A U.S. WOMAN HELPED

To Denude The Palace Of The Emperor.

PARTIALLY CONFIRMS IT.

THE WOMAN WAS INTRODUCED BY CHAFFEE.

Although She is Said to Have Been the Wife of an American Diplomat, the Former British Minister Will Not Give Her Name.

New York, June 26.—The North German Lloyd steamer Kaiser Wilhelm der Grosse sailed yesterday. Among the passengers on board were Sir Claude Macdonald, who was British minister to China during the Boxer trouble and who is now ambassador to Japan, and lady Macdonald.

When asked regarding the story that the wife of a United States diplomat had been concerned in the looting of a storeroom in the Forbidden City and that lady Macdonald had protested against the action, Sir Claude Macdonald said:

"Lady Macdonald was in a party which went over the palace. When they reached the storeroom and there was some talk of breaking in, lady Macdonald, the secretary of the British embassy and the Belgian and Italian representatives withdrew. They refused to have anything to do with the affair.

"What went on after they left I cannot say. It is not true that lady Macdonald protested. She simply withdrew. Who the parties were who remained I will not say, but they entered through the south gate under passes issued by Gen. Chaffee. Afterward an American aide and another person came to apologize to me, but I told them that there was nothing to apologize for, as I knew nothing except that lady Macdonald had withdrawn. Afterward at a meeting of the representatives I read that the representatives of two nations had protested, and I suppose that they were the Belgian and the Italian ministers."

When asked whether he thought the conduct of the missionaries in taking stores was justified, he replied:

"The conduct of the missionaries so far as I know was excellent. Their position was a trying one. They saw the fruits of their labor swept away; their possessions and themselves suffering, and with all this why should they not take what they needed?"

THE BUSY FIGHTERS.

The British and Boers Are Having Frequent Scraps.

Cape Town, June 25.—A small body of Boer invaders has revisited Jamestown and proclaimed that village the capital of the Orange Free State. The same force is said to be indulging in considerable looting in that district. It is understood that energetic measures will be taken for the effectual clearance of the marauders. A Boer force marched to within ten miles of Barkley West last Saturday, and engaged a patrol of the Cape police and a local mounted defence force from the farms of Lyndal and Orphendale. The British lost one killed, nine prisoners, three of whom were wounded and two missing. A British column, under Col. Munro, has defeated a force of Boers, supposed to be a portion of Kruzinger's commando. The Boers were routed from the field, leaving their carts and provisions behind them.

Notes Of The War.

Gen. Fouche's two Boer commands have advanced beyond Gen. Almond. Boer and British scouts have exchanged shots six miles from Barkley East. All the local defence forces have been mobilized.

The South African war continues to cost £1,250,000 weekly. The authorities estimate that the invaders of Cape Colony number 1,000 and 2,000 men. There have been 1,484 cases of typhoid fever among the troops during the month of April, of which 187 proved fatal.

A SERIOUS FAILURE.

The Disaster is Worse Than at First Thought.

Berlin, June 26.—The suspension of the bank was a complete surprise to the Berliners, where, on Monday, the bank's shares were quoted at 140. The failure now turns out to be worse than at first reported, the board of directors of the bank have denied the worst feature of the failure namely, that the Leipsiger bank had practically become the owner of the Cassel Trebr Trocknung company, which in itself was declared to be financially unsound. Well informed Berlin financiers fear that the bank will save little, if anything, out of the wreck and the failure of this institution will seriously affect a number of other banks. Immediately after the Leipsig failure became known here there was almost a panic in bank stocks, all losing from eight to nine points. The newspapers intimate that the directors of the Leipsiger bank will be criminally prosecuted. The difference between the liabilities and the assets is several million dollars.

STRUCK OFF THE HAT.

The Action of Bishop Courtenay in Boston.

Halifax, N.S., June 26.—Bishop Courtenay, who before he was appointed to the Anglican diocese of Nova Scotia, was rector of St. Paul's church, Boston, was among the spectators last night at an exhibition of moving pictures representing the British army. At the end of the entertainment a picture of Edward VII was thrown on the scene, and the band played "God Save the King." While the band was still playing a man, apparently in a little hurry to leave the hall, started to go out with his hat on. As the man came down the aisle he had to pass bishop Courtenay, when his lordship, his eyes flashing, arose and struck the man's hat off, exclaiming indignantly as he did so, "You ought to be ashamed of yourself." The man picked his hat up and moved on without making any remonstrance, but looking very sheepish, while those who saw it gave his lordship a cheer.

Warned By God.

New York, June 26.—Warned, he believes by God, not to perform a marriage ceremony, the Rev. Claude M. Severance, pastor of the Port Morris Congregational church, refused to proceed with the service because the bride was a divorcee. While making out the record before uniting the two Mr. Severance became ill, and he believes, with his friends, that his illness was a visitation from God, marking disapproval of the performance by Him of the ceremony.

