THE THAMES NEGLECTED.

Complaint Made Against the Public Works Department.

Ottawa, April 11. Several government measures were considered in the committee stage this afternoon, including the bill to amend the dominion franchise act in reference to the voters' list to be used in dominion elections. Mr. Stephens (Kent) presented with some vigor a grievance in connection with the failure of the public works department to dredge the bar at the mouth of the river Thames, and alleged lack of courtesy by Mr. Tarte. The minister of public works explained that he had no funds for the work until the supplementary estimates were passed. This evening Mr. Bennett brought up the question of filling the vacancy in the king's bench judiciary in Ontario. Sir Wilfrid Laurier replied that it was the duty of the government to fill the vacancy, but he had received no complaints of inconvenience having arisen from delay. He characterized as unseemly the circulation of a petition to the government asking for the appointment of any individual to the position.

A Lunatic Suicides.

St. John, N.B., April 12.—Charles Oakely, a patient in the provincial lunatic asylum, escaped yesterday and, making for the suspension bridge which crosses the St. John river at the falls, which was a raging cataract, crept through the railing and dropped into the water. His body disappeared, probably never to be recovered. Oakely was forty two years of age and married.

Hunting For A Bonus.

Ottawa, April 12.—J. Robinson, Toronto, representing a syndicate of Mexican, Toronto and London capitalists, has written to the mayor, asking what inducements Ottawa would hold out for the establishment of smelting and structural bridge works. Other municipalities are being approached, and the most favorable offer will be accepted.

Dropped Dead At Work.

Morrisburg, April 12.—James Johnson, lockman at the head of the Williamsburg canal, dropped dead yesterday while assisting in the locking of a vessel. Mr. Johnson was seventy-four years of age, and had been working continuously on the canal for forty years.

No Boers For Tasmania.

Melbourne, April 12.—The federal cabinet, at its sitting to-day, decided that it was unable to recommend the suggestion of Joseph Chamberlain, the colonial secretary, that Boer prisoners be sent to Tasmania.

MUST NOT SURRENDER

War Office Tired Of "Regrettable Incidents".

BRITISH SURPRISED BOERS.

NINE OF THE ENEMY KILLED IN SKIRMISH.

No Truth in The Report That Gen. Botha has Reopened Peace Negotiations — Civil Administrations in the Transvaal.

London, April 12. The dissatisfaction over the frequency of surrenders and similar "regrettable incidents" is now met by the issue of a special army order, directing that any officer or soldier, who, in the presence of the enemy, displays a white flag or any other token of surrender, shall be tried by a general court martial.

Gen. Methuen, who has been in the hospital with fever, has returned to duty.

Enquiries in official quarters fail to elicit the smallest confirmation of yesterday's report, regarding the resumption of peace negotiations in South Africa. The Times says it learns there is no foundation of the Cape Town story regarding Gen. Botha or, apparently, for any of the other circumstantial statements of his alleged acts or intentions. There is a strong probability, according to the Times, that the telegrams were nothing more than reproductions of local gossip.

Killed Seven Boers.

Cape Town, April 11. The British garrison at Hopstadt, in the north western part of Orange River Colony, which has practically been isolated for some months, has been relieved by a column under Lord Erroll and withdrawn. The fortifications were destroyed and nearly all of the inhabitants quit the town. Lord Erroll's column surprised the Boers at Kareepan, killing seven.

Gen. Sir Frederick Forestier Walker, the base commander here, will sail for England next week on a flying visit.

Civil Administration In Force.

Pretoria, April 11. Thirty prisoners, captured at Magalastadt, were brought here yesterday from Rustenburg. A civil administration was inaugurated yesterday under a proclamation by Gov. Sir Alfred Milner. The military tribunals at Johannesburg and Pretoria are abolished. The Transvaal law of procedure is maintained, but pleadings must be conducted in English.

Great satisfaction is expressed over the commencement of civil government. The appointments announced meet with much approval.

The convoy which left here on March 27th with supplies and an enormous accumulation of mail, reached Rustenburg safely. It was sniped at continually on the way, but because of its strong escort was not openly attacked by the Boers.

A Boer force numbering about 900 was seen hurrying towards the north. A reconnoissance was made towards them and a long occupied camp, just evacuated, was discovered.

The convoy returned to Pretoria yesterday, bringing a large number of Boer refugees with them. The refugees were accompanied by their families and belongings.

