several times larger than normal and that the needle had pierced the right ventricle. As the surgeons could detect no heart tones before they began the operation, no precaution would have prevented the accident. The autopsy showed that, but the dropsy fluid was not where it should have been.

REPORTS EXAGGERATED.

The United States Consul Says St. Peterburg is Quiet.

Paris, April 10.—A private letter from the United States consul at St. Petersburg declares that reports in foreign newspapers of recent disturbances there were grossly exaggerated, and there was much printed about them which was all false. The crowds on the Nevsky Prospect, where the consular office is situated, were attracted by curiosity on March 17th, and March 24th, Cossacks were employed in keeping them moving, but it is absolutely untrue that a number of persons were ridden down and killed. The consul says that St. Petersburg is as quiet as Paris and the czar and czarina drive out as usual unattended.

SUICIDE BY GUILLOTINE.

California Man His Own Executioner in a Novel Manner.

San Jose, Cal., April 10.—"Death resulted from a cut in the neck, made by a guillotine, and operated with suicidal intent." Such was the verdict rendered by a coroner's jury impanelled to inquire into the facts surrounding the death of John Connelly. Connelly had rigged up a guillotine and cut off his own head. He swung a broadaxe by a rope in such a position that when he cut a cord the axe would fall across his neck which was stretched on a block of wood conveniently located. The plan worked effectively, and death was probably instantaneous.

He Is Humane.

London, April 10.—A despatch to the Daily Mail, from St. Petersburg, says that Gen. Van Novesky, the new minister of public instruction, has lost no time in initiating clemency for young people imprisoned for their connection with the recent disturbances. He liberated 200 male and 183 female students.

Their Promotions Gazetted.

London, April 10.—The following promotions of officers of Strathcona's Horse were announced by the Gazette: Capts. D. M. Howard and G. W. Cameron, to be majors; Lieuts. R. M. Courtney and J. J. Macdonald, to be captains.

The dominion will grant $5,000 for the monument to be erected by the army and navy veterans in Victoria square, Toronto, the old military burying ground, in honor of imperial soldiers who died while serving in Canada.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box.

EXAMINE IT!

You will find that if the shirt was washed and ironed at BAKER'S, it is well done.

We have the lead and we want to keep it. Patronize the best laundry.

Baker's Steam Laundry,
Corner Princess and Sydenham Streets. Telephone 22.

WEATHER PROBABILITIES.

Toronto, Ont., April 10, 10 a.m.—Fresh to strong northerly winds, generally fair; stationary or slightly higher temperature. Thursday, fine with slightly higher temperature.

WEESE'S.

VACANCIES AND EMPLOYMENT

TO EMPLOYERS AND EMPLOYEES. The wants of both are supplied. Positions secured for those out of work, and good clerks and help of all kinds recommended to those needing it. Address THE LICENSED REGISTRY OFFICE, Mrs. Daniel Staley, 123 Brock street.

Changes At Ascot.

London, April 10.—Great changes are contemplated in connection with the fashionable race meeting at Ascot, near Windsor. King Edward, who is keenly interested, desires that two meetings be held annually instead of one, as heretofore, and he will transfer his breeding stud thither. He also intends to largely increase his racing stud. The royal procession, which is the great feature of "Royal Ascot," will not take place this year.

Fire destroyed twenty-five houses in Andover, Hampshire, Eng., yesterday, rendering 150 persons homeless.

In The Spring

The rough, unevenly tempered Mainspring, lies the trouble with a great many Watches.

We use the best Mainsprings money will buy, and take great care in fitting them to insure proper results.

A. C. Johnston & Bro.