Burned To The Ground.

Shawville, Que., June 26.—The large planing mill and sash and door factory of McCrock & Hodgins was burned to the ground at an early hour this morning. The machinery will be a total wreck, the surrounding outbuildings were all destroyed together with the large stock of lumber. The total loss will probably exceed five or six thousand dollars. No insurance.

Proceeding Nicely.

London, June 26.—During the army debate in the gallery of the house of lords, last night, the duke of Bedford and lord Dunraven criticized the army organization bill. They urged that more pay and better rations were necessary to attract recruits. Lord Raglan, the under-secretary of war, defended the bill. He said recruiting was proceeding satisfactorily.

Death From A Ride.

Hamilton, Ont., June 26.—Michael King, a former G.T.R. brakeman of this city, stole a ride on the bumpers of a freight train from Niagara Falls yesterday. When he was getting off here the train started and three cars went over one of his feet, cutting it off. The injured man was found near the track and was taken to the hospital where he died last night.

Shows His True Colors.

Pekin, June 25.—Gen. Tung Fu Sing the general who has long been suspected of being a Boxer sympathizer, is marching on Tai Yuen Fu, a city in the province of Shan Si, on Fuen Ho river. The governor of Shan Si has appealed to the foreign troops for assistance in repelling Tung Fu Sing's attack.

DEMAND INDEMNITY.

Tien Tsin Company Claims Americans Looted Their Stores.

Pekin, June 25.—The Chinese merchants' company, owners of the premises in Tien Tsin at first occupied by the marines and afterward by Liscum's command as barracks, have completed their claim against the United States government for valuables which they aver were carried off by the marines. The list comprises many valuable furs, rugs and jewels, including diamonds. The total of their claim is 400,000 taels. The company says that the premises, being a part of the foreign concession, were willingly left for military necessities, but that they were not subject to looting as they would have been if they had been in a Chinese city.

China Really Pays A Higher Price.

London, June 26.—A dispatch to the Times from Pekin, dated June 24, says that the indemnity demanded by the powers from China does not represent the real amount of the money penalty inflicted on China, as no allowance has been made for the rich hauls of treasure in Manchurian cities and the contents of the Tien Tsin arsenals secured by Russia, and the large sums which Germany has secured by systematic raiding of Chi-Li and other provinces.

CLASH IN ROCHESTER.

Between Strikers And The Police—Many Hurt.

Rochester, N.Y., June 26.—The anticipated trouble with the strikers came this morning. The marching men, numbering about 1,000, clashed with the police at Mill and Commercial streets, and many heads were broken. A volley was fired over the heads of the strikers when the police were assaulted with bricks, stones, shovels, and pieces of wood. The dispersing of the strikers then prevented serious bloodshed, for the next volley from the police would have been directly at the strikers. As it was, eleven policemen and twenty strikers were injured. The police say the shooting was precipitated by a shot from one of the strikers.

MOTHER KILLS HERSELF.

Prepares Children's Clothing, Then Commits Suicide.

New York, June 26.—Amanda Blackburn, the wife of a painter and decorator, arose before her husband yesterday, laid out all the dresses, shoes and other clothing for her four children to wear during the day and then hanged herself with a clothes line to the dining room gas jet. She was twenty-six years old. Blackburn said that he had no knowledge of anything that would lead his wife to kill herself. She was in good health and had talked of what she would do during the summer. The neighbors said that Mrs. Blackburn was jealous of her husband.

OFFERED PLACE.

Can go as Consul-General to South Africa.

Washington, June 26.—Grant Gillespie, Missouri, has received the offer of consul-general at Pretoria, South Africa, vacant since the late Adelbert S. Hay left the post. Mr. Gillespie served with distinction in the war with Spain and later in the Philippines, acting while there as police chief of Manila.

Husband Wants Separation.

Rochester, June 26.—The suit of Simon J. Weaver, of Weaver, Palmer, and Richmond, for a legal separation from his wife, Alice H., whom he married in Toronto, Ont., in 1882, is up for trial. The Weavers move in the most exclusive Rochester society, and are wealthy. Mrs. Weaver, her husband alleges, has forged his name and the names of business and society friends to notes aggregating $9,700. An outcome of this suit was the indictment of Mrs. Weaver for forging the name of Martin Davis, of Baker, Davis and Baker, to a note for $1,200. Mr. Weaver has not paid his wife's bills for months. Judgments are frequently taken against him for dressmakers' and milliners' bills. He has contested each case in court, and has appealed one on the ground that he is not responsible for his wife's debts.

Went Out Driving.

Washington, June 26.—This morning, for the first time since her return from the west, Mrs. McKinley went out driving with the president. The great improvement in Mrs. McKinley's condition was apparent to all who saw her.