Berlin, April 12.—The Cape Town correspondent of the Frankfeuter Zeitung confirms the reports in the English newspapers, as to the present position of the Boers and the madness of Gen. Dewet. The correspondent says the condition of the Boers is desperate, and there is great depression among the rank and file. Gen. Dewet the correspondent says, is so distracted that his case can truthfully be described as insane. He moves about in fear of his life among his own troops, surrounded day and night by a body guard of his chosen adherents. But even from the ranks of his own men, the correspondent adds, there are voices heard now more frequently and imperatively calling for peace.

Will Report Favorably.

Ottawa, April 12. The offer of Andrew Carnegie to give $100,000 towards the establishment of a public library in Ottawa and the question of its acceptance was referred to a sub-committee consisting of aldermen Morris, Champagne and Ellis, for consideration. Messrs. Ellis and Morris have arrived at a conclusion to which alderman Champagne will probably agree also. They will recommend that Mr. Carnegie's offer, with the conditions contained therein, be accepted, and that a by-law authorizing the city council to make the necessary expenditure for maintenance be introduced.

A Flimsy Agreement.

Paris, April 12.—A despatch from Jibouti says that surprise is felt at the statements in English newspapers, that the Abyssinians are acting with the British troops against the Somalia Mad Mullah Abdullah. The despatch says that the fact is the Abyssinan troops from the Somali border are now with king Menelik, helping to build Addialim, the new capital. If any Anglo-Abysinian agreement exists it is of the flimsiest character. The internal situation in Abyssina is serious. The Tigre district is in a state of rebellion.

MR. MARTER'S DEFECTION.

A Strong Speech Favoring the New Pulp Agreement.

Toronto, April 12. The legislature transacted a great deal of business yesterday, but was forced to postpone the closing up of its business for another day. The feature of the session was Mr. Marter's defection from the opposition on the Keewatin pulp agreement. The former leader of the opposition in a strong speech described the advantages to be gained by the agreement, and from the general opening up of new Ontario, while his neighbors in the opposition vigorously denounced the proposal. His vote with the government again brought the latter's majority up to twelve. An important change in the grant to the Kingston school of mining was announced, an endowment of $22,500 annually for five years being substituted for a proposed grant of $6,000 a year for an unlimited period. The house will meet at eleven o'clock to-day.

The bill respecting cash and to certain railways was referred back. Hon. Mr. Latchford, introducing an amendment providing that the steel rails used in the construction of such lines should be made in Ontario, provided such rails as were necessary were procurable here at a price not greater than in the open market in United States or Great Britain of the same quality and at satisfactory freight rates.

Col. Matheson (South Lanark) proposed the words "dominion of Canada" instead of Ontario, contending that it was discriminating against other provs.

It was decided to insert the words "dominion of Canada" as suggested. The bill was read a third time and passed as amended.

COURT GOING TO PEKIN.

Says There Is Not Any Rebellion In North China.

Shanghai, April 11. There is increasing evidence that the court intends to leave Singan Fu and proceed to the province of Honan, on the way to Pekin. The court will remain at Kai Feng Fu, the capital of Honan, for some time and await developments. This city was the ancient capital under the Liao dynasty, which was Tartar.

The southern viceroys strongly censure Li Hung Chang for his intrigues with Russia over the Manchurian affair.

The Report Denied.

Berlin, April 12.—According to the Pekin correspondent of the Lokal Anzeiger the foreign authorities there emphatically deny that a rebellion of Chinese troops, under Gen. Tung Fu Siang, has broken out.

Troops Returning Home.

Pekin, April 11.—The British fourth infantry brigade is being broken up and the Bikanir and Alwar imperial service regiments will soon start for India. The other regiments composing the brigade will be attached to lord Campbell's command.

TRANSPORT ON FIRE.

Was to Have Sailed for Cuba With Troops.

New York, April 12.—The United States transport Rawlins, due to sail for Cuba, with troops and supplies, caught fire at the government pier. Four men were overcome by smoke. James Snyder, a sailor, is reported to be in a serious condition. The fire originated in some hay which formed part of the cargo. The Rawlins was an auxiliary cruiser during the war with Spain. It was finally found necessary to sink the Rawlins. The firemen flooded the holds, putting out the fire, but giving the ship a bad list. Seeing that there was danger of the ship capsizing, the sea cocks were opened and the vessel allowed to sink. The loss may reach $100,000.

Evils Of Intemperance.

Vienna, April 12.—At the meeting of the eighth international temperance congress Dr. W. C. Vonhartel, minister of public worship and instruction, and privy councilor, said that sixty per cent. of the crimes committed in Austria were caused primarily by the use of intoxicating liquors, and almost fifty per cent. of the insanity was due to the same origin. Dr. Meinert, of Dresden, attributed the large mortality among members of the medical profession to the abuse of alcohol and morphine.

The Sensation Collapsed.

London, April 12.—Lady Cook's promised sensation in connection with rumors about the death of her husband, has completely collapsed. All the charges which lady Cook, formerly Miss Louise C. Claflin, made against people for slandering her in connection with the death of her husband, Sir Francis Cook, have been withdrawn.

Would Tax Newspapers.

London, April 12.—Henry Labouchere suggests in Truth that the budget ought to include in its provisions for national expenses a war tax on newspapers. He adds: "A heavy war tax would bring home to the press its responsibility in the matter of wars, and would have a very calm effect on the warriors of the pen."

Yellow Fever In Jamaica.

Kingston, Jamaica, April 12.—Yellow fever has made its appearance at Port Royal. Two cases have been officially reported and one death has resulted. The health authorities are taking prompt measures, and with every prospect of success, to prevent the spread of the disease.

EYE ON OTTAWA.

Indicates They Are Seeking an Entrance to The City.

Ottawa, April 12.—The possibility of the entrance to Ottawa of the Vanderbilt system of railways by the acquisition of the Ottawa and New York line, has been strengthened within the past two days. S. R. Callaway, president of the New York Central railway, Dr. W. Seward Webb, chairman of the directorate, and Mr. Clements, president of the Rutland railway, were in the city yesterday, having come over the Ottawa and New York line on a tour of inspection. The railway magnates expressed themselves as favourably impressed with the line, and their minute inspection is construed as an indication of the probable acquisition of the road.

The Ottawa and New York connects with the New York Central at Tupper Lake, and with the Rutland railway at Moira. Messrs. Callaway, Webb and Clements carefully examined the bridge at Cornwall.

CHEATED AT POKER.

Passengers on Teutonic Involved in Gambling Scandal.

Liverpool, April 12.—A gambling scandal occurred on the steamer Teutonic, which arrived here from New York yesterday morning. Two first cabin passengers were caught cheating at poker. They secured considerable over £200, but were obliged to make restitution. The same men were discovered swindling in the pools of the ship's daily run, and were forced to give back a cheque for £50, which they had gained in this manner. Upon the Teutonic's arrival at Liverpool the swindlers were allowed to proceed with a warning.

Demanding More Money.

Hamilton, April 12.—The board of education recently applied to the provincial government for an increased grant for the Normal college and collegiate institute. The government responded by making a $500 increase. This amount does not satisfy the board and last night it decided, after a lively discussion, to notify premier Ross of the fact, and to inform him, that unless the government is willing to pay for the privilege of having Normal college students instructed in the public schools, the privilege will be withdrawn.

Six Firemen Injured.

Syracuse, N.Y., April 12.—The hose waggon of engine company No. 7, while going at breakneck speed south in South Crouse avenue, collided with an East Genesee street trolley car last night. The six firemen on the waggon were seriously injured, and the trolley motorman and an unknown woman passenger were also hurt. One of the fire horses was killed. The force of the collision was so great that the car was thrown from the track and partially wrecked.

Fate Rests With Justice.

New York, April 12.—The hearing in the case of Albert T. Patrick, charged with the murder of the aged millionaire, William Marsh Rice, closed this afternoon and justice Jerome announced that he reserved his decision, but hoped to make it known by next Monday. It rests with justice Jerome whether or not Patrick will be held for the grand jury. Meanwhile Patrick will stay in the tombs.

Templars Get A Verdict.

Toronto, April 12.—In the civil assizes yesterday the jury in the libel action of the Royal Templars of Temperance vs. The Economist, of this city, returned a verdict for the plaintiffs, and assessed the damages at $1 with costs. The society wanted $5,000 because the paper called it a "fake" organization, and said it "hoodoo'd" the people by conducting the business on an unsound basis.
